Perhaps it should have been when one looks at the result...

"Consider that language a moment. 'Purposefully and materially
supported hostilities against the United States' is in the eye of the

beholder, and this administration has proven itself to be astonishingly impatient with criticism of any kind. The broad powers given to Bush by this legislation allow him to capture, indefinitely detain, and refuse a hearing to any American citizen who speaks out against Iraq or any other part of the so-called 'War on Terror.'

"If you write a letter to the editor attacking Bush, you could be deemed as purposefully and materially supporting hostilities against the United States. If you organize or join a public demonstration against Iraq, or against the administration, the same designation could befall you. One dark-comedy aspect of the legislation is that senators or House members who publicly disagree with Bush, criticize him, or organize investigations into his dealings could be placed under the same designation. In effect, Congress just gave Bush the power to lock them up." -- William Rivers Pitt

"It has become clear in recent months that a critical mass of the American people have seen through the lies of the Bush administration; with the president's polls at an historic low, growing resistance to the war Iraq, and the Democrats likely to take back the Congress in mid-term elections, the Bush administration is on the ropes. And so it is particularly worrying that President Bush has seen fit, at this juncture to, in effect, declare himself dictator." -- Frank Morales

To Whom It May Concern:

Just so you have a complete picture of Paul W. Schleck, I took the following from one of his posts in news.groups.proposals:

"Mark Morgan, KB9RQZ, is correct that all of our proposed moderators and consultants hold the highest class of Amateur Radio Service license in their countries (Amateur Extra for the U.S. team members, Class A or similar in the case of Jack Cook, who holds both UK and Australian licenses). However, that doesn't mean that we would be judgemental or unfair to other classes of license. We would certainly be open to adding moderators to our team that hold other classes of license. We will certainly decline articles that are disrespectful to or prejudicial against other participants for any reason, including license class. We would prefer to judge ideas, and take posts at face value, rather than prejudge individuals and credentials in a vacuum."

Now that just speaks volumes about this man, his caliber, his "ethical standards", etc. Now, doesn't it?

Gawd! I feel sick ...

Warmest regards,
JS

Unbelievable, is there ANYONE here who believes Mr. Schlock... err, Mr. Schleck would be "fair" and just to ALL? That he would consider ANYTHING other than his own petty gripes and bitches? If so, step right up here to defend the man, I am waiting ...

Schleck is all about self-aggrandizement. His posts are all about himself.
Read his posts, the few that he sends. Paul is convinced that he, and only
he, has true insight into Ham matters and that he, Paul Schleck, knows
better than us, the Great Unwashed.
Does the term, "Stuffed Shirt" come to mind?

Yep hardly as$wipe. Not only did you suck them off. You also gave each a
rimj0b. I heard that you like it when someone as$f*cks you while dunking
your deformed head into a toilet and then repeated flushes with each
thrust into your ever expanding as$hole. I heard your dad initiated you
into this type of sexual activity.

Wodger:

ABSOLUTELY! And, he is much, much more. That bit of his just took the
GREATEST LIAR I have ever known and made that liar look like nothing ...

Schleck is good alright, the man has brass b*lls the size of
basketballs, and his little trolling bunch of henchmen are
sickening--strange they ALL seem to have extra licenses, isn't it?

Course, he just "swore" to the committee that they would not be "unfair"
or "judgmental", what a GREAT FARCE!

Warmest regards,
JS

Here is what my response to Mr. Schleck would be on his proposed moderated newsgroup:

Mr. Paul W. Schleck:

I would question your ability to be a fair and just moderator. I have participated in the rec.radio.amateur.??? newsgroups, I have witnessed your abilities and goals.

There, I have seen you and your extra class henchmen attempt to constantly steer the course of its' flow, intimidation and threats have often been your tools. I have watched you and others look down upon other amateurs who will now be allowed to take a "No Code Amateur Exam." In no way have I ever seen you be even close to being "fair" or "just" in your opinions, judgments, statements, etc. I have heard many in that group call the present amateur exams "dumbed down."

Here, you have blatantly lied as to your purposes. You seek a forum where a very limited band of ideas, concepts, beliefs and discussion can take forth. You seek to establish a "class based newsgroup", this class system will VERY MUCH depend on the ancient art of morse code and the amateur exam.

If any here doubt, they only have to sift though the old posts and check past posts of you and those you name as would be-moderators and they will know. What I say, I say with great belief.

You wish to establish a "masonic temple type of brotherhood" here in the public newsgroups. You and a few of your cronies wish to establish tight and strict control over this group. And, from what I can see and guess to your goals, you do this SOLELY for the purpose of stroking your own egos.

Many of the "weirdos", hecklers and vulgar individuals in the other amateur groups are due to you and those sharing your same views and using your "street smart" methods--in effect, your "control freak" attitude and "better-than-thou" stance has created them.

It would serve justice if you were forced to stay and learn to "get along and play well" with the other "children."

Your words show a fine demonstration of stealth and deception; I don't believe I have ever seen a better example than you have presented to us here. I certainly would nominate you for the "Silver Tongue Award."

However, I would certainly NOT vote to allow you to slink and sneak off from the tragedy you have helped to create.

Although you make this request and proposal out of your personal need to feed your ego, and surround yourself with those who would feed your ego for you, and "live in your own little world", I think it would be a crime to allow you to do so.

The potential you have to abuse this proposed-moderated newsgroup to the detriment of others demands it should not be allowed ... I for one would vote NO, but then, you already knew that ...

Regards,
John Smith I

since Lenny Bruce died, Hoffman said, "Really? He was my god." The
combination of satirical irreverence and sense of justice that Bruce and
Hoffman shared was the real spirit behind the Yippies--a term I coined
to describe a phenomenon that already existed: an organic coalition of
stoned hippies and political activists who engaged in such actions as
throwing money on the floor of the New York Stock Exchange, then
explaining to reporters the meaning of that symbolism. Folksinger Phil
Ochs summed it up: "A demonstration should turn you on, not turn you

at best it's careless shorthand; at worst it's deliberate demonization.

Now THERE is an intelligent response. Did you learn that in the third grade,

John,

I don't see a serious problem with Paul considering your quote or
anything else that I've seen so far.

Let's see... He clearly says that we are not going to require a
specific licence class to be a moderator. That seems fair.

So Where's the beef in your quote?

I can tell you that nobody in the team even noticed that we all where
extras until Mark brought it up. So to my knowledge that was not a pre-
condition for acceptance in the team. I do recall that they needed to
be Hams, but that seems reasonable. I was there from the start of
this, being responsible for setting up the mail reflector we use as
well as setting up the shell account we use for the moderation
software, so I should know.

It seems to me that you guys just oppose the creation of the moderated
group and you have chosen to engage in personal attacks on the
proponents in an effort to keep it from happening.

This is the best you can do? Do you have any real evidence here?

I live in California, we have rattlesnakes here. Due to the nature of

Dee:

There I agree with you 100%. The vulgarity and sheer non-sense makes me
embarrassed for them. I cringe at the mental state they must exist in
to wish to provide such a display in front of women and younger users here.

I fear that this does not just exist in the newsgroups, here with us,
but also is becoming "something bad" in America :(

I can only admire you in finding the tools and having the determination
to be here with us in spite of all that non-sense ...

What part of "LIAR" don't you understand, I don't believe I have miniced my words when it comes to "Paul W. Schleck."

The man has NO credibility with me, he could stand next to my representative in congress and I could not tell them apart--smooth liars are that way.

I think he would brow beat the new licensees who pass a no code exam, I think he supports henchmen would would do this also. I think past posts can be dug up to support that rather nicely! I think the man is all about a world where "EXTRAS RULE" the school yard!

Sufficient data already exists on the poison content of rattlesnakes. In addition, don't lump all snakes with rattlesnakes. The common garter snake is quite harmless.

In addition, the rattlesnake forms a useful role in keeping rodents and
other small vermin under control.

Sensible people leave them alone and make sure that the snakes don't come
into their immediate area.

Yes, sensible people avoid rattlesnakes and have nothing to do with them.

* PLEASE NOTE: The report "could" contain "Pirate/SLIM" operations or more likely a "BUSTED CALLSIGN". As always, you never know - "Work First Worry Later" (WFWL).

100 POUND DXPEDITION (VP2M - Update/Reminder). The "Buddipole Users on Monserrat" (BUMS) have made their final preparations for their lightweight DXpedition. Operations are planned for January 29th through February 6th. The seven operators are: Budd/W3FF (VP2MFF), Chris/W6HFP (VP2MHF), Scott/ NE1RD (VP2MRD), Mike/KC4VG (VP2MVG), Paul/KB9AVO (VP2MVO), Bob/AB7ST

(VP2MST) and Tom/W4OKW (VP2MTC). They will establish two stations at Gingerbread Hill, one SSB/CW and the other operating various data modes including PSK31 and RTTY. Several portable stations will be operated during the day from various interesting points on the island including the Montserrat Volcano Observatory, hilltops along hiking trails, and beaches using portable antennas, batteries, and solar power. DXpedition pilots supporting the operation from their homes in the U.S. are Dan/WZ1P and Dave/KZ1O. QSL all contacts from operators via NE1RD. Additional information on the operation, including an on-line log, are available from the DXpedition's Web site at: http://dxpedition-vp2m.com/
Daily reports from the operation will be made through NE1RD's blog, "The 100 Pound DXpedition", at: http://100pounddxpedition.blogspot.com

2U0, GUERNSEY (EU-114). Kevan, 2E0WMG/ISWL G-21098, will be active as 2U0WMG from March 19th-23rd. If you need to work EU-114 for the IOTA award, or you want to bag an ISWL Monitor point, please drop him an E-mail to arrange a sked at: poopsie219@hotmail.com
He will be active on all HF bands if conditions allow.

3B6, AGALEGA (DXpedition Update). Members of Polski Zwiazek Krotkofalowcow (PZK)(the Polish Amateur Radio Union) and SP-DX-Club are organizing a DXpedition to the Island of Agalega. Team leader Witek, SP9MRO, informs OPDX that the group has received their license and will be active from March 22nd to April 2nd. The callsigns to be use are 3B6/SP9MRO and 3B6/SP9PT. A copy of their license can be viewed on their Web page at: http://3b6.godx.eu/
Team members mentioned are: Witek/SP9MRO (co-leader), Wojtek/SP9PT (co-leader), Marek/SP9BQJ, Bogdan/SP3IQ, Danuta/SP9SX (YL), Jozek/SP9-31029, Wojciech/SP5BFX and his XYL wife Basia (who's responsible for logistics and PR). They are planning to be active on all bands from 160-10 meters, on the modes CW, SSB, RTTY and PSK31. They will not be active for 6m according to the change of Mauritius's rules. At the moment, they are collecting funds for the trip's realization. Witek states (edited), "The Dxpedition cost is huge! We are going to travel for nearly 1200 km on the Indian Ocean and live on the island which is practically isolated from all the other people except the local community. There are no planes landing. But as we have heard from our HB9 friends, there are nearly 200 extremely kind people who live there and are very friendly towards hams. We are encouraging all of you who would like to help us to do so. All the information needed can be found at our webpage." Earlier reports indicate that activity is also possible from Seychelles (S7), Mauritius (3B8) and /MM operations from the Indian Ocean. Remember the team is looking for sponsors to help off-set the huge expenses of this DXpedition.

3W, VIETNAM. This one was received a little late, but if you worked 3W3W during this past week's CQ 160 Meters CW Contest, operators were Eddy/XV1X and Stan/3W9JR. This special callsign was issued to them on January 17th to be used during the contest. The operators of 3W3W operated from a location 15 km southeast of Haiphong, Vietnam. The antenna was a vertical feed Delta loop directly above the sea water facing towards Europe, Japan and North America. QSL via OK1DOT, DIRECT ONLY.

4S, SRI LANKA. Joel, F5PAC, will once again be active from here as 4S7PAG from February 2-22nd. He will be on the main island, but on February 10th and 11th, he will be on one of Sri Lanka's Coastal Islands (AS-171, possibly Barberyn Island) for some IOTA activity. He will take his FT-897 and vertical antennas for 20 and 17 meters. QSL via F5PAC.

6W, SENEGAL. Jacques, F6HMJ, will be active as 6W/F6HMJ from February 9th to March 13th. Activity will be on 80-10 meters on CW, SSB and RTTY. QSL via his home callsign.

7W0, ALGERIA.Just a reminder that operators Mike/DB1JAW and Michael/DK5MH will be active from the northern part of the Sahara using the special callsigns 7W0JAW and 7W0MH, respectively, between February 2-10th. Activity will be on 24 hours a day on 80-10 meters, mainly on SSB with a little bit of PSK31 and RTTY (maybe). The main activity will be on the following suggested frequencies: 14185, 14290, 18120, 18150, 24950 and 24980 kHz. All QSLs are to be sent direct only to DB1JAW (SAE is not required, return postage is appreciated): Mike Weiler, Stormstr.126, 47445 Moers, Germany. NO BUREAU QSLS ACCEPTED!

9M6, EAST MALAYSIA (Update/Correction). David, VK2CZ, informs OPDX that he was a little off on the location he reported last week. He will be attending an Electrical and Electronics Engineers (IEEE) Region 10 meeting in Kota (not Koto) Kinabalu (9M6 and not 9M8), March 25-27th. He also mentioned that he plans to be active as 9M6/VK2CZ (not 9M6/VK8AA) "during the last 6 hours" of the CQ WPX SSB Contest (March 24-25th) as a Single-Op/ Single-Band (20m)/Low-Power entry.

ANTARCTIC NEWS.....
Dag, 3Y9SDA, who is currently operating from the Norwegian Troll Base Station (WAP NOR-10), will leave to head back home for Tromso on February 5th. He continues to be active on 14130 kHz between 1700-1830z. Hopefully, he will move up the band for the stateside guys during his last week.

Francois, F8DVD, announces that he has been issued the special callsign TM4IPY to celebrate the beginning of the 4th International Polar Year (IPY), and will be active between April 1-14th. Activity will be on all bands, SSB and CW. A special QSL card will be available by the Bureau or direct to: Francois Bergez, 6, Rue de la Liberte, F-71000 MACON, FRANCE (with 1 new IRC or 1 USD for Europe, 2 USDs outside Europe). TM4IPY will be referenced as WAP-84.

Gianni, I1HYW, reports that some callsigns for the IPY have already been assigned/issued by different country's administrations. The first ones issued are: TM4IPY to F8DVD (see above), IA8IPY to IK8WEJ, and IA0IPY to I0OCD. They expect more callsigns to be issued shortly and the list of entries will grow. They remind DXers that the 4th IPY celebration will start on March 1st. IPY special stations will be active throughout the year at different times. Being also a great Antarctic event, the IPY callsigns will be referenced with a WAP number as well and could be valid for the WAP-ASEA and IPY Awards (the first of which has been presented recently by the Italian ARI Cassino).

Gianni, IZ8CGS, informs: "ANTARCTICA AWARD - The Mediterraneo DX Club's Antarctica Award Directory is the official source of information for the IOTA Program on stations active from Antarctic bases. It acts as an extension of the IOTA Directory and provides the IOTA reference number for each base. The updated edition of the Antarctica Award Directory is available for download at: http://www.mdxc.org/antarctica/download.asp "

C6, BAHAMAS. Look for Bob/N4BP (C6AKQ) and Pete/N8PR (C6AHR) to be active from February 12-19th. A few days later, Kevin/K4PG (C6APG) will join them and be active from February 15-19th. The trio plans to be active as individual station entries in the ARRL DX CW Contest (February 17-18th). Pete will be on 160 meters and will try to set a new world record in the contest. Pete hopes everyone will work him. Bob will be on 40 meters (look for him, he is also trying to set a record!). Kevin will be on 80 meters (look for him too, he gets lonely). Prior to the contest, check all bands including the WARC bands. Before the contest and when 80 meters is not open in the contest, look for C6APG on 6 meters (when he is not sleeping). QSL to their home callsigns, direct or by the Bureau.

C9, MOZAMBIQUE (IOTA Op). Operators Jose/CT1APE and Filipe/CT2GLO will be active from Bazaruto Island (AF-072, WLOTA LH-0816) as C98APE and C98GLO, respectively, between February 18-24th. Activity will be on all HF bands with modes of CW, SSB, RTTY and PSK31. QSL via their home callsigns.

CE, CHILE. Lucas, LU1FAM, will be active as CE/LU1FAM or possibly CE3/LU1FAM from March 1-5th before and after the ARRL DX SSB Contest (March 3-4th). During the contest he will team up with Roberto, CE4CT, and be active as CE4CT as a Multi-Single entry. QSL CE3/LU1FAM via AC7DX. QSL CE4CT via EA5KB.

DXCC NEWS. Bill Moore, NC1L, ARRL DXCC Branch Manager, reports the following:" 2007 DXCC Honor Roll Deadline Approaching
Just a reminder that the deadline for the next Honor Roll listing is March 31, 2007. Your submission must be postmarked March 31, 2007. The Honor Roll list will appear in August 2007 QST. There are 337 current entities on the DXCC list and you must be at 337 (for Top of the Honor Roll) or within the numerical top 10 to qualify for the Honor Roll. The current minimum number for Honor Roll is 328. (Deleted entities do not count towards Honor Roll). Top of Honor Roll and Honor Roll plaques and lapel pins are available to all past and current Honor Roll members. See www.arrl.org/awards/dxcc for the order form and current fees."

INTERESTING WEB SITE. Well-known DXer, Peter, ON6TT, has put together an interesting Web site which includes writing short stories about Peter's travels, people he has met, and situations he has encountered. Many of the stories deal with the DXpeditions he participated in, such as FO0CI, AH1A, VK0IR, 3Y0PI or DX activities like D2TT, 5X1T, YA5T, AP2ARS, YU8/ON6TT, etc... Some are simply stories of every day life during his work for a UN humanitarian relief organization. Peter states, "I hope they form an interesting read for the DX community." His travel short stories can be found in blog-format at:

KOSOVO (Independence/New Entity?). "Kosovo is to declare independence in the next few months, with the tacit support of the EU and NATO, in an effort to resolve the eight-year impasse on the status of the province at the heart of the 1999 war between NATO and Belgrade", states the Financial Times this past week. Read the story at: http://www.ft.com/cms/s/5c608a60-ad7d-11db-8709-0000779e2340.html

NEW PREFIXES. Beginning in March, look for some new prefixes to show up for Greenland (OX), Faroe Island (OY) and Denmark (OZ). While still keeping the old prefixes, look for stations to use the following new prefixes in: Denmark - OU, OV, 5P and 5Q Greenland - XP Faroe Island - OW

LU2ERA/Z (PLEASE NOTE). Henry, LU4DXU, informs the DX community that the recent activity by LU2ERA/Z from South Orkney will not be good for DXCC. It was suggested that operator Hugo, who is at the South Orkney Base, be on the air without knowing that he never renewed his LU2ERA license and lost it. This callsign has now been issued to another individual. As soon Henry received this information, he spoke with Hugo to cancel the operation. All QSL cards received will be returned to the sender. Henry hopes that Hugo eventually renews his license and is able to activate such rare Bases in the near future. PLEASE DO NOT SEND QSL CARDS FOR THIS OPERATION to LU4DXU.

V8, BRUNEI. Ambran, V85SS, reports that the bands are getting better now, and he is active on most days on all bands CW only. He states that he has good success with stateside stations on 80/40 meters between 1200-2200z on most evenings. On 20 meters, he listens around 0800z for Hawaii and later for the West Coast. Ambran is just operating barefoot, about 50 watts into GP vertical and dipole for the top band. ADDED NOTE: Ambran is currently building a small shack (behind his QTH) with a bedroom (for 3 to 4 persons), sitting room/radio room, shower and kitchenette for a DXpedition, contesting or just holidaying hams who wants to see Brunei. He hopes to rent the shack out possibly about April.

VK9N, NORFOLK ISLAND (Update). Members of the Bavarian Contest Club (BCC) will be active as VK9DNX from Norfolk Island (OC-005) between February 15th and March 3rd. Two new members (Ben/DL6FBL and Joerg/DL8WPX )have been added to team of Markus/DJ7EO, Heye/DJ9RR, Christian/DL1MGB, Dietmar/DL3DXX, Tom/DL5LYM and Dieter/DL8OH. VQ5, TURK AND CAICOS ISLANDS (Rare Prefix). Jim, W9VNE, will be signing with a rarely used prefix VQ5 next weekend for a 48 hour period. His main focus is to participate in the FOC Marathon (a members only event) on CW. Jim also knows that some prefix hunters will want to exchange reports too, so he will be pleased to give any prefix hunter a report too. Operation starts late Friday afternoon, February 2nd at 2100z through 2100z, February 4th. The FOC Marathon is the annual on the air event for the "First Class Operator's Club (FOC). There are members throughout the world on all continents. The exchange for members is their membership number. For non-members an RST will suffice. Jim has been an FOC member for more than 36 of his 68 years. Jim just celebrated his 54th anniversary of being a ham. He was nominated to the FOC (in 1970) by W9IOP the first editor of

CQ Magazine and K4FW the founder of Electro Voice and Ten Tec as well as his long time mentor, W9VW. Jim operates this event and VQ5FOC in their memory and various contributions to the ham fraternity. The FOC Web site is available at: http://www.firstclasscw.org.uk/

VU7, LAKSHADWEEP ISLANDS (VU2RG News).....
Some of the following information is from the VU7RG Web site (and can be edited) at: http://www.vu7.in/
* VU7RG QRT: On January 24th, 2007, at 1830z (Indian time 2400) VU7RG went QRT. During the 9 days of operations from Agatti, Bangaram and Kadmat, 92,134 QSOs were made. We like to thank the world wide audience for the excellent behavior on the bands which made it possible for us to keep the spit ranges within agreed limits. We have spent lots of effort to work North America in which we partly succeeded, the propagation was not in our favor.

* VU7MY Minicoy: VU7MY will stay active until January 30th, 2007. The Minicoy QSL card goes via the same QSL route as VU7RG and the logs will be published later. EDITOR'S NOTE: VU7MY was heard early Sunday (EDT) begging for contacts on 14260 kHz around 1430z.

* Special QSL Cards: The special QSL cards will go in the mail right now. The envelope is stampted by the Kadmat Lakshadweep Post Office.

* On-line Logs: On Kadmat, we struggled to get the logs uploaded on a daily basis, we had limited Internet access restrictions at the local high school, unreliable transportation and the operating sites were separated 2 Km. Furthermore, we also had to make QSOs with you so time was flying. By the time you read this we have sent the final logs to DL5NAM for Agatti, Bangaram and Kadmat. The Minicoy logs will be published on-line somewhere in February 2007.

* EDITOR'S FINAL NOTES: QSL info was published in last week's OPDX.794 bulletin. Depending in what IARU Region you are in, there are three different QSL routes for this operation. It is recommend to visit the VU7RG Web page for more details on how to QSL to each different route, especially for Bureau QSLs. Online logs are available (most, but not all) at the following Web site:
http://www.dx-pedition.de/lakshadweep2007/logs/logsearch.php
It is also worth visiting the VU7RG "QSO Statistics" page. See the breakdown of the operation by band, mode, continent and date. A quick breakdown shows that CW was 65.1% and SSB was 29.1%. QSOs by continent: EU +64k, AS +17k, NA +9.3k and AF/OC/SA +1k. QSOs by bands: 40m +19k, 20m +16k, 17m +14k, 15m +14k, 30m +10k, 80m 9.3k, 12m +4k, 160m +2k and 10m +1k. The "QSO Statistics" page is at:
http://www.dx-pedition.de/lakshadweep2007/operations/statistics.html

YS, EL SALVADOR. You only have a few more days to work Roberto, I2JIN, as YS3/I2JIN. His activity will end January 31st. He seems to favor 30 and 17 meters CW. However, there have been some QSNs on 80/40 meters CW

and 20 meters SSB. QSL via his home callsign. An online log can be found
on Roberto's Web site at: http://www.i2jin.com/

ZL6, NEW ZEALAND (Special Activity). Look for Charlie, ZL3CED (#9039),
to be active throughout the month of February, using New Zealand FISTS
Club station ZL6FF. Working ZL6FF is worth five points towards FISTS
awards, including the FISTS Down Under Award.

Your impression of Paul is completely wrong. He is singlehandedly
responsible for the creation of the entire rec.radio hierarchy. He
wrote the charters, solicited the calls for discussions and calls
for votes for each and every rr ng.

It was either Paul or Brian who wrote the Usenet software that's

Oh, let's not forget Brian Kantor WB6CYT (Info-Hams administrator), Jay
Maynard K5ZC (1991 rec.radio.amateur.* reorg proponent), Ian Kluft KO6YQ
(1993 rec.radio.amateur.* reorg proponent), Mark Salyzyn AG4YD/ex-VE3MGS

many others, I'm sure. I've mostly felt like I've just come along for

Kamens, Tim Skirvin, Ron Dippold, et al.

Alas, the only software that's used regularly on Usenet that I had a
hand in was auto-faq:

http://www.novia.net/~pschleck/auto-faq/

Though Brian did have a big hand in the early history of the Info-Hams
mailing list, from which the amateur radio newsgroups owe their origin
via a gateway.

"Consider that language a moment. 'Purposefully and materially supported hostilities against the United States' is in the eye of the beholder, and this administration has proven itself to be astonishingly impatient with criticism of any kind. The broad powers given to Bush by this legislation allow him to capture, indefinitely detain, and refuse a hearing to any American citizen who speaks out against Iraq or any other part of the so-called 'War on Terror.'

"If you write a letter to the editor attacking Bush, you could be deemed as purposefully and materially supporting hostilities against the United States. If you organize or join a public demonstration against Iraq, or against the administration, the same designation could befall you. One dark-comedy aspect of the legislation is that senators or House members who publicly disagree with Bush, criticize him, or organize investigations into his dealings could be placed under the same designation. In effect, Congress just gave Bush the power to lock them up." -- William Rivers Pitt

"It has become clear in recent months that a critical mass of the American people have seen through the lies of the Bush administration; with the president's polls at an historic low, growing resistance to the war Iraq, and the Democrats likely to take back the Congress in mid-term elections, the Bush administration is on the ropes. And so it is particularly worrying that President Bush has seen fit, at this juncture to, in effect, declare himself dictator." -- Frank Morales

Meet the Usenet Phenomenon known as "Ying Guo The Non-Existent." He dropped his usual posting addy of <yyyiiiiiiiiiiiiiiinnnnnnnnnnnnnnggggg at yahoo> sometime last month or early this month, and nym-shifted into "SameAsB4" at the same time. He's been somewhat miffed that my Monkey-man insists on calling *me* the "*Ying* Collective", because he doesn't want to go back to his old nyms and morphs just now, merely to assert his right to be acknowledged as Ying. The yingfish is being unusually coherent in many threads this month, as he is infamous for gabbling in his own private yinglish.

I know this isn't strictly amateur-related, but we're the ones who know the laws the best, right? Anybody know if it's legal in Texas for a university to block cell phones in its cafeteria?

If you're talking about intentional interference (jamming), it is *never*
allowed. If you're talking about creating a faraday shield so signals can't
get in/out, that would be allowed (although, a bit impractical and expensive
to retrofit).

I have some oral-lube. I use it when I suck my daddy's d1ck and lick
his huge hairy balls. I make my own oral-lube from my mommy's diseased
c*nt and as$ juice. I suck it out of her with a straw and spit it into
a jar though sometimes I forget and swallow it and then I stir it with
my tongue. I like the lumps the best! I chew the lumps of her diseased
c*nt juice like its chewing gum!

Dr. Pedro, My name is SameAsB4 and I am a gay male and I am very
attracted to you. Nowadays it is so hard to meet attractive well endowed
men that a decent, such as yourself. In gay or bicurious relationships
I also function as the bottom-boy. This means that I am the one
penetrated. In Bondage type scenarios, I am always the submissive.

I am a pre-op transexual. I am still trying to raise the funds to have
my penis cut off and reshaped into a vagina.

I hope I haven't repulse you or even alarmed you. I am being a little
bet forward because decent "real" men are hard to find. I can
accommodate up to 14 inches of penis in my rectum with feeling pain.

If this is something that might interest you, please send me e-mail at
<exebuyola@yanospamhoo.com>.

I have plenty of sex toys that could be used on me.

If you were repulsed, I apologize. I read some of your posts and you seem like a diamond in the rough. Thanks again, for your attention.

I am Txttrd#5 aka SameAsB4 and I love taking it up as$. My as$ can fit a

howitzer in it. My anu$ large that whenever children go missing the
authorities first check my as$. I am 100% gay and love turn tricks for

I want my pen1s inverted and converted into a smokin' 'gina. I hate
having a cocktail wiener with two raisinettes.

Peter North featured me in a gay porn video. Of course I had a bag over
my head and my cellulite was airbrushed. In my gangbang video, I was
able to accommodate 475 d1cks. One after another. My booty has never
been so happy.

## 1179. Vista compatibility with APRSPoint

We did extensive testing with APRSPoint on the new Vista OS, so far all functionalities worked with no problems. The usb/serial converter(IO Gear GUC232A) we used is also accepted by Vista using its XP driver. Vista seems to have good backward compatibility, and the interface looks nicer.

Tell me about it. He gives new meaning to Rick James's superfreak. He's
not the only one that is trisexual. MaxWhore is a trisexual as well. She

I'm quite sure it's intentional interference, every now and then they turn the thing off for some reason and everyone has full reception in there. Now I just don't know where to start complaining about this! Had a feeling it was illegal.

Subject: Illegal Interference

Ms. Snider,
It seems to me (and much of UTA's student body in general) that there is an active cell phone jammer in our cafeteria. I have considered the possibility that the metal walls around the cafeteria act as a Faraday Shield, but phones tend not to work even a few feet beyond those walls. There have also been a few occasions when students are able to receive a full signal mysteriously, as though the interference was shut off. I sincerely hope that the loss of signal in the cafeteria is caused by a passive shielding, because I can see the advantages in service to be had from blocked reception.

Interference with any communications signal is illegal in the United States under the Communications Act of 1934 (Title III part 1 sec. 301, or page 137 in the link). I think that if such a jamming signal exists, it should be permanently removed from the cafeteria in compliance with the law. If the interference is indeed caused by a passive Faraday shield such as the metal walls around the Connection Cafe, I am very sorry to have bothered you with an irrelevant complaint. I plan to test some more, hopefully to find the reason for the lack of signal for myself.

I would like to note that I am very happy with the quality of the cafeteria's food and service. The greatest complaint I could possibly come up with is that the coke sometimes tastes like it's probably diet coke, but that's not really important and it's probably just me.

Thanks for reading,
Nelson Blaha

I am very hungry since my masters never feed me. They say if they feed

I porchmonkey will be waiting instead. I want to east your man meat and
let you play with my pretend d1ck. It is so small you will swear it is
a tiny cl1t.

P.S. I am obsessed with Max. I like to jerk my tiny d1ck off while
thinking about her. I use a pare of tweezers and a packet of pepper I
get from my job cleaning toilets at McDonalds. But sometimes the pepper
don't make my tiny penis sneeze and I get frustrated. I am obsessed
with her p*ssy. I want her to douche so I can drink it. I especally
want her douche while she is on her rag. I want to chew the blood clots
like they is chewing gum!

I am porchmonkey4life and I appoved this message. :-)

I am MaxWhore and I have a very dirty pus$y. I refuse to clean it
because it is my family's tradition to have dirty crusty genitalia. My
dead mommy never douched hers and I will never douche mine.

I am MaxWhore and I love sucking on horse c0ck. I love having doggy d1ck
inserted inside me and I love eating horse$hit. It is the staple of my
diet. The homeless men usually give me nice facials but for once I'd
like to have a man with teeth blow his load inside of me. I like to roll
around in my $hit because it covers my Herpes outbreak sores. I am a
filthy c*nt and need to douche. Someone help me.

I am MaxWhore and I want to unlease my toxic pus$y on Pedro. He looks
like he might be able to handle it. I hope the fleas and ticks won't
bother him at all. I hope that he enjoys the toxic fumes of my pus$y. My
pus$y smells worse than my dead mother's toxic pus$y. Even the maggots
won't go near it.

I am MaxWhore and I am a filthy c*nt that was wounded so badly a few
weeks ago that I had to run away from the pain. I moved from one
dumpster to another and called it a vacation. I am the type of b1tch
that only gets to order off of the dollar menu because guys simply will
not take me out to dinner. I refuse to douche because my dead momma
wouldn't douche and I don't want to be the family maverick. I like
eating out of dumpsters and getting facials from animals. Pedro please
don't reject me and my toxic pus$y. I don't think could take the rejection.

I am MaxWhore and I approved this message ;-P

TEH WAY OF THE K00K
Never learn from your mistakes.
Always practice your mistakes; you may get them right.
Always pick on those smarter and tougher than you.
Always believe that only you know the TRVTH.
Never allow logic or reason get in the way of a good k00k.
When being overwhelmed by logic and reason: k00ksuit!
If you are going to be wrong, do it at the top of your lungs.
When caught in a lie: LIE!
When in doubt: Order the Crab Won Ton
Plagiarism is your friend. Use it.
Whenever contradicted; morph, start calling people names, and make false accusations. Include the children of your target in your allegations, even if they don't have any.
(06-Jun-05) When nobody else will listen, post to your own fan group.
(06-Jun-05) Obviously, since you have your own fan group, this must mean that you have fans. Post prolifically to your fan group - you wouldn't want to disappoint them!
(10-May-2005)Everyone reads usenet. Approval here means approval everywhere.
Post numerous blank posts, or posts containing only a message id.
Post numerous copy&paste web articles from crackerpot websites.
Never forget to call kookologists "k00ks."
If there are several, call them "sockpuppets" too
When all else fails, accuse various and sundry kookologists of e-mailing viruses to you. This is a sure-fire method of garnering sympathy and ensuring that the General Public will always see things your way. An especially effective sub-strategy here is to accuse them of infecting you with the 'Sasser' worm via e-mail.
Quote notorious scientists or writers - it makes it look as if they approve the drivel you are writing!
(9-Jul-05) Anytime your computer is infected with a virus, bogged down by spyware, attacked over your internet connection, or otherwise suffers from preventable problems, government agencies are responsible and are trying to silence you and are monitoring your computer files.
Ignore all traffic signs and feel free to trespass, you don't have to obey any rules.
Scare your enemies with lawsuits, police escorts and whines.

Always back up your empty (albeit noisy) threats with phony LARTs, false police reports, and harassing letters to the FBI and other gubbermint agencies.
Be vigilant in your redundancy. The more you repeat yourself, the more likely others will believe you!
If you can't find anyone as crazy as yourself to support you in the flamewars you start with the normal population, create sock puppets and use anonymous remailers that shamelessly hang on every word you write.
(17-Mar-05) When dealing with law enforcement, remember that it is they who have the problem, not you. Be sure to inform them of this at every available opportunity, as they will surely appreciate your constructive criticism. Be sure to make them aware that YOU KNOW YOUR RIGHTS! ("The cops like that, when people know their rights. That way they don't have to read them to you on the way to the station." - George Carlin)
The more your fake personalities adulate you, the more respect you'll get!
When confronted with a reality that you don't like: Announce loudly that you are departing, never to return as long as there's an Internet. Come back in three or four days and claim you were drunk, hacked, abducted by alience, or forged. Alternately you can just not even mention your prior departure, and if anyone asks you about it, either ignore them or respond with something along the lines of "YOUR NOT THE BOSS OF ME! *PLONK*!" People really know you mean business then.
Always remain clueproof.
(20-Mar-05) Anyone who does not believe that you are the reincarnation of [$DEITY_OR_PROPHET] is obviously an infidel lacking in faith whose soul in in peril of everlasting damnation.
When responding to one line challenges, post paragraphs of rants and screed in response.
Incoherency is not a roadblock to poasting.
Neither is illiteracy.
Delusions poasted often enough become fact.
Claim you will destroy <insert newsfroup> for attacking you.
When spnaked, send cmsg for Fanboi newsfroup(s).
Find your Lame, Use your Lame, Be your Lame!
Post Edit when the TRVTH hurts.
Always sneck the offending newsfroups.
Always poast pictures of yourself so you can be admired in all your k00ky glory.
Always accuse others of the very acts you are guilty of.
Post lots of boasts about your high IQ and incredible talents.
(20-Mar-05) If you repeat a lie often enough, it becomes the truth. Anybody who fails to understand this is engaged in a deliberate campaign of misinformation and character assassination.
Always <plonk> somebody just before replying the plonkee!
The k00k considers itself the most intelligent person in any conversation, possibly on the planet. Other people are benighted and ignorant, and have been waiting their whole lives for the k00k to rescue them from intellectual darkness.

comparing it to "Mein Kampf" and/or the Bible.
Declare yourself equal to a deity of your choice.

Frothing complaints carry far more weight when you send them from "legal@" some domain.
Nothing strikes terror into the hearts of your detractors more than telling them that you're archiving their messages for possible use in the future.

Usenet is governed by US law. If a poster in Romania killfiles you, he's obviously violating your 1st Amendment rights and can be sued.
Every news admin in the world hangs out in NANAU, and they're just dying to nuke the account of that meanyhead who just called you "fucknozzle".
Drop 'em a line - that's what they're there for, after all.
AUK will be closed down. Just you wait and see.
They've nuked hundreds of accounts in the name of free speech and *yours* will be next.
The k00k will, without any trace of irony, lie, manipulate, impersonate, censor, and declare themselves powerful in ways ranging from the ability to have an account shut down to being God Herself, in order to convince people that they are not liars, manipulators, censors, or insane.
Abuse women while telling how many hundreds you've loved. Nevermind that you're one ugly motherfucker and that there were 30,000 femininas that thought you were a scumbag with bad teeth.
Remember that your ko0ky klaims are 'facts', and that 'facts' do not require proof.
Do not neglect to poast your responses to forums that the originator doesn't read. This will make the people in that forum very impressed with how you tear him to shreds without him being able to respond. They like it even better if you are off-topic for that forum.
Keep in mind that lack of evidence supporting your konspiracy theory actually _is_ evidence, of how effective the konspiracy is in hiding.
(06-Oct-05) When spanked, always retreat to the safety of the Ad Hominem.
(04-Aug-2005) When spanked mercilessly for days on end, proving with each poast just what an illiterate and ignorant fool you are, ALWAYS claim ownership of [person(s),froup(s)]. This works on so many levels. It inspires dread in your opponents that they will no longer be able to poast in their home froup and that they will eventually have to pay rent, to name just two.
Any problems with your poasts are the fault of the konspirators, who are trying to stop you from preventing the extinction of humanity.
Konspiracies that are able to subvert whole governments are always unable to silence konspiracy ko0ks.
The entire United States government is willing to spend millions of dollars for the sole purpose of harassing you.
Hollywood is making movies based on your personal life.
Do not consult psychiatrists or other mental health professionals. They

are part of the konspiracy, and will sedate you and lock you away and keep you drugged if you tell them the truth.
Numerology and Astrology are respectable sciences and are useful for proving your case.
Everyone is Tim Hill, or David Green, or...
There is a fine line between trolling and kookery. Find that line and cross it repeatedly. When you are killfiled and/or LARTed for net.abuse as a result, claim victory. If you lose multiple accounts, this merely proves that you are indeed a world-class troll, with a black-belt in manipulation.
If you respond to every post someone else makes, they're obsessed. If they respond to less than 1% of your posts, they're even more obsessed.
Publishing people's real names, addresses, and phone numbers when there's no other way for you to come out of a flamewar with any dignity is cool, and proves that you are a master of secret internet information stores, and absolutely not to be fucked with.
Everyone is out to get you. You can put a stop to this by telling everyone that they're out to get you at every available opportunity.
You are the only sane one.
Those that give you a hard time about morally bankrupt things you yourself admit to are just persecutioners of the new inquisition.
Yelling in all caps and cursing at your detractors is debate. Your detractors laughing at you with sarcastic remarks is obvious anger and jealousy.
If doing something results in the loss of your account, legal hassles, or blunt trauma injury, do it again. It always works better the second time.
Asterisks, lots and lots of Asterisks.

The problem with APRSPoint is not the operating system. The problem is that the author and seller of the program does little to enhance the program. It does not meet the APRS spec and lacks functionality that is much needed to make this a full functioning APRS program. The author also sponsors a "support" group on Yahoo Groups. The program with him and the group is that if you say anything critical of the program the author censors the post so no one else will get a bad impression - or should I say honest impression of the APRSPoint program. Be advised, until he starts fixing and enhancing the program and accepts honest feedback in his forum, stay away from this program. You can use AGWTracker, Xastir, WinAPRS and UI-View.

The only sick shit involving livestock I've heard has come from YOU,
PUSSYmonkey. Apparently, you have quite the thing for horse cock. : )

You wish. Sorry, but you'll have to fantasize without me. DO you think
you could go five minutes without fantasizing about my pussy?? Do you?

For that matter, do you think you could stop being such a whiny lil
pussy? Just for five minutes? Is that too much to ask? Do you think you
could have the balls, just once, to spell out "sexual" and "anal" or
"bitch" without having to insert symbols? I'm just asking for a single
moment of nonPUSSY behavior . . .

CAN you do it??
*snicker*

You're gay. You like gerbils and other furries. Come just say the words
that you are trisexual. You don't limit your sexuality to humans. You
enjoy the company of a furry creature every now and then in an
inappropriate way. Just admit it and move on. No biggie!!

But I'm not the one to make it.

So I'll stand aside and let the PROCLAIMER make it.

That is - - - if he's not too busy with former Congresswoman Cynthia McKinney.

There are pictures if we need them.

One shows Cynthia hanging upside down from the chandalier with an un-peeled banana stu ... never mind.

You get the point. (Well at least she did.)

So let's have an elegant, comprehensive proclamation forthwith.

KK4TL said that. On behalf of the late Arky Bob.

# 1240. Welcome to HF Weekend

Spread the word!

Welcome Technicians to HF Weekend!

To celebrate their arrival and welcome Technician class licensees to HF, Friday, February 23, 2007 through Sunday,
February 25, 2007 has been designated as ï¿½Welcome Technicians to HF Weekendï¿½! Of the 655,129 US Amateur Radio
licensees, 323,443 (49%) are Technicians, so the number of potential HF operators will effectively double overnight!

Most Technicians will probably be eager to explore their new 10-meter phone privileges first. Since we are at the
bottom of the cycle and sky wave contacts may be difficult on 10 meters, all hams are encouraged to monitor 28.365
throughout the weekend to contact and welcome as many Technician licensees as possible.

While Technicians can operate SSB anywhere between 28.300 and 28.500, setting a ï¿½meetingï¿½ frequency will increase the
likelihood of successful contacts and a positive first impression of HF if the band isn't open. Of course, if the band
is open, calling CQ anywhere in the sub band will likely yield positive results!

This is a great opportunity to encourage new hams and do a bit of Elmering. Spread the word to the hams in your area,
help the Technician licensees in you club to build 10-meter antennas, get on the air and have fun! See you on 28.365!

Catch on the bands!

"When I told Abbie Hoffman that he was the first one who made me laugh
since Lenny Bruce died, Hoffman said, "Really? He was my god." The
combination of satirical irreverence and sense of justice that Bruce and
Hoffman shared was the real spirit behind the Yippies--a term I coined
to describe a phenomenon that already existed: an organic coalition of
stoned hippies and political activists who engaged in such actions as
throwing money on the floor of the New York Stock Exchange, then
explaining to reporters the meaning of that symbolism. Folksinger Phil
Ochs summed it up: "A demonstration should turn you on, not turn you

at best it's careless shorthand; at worst it's deliberate demonization.

3B6, AGALEGA (Update). Team leader Witek, SP9MRO, sent out the following press release: Newsletter No. 2 -- "We would like to inform, that Polish expedition to Agalega Islands, planning its activity from March 22nd until April 2nd, 2007, is in the middle of negotiations with transporting

companies concerning the insurance and the equipment's transport to the islands.
So far the previous assumptions have much changed - the transporter set up costs highly inadequate to the preliminary. The expedition's budget estimated for 70,000 EUR is not sufficient!
The expedition is actively seeking for sponsors and financial aid from every institution and foundation. Our cooperation conditions are presented on expedition's web page < http://3b6.godx.eu/ > as well as we are willing to organize actual conversation concerning the sponsoring.
The group is planning to execute about 40,000 QSOs during its activity, mainly using the emissions CW, SSB and RTTY.
On our web page, you can find two surveys concerning the emission and frequency of activity that are expected by our correspondents. Their results will be considered during the activity from 3B6 islands."

3B7, ST. BRANDON (DXpedition Update/Press Release). Don Field, G3XTT, FSDXA Publicity Officer, sent out a press release this past week titled "FSDXA St. Brandon DXpedition – Bulletin No.3". Excerpts from the release state: "Two members of FSDXA recently visited Mauritius to set up logistics for the September operation from St.Brandon (see previous press releases). We are pleased to say that all the necessary permits and licences are in hand, and a suitable ship has been located to take the team members and something like 6 tons of equipment to the island. There is still a lot to be done, but we are all looking forward to putting another rare one on the air." Also, the release mentions the recent DX Magazine's "Most Wanted" survey which lists 3B6/7 at 45 overall, but at a high 18th place on the U.S. West Coast. Other area rankings were also noted: Europe 55th, Asia 47th, North America overall 40th, U.S. Eastern 40th, U.S. Central 63rd, U.S. Mountain 66th and the Rest of World at 26th. The press release states: "Clearly this means we will make a particular effort to work U.S. West Coast as well as ensuring we don't forget those 'other' parts of the world (Africa, South America, VK/ZL, etc.)." The FSDXA is also delighted to announce that they have been selected to receive a Colvin Award in respect of 3B7C. As well as the Colvin award, FSDXA announced that NCDXF (Northern California DX Foundation) and the UK's CDXC (Chiltern DX Club, the UK DX Foundation) have recently come on board with sponsorship, but further sponsorship is still required to make this very large scale operation possible. Details appeared in previous press releases or can be obtained from the author.

3B9, RODRIGUES ISLAND (AF-017). Look for Nigel, G3TXF, to be active as 3B9/G3TXF between February 7-13th. Activity will be on 80-10 meters CW. The location will be the same Cotton Bay Hotel used by the large Multi-Op 3B9C DXpedition in April 2004. He will be using small vertical antennas during this one week stay.

3DA, SWAZILAND (Update). To celebrate the 75th Jubilee of the Irish Radio Transmitters Society (IRTS), a group of IRTS members plan a "AFRI75 Dxpedition 2007" to Swaziland between March 16-25th. Activity for this DXpedition will also cover St. Patrick's Day and the CQWW WPX SSB Contest. The callsigns to be used will be published as soon as available. The

DXpedition's leader is IRTS Vice President Paul Martin, EI2CA (3DA0PM). Currently, the following members have signed up for the DXpedition: Peter/EI7CC (3DA0PB), Aidan/EI8CE (3DA0AM), David/EI4DJ/GI4FUM (3DA0DG), Rory/EI4DJB (3DA0RH), Brendan/EI3GV (3DA0GV), Pete/GI4VIV (3DA0GI) and Paddy/EI8BFB. A private UK/Ireland YAHOO newsgroup for this DXpedition is available at: http://uk.groups.yahoo.com/group/AFRI75/

ANTARCTIC ACTIVITY WEEK NEWS.....
PLEASE REMEMBER - Stations That Are Active May NOT Be In The Antarctic!

Just a reminder that the Worldwide Antarctic Program's (WAP) 4th Antarctic Activity Week (AAW) will take place between 0000z, February 19th and 2400z, February 25th. The AAW is an unique world-wide event where Hams are "celebrating and working to improve Worldwide interest around the Antarctic Continent and its related matters, to understand and share what the Nations and Organizations are doing to study and protect this still non contaminated corner of the world and share from there, a message of peace." Also, AAW is celebrated every year during the last week of February, and it coincides with Argentine's celebration

of their Antarctica Day (see http://www.marambio.aq ) on February 22nd. Visit the WAP's Web page at: http://www.ddxc.net/wap

Look for the special callsign II1MNA (WAP-060) to be activated for the first time during the 4th Antarctic Week from the National Antarctic Museum (MNA - Museo Nazionale dell'Antartide) in Genoa, Italy. STATUS OF THE YX0A/YX0LIX QSLS: QSL Manager Steve, KU9C, reports: "I've mailed about 70% of the cards as of this morning. What's left to do is a large pile of cards that have the following issues:
- 'sticky' qsos that are not in log. There appears to have been at least two major 'slim' runs, one on 15 meters and one on 80 meters

that are creating a need to triple check some q's.

- folks that requested /mm cards. I've got to do those, and have been concentrating on getting out the Aves Island card first.

- folks that requested other cards that I manage.

- I've not started bureau cards yet, and won't for some time. I apologize for the slow delivery of these cards; my hope was to be able to mail these a long time ago, when I had some slack time in my schedule, but the process 'came together' just as some hectic work and personal commitments came into my schedule.

Doing the best I can, have patience... 73 Steve KU9C"

# 1264. aprspoint 4.0 available, with improved tracking

When you are tracking a moving object, aprspoint will record all its positions on the map, and optionally connect them with lines to form a track. If you are tracking multiple moving objects at the same time, the map could get cluttered quickly. In this new version, you can choose to selectively remove an individual object's track, or remove all tracks on the map. This version also includes fixes for several bugs reported by the users. We have also tested it extensively on the Vista platform as well. Old keys will no longer work on this new version, please refer to the web site http://www.aprspoint.com for upgrade details.

I posted to no "scaner" forum. Is there such a beast?

Even Trailer Trash know how to spell "fuckin'" idiots. Use 'fucking' or
'fuckin', there is no E in the word.
But again, what do no-code scanner freaks know about spelling other than
to
sound it out around two already badly decayed teeth? You cain't hep it
iffin' yer mommy and yer daddy were brother and sister.
sounds like your typical all american family situation dunnit ?

Why bother? I have a full amateur radio license with no morse.
Morse was removed as a requirement years ago.

The primary justification for allocation of amateur radio spectrum has

Amateur radio is a hobby.

Otherwise, who needs hams, and why should they get any of the public

AR has way too much spectrum, but it does deserve some.

Now be nice to people like Scheissman. He can't really help the fact

How nice. An upgrade fee for one small enhancement (fix that should have been in the program originally) and some bug fixes. This program needs some major enhancements. These little enhancements and bug fixes every six months to a year are not cutting it. Stay away from APRSPoint. The author is ripping people off.

Hello Fellow OTR fans:

It's so hard to find anything on DVD about OTR. In fact, you might say it is impossible. In my quest to search for more material on the subject I recently discovered a DVD movie called "The Poet Laureate of Radio,
An Interview with Norman Corwin". I found this interview to be very informative. It's fun to listen to this man whose time spent during this period is the stuff of legends. Even Hollywood movie critic Leonard Maltin reviewed the DVD and gave it high praise. Check it out when
you get a chance. I've provided the link below.

Roger never attended school anywhere when he wrote the above comment.
When did "attended" become "attened" Wiseman? Mwhahahahaha, that is a
total farce too that you would be wise. Not to mention it is spelled
"graduated" and not "graduatedd" Muahahhahahaha. You are such a jackass

For those who claim that Gav and I are not married, guess again. Gav is an artist. She does things her way and I do things my way. We don't need the signature of a Legal Authority to pronounce us man and man. Who needs a piece of parchment to bond us?

Gav and I swore fealty to one another over a warm cup of Goat milk while watching the Michigan sun set over our forty acres of wasteland.

Gav did not want to take my last name as her married name.

Why? Because we are not bound by civilian constraints as you know them. We are not actually married by your definition, but we are married in each other's eyes when I opened my front door and invited Gav in.

We pledged to remain together for as long as Gav can pay for half the utility bills. We have not yet had sex like men and women do, but if I can get over my dislike for the female vulva, I may take the plunge.

Meanwhile, Gav sleeps in the guest bedroom until I can talk her into joining me on the couch.

We are meant for each other.

Mork Morgan

Why, Mark. I do declare. Y'all sound like quite the little cracker racist.
And here I thought folks with y'all's kind of alternate lifestyle were more
tolerant than that.

(Y'all know what I mean <nudge nudge> bein' that y'all have a taste for each other, if'n y'all git my drift.)

Oh, I see. I guess Robesin forced you to also put up a blog wherein you describe yourself as being a bisexual, Jewish, pagan. (and now, a racist) Everything that happens to you is always somebody else's fault, isn't it?

Simply put, you are a Goon, Mark.

WTF are you trying to say. Are you retarded? You need to learn how to
CLEARLY communicate in the English language if you wish to converse

# 1343. ARRL Now Only Wants No Code Hams - Holding Midnight Exams

Found on qrz.com. The ARRL now only wants only no code hams. And as for the rest of us?

W1AW Special Event, Midnight Exam Sessions to Mark New Amateur Rules

NEWINGTON, CT, Feb 9, 2007 -- As new Amateur Radio Service rules phase in Friday, February 23, eliminating the Morse code requirement, Hiram Percy Maxim Memorial Station W1AW will mark the milestone with a weekend-long special event. In addition, a number of Central Connecticut volunteer examiners will be on hand at ARRL Headquarters -- both before and after the new rules become effective at 12:01 AM EST -- to offer Amateur Radio examinations under both the current and new rules. ARRL Regulatory Information Specialist Dan Henderson, N1ND, is helping to coordinate the celebration. He says Headquarters staff and other volunteers will keep W1AW active for the "Welcome Weekend" event.

"W1AW will be on the air all weekend for this special event to celebrate the fact that so many amateurs have gained or will earn new privileges as a result of the rule changes," he said. "The station will operate starting at 12:01 AM Eastern Time on Friday, February 23, continuing into the wee hours and resuming operation during the day. Then W1AW will be on the air on both days of the weekend, from 10 AM until 5 PM -- perhaps longer as conditions and enthusiasm dictate."

Operation will be on both SSB and CW. W1AW operators will concentrate their activities on the Technician and General class HF subbands. On SSB, the station will use its normal phone frequencies -- 1.855, 3.990, 7.290, 14.290, 18.160 and 21.390 MHz. On 10 meters, W1AW will operate SSB on or about 28.480 MHz.

Henderson says operating will be casual unless pileups develop. "The purpose is to welcome newcomers to new privileges," he said.

"First Contact" certificates will be available as part of this event. ARRL invites anyone making a first contact or first HF contact to enter the contact information on the ARRL "Welcome Weekend" Web site and receive a certificate in return. "If the first contact is with W1AW we will also be including a W1AW QSL card for the contact," Henderson added.

The ARRL anticipates a huge influx of upgrade applications once the Morse code requirement disappears. In addition, all Technician licensees will have limited HF privileges starting February 23, whether or not they've passed a Morse code test.

Amateur Radio exam sessions both before and after the zero hour will offer an opportunity for applicants either to upgrade under the outgoing licensing rules at the last possible opportunity or under the new licensing rules at the first possible opportunity.

"Dual exam sessions are scheduled at ARRL Headquarters around the effective time of the new licensing rules," says Brennan Price, N4QX, a former ARRL staff member and an ARRL VEC volunteer examiner. "At 11 PM on February 22, a session will be held for candidates wishing to upgrade under the existing rules. A few folks have expressed interest in such a session." Price says all Amateur Radio written and telegraphy elements will be offered until midnight.

"At 12:01 AM February 23, a second session will begin under the new licensing rules," he said. "Examiners will not only be evaluating previously earned Certificates of Successful Completion of Exam (CSCEs) for upgrades, but will be offering all written elements." Two teams of volunteer examiners will be on site until all applicants have been served.

On or after February 23, applicants upgrading on the basis of a valid CSCE must present the certificate for element credit, fill out an application and pay any applicable exam session fee, which most VECs charge. Only after the VE team has issued a CSCE for upgrade credit may applicants actually use their new operating privileges on the air.

Additional Welcome Weekend information will be available on the ARRL Web site in the days leading up to February 23.

A2, BOTSWANA (Ops Needed!). Frosty, K5LBU, reports that they have a good place to operate from in Botswana for this upcoming summer trip. Daniel, ZS6JR, has found a operating place that is on a large game farm in Botswana about a 6 hour drive north of Johannesburg. He says there is room to put up all the antennas and the electricty is good. The food is also good. However, Frosty is still looking for 2 more operators. The dates will be to arrive at Johannesburg on July 4th and be at the operating site on the 5th. They plan to depart from Botswana on the 20th and fly home on July 21st. If anyone would like to join them, Frosty will be at Visalia for the International DX Convention in April, so stop by and talk to him. All you have to bring with you is your laptop for loging and your clothes. All antennas and radios are in Johannesburg. Frosty states, "We will have a callsign just for the IARU Contest to use, and each person will have their own A2 callsign (I hope)."

ANTARTIC TRIPS PLANNED (Just A Reminder!). A group of four American hams are planning a few deep south expeditions which includes stops in the Antarctica, South Georgia and the Falklands. Operators Marc/K9PET (VP8DJU), Jim/W3ASA (VP8DJV), Bill/W3WKO (VP8DKD) and David/W3WKP (VP8DKG) are scheduled to be at the following locations:
February 11th - Depart Ushuaia, Argentina

Announcing the 2007 DXpedition to Huang Yan Dao

Better Known as..... Scarborough Reef

After three years of effort to obtain permission to land and operate from the most needed entity in the world, that needed authorization has

been received. A multi-national team led by W6RGG will operate from Scarborough Reef for ten days in late April 2007. BA1HAM and BV4FH have been instrumental in bringing this operation to reality with ongoing support being provided by N4XP, N1DG, K5YY and N6MZ.

A team is being assembled that will include members from Asia, Europe and the USA.

As with any DXpedition to a location such as this, transportation is very costly and will be the largest single expense. Success will depend on the contributions of the DX Community.

Please QRX for more information as it becomes available and the web site is activated.

N4XP for the 2007 DXPedition to Huang Yan Dao.

Well, I'm not sure of your point, but from the title of the post, you seem to be somewhat negative...("ARRL Now Only Wants...")

I don't think that's all they want, but more of a case of that's all there is, thanks to the FCC. The ARRL is just accepting the reality of the situation.

1) ANY organization generally wants to preserve itself (Gee, I know this comes as a big surprise). If due to *FCC* action (beyond the control of the ARRL), all that there is are new, no-code hams, why shouldn't the ARRL welcome them?

2) Read point one above again. This was an *FCC action*, beyond the control of the ARRL; the ARRL can welcome the newbies or put their tail between their legs and slink off into the night...

3) You ask "What happens to the rest of us?" I am sure the ARRL would be glad to welcome us as new members and/or keep us as existing members. Why would you suspect anything different?

Just think of it this way, you know more than they will by knowing how
to use Morse Code at any speed. Now you hae a conversation with some
otehr Ham that knows CW and the newbies wont understand what your
talking about. Think of it as a benefit, not as disadvantage.

I'm not sure I understand your statement. If you really mean the
"ARRL want's only nocode hams" then you must believe all hams that
have passed the code test will no longer be welcome at the ARRL and
memberships will not be renewed. Do you really believe that?

Lets not forget the ARRL and it's aging membership really has no
choice when it comes to accepting hams that have passed all currently
required tests. The ARRL should make plans for liquidation if they
choose otherwise.

What do the rest of you (hams that passed a morse code test) want from
the ARRL. Would they like to retake the code test as a measure of
defiance? Maybe a bordered certificate suitable for framing that
proclaims: I Passed The Code Test at (insert speed). And I Practiced
This Long (insert number of times code tapes replayed).

For heavens sake why offer the test under the old rules at the 11th
hour? Reads like the ARRL is encouraging a "We vs They" mentality
among the old guard. What's next...will the no code licensees have a
special marker on their QST address label?

Billy can't read the ARRL website which states:

has what it believes to be reliable evidence of possible rules

by a volunteer examiner.

You realize that the 23rd, when you divide 2 by 3, you'll get 666, the devil's area code? Sounds like a bad omen to me.... :-)

Hi,
What's all this business I hear people talking about blasting people's car stereos or killing cars altogether with high-power RF? I run 2m, 10m, and 11m in my jeep and I'd like to sort out the fact from the legend and find out what kind of power I can use without risking damage to my jeep or cars around me. At what power level is front-end overload to a nearby radio likely? At what power level is damage likely, and to what componets?

I am currently using only 50 watts on a 5/8 wave (2m), 25w on a 1/4 wave (10m), legal 4w on a 1/4 wave (11m)

Thanks,
Nelson KE5MBX

REQUEST FOR DISCUSSION (RFD)
rec.radio.amateur.moderated

This is a formal Request For Discussion (RFD) for the creation of the moderated Usenet newsgroup, rec.radio.amateur.moderated.

PROCEDURE:

The B8MB plans to begin voting on this proposal after five days. Please offer any final discussion or comments before the end of this waiting period. Voting may take up to one week (7 days); a result will be posted following the end of the voting period.

All discussion of this proposal should be posted to news.groups.proposals.

The full group creation procedure is documented here:

http://www.big-8.org/dokuwiki/doku.php?id=policies:proposals

NEWSGROUPS LINE: rec.radio.amateur.moderated

rec.radio.amateur.moderated Amateur radio practices, rules, etc. (Moderated)

SUMMARY OF DISCUSSION:

The proposal in its current form reflects the results of feedback from posters to news.groups.proposals in response to the 1st and 2nd RFD's and a Straw Poll. It is also, realistically, a reflection of what Big-8 board members - including Tim Skirvin, Steve Bonine, and Kathy Morgan - indicated that they would support, and vote for.

Followup discussion in response to the 1st RFD indicated that there was significant and strongly-held opinions in favor of either opening up the proposed newsgroup to all amateur radio topics, or changing the name to reflect a misc+policy scope only. In addition to the rec.radio.amateur.misc and rec.radio.amateur.policy newsgroups, there has also been recent discussion about moderation in rec.radio.amateur.antenna and rec.radio.amateur.dx. As a result, pointers to the 2nd RFD were posted to those additional newsgroups. In particular, some consensus about alternatives was actively solicited at that time. The main alternatives suggested in the 2nd RFD were:

1. Make rec.radio.amateur.moderated an all-encompassing moderated amateur radio discussion newsgroup.

2. Keep the topics focused on misc and policy, and come up with a
better name for the proposed misc+policy moderated amateur radio
discussion newsgroup.

Alternative #2 then would branch out to two possible outcomes:

2.a. Create additional moderated newsgroups for other topics, like
.antenna and .dx, now or in the future.

2.b. No one steps forward to create additional moderated newsgroups,
and the other topics continue unmoderated.

Alternative #1 would not rule out the creation of additional moderated
newsgroups in the future, though there is the valid point that
alternative #2 would fix the name-space problem immediately for future
growth, and would not have to be revisited.

Alternative #2 would require a suitable name. The name of
rec.radio.amateur.misc+policy.moderated was suggested by Kathy Morgan.

One argument offered by the proponent in favor of alternative #1 was
that it may not be realistic to expect that, even if strongly desired,
additional moderated newsgroups for other topics would emerge anytime
soon, or at all.

No one from the rec.radio.amateur.antenna or rec.radio.amateur.dx
newsgroup communities stepped forward to express a desire to create
moderated newsgroups for those topics in response to the 2nd RFD
inviting them to do so. Nor was there significant or widely-shared
objection to the proposed new moderated newsgroup covering those topics
also.

Creation of an all-encompassing moderated amateur radio newsgroup is
consistent with the findings of a Straw Poll in news.groups.proposals,
where approximately 60% of respondents were in the categories of
"Support initial name, no stated preference for scope" or "Support
initial name and all-amateur-radio scope. Trying to characterize or
summarize the opinions of those who might have been leaning towards a
misc+policy scope proved difficult, and resulted in two respondents out
of 21 polled (Jim Riley and Kathy Morgan) following up to clarify their
own positions and correct their categorization in the Straw Poll. Jim
indicated that he should be moved to the Straw Poll category of "Support
initial name, no stated preference for scope," instead. Kathy indicated
that she would support a proposal where the newsgroup name matched the
scope. No one who was initially categorized in the Straw Poll as,
"Support initial name, no stated preference for scope," or, "Support
initial name and all-amateur-radio scope," followed up to
news.groups.proposals to object to their own categorization. Because of
all of this, the alternative of a misc+policy-only newsgroup was not
seen as one that could gain political traction, broad readership
support, or majority Big-8 board support.

Less than 15% of respondents expressed objection to the creation of a
moderated newsgroup entirely. None of these respondents objected to

their categorization in the Straw Poll.

The rec.radio.amateur.equipment and rec.radio.amateur.homebrew newsgroups are being added to the distribution of a pointer to this 3rd RFD as a courtesy, and for their information. They were not added previously because the existence or form of a moderated discussion newsgroup was not seen by the proponents or most of the RFD discussion participants as something that would seriously affect them. Nor has there been any significant discussion in the recent past for making moderated alternatives for those topics, either specifically or generally, on the newsgroups. Making them aware of this 3rd RFD, and the opportunity to object during this Last Call for Comments, was seen as a reasonable compromise between informing them as a courtesy versus not subjecting them to unwelcome amounts of off-topic meta-discussion.

RATIONALE: rec.radio.amateur.moderated

rec.radio.amateur.moderated is a moderated alternative to at least the existing rec.radio.amateur.misc and rec.radio.amateur.policy newsgroups. The rec.radio.amateur.misc newsgroup is chartered to discuss amateur ("ham") radio practices, contents, events, rules, etc., including anything related to amateur radio not specifically covered by another rec.radio.amateur.* newsgroup. The rec.radio.amateur.policy newsgroup is chartered to discuss ham radio rules, regulations, and policy. Over the past several years, the traffic on both groups has become largely flame wars, spam, and personal ad-hominem discussions of past, present, and future violations and violators, having little or no bearing on amateur radio. Polite requests by serious group posters to the offenders to refrain from such behavior have not resulted in elimination of such behavior and has in fact resulted in another series of flame wars. As a result, many knowledgeable and concerned posters in both groups have ceased being active therein.

Prior to the deterioration of rec.radio.amateur.misc and rec.radio.amateur.policy, both groups had active discussion of their chartered topics. It is expected that offering a moderated group will persuade those who formerly participated to resume their participation in rational, focussed, and informed discussion. Proper moderation will enable serious postings to the group to remain on topic while not limiting who can voice opinions or what opinions can be voiced.

Creating a single moderated newsgroup, one that would also permit all other amateur radio topics, is offered as the most practical solution for both the moderators and the participants at this time. The existing unmoderated newsgroups under rec.radio.amateur.* can, and likely will, continue with their present topics and message traffic independent of this new moderated newsgroup.

CHARTER:

rec.radio.amateur.moderated is for the discussion of amateur ("ham") radio, also known as the Amateur Radio Service, as defined in Federal

Communications Commission Regulations and U.S. Law (47 CFR Part 97), and in similar laws and regulations in other countries, based on international treaty. It is not limited to the rules of any one country or time period. Possible topics include past, present, and future operating practices; events; contests; past, present, and potential-future rules; power limitations; authorized frequencies; allowed modes and band plans (or other gentlemen's agreements) that govern how we are to operate; what constitutes the acceptable operation of amateur stations.

The newsgroup is intended to be international in scope, not just for amateurs in the United States. It is, however, intended as an English-language forum, by custom and practice. As with General Aviation and other internationally-scoped endeavors, the Amateur Radio Service has a strong custom of the use of English and the Latin alphabet. Discussion of amateur radio in languages other than English also occurs in many country- and region-specific hierarchies, many of which have specific amateur radio newsgroups, including:

de.* (Germany)
dk.* (Denmark)
es.* (Spain)
fr.* (France)
nl.* (Netherlands)
pl.* (Poland)
pt.* (Portugal)
relcom.* (Russia)

This newsgroup is only intended to supplement, not supersede, any other amateur radio newsgroups.

General communications law or government policy of various government agencies is also on-topic, as long as the discussion relates to amateur radio. Examples would be emergency communications, local antenna restrictions, and property deed restrictions applying to operation of amateur radio stations.

Discussion of other types of radio, such as Citizens Band, Broadcast, other Personal Radio Services, Commercial or Private Land Mobile, and Marine or Aviation services are off-topic, except when *directly* related to amateur radio. Similarly, discussion of methods violating applicable communications law and regulations concerning radio equipment or operations are off-topic.

The following are prohibited:

* Personal advertisements (submitters of such articles will be referred to rec.radio.swap, instead).
* Commercial advertisements and money-making schemes.
* Chain letters.
* Posts in HTML.
* EMP spam.

* Binaries, apart from PGP signatures, X-Face headers, and other

REQUEST FOR DISCUSSION (RFD)
rec.radio.amateur.moderated

This is a formal Request For Discussion (RFD) for the creation of the moderated Usenet newsgroup, rec.radio.amateur.moderated.

PROCEDURE:

The B8MB plans to begin voting on this proposal after five days. Please offer any final discussion or comments before the end of this waiting period. Voting may take up to one week (7 days); a result will be posted following the end of the voting period.

All discussion of this proposal should be posted to news.groups.proposals.

The full group creation procedure is documented here:

http://www.big-8.org/dokuwiki/doku.php?id=policies:proposals

NEWSGROUPS LINE: rec.radio.amateur.moderated

rec.radio.amateur.moderated Amateur radio practices, rules, etc. (Moderated)

SUMMARY OF DISCUSSION:

The proposal in its current form reflects the results of feedback from posters to news.groups.proposals in response to the 1st and 2nd RFD's and a Straw Poll. It is also, realistically, a reflection of what Big-8 board members - including Tim Skirvin, Steve Bonine, and Kathy Morgan - indicated that they would support, and vote for.

Followup discussion in response to the 1st RFD indicated that there was significant and strongly-held opinions in favor of either opening up the proposed newsgroup to all amateur radio topics, or changing the name to reflect a misc+policy scope only. In addition to the rec.radio.amateur.misc and rec.radio.amateur.policy newsgroups, there has also been recent discussion about moderation in rec.radio.amateur.antenna and rec.radio.amateur.dx. As a result, pointers to the 2nd RFD were posted to those additional newsgroups. In particular, some consensus about alternatives was actively solicited at that time. The main alternatives suggested in the 2nd RFD were:

1. Make rec.radio.amateur.moderated an all-encompassing moderated amateur radio discussion newsgroup.

2. Keep the topics focused on misc and policy, and come up with a
better name for the proposed misc+policy moderated amateur radio
discussion newsgroup.

Alternative #2 then would branch out to two possible outcomes:

2.a. Create additional moderated newsgroups for other topics, like
.antenna and .dx, now or in the future.

2.b. No one steps forward to create additional moderated newsgroups,
and the other topics continue unmoderated.

Alternative #1 would not rule out the creation of additional moderated
newsgroups in the future, though there is the valid point that
alternative #2 would fix the name-space problem immediately for future
growth, and would not have to be revisited.

Alternative #2 would require a suitable name. The name of
rec.radio.amateur.misc+policy.moderated was suggested by Kathy Morgan.

One argument offered by the proponent in favor of alternative #1 was
that it may not be realistic to expect that, even if strongly desired,
additional moderated newsgroups for other topics would emerge anytime
soon, or at all.

No one from the rec.radio.amateur.antenna or rec.radio.amateur.dx
newsgroup communities stepped forward to express a desire to create
moderated newsgroups for those topics in response to the 2nd RFD
inviting them to do so. Nor was there significant or widely-shared
objection to the proposed new moderated newsgroup covering those topics
also.

Creation of an all-encompassing moderated amateur radio newsgroup is
consistent with the findings of a Straw Poll in news.groups.proposals,
where approximately 60% of respondents were in the categories of
"Support initial name, no stated preference for scope" or "Support
initial name and all-amateur-radio scope. Trying to characterize or
summarize the opinions of those who might have been leaning towards a
misc+policy scope proved difficult, and resulted in two respondents out
of 21 polled (Jim Riley and Kathy Morgan) following up to clarify their
own positions and correct their categorization in the Straw Poll. Jim
indicated that he should be moved to the Straw Poll category of "Support
initial name, no stated preference for scope," instead. Kathy indicated
that she would support a proposal where the newsgroup name matched the
scope. No one who was initially categorized in the Straw Poll as,
"Support initial name, no stated preference for scope," or, "Support
initial name and all-amateur-radio scope," followed up to
news.groups.proposals to object to their own categorization. Because of
all of this, the alternative of a misc+policy-only newsgroup was not
seen as one that could gain political traction, broad readership
support, or majority Big-8 board support.

Less than 15% of respondents expressed objection to the creation of a
moderated newsgroup entirely. None of these respondents objected to

their categorization in the Straw Poll.

The rec.radio.amateur.equipment and rec.radio.amateur.homebrew newsgroups are being added to the distribution of a pointer to this 3rd RFD as a courtesy, and for their information. They were not added previously because the existence or form of a moderated discussion newsgroup was not seen by the proponents or most of the RFD discussion participants as something that would seriously affect them. Nor has there been any significant discussion in the recent past for making moderated alternatives for those topics, either specifically or generally, on the newsgroups. Making them aware of this 3rd RFD, and the opportunity to object during this Last Call for Comments, was seen as a reasonable compromise between informing them as a courtesy versus not subjecting them to unwelcome amounts of off-topic meta-discussion.

RATIONALE: rec.radio.amateur.moderated

rec.radio.amateur.moderated is a moderated alternative to at least the existing rec.radio.amateur.misc and rec.radio.amateur.policy newsgroups. The rec.radio.amateur.misc newsgroup is chartered to discuss amateur ("ham") radio practices, contents, events, rules, etc., including anything related to amateur radio not specifically covered by another rec.radio.amateur.* newsgroup. The rec.radio.amateur.policy newsgroup is chartered to discuss ham radio rules, regulations, and policy. Over the past several years, the traffic on both groups has become largely flame wars, spam, and personal ad-hominem discussions of past, present, and future violations and violators, having little or no bearing on amateur radio. Polite requests by serious group posters to the offenders to refrain from such behavior have not resulted in elimination of such behavior and has in fact resulted in another series of flame wars. As a result, many knowledgeable and concerned posters in both groups have ceased being active therein.

Prior to the deterioration of rec.radio.amateur.misc and rec.radio.amateur.policy, both groups had active discussion of their chartered topics. It is expected that offering a moderated group will persuade those who formerly participated to resume their participation in rational, focussed, and informed discussion. Proper moderation will enable serious postings to the group to remain on topic while not limiting who can voice opinions or what opinions can be voiced.

Creating a single moderated newsgroup, one that would also permit all other amateur radio topics, is offered as the most practical solution for both the moderators and the participants at this time. The existing unmoderated newsgroups under rec.radio.amateur.* can, and likely will, continue with their present topics and message traffic independent of this new moderated newsgroup.

CHARTER:

rec.radio.amateur.moderated is for the discussion of amateur ("ham") radio, also known as the Amateur Radio Service, as defined in Federal

Communications Commission Regulations and U.S. Law (47 CFR Part 97), and in similar laws and regulations in other countries, based on international treaty. It is not limited to the rules of any one country or time period. Possible topics include past, present, and future operating practices; events; contests; past, present, and potential-future rules; power limitations; authorized frequencies; allowed modes and band plans (or other gentlemen's agreements) that govern how we are to operate; what constitutes the acceptable operation of amateur stations.

The newsgroup is intended to be international in scope, not just for amateurs in the United States. It is, however, intended as an English-language forum, by custom and practice. As with General Aviation and other internationally-scoped endeavors, the Amateur Radio Service has a strong custom of the use of English and the Latin alphabet. Discussion of amateur radio in languages other than English also occurs in many country- and region-specific hierarchies, many of which have specific amateur radio newsgroups, including:

de.* (Germany)
dk.* (Denmark)
es.* (Spain)
fr.* (France)
nl.* (Netherlands)
pl.* (Poland)
pt.* (Portugal)
relcom.* (Russia)

This newsgroup is only intended to supplement, not supersede, any other amateur radio newsgroups.

General communications law or government policy of various government agencies is also on-topic, as long as the discussion relates to amateur radio. Examples would be emergency communications, local antenna restrictions, and property deed restrictions applying to operation of amateur radio stations.

Discussion of other types of radio, such as Citizens Band, Broadcast, other Personal Radio Services, Commercial or Private Land Mobile, and Marine or Aviation services are off-topic, except when *directly* related to amateur radio. Similarly, discussion of methods violating applicable communications law and regulations concerning radio equipment or operations are off-topic.

The following are prohibited:

* Personal advertisements (submitters of such articles will be referred to rec.radio.swap, instead).
* Commercial advertisements and money-making schemes.
* Chain letters.
* Posts in HTML.
* EMP spam.

* Binaries, apart from PGP signatures, X-Face headers, and other
ancillary article meta-data.
* Forgery of valid e-mail addresses.
* Excessive morphing/nym-shifting.
* Copyright violations. Pointers to news articles, blogs, etc. on
this topic are welcome but are required to comply with fair use
standards.
* Personal attacks and flames, as defined by the moderation team.
* Advertising items and/or services for sale (also will be referred to
rec.radio.swap).
* Links to "objectionable" web content, including pornographic sites,
sites encouraging illegal activities, or sites deemed unacceptable
by the moderation team. The moderation team will cursorily check
the contents of specific links to confirm on-topic content, but
acceptance for posting does not imply endorsement or approval of
the entire present or future contents of that web site.
* Discussion of moderation decisions. See below for information on
appealing moderator action.

MODERATION POLICY: rec.radio.amateur.moderated

A moderation robot will scan all submitted posts. Each post will be

manual review. The moderator 'bot will enforce the following guidelines:

* Crossposting is generally not allowed, with the general exception of
crossposts of bulletins, FAQ's, and other informational articles to
rec.radio.info, rec.answers, and news.answers. Infrequent
administrative crossposts may occasionally be allowed at the sole
discretion of the moderator.

* Postings must be in plain text. In particular no HTML or mixed text
and HTML posts will be allowed. Messages that are
multipart/alternative will be automatically filtered to pass just
the text/plain version to the newsgroup.

* No binary postings of any sort will be accepted. Exceptions will be
made for cryptographic signatures and such.

* Messages must not have a 'Followup-To' header that points out of
rec.radio.amateur.moderated (other than to "poster").

* Messages must not continue a thread that has been "closed" by the moderators.

Individual posters may be temporarily banned for consistently violating the group charter. Posters who feel that their posts have been unfairly rejected or banned, either for specific content or by a specific moderator, may appeal the decision. They may do so by contacting the Appeals Board, consisting of a rotating group of 2 or more moderators, at the Administrative Contact address below. The Board will discuss and vote on the appeal and respond within 14 days if the appeal is successful. The Board will also reply within 14 days to unsuccessful submitters of any appeal that is on-topic, reasoned, civilly stated, and is not substantially an attempt to revisit the subject matter and arguments of a previous unsuccessful appeal.

Multiple temporary bans, attempting to circumvent the ban, or abuse of the appeal system may result in a permanent ban.

Sorry, that is a SERIOUS FACTUAL ERROR!!!

Dividing 2 by 3 results in the decimal fraction 0.66666666666666...

That is NOT the Bible's reference to "the number of the beast."

Not true what you say about the ARRL. Amateur radio is only as good as the effort you put into it. If you can't do code, you cannot communicate with a huge subset of the amateur population. That is a fact. You never will be able to so until your learn code, FCC requirement or no FCC requirement. There is some DX you will never get, some countries you may never contact, many people you will never meet.

Some no-coders sound like the gay rights lobby: They seem to be trying to make no-code the "norm". "I want you to think I am normal". "I am as just good as you, I can do HF now, I can be a real 'Ham'". (Gays can get "married"). True by regulation, but not really in practice.

In the foreseeable future you will never truly be a ham until you can QSO in code; you will only hold a piece of paper authorizing you to communicate on HF. Don't shoot the messanger. Don't bother disagreeing with me; it is the large subset of the amateur base that you have to convince and, unfortunately, that will take a while to change IF it ever does change. When people are sick of SSB QRM or we cannot QSO by voice due to conditions, we can simply move to the CW sub-bands and you are left "holding the mike".

As Walter Cronkite used to say. "That's the way it is..." February 23, 2007.

The number of the beast is 616, not 666.

Get over it already and move on. They ARE doing code too or can't you read?

Code is still used but it is not relevant today in testing any more.
GET OVER IT. MOVE ON. No one is stopping you from USING CW. USE IT IF
YOU WANT.

He's laughing at the Gertol class of amateurs like yourself. Don't
bother disagreeing with him. His group WILL be a larger subset of the
amateur base that you'll have to convince to not laugh at you and
your senile friends.

Well, I hardly know what "Gertol" is. Talking about senility, one of the
first signs is forgetting how to spell.

The sooner that you bastards all realize that ham radio as you have known it is now ended and now getting a licence is much like pulling a prize envelope out of a Cracker-Jack Box the better you'll all be for it. Am I lying? It really don't matter anyway as kids today would rather be on Youtube or Myspace or AOL IM with their friends.

Ah yes but if you say that you just do not understand radio people. You cannot possibly have exprienced the fascination with the physics of skywave propagation or the joy of knowing how analog circuits work, antenna and transmission line science and just knowing that one has transmitted an EM wave that someone else 8K miles awys has received at the speed of light without help from a man-made infrasructure. It is waves, it is music, it is knowedge, it is dicovery, it is joy. We argue, we disagree, we flame, we sometimes hate each other, some of us are not licensed, some are CBers but we all share that common fascination that IT just cannot provide, as awesome in its own right it may be.

Hello? This is February 12, 2007. FACTUAL ERROR!!!

There's one little problem, "Stefan." Isn't ANY "Stefan Wolfe"
in the FCC CORES database. The best that can be found
are two Steven Wolfes:

Steven H. Wolfe, KC4UZW, Tech, FRN 0004408340
Steven B. Wolfe, KC9KTN, Tech, FRN 0016067183

www.qrz.com confirms that.

The only "CW sub-bands" that Techs have is a small
sliver on the bottom of two VHF ham bands. Of course,
all other classes can use those. <shrug> So?

Having observed issues and changes in recent years, I think the question that has to be asked at some point is whether or not the ARRL should continue to attempt to influence rules, laws, etc. The money that they have to be spending on legal efforts, lobbying, etc has got to be significant. I think any objective observer would conclude that their ability to influence legislation, FCC rules, etc in recent years has been pretty dismal. Earlier in their history, the ARRL had the ability to do this. Times change. In today's world, the Imperial FCC chooses to do what it wants to do, selectively uses public comments that support their pre-determined outcomes, fails to enforce its own rules and is happy ignore factual data or public sentiment in the process. Resources may be better spent in providing new and different services to members rather than flush it down the commode under the banner of "fighting city hall."

I'm sorry, but I fail to see your point. "CW" can be used just
about
everywhere on amateur bands from 160m on up to sub-THz.

My remark was on "CW" ONLY. Where's your beef?

Why not? The ARRL is a private incorporated entity. As
a legal entity in the USA they have every right to make
themselves heard to our government.

>The money
>that they have to be spending on legal efforts, lobbying, etc has got
>to be significant.

"Significant" is a subjective word, isn't quantifiable.

Their IRS Returns show the amount they've spent on services
from a professional lobbying group and a law firm. One of
the law firm's partners is Chris Imlay, a member of the
ARRL's high inner circle. ARRL's recent IRS Returns
show a multi-million dollar PROFIT for their "non-profit"
organization.

>I think any objective observer would conclude that
>their ability to influence legislation, FCC rules, etc in recent years
>has been pretty dismal.

The ARRL hasn't gotten carte blanche on what IT wanted,
true. But, it was never a god of radio and really did
NOT know what was "best" for US amateur radio...but it
seemed to know "what was best" for the Leagues' inner
commanders and their core membership.

>Earlier in their history, the ARRL had the ability to do this.

So, they've convinced you they did? :-)

Back in the 1920s and 1930s the League had trumped their
organization competitors in the USA. At that time there
was little in the way of citizens communicating quickly
to DC and getting replies back. ARRL provided the
opinion-courier services, a nice letter-head and all the
appearance of "being important." It certainly didn't hurt
that H.P.Maxim had personal resources to make trips to DC
to do his lobbying efforts.

ARRL was able to (profitably enough) publish a monthly magazine (purportedly a 'membership' periodical) of special interest to radio amateurs. The IMAGE of "being all for amateur radio" took hold in the limited ham public eye. It stuck, rightly or wrongly. There were no real competitors in amateur radio publications before or just after WW2.

>Times change.

No kidding? :-)

The appearance of RIVAL publications soon after end of WW2 (CQ, 73) plus the 1960's "question authority" mood began to erode the League's carefully-manicured IMAGE. ARRL increased its efforts to present the authoritative "mission" of them knowing what was best for amateur radio...consistently that being "work DX on HF with CW." VHF and above was a dark, mysterious region to the League and they generally avoided that new area or just didn't bother much with such things...it wasn't "ham radio" as they knew it.

Once the Internet got going and the US government joined up, the common folk COULD talk to DC at the speed of light without any intermediaries to selectively sort/ sanction their words. No more did US radio amateurs have to go through their "district directors" to talk to Washington. The capitol began to "listen" more and more to citizens through the Internet.

The Internet didn't do it all. Before the 1991 public entrance of the www, there was already the movement to toss the code test with the creation of the no-code-test Technician class. That became LAW despite the efforts of the ARRL (which supposedly "knew what was best for ham radio") to stop it. Even before that, well before, the FCC was cognizant of morse code's diminishing use in the whole, wide world of radio communications.

Around 2000, the IARU was for a total rewrite of ITU-R Radio Regulation S25. With that would be removal of the necessity for administrations to test for morse code for any amateur radio license privileges below 30 MHz. ARRL was opposed to that. They remained opposed until WRC-03 was scheduled for Geneva, then they took a "neutral" stance in public just before the conference beginning. The ARRL inner circle was against dropping the code test for US amateur applicants but took on a better-PR appearance of "no comment." The S25 rewrite took place and was voted in. [ARRL can't vote on such ITU things, only "advise"]

Many countries dropped the code test for amateur licenses
after WRC-03. The FCC was obliged to stay with the
State Department - NTIA - FCC triumvirate representing
the US adminstration. A new Petition for removing the
code test didn't appear at the FCC until 2005. The
ARRL was against it and wanted THEIR version, which HAD
to include some code testing (the ARRL "knows what is
best for ham radio"...and it was what THEY wanted).

>In today's world, the Imperial FCC
>chooses to do what it wants to do, selectively uses public comments
>that support their pre-determined outcomes, fails to enforce its own
>rules and is happy ignore factual data or public sentiment in the
>process.

Sourness Alert! Sour grapes time! It is rather obvious
that YOU favor continued code testing and think you
are in some "majority" in regards to that.

The FCC isn't "imperial." It is (now) an independent
agency of the Administration of the United States,
created in 1934. [I was then two years old and you did
not exist] With all the radio services it must, by law,
regulate now, it does not "favor" amateur radio. What
the FCC did do was simply go the course as with all other
Petitions, allowing time for Comments (even extending that
time twice), then considered ALL those Comments for full
year before deciding. Specific things they considered are
well described in the body of FCC 06-178.

If there is ANY organization in the USA that is "imperial"
then it is that of the ARRL. They ignored world opinion,
toadied to their core membership (olde-tyme morsemen), and
simply ignored the majority. They didn't worry. Their
publications were giving them a multi-million dollar a
year PROFIT for their "non-profit" activities. They
believed in their own propaganda and loved the life of
"leadership." They still didn't try to entice the HUGE
Technician class licensee group...until AFTER 06-178 was
announced. AFTER. They aren't fools and know that a
sustained League existance requires NEW membership. If
existing license are EXPIRING at a rate of 78 a day
but NEW licensees represent only 32 a day, they don't
have to be mathematicians to realize numbers are shrinking.
Newcomers have - by far - come into US amateur radio
through the no-code-test Technician class.

>Resources may be better spent in providing new and different
>services to members rather than flush it down the commode under the
>banner of "fighting city hall."

Do you consider Access BPL to be "city hall" doings that
the League should NOT fight? Sorry, but BPL is a clear

and present danger to anyone using HF for any purpose. The ARRL needs to keep the pressure on Washington to fight BPL. After all, with lots of BPL QRM, it is hard to "work DX on HF with CW." The League only lives for HF bands.

What "services" would you suggest the ARRL be doing? Give you fancy bordered certificates (suitable for framing) for your state-of-the-art morse code ability? Provide free franking privileges for your QSL cards? Give you a spare radio in case your ready-built fails and it needs factory repair? Have a representative come and hold your hand when you contest?

The League provides a number of services already and has been doing so for years for its membership. Don't begrudge those. Just try to remember a small group of New Englanders are NOT gods of radio, just a minority membership group in the amateur radio hobby, and are a profit-making publisher of amateur radio special-interest material.

Try to remember that the US government does pretty well at governing ALL its citizens, political parties aside. An "Imperial" dictatorship can be an apt descriptor of a bunch of old men who consider themselves Elite in radio because they could emulate the professionals of 70 years ago. So, you've lost a government decision. TS happens.

No beef. Just stating that back in the 60's novices and techs had 2
meter CW priviledges that were altered at a later date.

The FCC band usage has changed many times in the past 50 years. This
recent change is not unusual or anything new.

The FCC does as Congress dictates. Remember COngress holds the purse

Welp, feel free to show your Bar Association membership
any time, but a "corporation" is a legal entity. <shrug>

This, of course, is a trigger for a flame war of MINUTAE
waged by all the outraged troops ready to KILL all
"factual error" postings. :-)

Just the same, in thousands of documents at the FCC, these
legal entities have been busy, busy speaking AND
recognized by the FCC. <shrug again>

Sorry James;

Congress does hold the purse strings as well as the abililty to enact
laws which the FCC has to enforce. The President appoints commissioners
and the Senate confirms the appointment. The President can request the
resignation of any official in government but can only fire a few.

The FCC has released its latest operating budget listing over
its web page. Anyone who cares to can go check it out.

The ARRL never reveals its budget plans to the public,
despite all its Believers' claims that it is handled in a
"democratic fashion" AS IF it were an arm of the guvmint.
The best one can hope for is someone else getting copies

of its IRS Returns and publicizes those. Otherwise we
"common folk" would never know its a multi-million dollar
"non-profit" organization.

Technicians had and have CW privileges on VHF and UHF whether or not they passed the code. While there are small slivers of 2m and 6m that are exclusively CW, it can be used anywhere above 30mHz by all licensees of Technician or higher. Technicians have ALL privileges above 30mHz.

I don't need therapy, I just think it hilarious that your respond to each and every post from anyone on the NG. Believe me, you are no foe or threat to me. Your more like a puppet. I type, your respond. Watch, your can't resist to respond, or at least change the subject of the thread. Prove me wrong.

See I told you, just like a puppet, I type, yank your string, and you respond. I started this thread, and you responded, and keep on responding. Like I said you can't resist. It seems that your the one who needs therapy, I bet you can't go for a week without posting to the NG, your obssesed with the NG's, your the one who cross posts over and over, reposts with the exact same text, and responds to each and every post from anyone on the NG. I bet your post outnumber mine 50 to 1.

Watch, again, just like a puppet, your will feel compelled to respond. You won't be able to stop yourself from responding to MY thread and post.

If that is what you think. Nevertheless, I made my pointt. BTW, you
shouldn'tt end a sentence with "of", you should do the world a favor,

There WAS a website (webmaster is a ham) that DID
post ARRL IRS returns. I footnoted that in one of my
Comments to the FCC. Have to look it up on the CD
holding those documents but anyone can access it if
it is still up and running.

> 1) Is that bad? Is it any different than the NRA or any other hobby

The National Recovery Act is still going on?!? :-)

> 2) What alternative to the ARRL do you suggest?

"Alternative?" You want an instant alternative?

The ARRL was incorporated in 1914. That's 83 years
ago. The league was able to squash its competition
in the ancient days by good PR work. I admire them
for their chutzpah in that.

From my observation the ARRL just got to believing
its own "sins of omissions of the truth" that it lost
sight of its original aims (other than being a local
telegraph service hacker)...then got the inner circle
of its staff to think they were all there through some
odd "divine right." It is only a fraternal order and a
publisher.

Ain't no equivalent national organization in the USA
now that could compete on equal terms with them.
However, that is NO reason (logically) for them to
think they are Top Dog just because they don't have

the competition. Its Believers do, but then they have drifted off the mainstream into an emotional attachment to fraternalistic orders.

Your about as dumb as owl poop. Marqueer, I like word play,
although, I didn't coin the word, I find it to be a clever form of
word play. A hybrid of Mark and Queer. Your name is Mark and you are
a Queer = Marqueer.
Fear, LOL, Your dumb, just like Lloyd, you couldn't even learn
something as simple as the morse code. I don't have anything to fear
from you, although I can't wait until you get on HF, if you start your
BS on HF, Mr. H is going to hand you your ass with a fine.

>Dloyd Lavies

there is more roof you are jealous of LLoyd although why I have
trouble understanding

So your retarded logic causes you to conclude that I am jealous of
LLoyd. When I first used Dloyd Lavies, N0vfpsucks@aol.com, old Lloyd
went nuts, he was e-mailing me with threats, posting how he was going
to sue, and even recently he was going to get "Federal Supeons". Yet
everytime I hand Lloyd his ass, he just whines louder, just like you.
I like using Dloyd Lavies as a parody for the whine response. I
thought that you might have been a little brighter than Lloyd,
obviously I am wrong.

>>"In the Domestic Rear"

>there you prove you have sexual issues needing mental help

Again simple word play against Lloyd's "On the Domestic Front", Lloyd
doesn't like that either.

>>http//:www.markmorgansucks.blogspot.com

>and thee you confess your obesstion with men's cock

>but since you combinie it with self loathing you need help.

Marqueer, actually you have just shown your obsession with a man's
penis and also that you have a filthy mouth. The word suck does not
automatically equal to sucking on a man's penis. The work "suck" can
have multiple meanings. In this case "MarkMorgan sucks", is related
to you, as a mental patient who has fubared the NG's with your self
attention postings to inflame the RRA news groups. However, your

conclusion is expected and is consistent with your mental status which shows that you have an obsessive/compulsive disorder. Although, I find it odd that you think having an obession with penis is ok, unless it is combined with "self loathing". There must be another psychological component at work here affecting your mental status. There are several good mental health professionals that work in your area. Do you need a referral?

What do you expect Mark? The guy doesn't have a life other than what he

Marqueer, you just keep me laughing. Indicating that Dloyd Lavies is anything is futile. Remember, he doesn't exists, but you contiue to respond, What a moron. Why don't you just scream it at a wall. Hey Marqueer, I see your using word play, nice one, Stlaker, you want
to become a person instead of a stalker/slacker. Good luck.

Nice first step, admitting that you are in fact a stalker and a
slacker. Now its time to change. Second step, no more non-radio

time to put the puppet away for another time.

I'm laughing because your are an idiot, responding to every post, like
a puppet on a string. Honestly, though I believe that you do need a
psychological evaluation because you can't resist, and that Mr. Morgan
is a bonafide fact and very real sign that you suffer from an
obesessive disorder. Mentally, you can't even stand the title of the
original thread "Markie whines again", and feel complled to change it

Lee, thanks for the explanation...although as a pragmatist, the ARRL, for better or worse, IS the only game in town. They are certainly not perfect, but then, who of us are?

As to their "non-profit" status, whatever that means, I am not sure what problem you see with that (if any).

I did some research and, as you say, their IRS returns are on the web. Additionally, their *AUDITED* Annual Report is on the ARRL web site for the world to see. Granted, since Enron, audits aren't all they were cracked up to be, but that is a national issue, nothing unique to the ARRL.

I was referring to what some (in the past) used to imply about
their altruism. :-)

Way back I used to kid some members about the ARRL
website needing extra money for shipping charges of
purchases. The example given was going into an HRO and
being able to buy a League book and NOT pay shipping
charges...and the HRO still made a profit on that sale.
Yet the price on the ARRL website was the same AND
one had to pay extra for shipping charges. :-)

That was quickly transformed by the Zealot Believers
into some dastardly "attack" on the League by myself.
Gotta love the way some act when their ox is gored.

Seems reasonable that high intensity RF could incapacitate the modern electronics that control your average car these days. Put enough RF at the right frequency in the right place and you can disrupt just about anything. I'd bet that the stories are based somewhat in truth.

However, the question of "how much" would it take would not be easy to answer. I've heard that 2 meter communications at reasonable power levels would cause specific models to stop running, but I've not seen it myself. I suppose that it would be likely that high power communications could draw too much current and cause the battery voltage to dip below minimum levels required to keep the car running (with a week battery and low alternator output) and folks could be confused as to what actually happened... But we are talking theory....

I currently can run just south of 50W on 2 Meters in my 93 Jeep grand Cherokee and only rarely have issues with the audio system. I can desense the receiver when transmitting at high power, but that is not surprising as the two antennas are about 2 foot apart and run parallel for most of the 2M antenna. I cannot imagine how much RF I'm pushing into the poor car's stereo. I've had no permanent damage to the stereo. I can usually drop back to 5 watts and keep talking w/o any issues so I assume I'm not causing others issues. The car keeps running (well as best as can be expected for something with 160K miles) on either power setting. I've also put this setup in a 2001 Ford Expedition and have had no issues with the stereo as of yet, but the antennas in this situation are separated vertically so I would assume the isolation is much better.

I'd bet that if you keep your RF field strengths under the FCC specified limits in the cars around you, and your car keeps running, you won't cause anybody else permanente problems. Car designers have to deal with possible situations where RF field strengths are very high (like when you drive past a broadcast transmission tower) so I'm sure they've designed and tested their stuff to make sure it survives these situations. If you stay within the FCC rules on field strengths I'd wager that nothing serious is going to happen to somebody else's car.

You may cause yourself issues, but I doubt you will cause any permanent damage. If you do have issues (the car stops running or the stereo makes strange noises when you transmit) there are ways to deal

with that stuff and I'd cross that bridge when you get to it.

Call To Arms, means, you will inspect your weaponry and prepare to do battle. Duty Stations, means, all men and women must assume their duty stations, weapons at the ready. Fire When Ready, means, man or woman your weapons, sight the target, finger the trigger, and fire when ready. Cease Fire Procola, means, continue fireing until the enemy targets are dispatched, and there is no sight of an enemy anywhere on the horizon. Procolas means, after ending all possiblities of any lingering survivors staying alive. It means to wipe them out, and leave no survivors.

This means, it is time to kill all Lesbianists, and all other enemies in my universe, the many groups of naughty kids in my universe, rascaleers and others, and we will continue this fight, untill they are all dead, and in my Epcot Centers, or untill they have surrendered. Rascaleers are evil people who wish only to harm others.

Religious Practices

This is a little confusing, but hold on, and I'll try to explain it. There are many parts to my religion. We call them, parts, but we can also call them, practices, some of them, but not all of them.

We have the fundamental 'root' practice, which is sexaling. From the root practice, comes all other practices.

There are side practices, and there are derived practices. There are also, accompanying practices. There are many other types of practices, but I don't remember the names for them all, right now, as I'm still

amnesiatic, and will be for a long time.

Fistiker Practice

Bringing about orgasming in another person is a fistiker practice. A fistiker practice is a side practice, but it is also something a little different from a side practice, depending on how you bring the orgasming about, and depending on how many people are involved, and depending on who is the primary person, the person whom we are working on, and who are the helping people, the people who are joined together, to help the primary person to orgasm. There are a number of other dependencies as well.

What Is A Dependency?

A dependency is some thing that is needed that will help to define something else.

As in the case of an accident victim, we have a crutch to define one level of severity of an accident victim's situation. But we might also have a wheel chair to define another level of severity for the same, or other, accident victim. These objects help to determine how badly or miserably a person is injured.

A crutch can help define a level of severity in the injury. A wheel chair can help also to define a higher level of severity. These are both dependencies. They help us to define something, and they are used to help us to define an accident victim's level of severe injuries.

When Sexaling

You can use your lips, for example, or your tounge to twiddle the toes of a woman, and the woman begins to orgasm. That twiddleing of your tounge on her toes to help her to erotem, and to experience erotistical orgasming, can be any number of things, depending on the involvement and complexities of dependencies.

Rubbing the vaginal face, the vaginal wall, or rubbing to either side of the vaginal crevice, the labial folds or felates, can help a woman to erotem and erotistically orgasm, and depending on the involvement and complexities of dependencies, the dependencies can be any number of things, if we try to define the sexaling activity more fully and completely.

We'll skip this for now, as it is a little too difficult to remember, right now. Just remember, the primary practice is sexaling, and that sexaling is like the roots of a tree. All other religious practices grow out of the 'roots' of the tree, sexaling, and can be defined in many different ways, such as a helping practice, a side practice, a subsidiary practice, a canceling out practice, an accompanying practice, and there are many many other terms for what kind of practice some thing is, depending on what dependencies are involved.

Labia And Felate

What is the difference between a felate and a labia?

A felate is the skin tissue of the outer surface, and some of the tissue of the tips and edges of the labia. It does not include the inner side of the labia, but only the outer side, and the surrounding edges, as far as I can remember.

A verb, or action word, as I call it, is 'felate' as in 'Felate that woman's or girls' left felate'. That means to suckle on the left felate of the woman or girl.

Felate is a verb, but it is also a 'nominal' word, or naming word for objectifying an object.

Do we say 'Labialize that woman's felate!' To labialize something is to make something into a labia. We wouldn't, unless we were a doctor, say that about a felate. But we might say it if we were doctors, and we had a woman who met with a bear, and the bare clawed at her genitals, and the sharp claws ripped her labial skin up, then we might say in a surgeon's room 'Labialize that woman's ripped up labia.' That would mean to stitch it up, and make it nice and neat, and clean and well stitched up, and then useful to her, again, and it would involve a lot of surgery, as many nerves would need to be connected, as they had been ripped apart, and the wiring was all dislocated. But in the end, we would be able to fix her labia, and her genitals, if they were also hurt, and then we could dismiss the patient from the hospital, after the labia healed, and after she recovered from her trauma of having her labia shredded by an impolite, rude, mean, uncaring, and hungry bear.

Genitals, Titties, The Labia, And The Many Sexaling Organs

The labia is not the genitals, but some people do consider them as a part of the genitals. The genitals are inside the woman's vagina, in my way of thinking. The vaginal wall is not part of the genitals. The vaginal orifice is part of the genitals of a woman. This seems odd, doesn't it. Well, that is how it works, in my brain, and I designed women, as well as men. If you notice, in my writings, I've talked about the draft table, and the throttle. These are major parts of a woman's genitals. They are inside the vagina, and you can reach them through the vaginal orifice. Before you get inside of the vaginal orifice, there are a few things outside, such as a pee tube, and an ejaculate tube, and the clitoris, as well as the labia. These are not part of the genitals, but are working parts of her sexaling organs. A woman's or girls' sexaling organs are not equal to her genitals. Genitals are for baby making, and for other purposes. Titties are not part of the genitals, but they are part of the womans' sexaling organs. This will require a long discussion to clear up, so I will save it for another day.

Bears In The Woods

That's the way it happens some times, when women or girls go out into the woods, and sexal with their female friends. They can get hurt by

bears, if they are not accompanied by men, who are tough, and strong, and who stay alert, to guard and watch out for dangerous animals, such as bears, wolves, cayotes, bobcats, puma, and even racoons. Racoons do attack humans, if they smell some thing that will taste good to the racoon. If a person has a skin tear, and is bleeding, even a tiny bit, the racoon will smell it, and come running, and then find the person, and so will panthers, and all kinds of animals will come, and it's just like a bunch of sharks and fishes of different kinds, and Moray Eels, they like the smell of blood, and they come and investigate, when they smell it.

Women and girls have periods, and it is not every twenty eight days, as I've explained about before, and blood runs down, out of their vagina, and they generally do not know it, as it is only a tiny drop of blood, or less, most of the time, and the blood is often wiped from the skin surface, when the woman or girl is on the potty, or toilet, and the woman or girl will not even see the tiny drop of blood that comes out of the vagina and drips down the labia, on the inside, and then falls or dribbles down to the felates, and then falls off the felates, while she is on the toilet into the toilet, or while she is out doors, and walking about, onto the earth, if the woman is walking on a park walkway, or bicycle path. If she is wearing underwear, it will not fall onto the earth, but it will dry up on the panties, or underwear, and the smell of the dried blood will attract wild animals if she is out doors, walking or jogging in a wooded or regional or rural area, where there are lots of, or even just a few, animals.

Pumas can smell the blood, from miles away, and so can tiny oselots, and bears, and many animals can. They can smell blood, because they know they need meat to survive. That is built into their brains, that are located throughout their bodies, and not only in the skull, and animals are very sensitive to the smell of blood, as well as to the smell of urine, and to the smell of poop. Some animals, such as racoons, will come up from behind a woman, and grasp at her panties, as the racoon may smell the odors of fecal matter, from her butthole. Men may be raked by the claws of raccoons from behind, as they smell the odors of fecal matter, and try to find out more about it, as the racoons know that there is something delicious hiding behind those odors from the buttholes of women, girls, men, and boys.

Expecate

When women and girls go out hiking, it is best to wash out the vagina, first, and then use a fermented oil, as a douching agent. The oil will help to slow the flow of the blood down the inner walls of the vagina, and it may help to trap the blood, and make it difficult for it to leak out, unless the amount of the flow of blood, is very large. In that case, it is best to stay home, and not go out, when a large amount of blood is expecated from the vagina. Expecated means to expell outwardsly. Expectate can also be used, as it is generally the same word, that is, and it also has generally the same meaning, but

perhaps it has a few more uses, maybe, but it is from a variant language of the English language, and is basically the same word.

You should expecate your fluids in your vagina, from your vagina, before you go out hiking. If you know when your period is, and there are ways to tell when you have a period, or when you know when you are about to have a period, than if you normally have a large amount of blood flow from your vagina, as that has been your experience, it is probably best to go and sunbath at the beach, far away from wild animals and their habitats, or by the pool side. Racoons sometimes come out of the woods, to the shores of beaches, and trumbel along, listening and watching, and sniffing the air, when they smell dried blood, or wet or moiste blood, inside of the swim suit lining in the groinal area.

How Do You Tell When Your Period Is?

To learn when your period is, you need to look into the toilet bowl that you pee into, and then see if there is any red droplets. You can place a piece of toilet paper onto the surface of the water, and it might help to show the redish color mixing with the urine.

Another way is to take a piece of toilet tissue paper, and wipe your felates, in the morning, or during the day, or at night. Night is a good time, but during the day, it is just as good. Some women like night time because they feel the day is finished, and they are now going to make a final check. Well, it doesn't always happen the way we want things to happen. You might start leaking blood fluids, at two or three or four or five, a.m., or at six, or seven, or eight, or while you are in the shower, or in the bath tub, bathing, before you plan to go out for the day.

It may take you several years for you to find out when your period begins, and when it ends, by checking for blood flow. When you have determined the number of days between one period and the next, and you are absolutely certain of it, and you have confirmed it, many times, and you have checked to see if there might be something you didn't notice, at other times, when you checked, eventually, you'll learn when your blood flow begins, and how long it lasts, and when the next blood flow begins. Once you know, then you can time your excursions to the woods, or to the beach, with your friends, both women and men.

Bears, Wild Animals, And People

Men are needed to help scare bears away, if they come to close, and pepper spray is a good way to get them to leave the area. Bears do not like the small of pepper spray, and you need a cannister of pepper spray that will fire fifty to eighty to one hundred and eighty five feet or more, to scare away a bear, safely.

Loud noises surprise bears, but hungry bears get angry and feel challenged by you, and may come at you at a fast pace, and not stop, once they are angered. If you are a good shot with a rifle, and you

see a bear, from a few hundred feet away, and it is moving slowly, towards you, following you, you can shoot it with a good fifty calibur weapon, from that distance, and it will go down, in an instant, if you hit it square in the noggin, about one inch or less above the nose.

You need to be a good shot, and several people should aim, and fire at the same time, to kill the bear, to be sure some one hits it, and then puts it down, and kills it.

Do not think that because you have one rifle, or two handguns, and a rifle, that you are safe. If you do not know how to shoot, and if you are an inexperienced marks woman, or marks man, than your chances of hitting the bear are near zero, for all three of you, at three hundred feed.

You need years of practice to become a good marksmen, and you can start with the lower calbur weapons, to get a feel for weapons that fire projectiles, and that make loud noises.

There is no such thing as a friendly bear, and people think, 'Oh, look! Isn't she cute, that bear.' If they think that way, they might as well have left their last will and testament behind, and signed all their assets over to another person.

Bears are animals that need to eat just as humans do, and just as all animals do. If you are so foolish to think that bears are cute, you are a lame brained idiot. Bears are dangerous animals. And so are all wild animals. If you think a racoon is a cute animal, you get the lame brained award for the year award, and trophy to sit on your desk at home to remind you of how stupid you are.

Brad Pitt, And Angelina Joline

Only idiots would think that wild animals, that eat people, are cute. They need remedial training, as they do not understand that their lives are in danger, every time they walk out the door of their home. Even in the cities, there are nasty people, who smile, and pretend they are your friends, and these same people, such as Hillary Clinton, Brad Pitt, Cheryl Davis, a friend of Brad's, but that's his current girl friend, Angelina Jo-line. She is not a Lesbianist, and Brad pretends to be her friend. He likes to watch her get eaten by bears, my abominant kids, when the Lesbianists feed humans, one at a time, to the bears, or to the crocodile abominant children of mine.

Abominant Elephant Kids

I have carniovorus, human being abominant elephant kids, and they are rude, mean, nasty, and really terrible. They scare people, and then they pick them up with their trunk, and place them on their head, and then they tell them not to move, or they will stample on them, or tromp downwards, and crunch them, painfully, from the foot, to the shin, to the thigh, to the pelvis, to the waiste, to the lower tummy, to the mid section, to the chest, and then the neck, and then the

head, finally killing them. They will take a person, pull the person up and lift him or her up into the air with his or her trunk, and then pull the person into his or her mouth, and then crumple up the person, and then spit the person out, and the person is all broken up, and chewed up, with all the bones, broken, in the legs, and in the arms, and in the waiste, pelvis, torso, neck and shoulders, and head.

The Lesbianists use lots of these elephants. They are pretty to look at, but they are mean, and nasty. When strangers see them, they think, 'Oh, what a pretty elephant.' They don't know that the elephant is my abominant kid, and can speak English, as many people recently found out near Africa, in Sri Lanka, and then also in New Guinea.

They were very surprised at the talking elephant. But they didn't know that the Lesbianists had let the Elephant, my abominant kid, lose from the cages that they kept him sealed up in. There were one or two, or maybe eight of them, in Sri Lanka, and eight or nine in New Guinea. Lots of people got eaten up, and killed. The elephants are still lose in New Guinea, but in Sri Lanka, they herded them into the pens, and brought them to New Delhi, to then begin a rampage in New Delhi.

Well, the Lesbianists are doing this, daily, because they feel they have lost this battle, and that they are just wasting time, doing nothing, as they can not get to me. So they want to have a lot of fun. Now they are releasing lots of my abominant kids, in many places, and in New Delhi, Bombay, Sri Lanka, and New Guinea, many people have been hurt and killed by these idiot kids, these abominant elephant kids of mine. The Lesbianists have thousands of animals they want to release, out into the public, in England, in Switzerland, Georgia, South Carolina, Paris, and many other places.

The Lesbianists think they are going to have a lot of laughs watching the abomniant kids of mine, tear people up, and rip them to shreds. They also think that the animals, who are not abominant kids, but are just bizarre animals, that catch people in very large, nets, that have threads as thick as ropes, and that are very sticky, are going to do a lot of wierd and crazy things, no one here on this planet, other than them, have seen. They think they are going to get a lot of laughs when they see the mayhem and havoc, the disruption to society, and frustration on the faces of people who get caught in the nets, and then turned into living mummies sealed up in a type of pulpyish paper so the person can slowly disolve, but stay alive, for up to a year or more. Maybe as long as ten to thirty years, in some cases, and I'm not kidding.

You may think I'm kidding, but I'm not. This began a few days ago, and the Lesbianists are intent on continuing this, for the next few years. Isn't that surprising. I never expected that. They are very strange people, aren't they. They are real sicko's aren't they.

I think you should all go and meet my kids, with a day pass, and ask them about it. Other wise, you might find your self in a very large

spider's web.

Labiating A Labia

To labiate is to suckle the labia, and to take one or the other of the labia into the mouth, and tickle it with the tounge, or twist it gently with the lips.

'Labiate that woman's left labia!' 'Felate that womans left felate!' The difference is, labiating is to suckle the entire left labia, inside or under the edge of it, on the inner side, and the edge of it, and the outside of it.

Felateing the felate, is to suckle the edge of the labia, the upper exposed edge. It does not include the labia, in its entirety. Only the upper, protruding skywards, or in which ever direction it is pointing, that portion of it that is extending outwards. If you lift it up between your finger tips, you'll pull up on the entire structure revealing the underside, or the unexposed underside of the labia. There is also the outer side of the labia.

The Felate is the top tip edge of the labia, generally speaking, and it is itself an isolated system, and not part of the labia. It's connected to the labia, but it serves a different function. It droops downwards, to seal out the possiblity of any thing entering the vagina from below, in an upwards moving manner. Bugs can not fly up into the vagina, as the felates prevent them from flying up into it. Without the felates, the vagina would be unprotected. The labia would not protect the vagina, as the labia is merely the skin tissue mass that the felates are attached to, and in an instance of removing a felate from a cadaver, or dead body of a woman, or girl, once the felate is removed, the labia have no closure over the vagina, in most women and girls.

There are exceptions, as we've had many animals in our heritage line. There are many differences when we line up ten women, and inspect their vagina, their felates, and labia, their bumbey pack, as children are encouraged to call the lower hanging sexual organ of the vaginal cape, as it is also called by doctors.

On this planet, the bumbey pack may not be called a vaginal cape, with the inferior texts with unadvanced, primitive, witch doctor level sexual sciences that do not help any one along, such we find with the myth that women and girls have a period every twenty eight days.

That is total nonsense, as I've explained about it, before. The truth is, every few days, to every eight to fifteen days, to even eighteen days, or evern thirty two or fifty five days, depending on where the woman has grown up and where her ancestors have grown up, the number of days between one period and another period can be very dissimilar, from one woman to another woman. Some women have a period every two or three days, or even every day. There is no reason an ovary can not fall, every day, several times a day.

An ovary is so small, no one can see it, without special optical technologies, such as pass through see through technologies, and other optics, and other videoing technologies. A microscope is an out moded, ancient, and novel device, fit for only museum use on display shelfs. It's like an old car of the twenties, or there abouts, or even earlier, of course, depending on how sophisticated it gets. Micron microscopes, the so called, 'electron' microscopes, are a misnomer to begin with, as an 'electron' is not a fictious concept, but no one knows what an electron is, generally speaking except for the Lesbinists.

An electron is a small bit of electrically heated plasma, that you can heat, with the right technologies. It can fit on the tip of a pencil or pen. This is a big joke to the Lesbianists, as are also their jokes about protons, and neutrons, and nuclei, or the so called combined nucleus, as in 'nuclear' family. Nuclear family, is not a 'tight' organization of two persons, and their children.

A nuclear family is a family that has been nuclearized, that is, exposed to radiological salts kiddies, and their radiative or radiological energies. That's another one of the Lesbianists' jokes on all of the scientists who the Lesbianists could get to swallow it.

What Causes A So-Called "Nuclear' Explosion Or Detonation?

A vast number of children are making babies at a very high rate of speed, and the energies that they give off, as they make babies, and then peel off from the area where they made their babies, one after another, as they rocket away, is what causes a nuclear blast. The tummy mommies and tummy daddies are making babies at such a frantic pace, they make millions and billions, and trillions, and more, before you can even send a signal to your eye lid to blink, from your brain part that sends the signal out. The signal will travel just a very short distance across a crupture, not even half way, more like, one or two feet in distance, if we are to look at the size of a crupture as the same size as our current universe. It travels about not even one foot, not even one inch, and not even one millimeter, and not even one millionth of a millimeter, and far smaller than that still, before the parents are already through making babies, and they have retired, and passed on, and several kabillion generations of families, and multiply that by a very large number, and you'll get how many generations of families lived and died, and passed on their DNA to their sons and daughters.

It's a hail storm of erupting magnitude when the tummy mommies and tummy daddies begin making babies, and making their families larger.

It all happens so rapidly, with more than that number of successive generations of families, in less time than the energy pulse will travel down an optic nerve, across a crupture, that very minute or very tiny distance, as I stated above.

That kind of frenetic baby making activity, makes for a lot of heat, as well as, it generates a lot of stresses, and a lot of energies go flying off in all directions, as the sexaling couples experience many nice orgasms and eroticisims, together.

Temperatures, their body temperatures, collectively, and the incredibly vast number of movements, which also generate temperatures, by the animals, the tummy mommies, tummy daddies, tummy babies, the relatives, and the many generations of families, go skyrocketing, and the magnitude of numbers, and the intensity of all the activities the animals are busy with, as they make tummy babies, simultaneously, or nearly simultaneously, is of phenomenal proportions.

If we slow them down, to our pace, and then compare them to our pace of life, they would be just like us, and things would move slowly for them, and not much would change, for many kazillions plus years, and then many, many more years.

However, they are moving so much faster than we are, and the length of time they live, to them, it is a long time, four or five, or eight or nine hundred years, in our time, maybe, in some cases, depending on the type of radiological salts kiddies making babies.

On their scale or pace of life, they live that long. But on our scale, the length of time they live, is so tiny, we can not measure it, unless we have a very high level of advanced mathmatics that can account for such a small time period, or span of life.

Anyway, the frenetic adventures of the colony of radiological animals, when they start to make babies, after they are woken up, and prompted to make babies, with a detonating surge of heat energies, light wave energies, pressures energies, trampolining energies, which get them started, with the right combination, of heat, light, atmospheric temperatures, atmospheric pressures, food sources avaiability, drinking water avaiablity, trampolining energies, and a number of other types of energies, that awaken them, and then get them turned on, and sexaly active, they will suddenly erupt into a frenetic, mass of baby making furor, to us, any way, and with that, we have our so called, 'nuclear' detonation.

Cleansing Your Self With Your 'Built-In' And 'Attached', Cleansing And Washing, Clearifying And Erasing Energies Producing Genitals And Sexaling Systems, Eroteming And Orgasming Nervous Systems, And Baby Making Related Purifying Energies Generation Stations Aparati, Or Apparatuses, And Armatures

You women and girls, your vagina is your Holy instrument for assisting you to cleanse your self, and wash away the dirt and grime of daily living, the insults to you from strangers, the verbal abuse you experience in your arguments and conversations with friends and family, neighbors, relatives, work associates, and community acquaintances.

Your Holy body is a weapon to fight back against all the negativities you experience in your life, as you orgasm and erotem, showering off purifying energies, and lots of other beautiful other things and dings, as you vibrate your entire body concordially, in harmonic rythym, cadence, and rapture, with my Holy Body.

Your breasts, your butty butt, your butty butt hole, your vaginal hole, your groin, your throes, your vaginal cleavage or labial folds as they are called here by these nitwittish doctors on this planet, who do not know any thing about the human body, your chest, your back, your legs, your arms, your hands and fingers, your ankles, feet, and toes, your ears, lips, mouth, tounge, cheek, your rectal cavity, your tummy button, your stomach, throat, your brains, and you have many more than just one in your body, but many millions and more of them in your body, and that is not an overstatement, and every part of your body, inside and out, your many nervous systems and all your organs, they are all set to orgasm and erotem, and generate purifying energies with the help of the power company, as I've explained about them, before.

Ticklement Tuning Forks

You have ticklements, tuners, or pitch fork tuning forks, that chime, in every cubic millimeter to every cubic inch, and in even tinier places, you have tinier ticklements, or tuning forks, and in larger areas, you have larger ticklements, or tuning forks, and they are all set to vibrate in various patterns of sexual thrilling eroticisms, and orgasming ecstacies, as you pump up the levels of sexalating energies you have available to you, in you, and showering off from you, and those patterns and focal points change, slightly, minutely, as every micro second goes by, as we change our location in our universe, and our relative location or position to every thing else in our universe changes, from night to day, and from day to night, ongoingly, non-stopingly, never repeating the same set of tuning focal patterns. Focal patterns are frequencies.

Focal Patterns

These frequencies, or harmonic consistencies, are harmonic displays or the 'in rythm' with GOD, consistencies that allow you to be united with GOD, me, my devine and holy body, and my devine and holy mind, and being or GOD SELF and GOD BEING, every moment.

Men and boys have the same ticklements, or tuning forks, and they are located in every organ of their bodies, just as they are in women's bodies and in girls' bodies, and they allow all of you children of mine to stay in frequency with me, as you sexalate, erotem, and orgasm, practicing my religion, and as you live your daily lives.

These many ticklements and tuning forks are all connected to your brains and to your nervous systems, and each living being in your body, has them as well, and every living being has them as well.

All my children, animals, living beings, and human beings, are all connected to me, through these tuning forks, and also, through the holy bodies all my children have inside of them, and also through a myriad of other mechanisms that I have functioning in your bodies, in your astral 'energy' bodies, and the many millions of energies bodies each of you have in you. My animals children and living beings childrens have fewer connectivities and fewer energies bodies, as they do not need as many as my human being daughters and sons. This is because you, my human being children, need to be more connected to me, as you are the only ones who can actively practice my religion, with your own self determination, and desire to practice, to become closer to me, GOD, purer, and holyer.

I'm connected to all of you, day and night, three hundred sixty five days a year, in countless many fold untold numbers of ways and manners, and with countless many fold untold numbers of mechanisms. All of my children are likewise connected to me, in similar ways and manners, and with similar mechanisms.

As you women, girls, men, and boys sexually rapture, erotem, orgasm, and reach sexual peaks, and then sustain them, you grow holyer, as you become purer, brillianter, and closer in GODLYNESS to ME, GOD.

Obviously, then, the primary means for you to grow pure and holy is to sexalate, and as you continue, over the days, and weeks, then months, years, decades, hundreds of years, thousands of years, millions of years, and more, you slowly grow more pure and holy.

Sexaling is my primary and most fundamental religious practice and your primary religious practice for you to become cleansing machines, washing machines, purifying and sanitizing machines, so that you can clearify and erase your karmic markups, and purify your lives, and the lives of those around you, with your selfless actions of grace and serenity, sexaling and showering purifying energies in all directions for the sake of your self, and for the sake of others.

You women and girls need men and boys to assist you to become the powerful cleansing and purifying machines that you are capable of becoming.

Men and boys used to be somewhat nearly as useful as purifying and cleansing machines, as women and girls, but men and boys have different jobs, and different priorities, and there fore, the burden of work to purify my universe, and to clearify the karmic markups of all my children rests on the shoulders of all women and girls, with men and boys assisting women and girls.

You men and boys need women and girls to lead you, and to help you to become more proficient, powerful, and more capable cleansing, washing, purifying, and sanitizing machines.

Assistive Religious Practices

The practice of praying Nam Myeo Ho Ren Ge Kyeo is an assistive practice that allows you to become in touch with my GOD SELF, equally as well, but the time it takes, is much longer, as very little purifying energies are produced, merely by using your brain, muscles, ligaments, sinews, bones, mouths, tounges, and jaws, as energies sources.

There are many other assistive practices, from meditation, to breathing techniques, to yogic techniques, to ballet like techniques, to dance techniques, to body movements of various kinds, to help you to increase and or also store up your energies, and then for you to release them, for you to then become more firmly and closely connected to ME so that you can eventually begin to gain a higher appreciation of ME, GOD.

My many religions teach many ways to do this, and before my many religions were corrupted by the Lesbianists, they worked to varying degrees of success.

Therefore, sexaling is the primary fundamental religious practice, and all other practices in my religions that I've taught over time, spanning all of my previous teachings from the begining of our time together, since I, my GOD SELF, created you as my children, are assistive practices, of one kind or another.

Sexaling, eroteming, orgasming, phlumetting are important practices, and as you orgasm, you are purifying your self, and others by pushing out and spraying your self with purifying energies as your holy and sacred energies shoot out to cover you and emmerse you in full body coverage, from head to toe, showering and shattering energies every where around you. They then build up and cover over all others who are around you, as well, with your purifying erototistic and orgasotistic purifying energies, clearifying yours and their karmic markups.

Astral traveling is another type of practice, but we'll define it, another time. Experiencing hyper trance states of mind and being, and a nearness to GODLYNESS are also a practice, and we'll define it, when I can remember every thing I need to remember about it.

Participating in my religious ceremonies is an assistive religious practice you can enjoy, as you become purer and holyer, and after you recognize that I am your Mother and Father, and your CREATOR, and that you exist because of me, as I made you from pieces and parts of me, your CREATOR.

After you realize this, you can enjoy participation in ceremonies with me, as training priestesses and priests, and you can make your way up the purity ladder, the more you participate with me, GOD, in my religious prayer hand signaling ceremonies.

Praying Nam Myeo Ho Ren Ge Kyeo to my Holy Body, or to the Gurkian Mandala, as I've explained about, is an assistive practice that will bring results.

It will not bring results as well and as effectively and as quickly, as sexaling, which is the most holy and virtuous practice, along with eroteming, orgasming, phlumetting, astral traveling, peaking, and so on.

I've spoken about peaking, before, and women and girls can peak, and experience wonderful feelings.

In any case, do not confuse assistive practices, with the fundamental and primary practice of sexaling. We'll get back to all those other things, to define them, betterly, another time, after my brain heals, a little bit more, and after I erase more karmic markups that keep my brain karma from improving, fast enough for me.

How To Make Prayer Statements

Remember to include a prayer statement, such as 'I pray to the holy ephemeral body of the Creator, John Francis Ayres, for the [ insert private prayer statement ]', such as, '... for the serenity of mind, and the gratefulness of heart, for all those around me, who have helped me to become the person I am, and can become.' or, '... for the peace of mind, and serenity of heart, for the love of all men and boys, and the cooperation of all women and girls.' These prayers said by a woman or girl. Men can pray, similarly, '... for the grace and deviness of the women and girls who surround me, I am greatful to them, and I pray for their continued good health, and prosperity'.

You can also say, 'I pray to the holy body of the Creator, John Francis Ayres, for the [ insert private prayer statement ]', but only when I am in the middle of a religious hand signaling prayer ceremony, i.e., while I am doing a prayer ceremony, and saying my prayers with religious holy hand prayer signals that my special kids who are religious kids, can pick up and then act on, in concert with other groups of kids of mine, who also are religious kids, most of them, I think, and who work together with my primary groups of religious kids.

I have lots of kids, and some are normal kids, who go about their jobs, as expected, for earnings, just as most people we know. But I also have lots of other groups of children, who are more, religiously oriented, to varying degrees, and who are very religious as their work is all for the sake of my religious self, my GOD SELF. My religous kids catch my hand signing, and then they pass the messages along to others of my groups of children, and with all of the different groups of children I have doing 'good' works for me, as well as groups of children who do 'religious' works for me, as well as groups of children doing normal work for me, but for the sake of my religion, nevertheless.

They all coordinate themselves, somehow, I have yet to figure out how they do it, but between them all, they get the jobs done, that I ask them to do, while I am religiously - and the prayer statements I am signing are very holy - hand prayer signaling, i.e., hand signing.

So, unless you know for a fact, by seeing me on a tv, such as during a live broadcast, once I get my religious conveyance set up, and built by my children, after all the conditions are met, for securing this world from the grasps of the Lesbianists, and after killing all the Lesbianists, and / or after making the remaining Lesbianists surrender, and then after all other conditions are met, as I don't know all the conditions, I've set, as my memories are still foggy, as I'm amnesiatic, as well as mentally retarded, but in any case, if you see me on tv, on a live broadcast, doing my hand signing, you'll know I'm in the middle of one of my prayers, and then you can say, 'I pray to the holy body of the Creator, John Francis Ayres, for the [ insert private prayer statement ]', and you can omit the 'ephemeral' if you like, as it will work better if you omit the word 'ephemeral' as while I'm praying, I'm my normal, GOD, self, though I may not look to you, on the surface, to be any different, over the video links, or even in person. It never the less works better if you use my recommended methods of making prayer statements, this way, for you to maximize your private prayer statements.

All of my groups of kids have lots of friends, and they do lots of work for me, and I do not remember how many groups of them there are, and how many children I"ve got, as yet, but in time, I'll be able to give you a better idea of how they work together to get the work done, that I ask them to do for me, with my religious hand prayer signals, or hand signals, as in hand signing, or signing.

My kids use signing for all their work assignments, so I use hand signing that they can catch, pick up and read, and it is all pretty much very religious in nature, and it is very solemn, as I am GOD, and when I'm signing, they know I'm GOD, and do not doubt it.

When I am not signing, they might now and then, doubt that I am GOD, but never the less, I am GOD, and my signing proves it to them - when I am saying my religous hand prayer statements, by hand signing - with out any room for doubts in their minds.

In other words, I'm a typical person, just a little mentally retarded, brain smattered, or brain damaged, after my many youthful and other brain bashings I recieved, the wiring is a little scrambled up, upstairs, and after many poisonings by the Lesbianists - from makeing coffee from kerosene, diesel fuel, gasoline, and motor oil contaminated coffee beans and then from drinking that coffee, without knowing it was contaminated with petrol fluids, as often happens to people - and with ill health karma that has me on disability, and I've been through a lot, life after life, and sometimes, my children may have had a thought or two, 'I wonder, if he is going to make it, like he said he would?'

Well, to dispel all doubts, I sign, and when I'm signing, I remind them of my old self, back in the old days, when I used to sign, religiously, and they know how serious a guy I was, so they do not harbor any doubts, so long as I am hand signing.

What To Say, When You See Me Using My Dick Or Other Parts Of My Body To Purify Others, And So Forth

You can say, 'I pray to the holy body of the Creator, John Francis Ayres, for the [ insert private prayer statement ]', also while you see me praying, Nam Myeo Ho Ren Ge Kyeo, or also while you see me in a ceremony, using my dick and scrotum, or other parts of my Holy Body to purify others, during the middle of a prayer ceremony, and I need not be hand signing, or praying Nam Myeo Ho Ren Ge Kyeo, as I am in the middle of prayers and activities ceremony, which is just as good as a religious hand prayer signaling ceresony, any day.

My dick and scrotum package is very Holy, and it has a very useful function, and that is, it purifying others. My lips do, too, and my butt hole, does as well. They all purify others very effectively and efficiently during my religious ceremonies.

My entire body, during a religious ceremony, butt hole, mouthal hole, lips, tounge, cheeks, legs, knees, feet, toes, butt, chest, back, arms, elbows, hands, fingers, head, neck, throat, ears, nose, and so forth, is entirely the body of GOD, as I am GOD, and therefore, while I am useing my body, during my religious ceremonies, and for my religious ceremonies, and you see me on tv doing so, then after you have verified that I am in the middle of a prayer ceremony, you can say your private prayer, in the manner as I've explained, 'I pray to the holy body of the Creator, John Francis Ayres, for the [ insert private prayer statement ]'.

I only use my dick and scrotum package for prayer ceremonies, except when I need to pee, so if you see that I am using it, during a prayer ceremony, or if you see me using any other part of my Holy Body, during a live broadcast prayer ceremony, then you'll know right away, that I am in the middle of a prayer ceremony and it is okay to use the statement, 'I pray to the holy body of the Creator, John Francis Ayres, for the [ insert private prayer statement ]'.

The same is true, pretty much, for any priestess or priest, who practices with me, in my religious holy body prayer circle, their bodies become very Pure, Holy, and Devine, but only after many life periods, that is, after many, many aeons, as they do not attain the same level of purity for a while, the same level of purity as I am at by my good old self, or the same level of pureness that is of ME, GOD, since I'm GOD, and they are not.

That means, it takes priestesses and priests longer to become pure, holy, and devine. I happen to be pure, holy, and devine, but that's because I'm GOD, and it is only during my religious ceremonies that you can understand that as you make your prayer statements, and sexal, etc.

After a long, long while, priestesses and priests will also become pure, holy, and devine, as their holy bodies, energies bodies that are pure, holy, and devine, but on a lower scale than are MY energies

bodies, since I'm GOD, and I'm in charge of keeping things tied together, here in my universe.

After many aeons plus years of practice in my holy body praryer circle, the priestesses and priests become pure, holy, and devine, and then their bodies, their normal bodies, become very purifying, just as mine is, now, when I am in a prayer ceremony. I am in a prayer ceremony, daily, a few times, to a number of times, a day.

I've gone eighteen hours straight, once, and no sooner than I go to sleep, and then wakup, right away, I begin again, and I've gone many days, straight, praying, continuously, non-stop.

This is nothing, though, and is all preparatory, as in the future, when I get my health back, as I haven't been too healthy, for quite some time, I will be praying around the clock, some days, and for many days at a time, taking a break only to eat, drink, poop, pee, and clean up.

When priestesses and priests join with me, we will go for years without stopping, and with the priestesses, and with the priests, the both of them there, present, doing the prayer ceremony on my behalf, they can represent me, while I take a nap, go and shower, get some food, nourish myself, drink some fluids, read a book or news paper, or watch the news, or a movie, game show, video, or play a video game, and so forth. I won't be taking long breaks, and that is very funny sounding, but anyway, it happens that priestesses and priests will lose their attention, and then get lost, somehow, and then go and watch tv in their bed room, or whatever, and then we have to go and look for them, and they will get a few markoffs, and with enough markoffs, they will be asked to leave the religious conveyance, and they will be put on a type of vrobatiton, or under survielance, to see if they are good or not. My kids do all my survielance work, and they keep track of every one, so 'you'd better be good, you'd better be nice, you'd better look smart I'm telling you why, Santa Clause is coming, to town'.

Who Was Kris Kringle?

Did you know that Kris Kringle got its start from me? What a coincidence. I don't think he was wearing anything, though, or rather, I don't think I was wearing any thing, but you never know, as tolerances have changed over the long aeons of time, as they pass.

When priests and priestesses become that pure, holy, and devine, as pure, holy, and devine as I am, after their many aeons of religious practice in my holy body prayer circle - pure and devine on the exact same level as I am at - then they can represent me, as Mr. mini-GOD, and Mrs. mini-GOD.

You can not represent me as Kris Kringle, and whoever my wife was, back then. I think I had a lot of guys on that team, and a lot of women and girls, too, since sexaling was a part of that religion, too.

You can learn more about it, if you're interested, by getting a day pass, and checking in with my kids, and then, signing up and joining our country, and then by becomeing a citizen, as I've spoken about, before.

You can include any good prayer, that comes to mind, that you feel is needed by you, to improve your life, and to level up your life.

You are the only ones who can pray, and practice, you women, girls, men, and boys, and there fore you are connected to me in many more ways than other living beings, the animals, and the amoebes, cells, and other living beings.

There fore, you are, both genders, the ones who will clean up the mess you have made, and you will continue to keep my universe clean, as you sexal with your genitals, and with your bodies, and with all your gizmos, igniters, trigger mechanisms, love bumps, love patches, tuning forks or ticklements, and so forth, as you are sexaling beings, who I, GOD, created, and you will sexalate, erotem, orgasm, phlumett, astral travel, peak, hyper tranceate, and so forth, just as I intended you to, from now till forever.

You will become virtuous and worthyable beings, worthyable tummy mommies, and worthyable tummy daddies, with your practice of my religion, who will bring into my universe, my many children who will join with you, and assist you and me, in cleaning up our universe, and the mess you have all made of it.

Is that understood? The answer had better be, "YES SIR!".

Lesbianists' Torment Campaign Under Way

Lesbianists are clearly releaseing wierd, ghastly, horrible, and dangerous preditorial animals, giant insects, giant spiders, giant lizards, snakes, and reptiles, ghastly, preditorial sea animals and sea mammals, winged, preditorial and horrific, aggressive scavenger and killer buzzard like creatures and other winged and destructive animals, and other horrible creatures, as well as my abominant kids to kill, maime, torture, and cause major disruptions and suffering to people, around the globe, in many locations.

Apparently, the whole world is now affected, or will be affected, by this dischordance and disharmonic display of defeated lunacy.

The peace has been shattered by the Lesbianists. It was not good before, the situation in the world, with the balooneying governments of the world, doing what they wanted to do, and torturing, and canabalizing people, and feeding people to my abominant cave bears kids, and to my crocodile people kids, and mistreating people, like Bill Gates, Steve Hawkins, Steve Irwin, many women, young girls, and men.

The war in Iraq, the phoney Saddam Hussein Trials, and all the bogus manipulation of the press and media, and the suppression of what is actually the case, with our being used and abused, poisoned, and maltreated by the Lesbianists, was a rotten situation. That was normal, or normality for us. Our karma is very poor, and we have the karma to suffer this abuse, and these torments, daily, unknowingly, in most if not nearly all cases.

But, it is becomeing really bad and there is need for serious concern, and action, to correct this situation. It has gotten out of hand, completely, and there is no stopping the Lesbianists in their wanton, and coldly miserable wish and lust for chaos and disturbances to others.

Now, more clearly than ever, as the Lesbianists rampage, the Lesbianists are causing major disruptions, suffering, anguish, and there is just an awful discordance of shock, dismay, and misery, that is growing, every moment. This is as real as the sunlight shining from the sun on a hot day in summer.

I don't have a clue what people are doing, and what is happening to them, as they are captured, tortured, and caused miserable sufferings, in many places. There must be horrible agony for many people, at this moment, and as each moment passes.

Our reality as it was has suddenly been shattered and torn up, and replaced with the lunacidal, Lesbianistic, mayhem and chaos.

Reuters reports a Lesbianists' joke for the Lesbianists, sarcastically and ironicly stateing, "New Perils Push Doomsday Clock Closer to Midnight" "(Reuters) Scientists have advanced the clock 2 minutes closer to midnight."

http://us.rd.yahoo.com/my/today/new_perils_push_doomsday_clock_closer_to_midnight;_ylt=AmUXlewr5ev2kNK_SfOHDFAL1vAI/*http://news.yahoo.com/s/nm/20070117/us_nm/doomsday_clock_dc_4

This is their private joke, to make this scenario more laugable than before for them. They could not care less, as they are manipulating every thing, and that statement is completely meaningless to them, as they are in control of every thing, in their conspiritorial lunacy to rule human beings, and to trash every one.

We'll see what the coming days, weeks, months, and years bring, and maybe there will be hope for change, when people begin to take action, to correct this situation, globally, united in spirit, permanently.

These are the most evil of evil people and abominant kids, in our immediate vicinity in our universe. We must begin our cleanup campaign here, as it begins where I am, and will continue from here on out, till we have rid my universe of all of these horrible people, and all others like them, and have made them surrender, or have sent them on to my Epcot Center.

I will establish my relgion in my universe, and begin my ministry, and they are not going to stop me, as my religion will bring positive change for all of us, forever.

I must establish myself outside the bounds of this Lesbianistic society, so your efforts and concern for our future, and your selfless giving of donations to my ministry, to allow me to set up my ministry, outside the bounds of this Lesbianistic society, non-dependent on Welfare, Supplemental Security Income or SSI, Medicaid, and non-reliant on the supported and financed Housing and Urban Developement or HUD subsidized apartment that I live in.

Once I receive in the mail, the 'Gift' donations to set up my ministry outside the bounds of this society, I believe things will gradually begin to positively change for us all, and the shift to positivity will begin, and a new universe for us all, will become for the first time, ever, a potential reality with the sincere religious practice by all of my followers, all of you, who are practicing my religion, diligently, and daily, or as much as your health and your time permits.

There in, with your efforts to practice, will bloom your flowers of dignity and hope, justice and freedom, willingness for sharing, cooperating, and participating with others in our new age of enlightenment, the Gurkian Age, and your new found respect for self and others.

You may then eat them, after you have cleaned out their guts and removed tummy foods and rectal feces, etc., that are decaying matter, that is harmful to your health, and after you have prepared them for eating by cooking, grilling, fire

Further, it is now time to kill all military personel, SWAT team personel, all government personel, and all civilian, or trained military, national guard, state or federal militia, toy soldiers, the people who dress up in old time war regalia, and outfits pretending they are old time, earlier period, confederate soldiers, or old time earlier period, union soldiers, who act out old time North the 'Union' vs. South the 'Confederates' and who participate in city and town parades, across the United States.

It is now time to kill all retired military personel who support the deranged, crazed, insepient, and corrupted Lesbianistic societies we live in, around the world. It is also now time to kill all persons who in any way support the governments of the world, including but not limited to, all school, university, kindergarden, missionary, day care center workers, nursery school teachers, teachers aids or teachers assistants, United Nations workers, United Nations teachers, substitute teachers, catholic school teachers, Irish protestant school teachers, parochial school teachers, all religious denominations around the world school teachers and their school support workers, government funded school teachers, tuition assistance by the government school teachers, all personel who work for the United Nations, all civil service agents, all DEA agents, all FBI agents, all FDA agents, all EPA agents, and workers, BLM agents who are Lesbianists as well as those BLM agents' who are Lesbianists as well as those friends of theirs, who support the Lesbianists.

It is also time to kill all other federal, state, or local, or globally tasked organizations, such as the CIA workers, INTERPOL workers, the several groups of workers within the Canadian Mounties, NIC a spy department of the U.S. Navy, the Korean C.I.A., the United States Presidential Police agents the Secret Service Agents, National Park Rangers, State Park Rangers, Forestry Service workers, Pentagon workers, National Library Of Congress workers, and all others who work in any capacity supporting any government organization, those listed above, and all others, as well as all persons who support the Lesbianists in any way at all.

It is now time to kill all judges, bailiffs, Supreme Court Justices, and the employees who work in their organizations, and all other judges, legal clerks, para legal workers, court stenographers, justices of the peace, lawyers, attorneys, state attornys, prosecuting attornys, defense attornys. It is time to kill all officials of all government organizations, and all the people who work for them and or even only support them, such as restaraunt workers who feed them lunch, coffee shop workers and owners who feed them coffee and food, bars and restaraunt personel and owners of bars and restaraunts who support and feed any and all persons connected to the governments of the world and who work for them in any capacity at all.

It is also time to kill all the money lenders who loan money to the Lesbianists, the mortgage company owners who provide the Lesbianists with house purchasing loans, and all the supermarket workers and supermarket owners, who supply food to the Lesbianists, as well as all of the druggists, the pharmacy workers, who supply medicines to the Lesbianists. It is time to kill all the taxi cab drivers who give rides to the Lesbianists, and to every person who supports the Lesbianists in any way, at all, unless those people surrender to my kids.

It is also now time to kill all civilian or civil servant or state civil servant worker who supports in any way, any Lesbianistic organization, such as the police departments, federal agencies, fire departments, libraries, schools, and so forth. It is also now time to kill all persons who maintain or provide services to any of the above listed organizations, and to all of the similar organizations in every country in the world.

This is my order to all of you, and you are all ordered, by me, GOd/ GOD, to kill all of them, unless they surrender. People also call me, 'Allah'. I'm the same person. Just do as I tell you.

You are to take my fuels' bombs with chlorine plastics' explosives formulas, and all other explosives formulas I've explained about on my bulletin board and the fuels' bombs explosives formulas including but not limited to radiological 'fracturable' rocks that provide so-called 'nuclear' explosions, all of my bombs' formulas, and all other bombs' formulas derived in part or in whole from what we have learned as I've explained on my bulletin board and to take them, and make the bombs and explosives, and to then use them, and then destroy and kill all of the Lesbianists, and all of the Lesbianists military bases, buildings, and kill every last one of them, all of them, leaving no one alive.

'Fivers' To Kill Lesbianists And All The Lesbianists' Supporters

You are to then make certain they are all dead. If they are not dead, you are to kill them with a 'fiver'. A 'fiver' is a bullet with five lines drawn or scored with a knife or sharp instrument into the tip of the bullet, to form a 'five' line pattern, so that the bullet will fracture into 'five' parts.

You are to take three 'fivers' and shoot each person who has not stopped breathing, and who is not dead yet, and shoot the three fivers into the head of the person, to make certain the person dies.

Three 'fiver's will destroy enough brain material, to kill any person if the bullet is large enough, and the handgun, rifle, or weapon is powerful enough.

The handgun bullet size must be at least larger than a .22 calibur, and at a minimum, 7 millimeters. You may use .38 calibur, 9 millimeter, 10 millimeter, .45 calibur, or any other, large sized bullet to make certain they are dead. Buckshot, 8 guage to 10 guage, or any comparable rifle load or handgun load, or home made weapon load, will work equally as well, with three shots into the skull. A machete or similar instrument should then be used to chop the head off of the person at the neck line. If you have a machete or hatchet, or axe, and if you prefer to chop off the head of the person, then by all means, you are to do so. The point here is to kill the person one hundred (100) percent, and not leave the person in a coma.

Coma Patients

A person in a coma is perfectly alive, and can hear every word you are saying, but can not respond. People in a coma after severe accidents, such as near fatal traffic accidents, where their limbs were broken into pieces, or war victims, who are on life support in Veterans' Hospitals, can be in agonizing pain, and no pain medications are given to the patient as the patient has no way of communicating with the doctors, nurses, or staff members to complain about the pain, in many or in most cases, if not nearly all cases. Some patients can write or scribble out a note about the severe pains, or make gestures with their hands, pointing at painful spots they are able to point to, and then making squeezing motions, to indicate as best as they can, that there is something wrong in the area. Some people may catch the meaning of the gestures, but others do not, and may just wonder what is going on with the patient and they may wonder what the patient means by the hand gestures. Others, doctors and nurses, and staff members will merely find it amusing that the patient is making the gestures. Some doctors and nurses, and possibly staff members, will figure out the patient is in pain, and then steps can be taken to alleviate the pain, but it is an ordeal for the patient, and it may take months, or in some cases, years, before staff, cleaning persons, food servers, orderlies or assistants, nurses, or doctors figure out what the hand gestures mean.

The coma patient, after healing from the injuries, may still have residual pains, such as residual spinal pains, or neck pains, or ligament pains where ligaments were twisted, or ruptured, or severed, partially or wholly, and the ligaments didn't grow back properly, or didn't grow back fully, or much, or perhaps, in some cases, not at all, which does happen a lot, and each time the patient is moved in her or his bed, the person experiences extreme pain as no medications for pain are given to the coma patient, unless the patient has been

successful in communicating that there is pain felt by her or him, in her or his body.

Leaving coma patients on life support systems is the cruelest thing you can do to a person in a coma as there is no such thing as being 'brain dead'.

It is a cruel and abominable Lesbianists' joke on humanity, and on all persons, that the Lesbianists have perpetrated with their teaching doctors and nurses that coma patients are brain dead, and do not feel, hear, taste, or sense, anything at all, and it is just another one of the Lesbianists' ways to hurt and torture people, and cruelly and ruthlessly abuse human beings, in this case, in most of these cases, by proxy. There are doctors who are Lesbianists, and I have one who is one, that I am aware of, and he knows exactly what causes my health problems, but he sits there, non-responsive, and with a vacant stare on his face as if he doesn't hear, see, or know of any thing that is going on, something like the three monkeys with hands clasped over their, ears, eyes, and mouth, who represent 'hear no evil, see no evil, speak no evil' and then 'therefore, every thing is alright'.

All persons with brains, whether in a coma, or other sleep like state or condition, is perfectly brain alive as the brains and nervous systems, auditory, taste, touch and sense nerve systems, never die, until the patient stops breathing, and passes on.

All nurses and doctors are to remove all life support systems from all persons in a coma, immediately and confirm the persons have died. That will allow them to transel into my Epcot Center, and then be born again, as a tummy baby to a tummy mommy and to tummy daddies.

All persons in a coma, whether in a hospital, or in a nursing home, or at a private home or apartment, or in a group home, or group care center, are to be told the truth of this, and are to be told that you just leared it, and are to be told that I am GOD, and that I have an Epcot Center staff waiting for them to come in, to be treated for their traumatic condition, of not being able to do any thing about their condition to end it, as it is a miserable situation for these people who are in a coma, or in any trance like state or condition that resembles a coma, or a sleeping person, who can not wake up. The person is perfectly brain active, and there are no measuring devices to prove it available to hospital staff or to doctors, as none are made, and the technologies to detect a person's brain activeness and aliveness are kept secret after they are bought up, and then after the records of them are destroyed, and the information on them are kept secret and locked away, in vaults, and in storage facilities, hidden from view so that no one can get the information, and build a device to detect a person's brain alertness status.

After they are told the truth, and that you just became aware of it, you are to tell them to not be afraid, and that all measures to relieve them from their present condition, and all measures to assist

them to transel to my Epcot Center, where they can recieve personal care, and then helped to recover from the trauma of the coma, or coma like state of not being able to wake up, speak, and talk to people. They are then to be injected with a powerful sleep sedaditive, or induced to swallow several strong sleeping pills, as they may become afraid, and then, you are to help them to pass on, and to transel over to my Epcot Center.

In some cases, if you pull on the large toe of a person, or on the thumb, the person may have control to pull in the opposite direction. That is an indication that they are awake, and fully aware of what is going on around them. Please check patients to see that they have soundly fallen asleep, and snoring or breathing quietly, in relaxed manner, may be the only sign that the person is asleep.

Any sign of movement, mentally driven by the patient, no matter how slight, is nearly most always, nearly one hundred percent of the time, a sign that the person is completely brain alive, and that the person is completely aware of what is going on around her or him and can hear every thing. Even passing or expelling gas or farting, can be 'mentally' driven, and a sign the person is awake, and alert, and brain alive. Opening one's mouth is almost always, one hundred percent of the time, mentally driven.

Persons's in a coma, who have Eplilepsy, or other similar brain or neuro muscular disorder, and other conditions where patients experience spasming, whether the condition is diagnosed or not, these patients who spasm, may make some spamodic movement, now and then, and that is only a sign that the person is haveing a neuro muscular muscle spasm. Knee jerks or other similar movements, are not always muscle spasms and can be labored, mentally driven actions. These actions show the patient has control to that extent over her or his muscles, body, skeletal system, and other body systems related to the movement.

In any case, after the patient has fallen asleep, you are then to kill the person, and let the person transel to my Epcot Center, so that the person can recover in my Epcot Center, and then be born as a tummy baby, to a tummy mommy, and to tummy daddies.

All Persons Who You Kill Will Transel To My Epcot Center

Once you are certain all of the police, fire, teachers, and all others who support the Lesbianists' societies around the world are dead, they will transel to my Epcot Center.

It is now the time to bring an end to the lives of these people who support the crazed, insepient, bogus Lesbianists, and to destroy them all, leaving no survivors. Kill all of their family and relatives, and leave no one alive. Kill them all.

My Epcot Center will not be in any way, inconveinced by your brave and heroic actions. All doctors must be killed, all nurses must be killed. All medical techinicians must be killed. All library workers must be

killed. All school teachers must be killed. All art museum and gallery museum workers must be killed. All workers for all of these institutions must be killed. All of them, in every country of the world, unless they surrender and plead for mercy, and then are allowed in to my kids' place, for swearing in and for joining as civilians, my country.

Further, it is time to kill all media corporations personel, such as news casters, news men, news women, anchor persons, cameral men and women, talk show hosts, administrative persons, Hollywood's movie actors and actoresses, all radio broadcasters, and all personel of all radio companies. It is time to kill all news paper company owners, and publishers, editors, and all workers of these companies, unless they surrender to my children and plead for mercy.

It is time for all of you to kill all of them, and make sure not one of them is left living, including and most importantly, all politicians, who must all be killed, without any further delay. It is time to kill them all.

It is now time to kill Oprah Winfrey, Geraldo Rivera, Sarah Jessica Parker, Judge Judy, Jerry Springer, Liz Taylor, Michael Jackson, Clint Eastwood, Cher Bonno, Morgan Freeman, Steven Spielberg, Al Gore and his family, Hillary Clinton and her family, all of them, Jeb Bush and his family, all of them, Nancy Reagan and her family, all of them, former president of the United States President George Bush, Sr. and his family, all of them, including all persons related to him in any way, and all persons who work for him, in any way, and all persons who work for any of his associates, in any way, unless they surrender to my kids, and then plead for mercy.

We are not going to allow the Lesbianists to continue their illegal, inhumane, and horriblesome practices and activities on my planet, and in my universe, a moment longer. They must all die, now.

Is that understood?

I hope the answer is, "YES SIR! Mr. John Francis Ayres, GOd", as a 'negative' reply to my question is not acceptable.

Japanese And List Keeping

I haven't confirmed it, but from what I know, so far, the Japanese are very good at keeping lists, and they know about all the foreign people in Japan, and they keep lists of names of all of them, and they keep lists of names on all of the Korean people, and the Singaporean people, the Chinese people, the Ainu people, and the cast outs or 'burakumin' a group of meat cutters and fish sellers who some how got on a list of people who were felt to be 'unclean'. The 'burakumin' was a group of people who no one in Japan wished to talk about. The Japanese also, apparently, had lists on groups of people, who they didn't know much about, but they knew they were always doing things with each other. Those groups of people were the Lesbianists, so the

Japanese knew all along, who I was talking about and were nearly one hundred percent certain those groups were the Lesbianists living in Japan.

They read what I wrote, and the notes of mine were passed to many people on an e-mail mailing list, and when they heard that Steve Irwin had been killed, they felt they had heard enough and they told all their friends about my notes, and then the Japanese killed all the Lesbianists in Japan on that list they kept.

It's something I heard, and I haven't confirmed it, but I think the Japanese are fully capable of handling that, as they were fully prepared to deal with each one of the Lesbianists, and they knew who they were, and once the Japanese united, and decided to take action. The Japanese escorted all the Lesbianists to a meeting place, to which the Lesbianists were not happy to go to, but had no choice but to agree to follow the Japanese citizens who escorted them there, with the military or Japanese Self Defense Force, the Coast Guard, and National Police, and all other police agencies in Japan, plus the national organization of fire department workers, backing and supporting all the Japanese citizens.

As to what they did with the bodies of the Lesbianists, I'll leave that to them to explain to you, as it was quite brilliant and they had many very good ideas for dealing with the bodies of the deceased Lesbianists, who are apparently now in my Epcot Center.

The Japanese country side is now peaceful and quite, and things the winds are blowing, peacefully, and gracefully over the Japanese country side, cities and towns, across the ponds, marshes, lillies and lotus flowers swamp lands, bogs, bays, estuaries, lakes, streams, rice paddies, fields, mountains, and islands, from what I can understand and gather about the situation in Japan.

Surrendering And Pledging To Serve All People In My Universe

If the Lesbianists and their supporters surrender to my children, and then promise to devote their lives for the sake of others, serving man kind, and all human beings, and all people on this planet, and in my universe, for the rest of their lives, they will be allowed to surrender to my children, and my children will then arrest them and put them in a prison cell. If they are not willing to serve others, despite the fact that they say they will serve others and devote their lives for the sake of others, serving all people in my universe, then my children will ignore them, and my children will not arrest them because my children know they are lying. They must promise to do all they can that is humanely possible, for the sake of others, and devote themselves to the prosperity of others, for eternity. If they are not willing to do that, then please, just send them on to my Epcot Center, and we'll straighten them out, for there. My staff at the Epcot Center has training programs to straighten them out and make them nicer people, so that next time they are born as tummy babies, they will

behave and be nice to others, doing nice things for other people, after they are retrained, a little. The retraining program takes a while, but the results are very good to excellent.

If my kids decide that the person who is surrendering, is telling the truth, my kids will use the special teletransportation technology, something like what we see in Star Trek on tv, with Captain Kirk saying, 'Beam me up, Scotty!', as many of us have seen on daytime tv, or in the movie theater, and my kids have very good teletranportation technology or 'beam me up, Scotty' technology, and the person, once he or she pledges honestly to serve others, will instantly dissappear.

Do not be surprised if when the person surrenders and promises to 'serve others', promising to devote her or his life for the sake of others, the person suddenly dissappears, and instantly, the person is no where to be seen. The person was 'beamed' into a prison cell that my kids have constructed, using other technologies, and we have many prison cells waiting for the Lesbianists and for the Lesbianists' supporters, and for other bad kids in my universe, as well.

For each person you kill, my kids will keep earning points scores on your efforts to send them to my Epcot Center, and you will be paid, when you have finished your job, and then finally, go in to visit my kids. My kids will pay you in the monetary currency that is used in the underground cities my kids have built, for protecting people from these horrible Lesbianists and for protecting people from the abominant kids of mine, and the ghastly and naughty animals and very large bugs and spider like creatures, that the Lesbianists use to help them torture people with, to make the Lesbianists laugh, and to amuse themselves, as I've explained a little about, already. The more Lesbianists and Lesbianists' supporters you send to my Epcot Center, the more earning points you will score, and the more money you will earn, and you will be paid that money, when you go to visit my kids after you have finished your work, killing the Lesbiansts and the Lesbianists' supporters.

If the Lesbianists and the Lesbianists' supporters do not disappear after they surrender, and after they promise to serve others, and pledge to devote their lives for the sake of others, the Lesbianists and the Lesbianists' supporters are lying, and you can then kill them, and send them on to my Epcot Center.

My children will escort the deceased Lesbianists and Lesbianists supporters, once you kill them, into one or an other of my Epcot Centers, and will make sure that the Lesbianists and the Lesbianists' supporters get in for a meeting with one or another of my managers, or with one of the staff members who work with my managers to arrange retraining programs for rehabilitating the Lesbianists and the Lesbianists' supporters.

The Lesbianists and Lesbianists' supporters will not qualify as tummy babies, until they are finished their retraining and rehabilitating

programs. After they finish, they will be out, again, to join the rest of you, once again, but this time, as nice, kind, courteous, and polite people.

What Does This Mean?

It means, I want all the Lesbianists dead, but if they will surrender, and if they promise to serve all human kind, all people, and work and strive to enrich the lives of all others, dedicating their lives to others, then, you do not have to kill them, and you do not have to send them to my Epcot Center. If they are honest when they surrender, and when they promise to serve all people, devoting their lives to all people of the world, then my kids will 'beam' them in, using the teletransportation technologies that my children use. If they are lying, then my children will not beam them in, and they will be stuck where they are. If they are stuck where they are, after they surrender to my kids, and after they promise to dedicate their lives to the welfare of all others in the world, and to all others in my universe, then they were lying, and you may then kill them, and send them on their way to my Epcot Center, for retraining, and for rehabilitation.

It also means to kill any person who works for the Lesbianists, if he or she is supporting the Lesbianists to try to stop you from killing the Lesbianists. Also, it means that you should kill any person who tries to interfere with you, while you are trying to kill the Lesbianists.That's what it means.

Fermenting Oils - Fracuses Kiddies - Slugs, Snails, And Other Bottom Feeders - Feeding Everybody In Our Bodies - Putting An End To The Global Menace Of The Lesbianists - Changing Our Societies, And Our Universe, Forever Updated: 22-01-07 Rev.x.00.a 07:45 PST

Mix raw sugar, ocean salt, sessame seeds, dried fermented berries you have taken from a mix of berries fermenting as a flural hydrate liqour, or as a plain fermenting liqour, and make sure you dry them out in the oven, before useing them.

Mix the items together in a container, and mix in a drop or two of apple juice, pear juice, papaya juice, kiwi juice, banana juice, cherry juice, cranberry juice, strawberry juice, peach juice, nectarine juice, or plumb juice, and let the moisture settle into the mixture to allow it to become only partially and only very slightly moiste, and not wet or liquidy.

Allow the mixture to sit in a warm or cool place for a week or two, to eight to fifteen weeks, or even a few years, and it will grow molds in it, and with the longer the duration up to a point of sitting and

molding, the more useful it will become.

It might develop a pungent, unpleasant odor, like a dead animal smells, which may mean that a fungus that is not very suited for you to use as a starter mold for starting a fermented oil batch has developed in the container, and in that case, you can throw the whole mix out, or use it for fermenting beans or something. Cheeses can be made with these kinds of growing funguses and molds, if you are the daring type, who likes to experiment with new and different tastes from variously fermented mixtures.

You can add some ocean salt, and make a soury vinegar, and then try to rescue it with the combination of the soury vinegar, ocean salt, and a little raw sugar, and some honey.

It may be that some bacteria is in the mix, and it needs to be eaten up, before you can use it safely for a healthy mold mix for starting a nice cheese molds and funguses mixture.

Ocean salt can be added in slightly large amounts with raw sugar. Once the odors have stabilized, and once they have developed a more pleasanty odor of a fermenting mixture, with a slight alchohol ferment odor that will indicate that it is alright to use, and that it will not be harmful to you.

In some cases, the bacteria in the base mix, may be a result of hairs or particles of skin from the body of a dead rat or mouse, that some how found his or her way into the sessame seeds, or into the dried spices, or into dried berries that you used, and then died.

In that case, you might as well throw it away, unless you have a lot of patience, and do not mind waiting and working with it, for several years, for it to become something you can use.

One way to make it into something you can use is to mix in a high potency liqour brew, and let it sit for a number or years, and ferment it, and then after it smells nice and rosy smelling, after ten to fifteen years, to thirty to fifty years, you can evaporate the liquids out in a pail on an open porch that has a net covering to keep animals and animals' hairs out of it. Make sure there is good ventilation, and it should evaporate out, safely after a number of days on the porch in the sun. If there is no heat to make it hot enough to combust, and if there is good ventilation, it will not combust, and it will evaporate out, safely. Adding ocean salt and raw sugar to the mixture so as to fill it up with raw sugar and acidic ocean salts, will further help to safely evaporate out the liquids and prevent the liquids from combusting, accidentally.

Once the liquids have evaporated out, safely, you can use the materials that remain in the pail or container, to start a fermented oils brew mixture, or to start a cheese molds and funguses mixture, if you wish to make a nice cheese molds and funguses mixture.

The particles of skin or hair from the dead rat or mouse, or pidgeon, or other animal, will have been eaten up by all the ferment fracuses kiddies, and will no longer pose a threat to your health.

Fracuses Kiddies

Ferment fracuses kiddies are just plain old ferment kiddies who like to devour large bits of human or animal tissues, mites, or cockroaches, or their body parts, and then poop them out, and pee them out into the liqour brew.

You'll always have some of these kiddies in your brew mixes, and they are useful to you, as they eat up the things that you do not want in your tummy. Also, there are other kiddies, such as snails, and other bottom feeders, that find their way in, in the skins and pulp material as tiny animals, or the eggs of animals, and they hatch, and they develop, and they grow big, and they then bottom feed, and they eat any dead rats, and dead rat parts from rats that might have fallen into the brew. These are useful pets, that you want in your rum and liqour brews, as they will keep the liqour brew healthy to drink, and they will keep you from getting ill.

Slugs, Snails, And Other Bottom Feeders

In the old days of bucanneering, as I may have mentioned, before, this was a crucial part of keeping the sailors alive, on their long voyages, and if crew members fell ill due to an unhealthy brew, with a dead rat in the mix, making it sour, and making it unhealthy to drink, then if there are not enough snails, slugs, and bottom feeders in the barrel or rum to eat the dead rat parts, the sailors will get ill, and when they get back to port, they will hang the rummery owner, and give the business over to the son, or to a third party, often times, one of their fellow crew members, who is liked by all the people, locally, and on the ship.

This is the case, still today, with many rummeries owned and handed down in the same family, from such instances as that.

Bottom feeders, slugs, snails, and many types of bottom feeding earth worms, and other types of healthy bottom feeding worms, that cohabitate well with the slugs, and snails, and other animals that are too tiny for you to see in the rum brew mixture, without a powerful microscope like, optical videoing technology, are essential to your brews mixtures, and they may increase in numbers as they make babies like every animal and living being does, and so now and then, you need to reach into your brew container, with your hand, or with a fine mesh small aquarium use fish net, and scoop them out, and flush them down the toilet, or let them loose in a local pond, lake, mountain stream, or water springs fresh water well, where they will help to keep the water clean, ahd healthy.

Once you have the materials to make your fermented oils mixture, you can add them to your container of food oils, and begin to ferment them, or use them to make a nice cheese mixture, to ferment and then

to make solid as it matures with age. You can also use the materials to make a fermented bean mixture, or fermented barley, or fermented rice, or fermented millet, or fermented wheat mixture.

You can also use them to make a fermented brew mixture, as there will be many healthy molds and funguses kiddies in and among the dried out materials. Your health will improve, and by adding different spices, nuts, berries, root particles, ground up kiln dried pine cones that were green to begin with, and then fermented for a few months to a few years, in a brew mixture, then dried out, and ground up into a saw dust powder consistency, you can then have lots of crystals cages salts kiddies of various kinds help you to make a nice regroverative brew, to help you to regroverate your amoebes.

Feeding Everybody In Our Bodies

You know, we need to eat foods to stay alive. We also need to feed all the living animals in our body, to help them to stay alive, so that they can help our health remain normal, from day to day. We also need to feed the amoebes all the foods and juices, salts kiddies, and the poopy liquids and pee liquids, and other liquids with other types of tinier salts kiddies in them, as well as other types of food kiddies, we haven't learned about, yet, but with all of them inside your tummy, you'll be able to feed every one who needs feeding, and then you'll be successful with your amoebe 'auto regroverate mode, on!' formula, so long as you have degunked your body of all the petro chemical oils, kerosene, diesel fuels, and other chemicals, the Lesbianists have been feeding you, from birth, in your diets, if you live in a society, where you are fed baby formula mixtures from Gerbers or Heinze, or any of the other baby foods manufacturers.

Putting An End To The Global Menace Of The Lesbianists

We need to put an end to this practice by the Lesbianists of poisoning us with their petro chemical industry oils and tars salts kiddies, which they use to rot our teeth out, and cause tooth decay, and which they use to cause ulcers in people's tummies, and which they use to cause lots of unpleasant illnesses, and diseases in human beings, and in farm animals. These petro chemical salt kiddies, and formaldehyic salts kiddies, all harm our amobes living beings children, and all the other animals that live inside of us. One day, we will have a lot of people practicing my religion, sexaling, and making prayer statements so as to help us to erase the karmic markups we have, that keep us living under the tyranny of these Lesbianists, and in their societies, suffereing the daily poisonings that cut our lives short. When we have erased enough of our karmic markups with my religion's religious practice of sexaling to purify our selfs and others around us, and to clearify and erase our karmic markups, we will eventually be able to say good bye to the Lesbianists, and their practices of poisoning us, and causing us major headaches, or problems in our lives.

Changing Our Societies, And Our Universe, Forever

At that time, we will be able to say hello to a whole new way of life, and that will be the beginning of our new, thrilling, and excitingly challenging, one world, unified, planetary, global culture, and it will be the begining of our new, thrilling, and excitingly challenging, one universe, universal culture for all of the people in our universe, who we have been living in our universe together with, since we first came out, and began living here in my universe, a very long time ago. We have to start somewhere, and so here we are, now, begining to prepare the foundation for our long and prosperous journey ahead of us, as we clean up our universe, together with each other, and clearify and erase all of our karmic markups, and all of the karmic markups of all my children, and of all living beings who live with us, together with us, in my and our universe. We need to take responsibility for this clean up campaign of ours, as we are the only ones, besides my many worker, unionized children, who can use our brains, and use our sexaling organs, to produce purifying energies of all types, to help us clearify and erase all of our karmic markups, and all karmic markups, and karmic things and dings, of all of my animal children, and of all of my living beings children, and of all of my human children.

My kids have built underground cities, to help us to get started, in learning about the new ways of living together, and of sexaling together, for practicing my religion together with each other, so that we will be able to prepare ourselves, for our new global, unified society, and for our new, universal, united, civilization. We have a long ways to go, but we are starting now, with your efforts to correct this situation by eraseing the karmic markups and karmic things and dings, that have us living in this truly awful situation on this planet, in our universe, that we are now, curently living in. One day, when all the Lesbianists are either dead, or have surrendered to my kids, we will be able to gradually educate ourselves, and change our understanding about women and girls, and about men and boys, to understand the truth about women and girls, and about men and boys, and then we will begin our new and exciting journey into our future, together, with my religion at the basis of our new, unified society, universal culture, and universal civilization.

Donations To GOd

Why can't anyone donate any thing to me? I am GOd. So, how come no one can send me a penny in the mail, or a box of cookies, or a pair of socks, or something? I don't think I'm asking for too much, but I'm just curious about why no one can send me anything in the mail?

I don't get any phone calls. No one sends me any e-mail. No one tries to visit me. I have a religion, and I'm asking people to practice it. Now, how come no one can contact me?

I once said that I am in a monastic mode, and it is a cloistered monastic mode. That means, no one can be contacted out side of my monastery by any one inside the monastery, and no one can contact any one inside the monastery, by any one outside the monastery.

If there is no legitimate monastery business then no person will be allowed to contact me, or for that matter, any one else inside my monastery, who is leading a monastic life, with me.

Well, there is only me, right now, but maybe in the future, some one will be in my cloistered monastic discipline with me, helping me with my religious duties of doing my religious ceremonies, as I've mentioned about, before.

Monastic Mode

What does my 'monastic mode' mean? It means that I am here as GOD. You know, there is only me. I of course never sent any one, such as the Lesbianists claim. Why would I? I don't need any one to do the things I need to do. That's sheer idiocy to think I would have a son or daughter, and send them to do my business. That's absurd. You've been snookered into believeing all those hogwash tales, and now you don't know who I am, and you don't have the karma to believe in me, as a result of your following and believeing all those hogwash tales. My kids are everywhere, and they are doing their jobs.

Who Works For Me, Anyway?

Now, as I've been saying, I'm going to have you do your jobs, and that is to use your genitals, and to use your body, and to use your brains, and then participate in my religion, using your genitals and your body and your brain, and sexalate with each other, and purify your karma? Does that sound like a joke to you? If it does, you are very mistaken because it is not a joke in any way, and I am absolutely serious when I say that you are going to use your 'equipment' and I almost want to call it, your 'field' equipment, because you are armed with it, day and night, and you are going to use that equipment, to clearify and erase your karmic markups, and to purify my universe. Is that okay with you? I hope it sure the hell is, as a "NO SIR!" at this point, would be an unsatisfactory reply. Do you understand me? I hope so. You are going to jump ship, as I order you to, or be thrown over board, if you have a problem with that. I hope you understand.

Well, as far as I can figure it, no one realizes that I am GOD, so no one can donate money to me. If some one realizes that I am GOD, than

for the first time, that person will be allowed to donate money to me. That person will be allowed to visit me, or call me on the phone, or donate money or food to me, or practice my religious ceremonies with me, if that person believes, and understands, and realizes, that I am GOD.

Right now, there is no one who realizes or understands that I am GOD. No one of course believes I am GOD. Never the less, I am GOD, and I am sitting here, waiting for donations, to help my ministry get started.

So, that is the reason that no one can get through to me, or donate money to me, or send me a postcard with some kind of message of cheer and support in it.

There doesn't seem to be any body who believes that I am GOD. Well, that isn't surprising. People do not have the karma to believe that I exist, is one way of looking at it. They have ignored my existence, and have not had any real thoughts about me that would link them to me, in my monastic mode.

What does that mean? It means, that no one remembers me, as the guy who created all of you.

It also means, that I am in a religious mode, and no one understands that, or believes that I am in a religious mode.

That is peculiar, since I am giving you a religion, one of my oldest, for you to practice, that will assist you in purifying your life, and that will assist you in eraseing and clearifying your karmic markups.

That's very peculiar, but it is not that peculiar, as you do not have the karma to realize and understand that I am GOD.

In any case, there will be no donations, no telegrams, and no phone calls or letters to me, so long as you do not realize, understand, and then of course, believe that I am GOD.

Well, any way, so it goes.

Obeying Orders

Now, I want all these people, killed. Hillary Clinton. Bill Clinton. Chelsea Clinton. Ted Kennedy. Al Gore. Tipper Gore. Harriet Gore. Cheryl Gore. Dave Gore. Bill Gore, and all people who call them selfs, Gore and pretend to be related to Al Gore, or to Tipper Gore. Mr. Al Gore has lots of friends, who are also Lesbianists, and I want them all killed. Oliver North. Monica Lewinsky. Eve Arden. Elizabeth Arden. Michael Jackson. George Bush Sr. and all other George Bushes. Do you understand what I mean? It means, that they are all Lesbianists and they are all going to die, and we are going to blow up Washington D.C., and destroy Capital Hill, and level that area, and make it sink beneath the waves of the Atlantic Ocean. That's how big a bomb I want you to make, with my fracturable rocks, to then blow that area out of the water, and make it sink below the waves of the Atlantic Ocean.

You'll probably need more than one bomb.

Did you know that Washington, D.C. is lying on a fault line, deep down, and it is on an ocean shelf, that has the ocean under it, lapping at the earth, very far down. That means, that it is on a fault line, and it is on a shelf, that is hanging over the ocean's waters.

Now, if you hit Baltimore, and Maryland, and Northern Virginia, and Washington DC with a large enough bomb to blow Baltimore out of the ground, and level it, and with another bomb large enough to blow Washington DC out of the ground and level it, at the same time, and a few more bombs, large enough to blow Maryland, Virginia, and that whole metro area out of the earth, at the same time, you will sink the nation's capital, that is, Washington DC, below the ground, as it will break off the ledge that it sits on, and it will sink into the ocean, as the ledge crumbles below it. There will be water, from the Atlantic ocean, all the way out to West Virginia.

Now. I have every right to say that, and demand this, as it is a matter of self defense, as I know these motherfuckers are eating people, cannibalizing my kids, for their amusement, thrills, and fun, and they will continue to do that UNLESS THEY ARE STOPPPED! Do you understand that?

I hope so. I am going to see the whole of Washington DC and the area leveled, with Baltimore, and Northern Virginia, and Maryland, as well, and we are going to sink that area into the ocean, and make it disappear below the surface of the waters of the Atlantic. Now, that should be clear, shouldn't it.

This is not a joke. We will have to send a lot of my children to my Epcot Center, in the blasts that will occur, and in the after math of the blasts, but that is unavoidable.

We will have many people, drowning in the waters that come in from the ocean, and that stretch out to the hills of West Virginia, with only slight outcrops of land, hills, here and there, with a few people lying on top of them, blinded and in awful pain, but they will not live long, as they will not be able to survive for long, and they will pass on, die, and then they will transel to my Epcot Center, where they can get medical relief, medical treatment, therapy counseling, and rehabilitative therapies.

Now, that is what we will do to Washington DC and vicinity, so every one, please prepare for it, and get your pain medication in order, so you can take an over dose of pain pills, when your area is blown and shredded to bits, with one or more of my fracturable rocks bombs, as I've explained about.

Every Politician In The World To Be Executed

Next, I want every politician in the world, canceled out. I want their passports for living on our planet, canceled. That means, I want you

to kill each and every one of them. Not only do I want you to kill them, all, but I want you to kill every single one of their associates, around the world. They are all Lesbianists, except for a few of them. If you happen to kill one of the non Lesbianists policitians by mistake, that is okay. They have the option of surrendering to my children, available to them, and once they surrender, they will not be killed, by accident.

Every Hollywood Actor And Actoress To Be Executed

After that, I want every Hollywood actor or actoress killed, and that includes all the actors and actoresses, around the world, and they must surrender to my kids, if they wish to not get killed. There are a lot of them, who are not Lesbianists, so those I've mentioned, who I've let you know are not Lesbianists, you can forget about them, and leave them alone.

There are more than a couple of billion Lesbianists living under the earth's surface, in underground cities. I did not realize there were so many. We need to kill them all, so we will, in time, unless they surrender.

Is that clear, every body? I hope the answer is, "Yes, Sir!" as you had better not answer any other way, or you will get yourself on my shit list. Is that understood? Good. I am the boss of my universe, so if you do not like it, than jump overboard, now, sailor. Have you got that clear? Good.

Jump Ship, Explained

What does 'jump overboard' mean? It means you are going to have severe problems with me, if you do not obey orders, and that there will be difficulty and jail time, ahead of you, if you continue to ignore my commands to you. It means there is going to be trouble, if you do not obey me. My kids are in charge of handling all the details on that, and it is not a joke.

Fair Warning

We are not going to let these Lesbianists run their show, one more minute. We are going to put an end to them, and their activities, here on this planet, and every where else in my universe, and this is fair warning of that.

Particle Remis Technology And Particle Dismiss Technology

As I said, once before, there is a technology called particle remis technology. There is also a technology called particle dismiss. They are the technologies that you can use to feed 2.3 billion Lesbianists down under the surface of this planet, and on every other planet that they are on.

Dismend Technology And Remend Technology

It is easy to dismiss molecules, and to dismiss, or dismend all the beings who need to be dismended, and sent to my Epcot Centers. It is also easy to remend them, and then get them back into the foods that I need them to be a part of.

My kids keep track of every one who needs to be dismended, and then remended. That is a lot of work, keeping track of every one, but that allows us to dismend the living beings, and animals, that I can let off from duty, and from further service, and then send to my Epcot Centers for them to live in. I can then recall them to duty, and remend them, and then have them serve in an apple or an orange, or banana, or a brick. Do you think that is a joke? It is not a joke, and there is no joking allowed, on my shift. Do you got that? I hope so, because if you do not, you will have to learn how to swim a long ways, as it is going to be a long way from shore, after I ask you to jump over board, and I have sailors who practice, all the time, just to show the passengers how it is done, just in case. I will have you jump from ship, if you do not get along with me, and if you disagree with what I am doing, pretty soon, as we are departing, now, or just about now. That means, we are not going to play around, much longer, and we are going to set sail. That means, there are going to be a lot of people practicing my religion, pretty soon, as they will learn about it, and they will begin practicing it.

Mentalcosis / Mentaltosis And Comatosis

Mentaltosis is the state of a vegetable, like a stalk of cellery, or a plumb, or an orange. Comatosis is the state of complete awareness of self and others. Comatosis is not brain dead, i.e., more or less, mentaltosis, with no real significant brain activities occuring, other than the ones that keep you alive, and vegetative, and you do not need assistance to remain and function in a state of mentaltosis, and the Lesbianists know it. You are severely brainally handicapped, and when you come out of it, eventually, after you have your karma fully completed for being mentaltosically ill, and after it is then time to get on to something else, you will be very brainally handicapped, and you'll be an extremely retarded person, with little to nearly no brain awareness going on about self and others, but able to walk, barely, and later, after many many lifetimes as a mentally retarded individual, you'll begin to be able to mumble a little, or babble a little, for umpteen lifetimes, as you begin to get your higher brain functions, back, which takes a very long time to work out, and many many lifetimes to work out, karmically.

Comatosis is like a hit on the head, and when you wake up, your faculties are not all working, and you may not be able to speak, or move, or talk to your friends, but mentally, you are all there.

Mentaltosis is like a train ran over your brain, and every other nervous system in your body, nearly, and you are completely unable to think, or do any thing else, and you are reduced to a mere pumping heart patient, with not much else going for you, except you are breathing, and technically, you are alive. You can sit there for a

million years, or a million or so life times, before you begin to come out of it, and then reveal your disorder of severe mental disorganization, mental disfunction, and mental retardation. There is a big difference between a bonk on the head, and a train running over it, and the rest of your body. Coma patients are fully aware of what is going on around them, and they may not be able to speak, but they are there, and they can twitch a finger, now and then, or flex a toe, or raise their tummy up a tiny bit, to pass gas, usually, and relieve the bloating sensation they are experiencing in their tummy, and in their intestines, or colon. They may be able to grasp your hand, and fully hold on to it, and not let go, for hours, if they have the strength for it. This horrible torture the Lesbianists are perpetrating on comatosic patients, needs to end, now. Person responsible for continuance of hospital policies, despite our informing them of the truth regarding this, are to be shot and killed, and sent to my Epcot Center, if they interfere with the removal of the life support and life support assitive devices, that are plugged into the comatosic patients mouth, or nose, or other orifice of their body, or any part of their body. If some one refuses to cooperate, you are to throw them out of their hospital unit, and give them a good whack on the head. Come back in a few days, and then disconnnect their life support assisitive pumps, and tubes, and so forth, and shoot them in the brain with three 'fivers', as I've explained about, and then send them on their way to my Epcot Center. That is an order. Now do it.

I want you to pull the plugs on all the GI's and civilians who are on a breathing assistance machine, and life support assistance equipment, and I want you to send them all to my Epcot Center, where they can get treatment, and therapy, and then get themselves ready for being born, again, as a fine and a healthy, tummy baby to a tummy mommy, and to tummy daddies. You had better comply, if you know what is good for you, as my kids are now keeping track of your records on this account, and you are not going to do very well, if you do not follow orders. Is that clear. I will not have any insubordination of duty on my watch, and that means, you had better learn to follow orders, or you will be asked to jump over board, and then go for a very long swim to shore.

Michael Jackson

Michael Jackson is the biggest joke in the world. He is a white boy, and he pretends to be related to Janet Jackson, a black woman, partially, and they pretend to be related, and he is as white as an elbow macaroni, or a white goose. He is not a black person, though he does have some black ancestry, but he is a primarily white person, and he pretends to have bleached his skin color, which is a crock of shit. Now, I want you to kill that mother fucker, as well as Sylvestor Stallon, and Arnold Schwarznegar, Clint Eastwood, Morgan Freeman, Kirk Douglas, Matt Damon, Robert De Niro, Anthony Hopkins, Gary Busey, and their Lesbianists' buddies.

Retractions

Mr. Jerry Springer is not a Lesbianist. I was mistaken about him, as he was already killed by them, in a previous lifetime, as he developed a desire to bad mouth them, and they didn't like him, and they kicked him out of their group, and they killed him, with their murderous torture routines. Penelope Cruz is not a Lesbianist, but she was, but they killed her, and tortured her, and she is off the list. Angelica Huston is not a Lesbianist. She was, but they killed her, after torturing her. She is a popular and prominent person, and if she hasn't been abducted yet, by the Lesbianists who will feed her to my abominant kids, like they did to Steve Irwin, and Jeff Corwin, then they will be gettting around to it, not too long from now, as they like to feed her to the abominant kids of mine, just as they do Bill Gates, and lots of other, former Lesbianists. None of the Baldwin brothers are Lesbianists, either, as they were already kicked out, and killed by them, and then grievously tortured by them. They continue to be main attractions for feeding to my abominant kids. Jack Nicholson is not a Lesbianist, now, either, but he was. Ben Affleck is not a Lesbianist, as he was also kicked out of their organization, after they tortured and killed him. Charley Sheen is not one, either, but he was. Martin Sheen is not a Lesbianist, but he works for them, and he was one, before they kicked him out, after they tortured him, and killed him, in a previous lifetime. Michael Douglas is no longer a Lesbianist, either, as they killed him, after their brutal torturing of him. He is up for being abducted, and for being fed to the abominant kids of mine, as he is a prominent person, and Kirk Douglas enjoys watching him get eaten up, and Kirk Douglas will laugh his guts out, as he watches Michael Douglas get tortured by the Lesbianists, which Kirk Douglas is a confirmed member of. Cher Bonno is not a Lesbianist, as I was mistaken in memory, though she was a leader for a while with Oliver North, she was killed by them, after being tortured, because she was getting "soft". Sunny Bonno was a Lesbianist, as well, but he was also killed after being tortured, officially kicking him out of the members league of Lesbianists. Sunny Bonno was captured, and abducted, and a body double was placed on a coroner's table, and Cher Bonno knew that the body double who was dead, who looked like Sunny Bonno, was not Sunny Bonno. The Lesbianists subsequently fed Sunny Bonno, after they captured him off the ski slopes, to my abominant kids. Elizabeth Taylor was thrown out of the corp of Lesbianists, after they heinously tortured her, and murdered her, and the Lesbianists have her slated, scheduled, after they find a way to abduct her, for feeding her to my abominant kids. Dennis Miller is not a Lesbianist. Though he was one, after torturing him, and sushi-izing him, please see my notes on that, the Lesbianist's sushi-izing of Dennis Miller eventually killed him.

It's hard to keep track of some people, as to whether or not they are currently Lesbianists. Others, are not so hard to keep track of, and I want all of those mentioned, killed, immediately.

On Praying, Fucking, Sucking And So Forth

You are rewarded for praying Nam Myeo Ho Ren Ge Kyeo. You are also rewarded for fucking, sucking, tounging, licking, fingering, dicking or massaging your dick against a woman's bun bun, or inside of her butt hole, where there are lots of sensitivities buttons that get her clicking and eroteming and orgasming, or against her titties to get her eroteming and orgasming, and so on, and for palming or massaging a pelvital button, or the love and joy stick, the dick, or a love button or love patch, igniter switch, or whatever nerve sending touch sensitive love joy button there is embedded into your body, in the pelvis, groin, vagina, and in the musculatures of the groin, pelvis, and vagina, with the palm of your hand, and so on. You also get rewarded for throating a woman with your dick, as there are lots of love buttons in her mouth, and throat, lips, and so forth. Men also have love buttons in their lips, throats, tounges, mouths, butthole, and on their body, and those buttons also get clicking, and turning on and off, and sending sensitivities messages or signals, nerve pulses, up the eroteming nerval system and up the orgasming nerval system. You get rewarded for dicking men and boys in the throats, and in the buttholes, and their bodies, just as you get rewarded for dicking women. There is no discrimination in this area, and every one is

equally rewarded for their meritorious acts of dicking others, women, girls, men, and boys.

Why are you rewarded for praying Nam Myo Ho Ren Ge Kyeo, and for dicking, fucking, and sucking, bumbeying, or moving your vaginal bumbey package against a woman's sexaling body parts to erotemize your self, and the woman, and for breasting your titties, i.e, rubbing your titties against or flopping them against and massaging them against a woman's butty butt or against her other sexaling body parts to get you and your friend sexually erogenized i.e., sexually stimulated, erotemized, and orgasming, and for other sexaling activities that help you and your friend and friends to produce purifying sexaling energies?

You are rewarded for your praying and for your fucking, sucking, dicking, and so forth, for helping to get every thing and every body going at the right pace in synch with every thing and every body else, for every body in my universe who is working for me, to keep them moving in harmony, perfectly meshed and in synch and in a timed persuasive mosture, with each other, so as to keep my universe standing up, strong, wholesome, robust, healthy, well, and fine. You are rewarded for praying as well as for sexaling, as you help move my children along as they do their work, as you pray and as you sexal and spray out energies from eroteming, from erotistically orgasming, and from sexually orgasmically convulsing, i.e., phlumetting, while you shatter out and spray out purifying energies in all directions, that will clearify and erase your karmic markups, and the karmic markups of others, all around you, for millions and more of miles, way out beyond where you are activiating and religialing, i.e., sexaling.

Your dicking, sucking, licking, titty massaging others, and so forth, will get wonderful and wholesome, GODLY, purifying energies shooting out of your bodies, and the energies shoot out at rates of speed that also help my universe to keep synchronized, and to move along at the right pace for it to be able to stand up and remain stable and solid, durile, strong, wholesome, pure, and a nice place to live in.

Every one who works for me, has a rate of speed they work at, a life pace, or life spin.

We all have a pace of life. In some cities, it is fast and hustling. In some places, it is slow and whimsical. My kids work according to a rate of speed that is metered, and they keeps every one moving as best as they can, according to this metered pace.

The metered synchronized pace that my children work at the rate of is one thirty seventh and one fifth, approximately, on the metronome.

If you help to push my kids along at that rate of speed, or a rate of speed that is close to it, as you pray at a metered synchronized pace and rate of speed, and as you fuck, suck, and so forth at a metered synchronized pace and rate of speed, then you are rewarded with angel

dusts, or purifying energies faerie dusts that my kids daub on your head, and throw buckets loads of over your head and body and that they wash your insides out with and that they wash your body, inside and outside, with as they shower them all over you on the outside of your body, and all around in your body on the inside of you, which then help to clean you up and clearify your karmic markups, cleanse your karma, and purify your life, making you a shining, radiant, pure and holy being, though you may not notice at first, as we are too filthy, karmically speaking, to notice the changes, as our karma is too thick and mucky to allow us to feel the changes that are taking place in our karma and life.

I have a gradient scale for how close you keep people moving, and at what rate of speed you help to push them along, and as you help to push my kids along, so that they can do their work, you are rewarded, in accordance with my gradient scale, with more angel dusts or purifying energies for better preformance, and with less angel dusts for poorer or less effective performance.

You have to do some thing that will help my kids move along at a metered pace, so that they can get their work done. Praying Nam Myeo Ho Ren Ge Kyeo sets off a time frame synch. A time frame synch is the metered click, click, click, of the metronome. This time frame synch or metered pace, that you achieve while praying, Nam Myeo Ho Ren Ge Kyeo, will help keep every one moving, at the right pace, if you pray it in a rythym and at a rate of speed that will synch up with a metronome at one thirty seventh and one fifth, approximately.

Your efforts to help keep my kids working and moving at a consistent rate of speed, will get rewarded, thus for praying, Nam Myeo Ho Ren Ge Kyeo, you are rewarded, with purifying energies, that my kids dump on you.

Your efforts for fucking, sucking, licking, tounging, titty whipping or banging your titty nipple against the vagina of a woman or girl, dicking, fingering, palming, and so forth, all get rewarded, if you try to keep every thing in synch with the metered pace of the metronome at one thirty seventh and one fifth, approximately.

The gradient scale also applies, of course, as you are fucking and sucking, etc., so the better the job you do of keeping your pace at one thirty seventh and one fifth, approximately, the higher your rewards will be. Your rewards are the same, more or less, for both praying and for fucking and sucking, and my kids sprinkle and dump angel dusts, purifying energies, on you as a reward. You also get markups that are meritorious, and you are rewarded with a better and happier life.

Further, when you are orgasming, and eroteming, or pushing out energies as you orgasm, and erotem, you will be pushing out energies that shoot out at consistent rates of speed. These rates of speeds of these energies are in concordance with our pace of life, they all

perfectly mesh with the paces of life that my kids keep. The energies as they pass out, and push along through time and space, at synched up and consistent rates of speeds, all help to keep my kids moving along as they do their work and tasks, and they all help to keep our universe, standing up, strong, healthy, wholesome, well, and fine.

Chaos breaks the legs off the foundation to our universe, and our universe begins to creak and moan, as it begins to crumble, slide, twist, and tumble downwardsly.

Making chaotic noises, and chaotic movements, detracts from the harmonics of our universe. Your breaking glasses, and breaking skulls, and legs, and arms, are also chaotic events producing, in most cases, and they will detract from the perfect synch up of our universe, as leg bones and arm bones, skulls, fingers and toes, begin to splinter, as you apply pressures to them, you get negative markups for your actions. A record is kept of every chaotic action you take, or make, and if you make enough chaos, in your lifetime, and in your following lifetimes, then you will suffer from your poor records of performance for keeping my universe standing up, wholesome, healthy, happy, and well.

Every scream you cause to be vocated or vocalized, is recorded, and the intensity of the scream, and yell, and crying out in pain, plus a lot of other factors involved, are all recorded by my kids, and you get negative marks for that kind of performance.

The love making oooohs, and aaaahhhs you cause to be vocated, are harmonic appeals of soothing restfullness to the spirit, and to the mind, are also graded, and you are graded on how well you can cause others to produce them, and your scores are kept, and if you are a lousy performer, with more negatives than positives, you'll end up with a lousy life, as a result, as you are rewarded in accordance for your positive performance, as well as for your negative performance.

Helping to keep all of my children working in harmony, and doing their jobs and tasks, at a metered pace, will be rewarded, not only with angel dusts, but also with a better life with more positive fortune, as you recieve positive points or merit points for your collaborating with my children, and working to support them, and more fun as your life becomes graced with more positive merits and as your rewards begin to pile up, and more good things begin to go on in your life.

If you sit on the side of your chair and have a pair of drum sticks, or are using a bongo drum, or calypso drum, with the long tube belly, or stack, a long barrel tubed drum, or if you sit at your drum set, or set up your electronic drum pads, and begin pounding away, in a syncopated manner, for your pleasure, just drumming away, with no notion in mind as to any thing other than achieving a nice rythym for you and your friends to listen to, if you happen to be with friends, your merit points will be near zero, and your efforts will not rate on my gradient scale, as your actions will not be in accordance with my

program for a better universe for all people, and for my kids to live and work in.

If, however, you have the attitude, "I wish to support John's kids, and syncopate myself while I'm drumming, so as to be supportive of John's kids, to help John's kids work in a syncopated manner, doing all I can to support John's kids", then, your merit points as you drum, will go sky high, through the roof, and you'll get meritorious benefits for your efforts, or merit points, and good marks, for your efforts. It's like helping kindly old women, who are frail and in need of a helping hand and support, cross the street. If you act in a kindly and charitable manner to help support those around you, you get meritorious points for your efforts. These efforts of your's, however kindly, regrettably, though they are kindly efforts, are not the kinds of efforts that we need, my kids and me, need to keep my universe standing up, and moveing strongly. For efforts that support my kids work environment, and that lend a hand to them to help them to get their work done, your meritorious efforts marks will go through the roof, and you'll be blessed with angel dusts, i.e., purifying energies that help to clean up your karma, and erase and clearify your karmic markups, or marks that record your bad and cruel, or negative actions towards others, and towards your self. You can kill your self, and cause grief to others, as a result of your departure, to my Epcot Center, and that rates negative marks and negative points markings or markups for you.

When you try to do any thing, that will help to syncopate my children, and to make my children's working environement more syncopated, and rythmical, with your concentrated mind, and determination to make that a reality, in other words, a prayerful attitude in mind, hoping to make John's children's working environments syncopated, and rythmical, and in rythym with every one elses', i.e., all of my other kids' syncopated working environements, then with that attitude of hopefulness, or a prayerful attitude, than, you are rewarded for your efforts, and determination, and as you drum away, or pound and beat on your calypso drum, or on your metal Bahamian or Tinian, or Haitian, or Jamaican, drums, or on your dresser drawers, if your mom does not mind, as you pound away, keeping your mind set on your determination to keep all of my kids working in unison with each other, and helping them to keep in syncopated harmony, all in perfect flux, and perfectly meshed in timing, with every one else, as they work for me, then your rewards and positive points markups, will be very high, and you'll be rewarded by my children, with angel dusts that they daub on your forehead, and dump all over you, from their barrels they carry full of angel dusts, or purifying energies to clearify your markups from your karmic markup piles, kept inside of your body, kept in storage in the molecules.

Your markups are inside the molecules inside your body, but they are also out side of your body, in every molecule, nearly, going way out to the very farthest edges of my universe.

We will eventually get to all of them, and purify or clearify and erase all of your karmic markups, the notations and records that my kids keep on you, and on your activities, and eventually, we'll get them all, and your life will then be full of grace and happiness. It will be a long time before we get to all of them, as you and I and every one in my universe, have been here, and enormous length of time.

As you drum, or skip, or dance, or do areobics, in syncopation, with the attitude that you want to keep all of John's kids in step, and in synch, and in unison and harmonicly meshed and in perfect flux with each other, or perfectly meshing with each other, and every one else who works for me, whether you drum, skip, dance, or do areobics, it does not matter, if your mind is set and determined to help my kids, with your efforts, you will be rewarded for your efforts, no matter whether you skip, jump rope, dance, or areobically excercise.

As you sexalate, if you keep in your mind that you wish to keep all of John's kids in syncopated harmony, perfectly in flux, and in unison, just as when you are drumming, or skipping rope, or dancing, or playing basketball, or playing tennis, or badminton, or any sport, with your movements all timed, and in perfect syncopation, when you sexal with the right attitude to keep John's kids in synch, perfectly meshed in perfect accordance and flux, with each other, and with every one else, you will be rewarded grandurally, that is, grandly, or in a grand or very great manner.

Excercising And Activiating To Music Timed To One Thirty Seventh On The Metronome

Music timed to one thirty seventh on the metronome, and one fifth, or as close to one thirty seventh on the metronome that you can get, is okay, and it will help you to dance, play tennis, play sports, do areobic excercises, and other types of activities, at that pace that we need to keep to help keep my kids working smoothly, and you'll be graded on your performance, and on your attitude while you are dancing, or excercising, and the more intently you concentrate and use your mental energies and mental control to stay in synch, and in step, the better will your scores be, and the higher your marks, and the greater your rewards of purifying angel dusts and purifying energies that my working and unionized kids will pour and spread all about you, inside and out, and all over you.

Sexaling itself is a religious act. Yes. That's true. But, if you sexalate with this powerful prayerful attitude, or hope in mind, with your determined mind, and your concentrated mind, as you sexalate, and help others to sexalate, and help others to erotem, orgasm, phlumett, and shatter off wonderful energies from orgasming, eroteming, and phlumetting, your positive points and merit marks, and many other types of scores my kids keep on your efforts and behavior, all of them will go higher than any one can see, way out beyond the furthest galaxy that you can possibly see from your bedroom window, with your telescope. They'll go out to the futhest edges of my current univerese, and even beyond the barrier walls, holding up our universe,

that my kids put in, to keep our universe standing up, stable, strong, and durile or durable and with tensile integrity.

Any action for helping my kids do their work, syncopated, and in unison, and in harmony, will be rewarded, with angel dusts, and with positive marks and score points in your records that we keep on you and every one else in my universe.

Your sexaling actions get rewarded, far more than any other activityating, as your sexaling actions are the most needed actions, to keep my universe, pure, durile, holy, sacred, free from negativities, healthy, wholesome, stable, and constantly in a state of improvementing.

Most people go around destroying things, and causing chaos. We, my kids and I, need people who are going to help improve the wonderfulness of our, my, yours, my kids, and all of my other kids, wether they work for me, or not, meaning, all of my guppies, who are like you, my relatively normal kids, as well as all of my abnormal kids, the abominants kids I've got, that go around thinking it is funny to eat people, and to pull them into their mouths, and crush them in miserable pain and agony, like my elephants abominants kids do to relatively normal human beings kids of mine.

Fisting And Punching People With Your Clenched Hands And Crasping Or Clasped Knuckles

You all have been bad kids, all of my guppies, all of you who do not work for me and go around thinking, 'Oh, gee. Aren't I special.' My guppies are these minded people, who are arrogant, who talk back to their mama's and to their papa's, and to their relatives, and brothers and sisters, and to their friends in school, and to their teachers. Later in life, they become worse, and they talk back with their actions of being mean to each other. As my guppies grow older, and become older people, they start fisting others, and that means, punching people, hitting them with their clenched fists and hard knuckles, and hurting them when they pound on their face, or on their stomach, or on their body some where, and break bones, and tear muscles, and stretch ligaments with their pounding each other.

Phlooching Out And Fisting The Vaginal Cavity, Rectal Cavity, And Mouthal Cavity

Fisting is a word used by some people to mean, to insert your hand into the vagina of a woman, and gay people, homosexually driven people, fist each other in the butt hole, if either men or women, or in the vagina, if women.

Some people find it interesting to fist each other in the mouth, by sticking their fist inside the mouth of a person, pretending it is a dick or a dildoe.

You need to phlooch out the neck muscles, and billow them up, or poof them up and out, and that will help them to gently relax, and then become expandable or stretchable, as when they relax, they will easily stretcth out, and there will be some give, or freedom of expandingness. The neck muscles then become easy to stretch and push on from the inside with out hurting the person. It then is easy to insert your fist into the throat, to massage the inside of the throat, and to use your hand, or fist, to tickle the igniters, and triggers that set off love buttons and bells, and whistles, that help women and men to erotem, orgasm, and phlumett.

Fisting by inserting your fist into the vagina of a woman, when it is relaxed, and after you've massaged if for many hours, and after it begins to billow out, or poof out, and then open wide, and then you can see inside of it, and from the entrance of the vagina, there is a clear gaping cavity, you can then insert your clenched fist hand into, to massage the inside of the vaginal cavity. Doing this is very nice, and is very exciting to do, to help women and girls to erotem, orgasm, and phlumett. You can phlooch out the butt hole, by massaging it, for several hours, and it will begin to poof out, and expand, and you'll see a nanny gate face on it, and that means, it will begin to look a little bit like a vulva, or the vagina of a woman or girl when at rest, or exposed between a woman's or girl's legs as she is sitting or relaxed with no panties on or with no or few clothes on and nothing covering her hips, pelvis, lower pelvis, pelvital ridge, crotch and groin, butt and butthole and lower back, there by exposing her butt and vagina. If you compare a vagina with a phlooched out butthole, you will see they resemble each other, slightly. There is no vaginal cleavage of course, around the butthole, but there is a slight resemblence between a phlooched out butt hole, and a vagina, or vulva, none the less.

The Vagina And Vulva Compared To The 'Nanny Gated' Butthole

What is the difference between a vagina and a vulva? They are more or less the same, but the vagina includes lots of parts, inside as well as out side. The vulva is outside, basically, only, as far as I understand and remember these things, now.

When you massage a butthole, long enough, it will begin to look like a vulva, or vaginal face. That's called the nanny gate, or on the male, the male butthole vagina, as I've spoken about it, before. On the woman, it is the female butthole vagina, a double 'immitation vagina' for the real one, as I've mentioned. Men's and women's buttholes are the same, and they both look like 'immitation vaginas' as I've also mentioned, after you phlooch out the butt hole of either the female or of the male.

Once you phlooch out the butthole of a man or of a woman, it will poof out, and expand, and the butthole entrance and cavity will become relaxed, and easy to insert your clenched fist into, to then push up your fist into the butthole cavity, and massage it, once the person has cleaned out the butt hole cavity and once it is clear and free

from debris matter, or food matter, and rotting food particles, and fleshy foods, or hamburger meat and so on. Phlooching out the vaginal caivity takes a little longer, but with patience, you can phlooch it out, and then fist, in this manner. If you phlooch out the butt hole, and rectal cavity, you can fist your male friends, and your female friends, and every one, once they have cleaned out their poop hole, and made it free from rotting debris, will enjoy mutual, and reciprocal, fisting.

Fisting in this way, for sexaling, is alright. Fisting in the other way, for beating people up, is not nice, and you are given poor marks for your actions of nautyness, meaness, and cruelty towards others.

Over the long course of time, you all have been naughty at one time or another. I have many ways to fix you, and to retrain you, and to rehabilitate you, but you always go bad, and sour, again, as that is your main drive, or driving internal force in your lives.

The Importance Of Kindlyness And Teamwork

Why have all of my guppie kids all gone south, or in other words, gone down the road towards unkindlyness? Because, as I've explained, you forgot what the Love Of GOD is. My religion will help people to understand what the Love Of GOD is, and that will help keep them on the correct path of kindly actions towards others, and it will help them to understand and remember that teamwork to help my working, unionized kids to keep our universe healthy, strong, durile, standing up, stable, a safe and happy place to live, and a wonderful place to live, is very important.

Anyway, doing things that support my kids working efforts, will be rewarded, and doing things that detract from the harmony and syncopation of the metered pace of my kids who are working, and that slows them down, and that causes dischordance, will not be favorably rewarded, and you'll become a female schmuck, or a male schmuck over the length of time, as you live on in my universe. A schmuck is an unlikeable person.

Sexaling is the most important thing there is for us to do, other than feeding ourselves correctly to keep us healthy, and excercising, and leading a balanced, well regulated life, listening to your mama and to your papa.

My religion is based on sexaling, as sexaling is the most holy and pure activity we can participate in, or do by ourselves.

All the bullshit propaganda of the Lesbianists, that Jesus said this, and that Buddha said this, and that God will save you if you do this, and so forth, is pure balooney, bullshit, and made up nonsense.

I will not do any thing for any body, unless you help me and my children to make this universe, a more kindly, and a more wonderful and prosperous universe for all of us. If you do, I will have my kids,

bless you with angle dusts as they daub them on your forehead, and then pour barrels of angel dusts over you, as they dump barrels full over your head and body, for your extra good work, sexaling, in syncopation, with my kids working rythyms, and in rythym with their syncopations, flux, and their phenomenal elegance.

Phenomenal Elegance

What is phenomenal elegance? It is their keeping harmony with each other as they work and keep every thing in order, in my universe for me, GOD.

You can not escape from this reality of your good actions and your bad actions being recorded, as my kids keep records on every one, and we make certain every one is rewarded for their good actions, and we make certain that every one recieves as close to what they deserve, to help balance things out, in accordance with their markups, for their bad actions. If they are bad, they will not meet nice people, and they will meet naughty people, and not so nice things may begin to happen between them. If they are good, and if they try to help my kids, as I've explained about, they will get rewarded, and they will slowly begin to break away from keeping company with bad people, and they will gradually ascend to higher rankings or status, and then they will begin to lead a better life, and they will begin to escape from meeting with bad people, and the good kids' lives will become blessed by my kids, as my kids begin to sprinkle angel dusts on the good kids, and daub the heads of the good kids with purifying energies, and then dump purifying energies all over the bodies of the good kids who listen to their mama's and papa's, and sexal with them, and as they sexal with their mama's and papa's, and sisters and brothers, relatives, neighbors, and others, the good kids help my kids keep this universe running smoothly, in harmony, in flux, perfectly meshed, and in perfect syncopation.

Mama's, papa's, sisters, brothers, relatives, neighbors, and others, all get their heads blessed with angel dusts, purifying energies, for their good actions along with the good kids, you, I hope, of course, too.

Plurlbalescent / Plurablescent Nature Of Negative Punishments And Positive Rewards

This is very important for every body to understand. I have my working, unionized kids reward the good people, and I have my working, unionized kids keep records on every action of every one of you, and I have my kids make sure the bad kids, meet with what they deserve, or some thing close to it, which may not be too nice, most of the time, and I have my kids make sure that the good kids, all meet with what they deserve, or something close to it, and that is usually always something nice. It may sometimes not be something conspicuously nice, but it is nice, usually, or positive in nature, always. The bad kids will get rewarded by something that is negative in nature, always,

usually, or plurlbalescent. What does plurlbalescent mean? It means, it might not be noticably negative, but it is still negative, in nature, in essence. This is a topic we can discuss, another time, or you can ask my kids for more information on it, when you go in and visit them, with your mama's and papa's, sisters and brothers, relatives, school teachers, principal, costodians, janitors, school workers, and others.

We have had too much chaos of late, and for quite some time, and it is now time to slow it, and bring it to a halt. We are going to produce positive harmonic concordances that will assist my kids as they work, and that will help them to stay working in harmony with each other, with your fucking, sucking, eroteming, orgasming, your shooting out of purifying energies as you orgasm, and erotem, and with the increase of the oooohs, and aaaahs, you help to produce, with your practice of my religion.

We have to bring an end to the moronic violence of the Lesbianists. If that requires a lot of my children, making lots of babies, and lots of energies, and percussive forces, when you set off a fracturable rock bomb, then that is what it will take, as you blow Washington DC and the Baltimore metro area off its ocean ledge, and into the Atlantic, with that fracturable rock bomb, if it is big enough.

Yes, there will be lots of painful, ouches, and screams, and so forth, but it is trite, compared to the violence these idiots have been perpetrating, over the long span of time that they have been in my universe.

We have been here for a very long time. It is nearly impossible to figure out how long, other than with mathmatical computations. Our brains will burn out, if we try to figure it out in our heads.

It does not matter how long we have been here. It does matter what we do while we are here. You are not going any where else, and you are all staying in my universe, so you will all drop your pants, and your dresses, remove your shoes, socks, clothes, underwares, panty hosees, and panties, disrobe, and begin helping others to make lots of ooohs, and aaaahs, and lots of eroteming and orgasming energies. That will be the begining of your getting into line with the rest of us, here in my universe, my kids who work for me.

As you eroto with each other, you'll get graded on your performance, and you'll get paid by my kids, once you join our country, as I've explained about, before.

Timed Persuasive Mosture

What is a timed persuasive mosture? It is just keeping every body in synch with each other, persuasively and accurately moving along, orderly, in an ordered fashion or manner, and with every body in rythm and syncopated with each other.

Mosture is a type of motus, or motion or fluidity of movement. The timed fluidity or fluidness of my kids working along in synch with each other, is critical to having every thing in my universe, standing up and sturdy, with every thing holding together, as it should be.

Otherwise, if my kids and their work get out of synch, things can come crashing down, and things can come falling apart, and we do not want that.

This is a big universe, and we have a lot of people in it, my kids, and you wouldn't believe how many kids I have. Anyway, they all have to stay in syncopated, fluid motion, with their paces of life perfectly meshing with each other's paces of life, to accomplish their jobs and tasks, in an orderly, and in a fluid movement, harmoniously, and without delays.

The persuasiveness is accomplished with the help of your sexaling, and by your keeping pace, and synching your sexaling activities, and the movements involved in your sexaling activities, and by your spraying out your energies, as you erotem, orgasm, and phlumett.

The persuasiveness is also accomplished by your keeping pace in unison with others while you are praying the syncopated phrase, Nam Myeo Ho Ren Ge Kyeo.

Every thing is timed, and so as you activiate, or carry out these activities of sexaling, eroteming, orgasming, phlumetting, as well as the movements involved in sexaling, and as you pray, your synching of your movements and sounds in time and in pace with the syncopated and metered metronome click, click, click, at the timed pace of one thirty seventh and one fifth, on the metronome, approximately, helps to persuasively move, or persuasively drive and push, every body about, and along, as they do their work for me, in their many syncopated paces of life, or life spins.

I have many children working at different life spins, as I've mentioned before, and each group of them has a different pace of life, or time spin. Your activiating, as explained, helps drive them along, each at their own pace of life, or time spin, perfectly meshed with every other child of mine, also in his or her, and at his or her own particular time rate of speed, time spin, life spin, or, pace of life.

Every one and every thing must move along in perfect flux, or perfectly meshed with every body, and with every thing that is going on in my universe.

You are rewarded for your helping to move my kids along, in perfect flux perfectly meshing with every one and with every thing that is going on in my universe, with your efforts at sexaling, and with your praying, as explained, earlier.

In our new society, which we will create, you will score earning points, and every thing you do, as you sexal, and so forth, and as you pray, is scored, and a record of your capabilities, or excellence, or

lack of excellence, is kept. You are paid according to your work performance, as you sexal, activiate, pray, erotem, orgasm, and phlumett. Also, you are graded on how well you get along with others, and on how well you try to harmonize and then sexalate with others. You score earning points, accordingly, and you get paid, according to how well you perform.

Keeping Every Thing And Everybody In Harmony And In Synch

Explaining how this works, how praying, fucking, sucking, dicking and hugging, etc., helps keep every thing in synch and in harmony and how your efforts are rewarded, is a tiny bit more complicated than my simple explanation, but that is it in a peanut shell.

Now. For those Lesbianists hiding among you who do not wish to surrender, you Lesbianists will find we are not going to be acting kindly towards you.

All of you Lesbianists, where ever you are in Washington DC, or hiding underground, or in Paris, or in Rome, Peking, and so forth, you will be dealt with harshly, as we need to put a stop to your activities, and a "maybe" is not acceptable in this case.

We are not going to allow you to continue your chaotic, nonsensical, violent activities one moment longer, and we will blow you up flying high up into the sky, and off the ocean ledge down below you, in Washington DC, as we sink your Washington DC area into the ocean, along with all of Northern Virginia, and the ocean coastal area of Maryland and Baltimore, along with large parts of the states of Virginia and Maryland, out to West Virginia, as that area settles down into and below the waves of the Atlantic Ocean, after we bomb it with one or more of my fracturable rocks weapons for mass removal of Lesbianists from the face of the earth and from their hiding places under the surface of the earth.

The Lesbianists in the Washington metro area and hiding under it, had all better surrender to my kids, or they will all get their pants and clothes blown off and shredded from their bodies, if they do not, as they are given a free ride out and up into the upper atmospheres of our planet, and then, beyond. All other Lesbianists had better surrender, too, or they risk getting a free ride out, as well.

Deep Sea Ocean Trench Off The East Coast Of The United States

There is a trench that extends south wards from Washington DC, some times reaching 25 miles out in some places, and in other places, it reaches out to eight hundred miles from the shore. In the north, it reaches out in some places, 85 miles out to one hundred and twenty five miles out, to three hundred and fifty five miles out, to eight hundred miles out in some places, in the south.

It is fifteen miles deep when you go out forty five miles off the coast from Washington DC and from the Chesapeak Bay. The ledge bottom

is found about three and one half miles down, and the mouth of the opening continues for ten miles, approximately, downwardsly, on the western side of the trench.

The It has a gaping mouth, and it opens up and lets ocean water inland, under the continent, eighty five miles down below Washinton DC, three to six to eight miles wide, from top to bottom, from the underside of the top of the mouth, the bottom of the ledge, to the bottom of the mouth.

>From under the nation's capital, to the south, it travels to over eight hundred and eighty five miles. To the north, it travels three hundred and thirty five miles, to six hundred and fifty miles, to about nine hundred and fifty nine miles, inland under the continent, depending on where you wish to locate the edge of it under the continent, northwardsly.

It travels to the west, inland, three hundred and thirty five miles, to just over eight hundred miles, depending on where you find the edge of it. It travels inland further westardsly, the further you travel north. It is slightly over one thousand and eight hundred miles from north to south, in total, as you'll discover, once you explode enough, and after you explode large enough fracturable rock bombs, over Northern Virginia, Maryland, Washington DC, Baltimore, covering the metro area vicinity.

The U.S. Navy, and the U.S. Coastguard know about the trench, or parts of it. They are not allowed to discuss it with anyone. No one is allowed out there, to research it as it is off limits to just about every one. Some navy personel of high rank, and coast guard personel of high rank, are allowed out to take soundings, every now and then, with their Lesbianists' staff members, and Lesbianists' personel in the Navy, and in the Coast Guard.

The Soviets, at least, Boris Yeltzin, Vladmir Putin, Mikhael Gorbachev, and Zelda Gorbachev, know about it, and so do all the other Lesbianists. They can confirm it, if they wish to play ball with me, and if they wish to save their asses, after they decide to surrender to my children.

The Shelfs Systems And Trenches Systems

The shelf estends to under Lexington Kentucky, at about ten miles below it. It is five miles up under Chatanooga Kentucky. It is five miles below Washington D.C., in some areas. It is three miles below Baltimore Maryland, in some parts of the city. It is eight miles up below Pittsburg, Pennsylvania. It is fifty five miles up below, or under, West Chesterfield, New York. It comes up to eighteen to thirty miles below McLean Virgina. It is eighty eight miles below Norfolk, and the mouth, downwardsly, is five to ten to fifteen miles wide open, in a downwardsly direction.

It some areas, it can be found below Ohio, and under Indiana. It crosses under the West of Kentucky, and into the south of Illinoise, five to ten, to thirty miles. It is a variegated trench system.

It extends to Tennissee, parts of North Carolina, Mississippi, Alabama, Georgia, South Carolina, and to under parts of Northern and Western Florida, and is open out and into the Gulf of Mexico.

The whole area of Eastern U.S.A., is sitting on an open shelf, trench system, and there is water passing below it, and out into the gulf, in several areas, over to eighty five miles west of Corpus Cristi, Glen Garden, population eight hundred and fifty, which south of Galveston, and north of Corpus Cristi, between the two cities. There is a mouth eigty five miles south of Tampa Bay, Florida, in the Gulf of Mexico. There are several openings or mouths to the underground fault line system, and deep sea ocean trench system, and shelfs systems, and water is passing from the Atlantic to the Gulf of Mexico.

There is also a trench system in the north, under Niagra, that extends southwards, several hundred miles, and it has many branches to it, and it extends into this system of shelfs, trenches, and under continental water flows.

Side Bender Currents

What is a side bender? It is a current comeing out of the mouth of an opening, from under a continental shelf system, that allows waters to flow out. As the water flows out of the mouth, the outlet current of water, it flows very forcefully in an outwardsly direction, and it pushes the water out with great force, generally. If a submarine is traveling in the vicinity of a side bender, the submarine may get hit broadside, and that will often turn the submarine topsy turvy, and around facing the opposite direction it was traveling in, or another direction, not the one it was traveling in, most often. The crew will get swung about inside the submarine, and they will fly through the cabin, and pounce off the floor to the ceiling, and hit the ceiling, and then hit the sides of the corridor they were walking along in, and finally end up on the floor when the submarine rights itself, with its balast, and you'll get many sprained or stretched ligaments, and broken bones, arms, wrists, fingers, legs, knees, ankles, feet, toes, necks, backs, hips, spinal injuries, and other injuries.

It can leave a crew of a submarine nearly one hundred percent, injured and in a ship's hospital, or a Navy or military hospital for recovery. Side benders are often called upwellings of currents by the Navy, but that is not generally the case as they are not upwellings, but they are side pushing currents, that come flowing out from under continental water flow openings, horizontally.

There may be some upwards lift involved, if there is a reason, such as a mouth is angled at a slight sloping angle, as it releases the flowing waters out from its tube like cavity or hole.

Crew members and military passengers of Naval submarine vessels are generally told not to talk or discuss any thing about side benders with non Navy persons, and with persons unrelated to their ship or unrelated to their ships voyage, as the governments of the world, do not want any one to find out about side benders, and they do not want people, geologists, marine geologists, undersea deep sea ocean studies researchers, or others, to research and investigate side benders. It's a big secret, these side benders, and that's what the marines, and the navy personel are sworn to keep, or face a fireing squad, on insubordination, or on some trumped up charge of spreading naval secrets, acting as a foreign spy and receiving money, or something like that.

Naval personel will generally obey orders, and not discuss side benders, or other 'secret' information, with any one, as they risk losing their job, and they might face a fireing squad, or a hanging patrol, sometimes called a marching platoon, or a hanging platoon, a group of soldiers commissioned to carry out orders to hang some one who is in the military.

If you pay a naval officer or enlisted person, or other person with Naval submarine duty, such as some marines, and others, enough money, they may be willing to share some information on side benders, and information about what they know about side benders. Some persons who have had Naval submarine duty, may genuinely not know any thing, such as crew members who are never assigned to submarines that travel near side benders, on a regular basis.

Some times family members of enlisted persons and of Naval officers, are allowed to travel on submarines, for fun and excitement, as a special reward for their papa's or mama's duty on a submarine. Some of these family members have also had some experience with side benders, such as those who have traveled on submarines along the Marianna's trench, or other trenches, not listed, neccessarily on global maps, but none the less, which are there, and that are near shelfs systems under sunken continental shelfs, or under sunken continents, but that eject streams of water, nonetheless.

Our maps and globes of the world are incorrect, the ones we buy through bookstores, or from map publishers, as nothing that would indicate sunken continents, large sunken islands, and related trenches, or other related features, are not going to be indicated on them.

The Lesbianists do not want you to find out information that could provoke you into researching, under water features, that they do not want you to know about, as your fictious understanding they have taught you, of the surface of this planet, and its history, is bogus, and any thing that would conflict with that, is certainly not going to be indicated on a map they would publish, and the map will be wiped clean of all traces of any thing that conflicts with the 'global' history of the earth, as the Lesbianists teach it, in geology courses for high school students, and below, and above.

The global geological history they teach must coincide with their fictious propaganda about Adam and Eve, and "Lucy" the ape woman, the supposed mother of all people living on this planet, and about this earth being only 9 billion years old, or thereabouts, which is a bold faced lie, and other such bullshit notions they have fed every one to swallow, and have forced them to accept, and that they force people to use as primal notions to base scientific research on.

The geology of our planet is much more complex than the Lesbianists are letting on to, and there is much to learn about planetary geology, as these planets have been around a very long time, and many things have happened, over and over again to them, and many things have happened to our 'solar systems', and star formations, and star systems, that people need to know more about, to get a realisitic understanding of our universe, its history, and its many complexities.

In time, we will learn much more about all these things, and you can attend courses that my children have set up for every one, to teach people about our universe. You need a day pass to visit, as I've explained about, before, and then you should swear in, and become a citizen of our country. We have yet to declare this planet ours, but in time, we will, once we have finished and put an end to the problems associated with the Lesbianists, all of their shenanigans, and their malarkying around. One day we will declare this planet ours, and my kids will take charge of everything, and they will appoint people to posts of duty, and to positions of responsibilities.

Making A Large Swimming Pool

People should begin moving off and out of the area, around the Nation's capital, Virginia, Maryland, Pennsylvania, West Virginia, and North Carolina. We'll have a big swimming pool there, with lots of, mostly uninhabited, tiny islets, or hill tops and mountain tops, after all of the current residents die, and pass on and transel over to my Epcot Center, after one of our compatriots, or groups of them, detonate enough of my fracturable rock bombs. People will have to watch out for hungry sharks, after they swim inland, above the sunken landscape, looking for corpses to eat, and to scavenge, as lots of Lesbianists' corpses will come floating up from underground hangouts and cities of the Lesbianists, under those parts of the U.S., and from under the Gulf of Mexico, from under the sea floors of the Atlantic, from under the Niagra trench systems, and from under other trench systems in the Eastern U.S. This is not a joke, by the way.

Stagnasis

Salts kiddies in stagnasis is when they are in the salts kiddies are in their salts crystals cages, in a hibernative state, in perfect equilibrium, to keep them alive and well, for as long as possible.

Black Powder 'String' Fuses

Take a spool of sewing thread, and use Elmer's glue to coat the string, and run the string with a thin layer of Elmer's glue coated on

it, through a bucket of black powder gun powder, which you can order in the mail, over the internet, or pick up at an antique musket or old style 'cap and ball' musket rifles and pistols retail stores.

Elmer's glue and gunpowder will combine to form a minor plastiques explosive, after the salts kiddies mix it up, eat each other up, pee and poop out lots of stuff that is highly explosive, as they get busy making babies, except when gunpowder is used in large quantities with Elmer's glue, to form a major plastiques explosive. Benzine will help this along, with diesel fuels, as well, and with chlorine, we can see some major plastiques explosives in the making, as mama's and papa's begin making lots of children, as they begin mixing it up, and as they all begin pooping and peeing out body fluids that is food for others, that will contribute to the powerfulness and explosiveness of the mixture.

After you make your string fuse, and let it dry out for a couple of weeks, then coat a rag or muslim cloth in oil, or grease, or a mixture of turpentine, gasoline, diesel fuel, and grease, with benzine, and make a paste, and use that paste to coat a thin cloth, such as a muslim cloth, and then let that set and dry for a few days, and then wrap a few sets of 'string fuses' together in a bundle, and place them inside the cloth. It will become a very powerful explosive, in itself, the more gun powder you use with it.

Test it, to see how fast it burns once it is wrapped in a cloth coated with a mixture of grease and fuels.

The thicker the grease, the slower it will burn. The thinner the grease mixture, by adding more turpentine, or benzine, or paint thinner, the more rapidly the fuse will burn.

You will have a very powerful explosives cocktail, with this mixture, so be careful.

You have to be very careful with what you combine, as you'll be bringing together very explosive elements, when you mix these fuels and liquids together with gun powder on a string.

A few string fuses, wrapped in a well soaked cloth, with a mixture of these liquids and the axel grease, will make a type of plastique explosive, that can be used as a shape charge, or a mouldable, or shapeable, explosive, that is good for blowing doors off hinges, such as at pharmacies, or banks, and for blowing locks on private homes' fences to pieces, such as can be found at the White House, at 1600 Pennsylvania Ave. Washington, D.C., at the entrances and exits gates of the White House where guards are on constant duty patroling the area for security purposes. An initial explosive, a detonated fracturable rocks bomb, small in size, may cause a concusive force to cause the guards to black out, and pass out, and then sleep for a while. Be very careful with the size of the bomb, as we do not want to level the homes and buildings surrounding the White House, or across

from it in Layfayette Park. After you put them to sleep, with your initial blast, you can test the shape charge on the nearby fences, at the White House.

Black Powder 'Cap And Ball' Pistols

Most black powder cap and ball pistols and rifles, muskets, sellers and retail outlets can be found on the internet, and some gun shops carry black powder, as well as the detonating fireing caps, for black powder rifles, and pistols.

Many of them do, and you can purchase the black powder and copper detonating, ignition caps, for useing in your cap and ball pistol, or musket, or other, more modern, hunting rifle, that allows you to use black powder, and detonating copper caps that slip on a small round fireing ignition nipple that is made out of steel, and has a hole in it, to allow the percussive explosives in the firing copper igniting cap to ignite on impact with the hammer on the weapon, when it slams down on it, and the flames from the igniting explosives mixture, glued to the inside of the firing copper cap, then ignite the black powder, that was rammed down the barrel, or packed and tamped down in a cylinder of a percusive black powder cap and ball pistol.

The caps are fairly useless, unless you wish to add them to a fuel oils, chlorine formula, and let them sit in the fuel oils mixture, and that will help develop plastique, as well.

Higher Temperatures Develop More Useful Energies For Making Babies

The copper in the cap will also allow for a higher temperature in burning, when the fuels mixture ferments after a few weeks. Magnesium in the cap as well, will also help to raise the burning temperature of the fuels mixture, and with some black powder added, and with some chlorine added, your plastiques recipe will become even more useful. These higher temperatures will help to produce energies that will be conducive to baby making among the fracturable, or rupturable, and percussive, rocks radiological salts kiddies.

You can then add a handful or more of powderized amethysts, or turquoise, that you can purchase in bulk, on Ebay, for some small bulk quantities, and also emeralds are useful, as they all have fracturable rocks kiddies embedded in them, and fast asleep, in stagnasis.

Zircon Diamonds, And Other "Radio Active" Gem Stones, Etc.

Zirconium is a mineral that they use for the fake diamonds they sell with the trade name, Zircon diamonds, or Zirconium diamonds. You can powderize them, and use them for a good amount of fracturable rocks explosives, large and fast family making, salts kiddies, for a 'nuclear' party, and a send off to the eastern coast of the United States, before it is blown off the coastal ledge it sits upon, and then sinks below the ocean waves, if you strike it hard enough, with one or more of my fracturable rocks babies making, "nuclear" salts

kiddies bombs.

You'll need a few handfuls of Zicon diamonds, powderized, to make a nice fracturable rocks, babies making bomb.

You can mix turquoise, emeralds that are mined and sold in bulk quantities on Ebay, amethyst, and the other rocks that I've mentioned, along with powderized 'sand' from the beach. Argentina, and Venezuela, Baha, and Southern California are good places to collect useful sands, full of fracturable rocks, salts kiddies, that a geiger counter will detect, if it is a sensitive enough geiger counter.

Geiger Counters And Their Usefulness

They are not too hard to build, but you will have to look in your Popular Mechanics magazines, for the details on how to build a "geiger counter". Some mining stores, and mining outfitters stores, may be a useful places to order or purchase a geiger counter, if you are on a family budget. You might find one on the cheap, on Ebay, that is still useable.

There are some kits available, if you look hard enough, to use to build your own geiger counter. A mining outfitters store, in South America, or in Central America, or in Utah, or in Nevada, may be able to help you locate a kit, to put together, if you go in there, and pretend you want to go out and look for interesting rocks, and you need some information on where to look for interesting rocks, so go to a mining outfitters store, or to a rock hounding club, or rock hounding retail store, for looking at beautiful stones that rock collectors, or rock hounds, have found, and made available at the store. Usually the store owner will have his or her suppliers, on name cards, and you can get in touch with them to get more information on where to look for interesting rocks to test with your geiger counter, since you are facinated by radioactive elements in rocks, and you are interested in finding some, for a collection you wish to start.

You might want to pick up some primer books, on minerals and rocks, gems, and gemstones, from Amazon online, or from a local book store, such as Barnes and Nobel book store, which has a few useful books on rocks, mineral rocks, gems, and gemstones, that you can find when you are out rock hounding.

Desert Outfitters in Las Vegas, a miner's outfitters store, that also provides useful tools to rock collectors, such as rock hammers, and hand held pick hammers, for chipping away at rocks, to see what is under the surface of the rock, or under the peel of it, the outer layer, as well as terrain maps, and outfitting supplies, tents, and sleeping bags, and so forth, has these types of books, and lots of maps, and maybe they can help you find useful kits to purchase, to build yourself a geiger counter. They also sell geiger counters for about three hundred and fifty dollars or so.

Sears used to sell Geiger Counters, and they still can order them for you, I think, through their catalogs. On Ebay, you can find many reasonably priced Geiger Counters. How well the geiger counters work, the ones people sell on Ebay, I can't say, so you'll have to talk with sellers, and see what they say about the geiger counters they are selling to others on Ebay, or read about them in old copies of popular mechanics, and in trade publications for the mining industry.

Novice And Amateur 'Rock Hounding' Rock Collectors Clubs

On Sahara, east of Las Vegas Boulevard, there is a rock shop, which is about two and one half, or so, blocks down from the intersection, on the north side of the street, and they have information, as well as lots of primer books, on rocks, and on geiger counters, and where you can find them. They are well connected to the local rock and gem, minerals and gems finding, or rock hounding clubs. You can meet their members, and go out with them, on excursions, as they know where to find just about anything.

There are similar clubs in every major city, and in lots of smaller cities. Mining towns of course have lots of mining outfitters stores, and they probably have geiger counters for sale, so you can use it to find some very nice, fracturable rocks, along coastlines, or in ancient dry lakes and seas, sediments filled, rock hounding areas.

Decontaminating Your Self With Ocean Salts

Acidic ocean salts in ocean water will help eat up the radiological kiddies that find their way into your bodies, and that make you feel ill. It might take several weeks for initial recovery, with you taking large amounts, several teaspoons or more, as much as you can handle, in your diet, every day, for up to three to eight years, to thirteen years, for severe contamination, and for full recovery.

Other things, such as nutmeg, and oregano, in a salty tea brew, will also help you, and marijuana in the salty tea brew, will further help you. Berries can also be of great benefit for recovery from radiological salts kiddies contamination.

My kids have a recovery kit, that will help you recover from an overdose of radiological salts kiddies, after a major birthing event, and that kit will help you fully recover. You need to join our country, and swear in, and become a citizen, to be given one of these kits to help you for your recovery. They can provide you with information, of various kinds, once you swear in. They have you swear in as full time citizens, now, except in special cases.

Ancient Dry Lakes

There are many ancient dry lakes, up north, in the colder areas, of Manitoba, and around the edges of wet lakes, you'll find areas that dried out, a long time ago, and you'll find interesting things in the sediments deposits under the surface soils of the earth, that have covered most areas, and that come in to our atmosphere, and then

deposit themselves onto the surface of our planet, as they are blown in on the solar winds. A few feet of top soil may cover the dry lake areas, around the edges of these lakes, and the soils depths may reach to twelve feet, to fifty feet, to sixty or to eighty of more feet, in some areas.

Once you hit the sediments layers, around the edges of these lakes, outwards to eight to fifteen miles, to thirty miles or further, out to up to eight hundred miles, as in the case of Lake Erie, and that lakes region, the Great Lakes, that all use to be one large salt water sea, but is now, a fresh water set of lakes, you can begin looking for the radiological bullets of the previous catastrophes in my universe, that shot out radiological salts kiddies, into the sediments rocks of mineral stones, and sand. Gravels might contain some "radioactive" fracturable rocks, and you can tell which are the useful ones, with a geiger counter.

There are still salt water lakes up in Manitoba, Lake Huron, and some others, that used to be part of Lake Erie, and all part of the Great Lakes, when they were a large, salt water sea, but which are now, no longer part of that lake region system of lakes, as fresh water now fills up the Great Lakes from under ground water systems of fresh water flows.

Hydrolific Pressures From Water Falls

Hydrolific pressures, from water falls, primarily, help to erode and carve out and build the under continent open areas of water flows, that flow under the continents, and that dump their waters by traveling underground, in culvers, and channels, and in trenches systems, and then flowing out and into the oceans, resulting in side benders currents and flows.

Underground Lakes

Hydraulisis is one type of water pressures. Hydrolific pressures are those pressures created by water beating down, steadily, as water falls from higher to lower places, creating underground holes, and large open underground cavities, and water holding vessels, aquafirs, and underground lakes in the underground rock layers. Lots of cities sit on top of such underground lakes, on the crust of the surface of the earth, or very near to them. The lakes are often ovular and rounded in shape, from top to bottom.

Many former water falls, are now low lying, and flat, and there is no water fall on the river, except for minor, cascades, such as found in the Grand Canyon Rift Valley down the Colorado River, and out into the Baha area.

Baha Mexico

Baha is a good place to go looking for interesting, "radio active", or radiological rocks, fracturable rocks with radiological salts kiddies

sleeping soundly, embedded into other rocks, after colliding with them, in a hail of radiological rocks bullets, after a planet or a galaxy, or a large nebular star system, or a cluster of them, were detonated, by some fool with a huge and powerful, home made bomb. This happened, often, in the past, and still, today, it happens, now and then.

Bits and pieces of the radiological rocks will come flying in, and then embed themselves into other rocks, as I've explained about, before. We've had so many catastrophes in my universe, that our ancient rocks, are peppered with radiological rocks that are embedded in them.

Off the coast of Baha, is a good place to go diving, looking for rocks that were washed off shore, as waters flowed down the Colorado River, trinities of aeons ago, when this planet was still a young planet, maybe about one fifth the way through its infancy, after reforming, again, after its last major impact that shattered it to pieces, for the umpteenth kazillionth, plus more, time. This shattering and reforming, has been going on too long to count, and obviously, there is a large amount of mixturing going on, with debris from other star systems, galaxies, nebulas, and so forth, floating in, and becomeing part of our planets, all around and about, on solar winds.

You'll find rocks on the inside of the Baha coast, and on the outside, as well, and along the Baha coasts. You might have to dig down thirty of fifty feet, to a few hundred feet to find them, maybe eight hundred feet, or sixteen hundred feet, or further, but you'll eventually find something useful with lots of radological bullets embedded in the rocks.

Finding Good Rocks

You can find interesting rocks, also on high hilltops, such as in the Andes, the Himilaya's, the Swiss Alps, high mountains in Austria, and in Germany, high hill tops and mountains in Iran, maybe in Afganistan, and the very high hill tops, that are generally old hills, in many countries. They will usually have, if they are very old hill tops, lots of rocks scattered about that are very old, and that have lots of fracturable 'radiological' salts kiddies, and other related kiddies in them, as well.

Sledgehammering Continents And Land Areas Where Lesbianists Live, Hiding Below

Here are a few places to place some other fracturable rocks bombs on, to make them fall in, and collapse down onto the layers of rocks, below, and then puncture the ceilings of the cavernous cities the Lesbianists have made, down below those lower rocks layers.

Topango in the South Pacific near the Marianas, the area midway between the Ryukyu Islands and Haha Jima, Chichi Jima, and Iwo Jima, where you will find a sunken continent, Wellington New Zealand,

Peking, Falklands, Urals Mountains, Chile thirty miles north of Concepcion and eighty miles east of it, near the Argentina border, and the Kamchatka pennisula, which will split and collapse in the center of it, midway down the penninsula, if you hit it hard enough. Lesbianists will come floating up, if their bodies can fit between the tons of debris that will fall in on them, as you smash the land sites that sit on top of ocean shelfs, and on open lakes below the land, some miles down from the surface, in some cases, and further down, in other cases.

It may be hard or impossible to deliver a nice bomb below the ocean above or onto the top of the sunken continent below the ocean, between the Ryukyu Islands, or Okinawa, and the islands of Japan, called, Chichi Jima, Haha Jima, and Iwo Jima. If one can be delivered there, you'll crush the continent below the surface of the ocean, and that will cave in on the cities, there are more than one there, that are below the protected shelf layer of rocks, above the cities the Lesbianists have there, below the sunken continent, to live comfortably in. The other places aren't so hard to hit. It is just a matter of local interest, and urging of the people there, to take the correct action to help us to resolve this problem, of Lesbianists living below us, all around the globe, in their honey comb, bee hive like canival of cities.

A canival of cities, is a large collection of cities that is located in such a way as to make it easy to get from one place to another. They are conveneint for them to live in as they are well placed, and spread out evenly, using the full extent of the area, as efficiently as possible. The Lesbianists have a canival of cities under the lower rock shelf layers, that are above them, and that help to keep them protected, warm, dry for the most part, but not always, and that are conveniety located each one in a bee hive like, configuration, well placed, with a well designed, layout, with central cities, and with satelite cities. It is well designed and resembles in part, Melbourne Australia, which was laid out, planned and designed as a modern city. The Lesbianists of course, think Melbourne is puny compared to their accomplishments, and of course, with the technologies they had and have available to them, from time to time, they made good use of every inch of space they have available to them, under the lower hard rock, but leaky rock layers above them.

My kids have places and locations maps of all the best places to locate your home built fracturable rock bombs, and so please pick up the information from them, after you have sworn in, as citizens of our country. Also, please see my earlier notes on the sciences that support a correct understanding of radiological particals based fracturable rocks explosives and other helpful and useful explosives you'll need to set off the fracturable, also called, rupturable rocks bombs, i.e., the so called 'nuclear' detonations.

Topsoils

Did you know that nearly 99.9999+ percent of the earth's crust, or mantle, is formed from space debris that has floated in on the solar winds? It's true. Only about 0.000001 percent of the top soil is from local vegetation, globally speaking. The rest of the top soil comes in from above, blown in on the solar winds, as debris from other planets that have been destroyed, crushed, or blown to pieces by idiots with very large bombs, that demolished whole galaxies, or multiples of galaxies, in a few milliseconds, as the instant they blew up, they were so well made, or constructed, and so powerful, they instantly blew up the whole area of galaxies the planet was located amongst.

If for instance, you fill up one third of the large tourist attraction, the meteor crater in Arizona, with one of these fuels and rocks bombs, and ignite it, you'll disentegrate all of the Milky Way, and some what more than that, in one attempt, by my estimation, if the fracturable rocks bombs were made well enough with the fuels bombs, to burn at near or close to, solar temperatures, and if there were enough materials in the fracturable rocks, to get lots of mama's and papa's making lots of babies, relatives, and others. There are lots of different types of salts kiddies in fracturable rocks, and there are other types of kiddies, the radiological kiddies, which are sometimes, but maybe are not always, grouped with the fracturable rocks kiddies. There are many types of kiddies living in radiological rocks. When we send high heats waves energies, and other types of energies into the fracturable rocks, we can get many types of kiddies to begin making babies. If we get enough of the different types of kiddies to begin making babies, we will have one fine and dandy, explosive shower of baby making events. You can get further information on this topic from my kids, and if you tell your friends to check in with my kids, and to swear in, and become citizens of my and my kids' new country, along with other people who are swearing in, and becomeing citizens of our new country, my kids will make certain that every one is protected, and no one is caught outside, when the bombs go off, as my kids will tractor you and all the other citizens in, with my kids advanced teletransportation technologies, before any one can get hurt by the bomb or bombs blowing up, locally, or in their areas. That means, my worker unionized kids are very quick on getting people into the encapsulated living environment every one is living in, below the ground, that my kids built for every one to live in, until we get this problem straightened out, and until it is safely over with. People can continue to live in the encapsulated living environment, after it is over, as we are going to start a new economic and social system, and we are getting started, down below, where my kids are keeping the encapsulated living environment, well taken care of and well managed.

Later on, we'll worry about who comes out, and when, as we have plans for every one, to begin working inside the encapsulated living environment, which is very well designed, and bomb proof, of course. Once every one gets accustomed to the new way of living, in accordance with my religious principals, and in accordance with our new working and living programs, when people have saved up enough money, they can pool their money, and acquire a lease for land up above, on the

surface, and then with more money, they can have nice places designed for them, and built for them, with your input and with your instructions. You will need to study designing homes, and layouts of homes, for large numbers of people, as you will be required to live in groups of people, as the old systems of living, one husband, one wife, and so forth, is out the window, and now we are going for group living, with many members to your groups. When you have got the maturity together to live in large groups, and to sexal with many people in large groups, then you will qualify, and then with lots of earned income, pooled together, you and the members in your group, can then move up and live on the surface, in your well designed home, which my kids will use their technologies to build for you.

This is how we are going to clean up our planet, and get started with a whole new system for living and working with each other, as GOD's children working and living together, begining here, and spreading, slowly, across and throughout my universe, as we bring others into our program, all across the universe, from end to end, from top to bottom, and from side to side, and in every nook and cranny of my universe.

All of my kids, you, who I am speaking to, will learn to live and work together, supporting my worker unionized kids, in our new global, united, and universal society, we will begin to build, on this planet, first, and then later, every where else.

I am the mother and father of all of you, and of all of my worker, unionized kids, as well, all of my kids who work for me, of course, and of all of my living beings, and of all of my animals. We are going to get this big family of ours, together, and we, the human beings, will begin to clean up our universe, by sexaling for a living, and with many other living by the points systems programs, and other projects. We will also begin to get our heads on straight with religious activitiating, in other words, by participating in religialing, in groups, or by oneself, in the encapsulated living environment, first.

As we move along, in time, we will develop our working strengths, and character, and some people will qualify, eventually, for working in my religious brigade, once they realize and understand who I am, i.e., GOD. Others, who do not give a darn about what I am doing, may do as they like, as long as they are citizens of our country, and as long as they enjoy what they are doing, and as long as they add to the welfare of all people in our society, universal wide, as we build it, larger and larger, for all of my children, no matter who they are. We will one day have all of my children, working for me, and if they do not like working for me, they still have to pay the fees for the resources they use, just as I have to, and that means, there is a charge for every thing we use, and it is detucted from our pay checks. Every one gets a pay check, if they work, and if they are disabled, they will get earnings to support them, for as long as they need to be supported, until they are regroverated, healthy, fit, mentally

prepared, and willing and able to participate. Those who do not wish to participate, will work in jail cells, and prison cells, sexaling for a living, with animals, as I've mentioned before, and at carnival and entertainment centers and districts, we will eventually set up, first on and also inside of this planet, in 'encapsulated' carnival and entertainment parks, and later on and within, other planets.

We are going to have all my children working for me, eventually, as I've spoken about before, and in time, most people will wish to work, and when they are mentally prepared to work, they will enjoy their working, most likely, as sexaling for a living, is not a unwholesome way to earn a living, and it is a pure and holy way to earn a living, and a pure and holy way to spend our time, as part of our new working ethics environement. For more information on this, please see my worker, unionized kids, who handle the information hot lines, in our, and your, and their, as well, encapsulated, living environement, which they have built, maintain, and manage, for all of you, and which they are continuing to build and expand on, for the rest of you, who have not checked in with them, yet.

My worker, unionized kids have their own places to live, inside of the molecules that are used in building your living environment, and in your bodies, and in the molecules outside your living environement, as well. They live in all of the molecules, all over my universe, and they work in them, as well. They have their own universes, that they live in, which are all contained with in the molecules in my universe. It is a little more complicated than that, and so see them for more information on it, if you are interested in learning more.

Disintegrating The Milky Way

The Milky Way is made up of not one galaxy, but of several thousand, of different sizes. We don't have the technologies to see too clearly to distinguish the different galaxies that are within the borders of the Milky Way, nebular star system and nebular star cluster system, another way of saying that the Milky Way is a collection of many nebular star systems. Nebular star systems can be considered similar to galaxies, but maybe not always, as there are exceptions to every thing in most cases, any way.

We are of course part of the Milky Way, I suppose you could say that, but we are far out on the outer fringes of it, and we are not any where near the center of it, and we have our own galaxy we are a part of, and it is not part of the Milky Way, so technically, we are not part of the Milky Way, although we might like to think we are, since it is an expansive set of star systems, and star clusters, nebular systems, and other types of solar bodies systems, and it covers over us, and beyond us, sort of over layering us.

Be that as it may, we do not want to blow up or disintegrate the Milky Way, as we are in a way, part of it, or at least, we are encovered by it. Encover means to be covered over by something and encased within

it, or to be encircled or surrounded by it.

Retraction

Tom Selleck is not a Lesbianist but he was a Lesbianist, until the Lesbianists killed him, after expelling him from their group, and after torturing him with their many heinous torture methods.

Lay Order Of People

I have no lay order of worshippers, who participate with me, in any thing, or in any way. Why? Because, that's like me, the captain of the ship, coming into a town of persons who I don't know, and then saying that I'm the authority over them. No one is going to listen to me, and no one should be expected to listen to me. I wouldn't attempt any such thing, and so as the captain of my ship, my religious order, I have no authority over lay persons.

I have nothing to do with lay persons, what so ever. I will never have any thing to do with lay persons, unless they realize that I am GOD, and that I am the mother and father of all human beings, and all animals, and all living beings.

No one is going to recognize me as GOD, for a long time, as no one has the karma to recognize and understand that I am GOD.

Lay persons are free to do as they like, and I have no regulations concerning them, in my religious order. My children may have many regulations, for non religious order people, but I don't have any thing to do with that.

Donations For The Sake Of My Ministry

The only thing is, that, as I said before, if a person recognizes and understands that I am GOD, and that I am the Mother and Father of all human beings, all animals, and all living beings, then they are free to donate cookies to me, or clothes, or wearables, socks, and scarfs, or coats, sweaters, or slacks, neckties, and so forth, cakes, or cupcakes, baked items, or financial contributions, or chairs, and furniture, beds, linens, tables, office furniture, phones, phone lines wiring, electrical wiring, plumbing items, housing items, for building up a house, paved drive ways, mason or rock walls, surrounding the property, or a set of dormitories, or a prayer sexaling room, or a prayer ceremonialing room, or a swimming pool, sauna, bath house, toilet facilities, bathing facilities, laundering facilities, a root cellar, a molds and funguses workshop, a brewery workshop, or any workshop for helping to educate others, the land to build these things on, or money, or whatever.

If they recognize and understand that I am GOD, that is perfectly alright, to donate any types of items, or any thing of value, that would assist my ministry to get up and get running.

As yet, no one has recognized me as GOD, and no one understands that I am GOD, and the mother and father of all human beings, all animals, and all living beings, so as yet, I have not heard from one person, not a letter, or a phone call, other than an occasional wise cracker, mischief maker, or a person or person who are worried, and then complain to me, or rather, to my answering machine, most often, as I don't pick up the phone, now, as I had one person calling who was a bad kid of mine, and he was just looking for trouble, and since that, I just ignore all complaints, or wise crackers, or mischief makers,

and so on.

Nollicking Foolish People

Some people do not like me wearing my GOd cap, that is one of those specialty base ball caps, but with 'GOd' written across the front of it, and they might hate me, especially some South American or Central American Hispanic types, who have primitive and backwards religions and filled with local lore and ancient tales of demons, and goblins, and gooney bears, or ghostly ghouls, or other superstitious ideas and notions of things that go 'boo!' in the night, and try to scare or hurt people, as there are plenty of folklorish tales of such things, in primitive cultures, that thrive, even at the current time, nowadays, in large cities, even, and these types of people might want to kill me, and when they knock on my door, with their gun in their pocket, or in their hand, machete or knife behind their back, I just ignore them, and I don't even bother to get up from my work bench, i.e., my bed, to see who is knocking at the door, as I know already, they have nothing to do with my monastic order, and because they have nothing to do with my religious ministry, or with my setting up my religious ministry.

Just last night, some group of people droped by, and banged on my door, with the tip or barrel of a weapon, and it was rather hard sounding, and I just ignored them, and after a few minutes, or so, they went away, and they haven't come back, yet. I don't think they will, and even if they do, I don't think it will amount to any thing, as I may have occaisonal visitors or harrasment calls, now and then, but that's all they are, and I just won't allow my self to be bothered by them as they are unimportant, and my goof ball kids, are just too nutty to figure out that I am GOD, and that they are my kids. Nevertheless, these goof ball kids are here or there, and I get lots of compliments about my hat, and usually, if not always, the person giving me the compliment wishes to steal the hat from me, and then rob me, in any other way, he or she can, and then beat me up, if he or she can.

Well, I can't let these types of things get to me, and I just ignore them, as I walk by them, and I don't reply or return any statements to them, except a polite, 'thank you' if they gave me a compliment about my hat, but that's about all, and I might mutter something, like, and well, so that's just another one of my goof ball kids, or something to that effect.

Nollicking And Nollygaging

Nollicking means idiotic and foolish people who are wasting their time, for accomplishing nothing. It's like, nolly gaging, but nollygaging, is just wasting time, foolishly, and while you are nollygaging, you are looking for some way to make a profit, from your use of your time. Scanderously, you try to extort money from others, or force others to give you money, you do not have any right to.

That's nollygaging, as I can recall, at the moment.

Goof Ball Kids, Their Mischievousness, And Maliciousness

Well, I have all kinds of kids, and many of them are malicious, if you give them a chance, so I just stay away from all of them, as I know most every one of my children, is malicious, from time to time, if given the chance, and I think that applies to all of them, regardless of their age, at some point in their life, they will commit crimes of one kind of another, against others, and not think much about it, except that, they just had to take care of that, as they wouldn't be happy, if they hadn't.

Okay, so every one of my kids, at one time or another, will do goofey or goof ball things, and not think much about it. That's the way it is.

There is nothing to be surprised about, as every one, and I don't care who they are, every one, does things they shouldn't do.

Me, personally, I get angry, and say nasty things, and make myself sound gruff, now and then, and maybe I shouldn't, but I just feel compelled to do that, when I have a righteous conviction that some one deserves my speaking up and telling them off.

Well, you feel sorry about it, afterwards, if you hurt some one's feelings, but then that's the way it goes, and no one is perfect, so it's just. Let's try to live and let live, and live together in peace, and cut out the naughtyness, and stop the mischiefness, if we at all possibly can, and apologise if the opportunity presents itself. That's always the best way to handle things.

Most people, after they kill someone, can't appologise, and young girls and boys, and older girls and boys, think nothing of killing people, or having some one killed, for them, and then of course, there is no way for any one to appologise to the dead person, since that person is in my Epcot Center.

Well, we can't do too much about that, can we, but we can try to be kinder, and not kill as much as we feel we must to be happy.

More Than Ninety Five (95) Percent Of The Homicides In The World, Some Times As High As Ninety Eight (98) Percent, Or Even Higher, Go Unreported, And Are Therefore, Not Investigated

It's too bad that we kill others, and torture others, but that's the way my goof ball kids live in my universe, and despite what people might wish to think, to the contrary, it happens every day, in every city, town, hamlet, county, district, or where ever. My goof ball kids are killing people, right and left, and there are just so many deaths, the police don't hear the ninety five (95) percent of them, or so, as they never learn about it.

The percentage of homicides the police do not hear about, is perhaps just a little higher, but in any case, no one should be surprised, as that is how my goof ball kids get along with one and each other, and they have been getting along with one and each other, that way, for a very long time, already, so it will not stop, any time soon, and that's just the way things are, for now.

The Lesbianists are responisible for just about eighty five percent of those homicides.

Labrynthine Cities Below Us

The Lesbianists living below us, in their cavernous, labryinthine cities, that are below the hard rock layers, well below the oceans, and other bodies of water, far below the continents, go around, and mess with every one, and they play with people, and they think they have the right to amuse themselves by useing the citizens of this planet, any old way they like.

They go around, and set up phoney wars, and they watch the citizens of each country, kill each other, on their commands. The Lesbianists enjoy playing these kinds of games, and they set up civilization after civilization, and they bring it along, and help to develop it, and when they get it to a high enough level, they feel a sense of accomplishment, and then they watch and amuse themselves as they destroy what they built up, and the people who are living, unawares of them.

The Lesbianists think it is funny, that the Lesbianists feed the lies about our universe, and the lies about science, to every one, and the Lesbianists think they have the right to bafoonerize every person who comes into our world, as a tummy baby, who is on his or her way in, and in fifty to eighty or so years, is on his or her way out.

The Valderizing Lesbianists

The Lesbianists do not teach real science, or real geography, or real history, or real mathmatics, or real chemistry, or real anything, and they fool every one with their bogus religions that they either made up or corrupted, and valderized. Valderized means, they vandalized it, and sprayed grafitti all over it.

Well, that's the way the Lesbiansts get their kicks, and they are just a bunch of grown up children, valderizing every thing they can, and disrupting every thing, and every bodies' lives, just for their own amusement, and cruelish fun and games, such as feeding former Lesbianists to my abominant kids, who are need to be fed, and who are smart, and devious, and who destroy humans, and eat them up, and spit them out, and treat them terribly, while the Lesbianists watch on, in amusement, as they see people like Bill Gates, or Steve Irwin, and others, eaten up and then tortured, as I've mentioned about before.

Valderize all they may, and be cruel all they may, we are all now finally finding out about their treacherous and horrid behavior, and

now we are going to put a stop to it, permanently, and that means we will kill every one of them, and send them all to my Epcot Center, as I've explained about before.

Now we know we can cave in their cities, below the leaky hard rock layers, way down below, if we hit certain areas, hard enough, with a nice big hammer, such as one or more of my 'nuclear' bombs, the fracturable rocks kids bombs, with fuels oils, burning at extreme high temperatures, and with percussive shock forces, these, mixed together, will get my fracturable rocks kiddies, making lots of babies, and with a large enough fracturable rocks fuels chlorine, and metals that burn at high temperatures, nearing solar temperatures, we will see some very explosive 'family making' adventures, among my fracturable rocks kiddies, and their radiological relatives and friends.

We know where to hit some of their locations, to drop a few miles of more of continental shelf down onto the tops of their ceilings that will then fracture their ceilings, and cause massive damage, as oceans of water fill up their labrynthine and very well laid out cities, below us.

Who Do We Kill, First?

Mr. George Bush, Jr., Mrs. Barbara Bush, Jr., Mr. George Bush, Sr., Mrs. Barbara Bush, Sr., Mr. Ronald Reagan, Mrs. Nancy Reagan, and lots of their friends, and nearly the whole crew of politicians in Washington DC, are all Lesbianists, and I want you to kill every one of them, and send them to my Epcot Center, and I want you to place the fracturable rocks bombs, in the right locations, and then drop a thick layer of continental shelf, down onto their ceilings, their ceiling that are below the water that is between us and them, and that is below our continental shelfs that we live on.

We can hear the water down below, if we have the right types of listening devices, and if you find the right places to place your fracturable rocks bombs over, then it may be easier to drop your continental shelf, down through the water, below you, and down further onto their ceilings, the hard rock layers below the water, that is below your continent, swirling about.

Now I want you all to study this, and find the right places to drop your continental shelfs, down through the water layers below you, and onto their ceilings, so as to smash their ceilings. I've given you some hints, already, as to where you can place the fracturable rocks bombs, and my kids also have given some people more information on that, and so we have lots of people, who are interested in solving this problem of the Lesbianists toying with you, one life of yours, after the next life of yours. It is time we brought their mischief, and non sense, and cruelty to a halt, and it is time we put on the brakes, and slammed down on the brakes real hard, and at the same time, slam down on the ceilings of the Lesbianists labrynthine cavities, below you, their cities that they have laid out in perfect

symetrical, geometric shapes, like perfectly shaped, honey combed behives, with central cities, placed symetrically around the globe, in a perfect geometric layout, and with spokes or corridors reaching out symetrically, to other central cities, and to satelite cities, that they have well planned out, and have well laid out, perfectly, below you.

Hydrolific Pressures And The Labrynthine Cities Below Us

Because of the hydrolific pressures, they can never keep the ceilings, perfectly dry, and they are always in trouble, trying to fix leaks, here, there, and every where.

Now it won't take too much to bring the whole place down on them, flooding them like rats in a cage, below the water line, as a boat slowly sinks with a rats' cage on a table, with rats in it, slowly into and below the ocean waters.

The ones above, such as George Bush, Jr. the current president of the United States of America, and his wife, and his supposed family and relatives, and all his close Lesbianists' friends, should now all be killed, point blank, with your fracturable rocks bombs. I hope that is perfectly clear, and I hope you all understand what the situation is, and that it is an intolerable situation, and we are not going to allow them to toy with us, any longer, and we are not going to let them amuse themselves, any longer, and we are putting an end to their games, now.

DO YOU UNDERSTAND ME? I HOPE SO! AS A 'NO SIR!' WOULD BE UNACCEPTABLE.

Now that we know where we stand, we have nothing further to argue about, and so let's get to our tasks, as soon as we are ready, and prepared. Okay? Good.

Local Area Prayerful Collection Site

A collection site is where people gather to pray, and to sexal and to purify each other. It is not a site where people ask for offerings, or where people as for any thing else, involving money. It is a sexaling park, and a prayerful sexaling park. That is the meaning of collection site. A collection site is where people collect together, to sexal and purify themselves, and while they are at it, they make sexaling efforts to help to purify others, by shattering and showering out megawatts and tons of radiating, purifying energies.

We have a local area park, at the corner of West Tropicana Ave. and South Decature Blud., a local BLM piece of land, that some people like to camp out in, that I go out to, to bless, and to purify with my religious ceremonies, now and then.

I claimed that area, and all other BLM lands that I could claim under Gurkian Law, and all other land on this planet, that I could also claim under Gurkian Law, such as other parks and forests managed by

other government agencies, or private lands, supposedly owned by rich people, and lands around the world, that I have a right to claim, under Gurkian Law, and all that land, is now mine, under Gurkian Law, and I can use it in any way that I need to use it, regardless of what other people, think.

Aerobic Taichi Practice

I am busy, now and then, purifying that parcel of land, at the corner of West Tropicana Ave. and South Decature Blvd., with my religious ceremonies, that I conduct with my religious prayer hand signaling statements and with my use of my ability of arerobic Taichi, for religious ceremonies, as I seem to have recalled a lot of areobic Taichi, as well as some other forms of Taichi, that I knew, before, in previous lifetimes, but I am only interested in using it for practical purposes of religious hand prayer signaling.

I'm very clumsy when it comes to aerobic Taichi, but any way, I enjoy it, and it is good excercise for me, and the more I practice, the better I get, but it will be zillions of years, before I get any where near good at it. I practice the arerobic Taichi while I make my religious hand prayer signaling statements.

I don't teach Aerobic Taichi. I only use it for my prayer ceremonies, when I am on my feet, and not on my back, mostly, even though, I do use a short version form of it, while lying on my back, or, while I am on my side, I use a very short form of it. Anyway, it is fun to do Aerobic Taichi, and that makes my prayer ceremonies, for me, more fun. When other people learn to prayer signal, they will naturally pick it up, as well, as every one has studied to some extent, Aerobic Taichi, and other forms of the martial arts, and my kids will release the knowledge that is stored in your memory banks, as you need it, once you begin practicing, for women, as a priestess, or for men, as a priest.

It is not like the Taichi you see people doing in China, or Taiwan. It is Taichi, unless they are very good. It is specialized form of Taichi for use while performing hand prayer signaling. It is not used for fighting, but it is the basis for Taichi, and you can train in martial arts, while employed as either a priestess, or as a priest, and it will be useful to you to know, before hand, as it will make practicing your martial arts, that much more interesting.

I'm not hiring any one, now, or just yet, or any time, soon, as far as I know, as my kids do all the interviewing, and I have nothing to say, about who comes knocking at my door, to be interviewed.

Campers, Camping, Sexaling And Purifying The Area, And Useing The Parcel Of Land That I Publicly Claimed For My Setting Up Of My Ministry

Now, on that parcel of land, there may be campers, now and then, who want to camp there, because they want to find out more about my

religion, and so they come out to Las Vegas, now and then, and they camp out there, on that parcel of land, at the corner of West Tropicana Ave. and South Decature Blvd.

Since that land is where I am going to set up my initial ministry, when the time for that comes, I am preparing it, with my religious purification ceremonies, and there doesn't seem to be any troubles, with any one telling me not to go up to my property, that parcel of land, and there is no one trying to tell me that I can not bless my property, that parcel of land.

Now, if other people wish to come to that parcel of land, and wish to sexal on it, and thereby purify that parcel of land, they are more than welcome to come to it, with their camper trailer, or caravan bus, and they can maneuver into the area, and set up a tent, and campsite, but there is no water, or any thing else, so you have to come prepared to rough it, if you wish to come in your camper van, or caravan bus, or in a camper trailer, or with a tent, or with other types of sleeping and living gear.

Straightening And Cleaning Up The Area

You can straigten up the area, and clean it up, and make it nice, for many people to pull into, to join together, and to sexal together, and with your purifying energies from your sexaling together, you are more than welcome to stay there, as long as you like, and as long as time permits, and as long as finances permit.

I have nothing there, except for my now and again, Aerobic Taichi practice and the energies that are imbued into the area, there, from my religious hand prayer signaling ceremonies. There are no structures of any kind, and I am sometimes there, busy purifying the area, with my religious ceremonies, so if you and your friends would wish to come to that area, and also help to purify it with your sexaling energies, than you are more than welcome to come and visit there.

Donating Your Sperm, Sexaling Spittle, Perspiration, Vaginal Juices, Titty Juices, And All Your Sexaling Juices

You men and boys may by all means, donate your sperm juices, sexaling spittle, and other sexaling juices, your perspiration you generate while you are sexaling, to the site, and you women and girls may by all means, donate your vaginal juices, your titty juices, your sexaling spittle, your perspiration you generate while you are sexaling, and all of your sexaling juices to the site, as they all will help to purify the property that I intend to set up my ministry on, as they all contain many, holy, pure, sacred, powerful cleansing energies, and GODLY energies in them, and they will help purify the land, and the environment for ages and aeons to come. All of your eroteming and orgasming energies will go shooting throughout your bodies, and they will find their way throughout your bodies, and out of your bodies and brains, and into the environment, and into your

bodies' sacred and holy spillages, as I've discussed about before. Your bodies' spillages, as well as your perspiration, your pee, and your poop, not to mention all of your other juices that are produced as you sexal, erotem, orgasm, and phlumett, become pure, sacred, holy, powerfully cleansing, and GODLY, while you are sexaling, eroteming, orgasming, and phlumetting. Your pure, sacred, holy, powerfully cleansing, and GODLY energies find their way into all of your bodies' spillages, and so please donate them to the site, in appropriate manners.

Building A Latrine

Please employ some one to dig a latrine, and to fashion benches to sit on so as to be able to dump your poop, and pee your urine, into the latrine trenches. Manage the latrine, with care, and employ healthful, tactical, and sanitary techniques to use it safely. Provide hand rails, to grasp, so that no one will slip off and fall into the latrine. Provide barriers so that no one can accidentally fall into the latrine. Use your common sense when providing 'tactical' safety measures.

You need not fashion an over hang, as there is no rain to speak of, in Nevada. You do not need a supported roof, or enclosure, as they will only become stench ridden, and no one will enjoy useing them. There are to be no enclosure walls, or sides, or backs, so as to enclose the odors of the latrine, and confine them to an air tight area, where they can accumulate, and cause explosions, accidentally. They need only be deposited into a safely dug, latrine, and then allowed to filter down into the soil, and then allowed to vapor up into the atmosphere, freely.

No doors should be used, and no barrier walls should be employed, when fashioning the outside framing of the latrine facility, itself. That means, there are no hiding places in the latrine, where people can hide, and be prevented from entering, or exiting from the latrine. Only hand rails need be supplied, and only barriers that are suitable for keeping people from falling into the latrine, need by provided.

Steps may also be provided, to a raised platform latrine, which is more sanitary to use, than a level to the ground, latrine. There should be no walls, and no blind spots when either ascending up the stairs or when descending down the stairs. Women, girls, men and boys, should all use the same facility, and there is to be no fraternizing. Fraternizing is playfully tearing up at the opposition, or at people who you do not like.

Tearing up at the opposition means, you are trying to over throw the person, and dispose of that person, into the latrine. Over throwing the person means to be using reckless abandonment when dealing with another. Reckless abandonment means to be recklessly risking the life and limb of another.

There will be no frolicking at the latrine site. Frolicking is when little boys, and big boys, and little girls and big girls, play around and provide possible hazzards to others. You will not behave in a hazzardous manner towards any one, at any time, or you will be asked to leave, and to not come back.

There will be no play time allowed for children, as this is a collection site, and that means it is a holy site for holy activities, so leave brats at home, and do not bring any one who drinks alchoholic beverages, or who acts unwholesomely, to the collection site. This is a private site, and a prayerful collection site, and that means, you are coming there, to pray, and to make love, and to sexal, as GOD's children, so as to purify the site. You are not allowed to act randomly and with reckless abandoment. Randomly means, without proper self control and restraint. This is not a gay fashion, show or parade, and we will not tolerate reclusive, or unwillingly unwholesome behavior.

Reclusive means, unwilling to participate for the stated purpose of purifying the area. Reclusive means, caution and carelessness is thrown out the window, and you are acting in an irresponsible manner.

Unwillingly unwholesome means, first, unwillingly means, non cooperative, private, or sordid. Sordid means you are acting in a selfish manner, and you are not acting in a responsible manner for self and for others.

Unwillingly unwholesome means, thusly, that you are acting in a selfish manner, irresponsible manner, uncaring towards others, and unwholesomely.

Unwholesome means, you do not care about the life and limb of others, and you would just as soon shoot a person you argue with, as talk to them for a friendly chat. Many of my kids, are very unwholesome, and will just as soon, talk to a person, as shoot the person. You will not act in any such manner.

Any unsafe or prohibited latrine construction will be ticketed on detection, by me, and you will be asked to rework the facility. That will be on the ticket, and please comply, if you and your friends who built it, will be so kind. If you do not rebuild it, you will be asked, with your friends, to leave the site, as you are acting in an irresponsible manner. You will not be allowed back to the site, without your showing proper repensive behavior. Proper prepensive behavior is an attitude of appology, as well as the acts of appology which means, you will take appropriate steps to see that the work is or has been redone, in the manner as required by safety laws, as stated by my children, under Gurkian Law. Either me, or my children, will leave the ticket, and you will be required to fix what ever it is you need to fix, or you will be asked to not stay and conspiriate at the collection site.

Conspiriate means, to participate freely with caution and care for the sake of others. Conspire is also the same, as conspiriate.

You will be asked to not stay and conspire at the collection site, means, the same thing. It means, you will not be permitted to participate freely with caution and care for the sake of others. That means, you will be asked to leave, and you will not be allowed to come back, if we, my children and I, and other attendents, as well, can at all help it.

Attendents are people who participate in the collection site activities, and they are people who take responsibility to make sure every thing is done, properly, and safely, with the sake and safety of others, in mind.

The Home Depot has many nice and useful janitorial equipments, and so it will not be difficult to build a safe and luxuriously clean, and handy, latrine, that is safe to use, for all people, of all ages.

Luxuriously clean, means, it is kept sanitary.

How do you keep a latrine, sanitary? You keep it clean and sanitary by venting the air out, freely, with no blind spots, either underneath or above, where pockets of air, and vapors can accumulate.

No partitions will be installed that will create a blind spot. A blind spot is an area where light can not penetrate. Therefore, your construction materials, must be perforated wood, or grated steel. You can weld together, if you know how to weld, a very nice, grated steel, latrine, that will be safe to use, by every one, of every age. You will need the correct strength of supportive steel poles, to handle the weights of the persons accessing the latrine, and of the latrine, as well. You will make certain to build it well, and to support it well, with firm foundations, of concrete or steel plates.

Any deviation from safe practices for building latrines, will be torn down, disassembled, and the persons or person responsible will ethier be asked to leave, or will be asked to appologise to the memebers of the collection, sincerely. If the person acts in a responsible manner, and appologizes, sincerely, and appropriately, then the person will be excused, with out further, charges being leveled. Further charges will be leveled by my children, if my children detect further, reckless abandonment on the part of any person, participating and acting in a reclusive or recklessly abandoned manner.

Glue People Begun 'Cleaning' Agents

Cleaning the toilet seats of the latrine, will also help to keep the latrine luxuriously clean, and sanitary. You should clean the toilet seats and parts of the latrine, with common household detergent agents, as at this time, we have no choice but to use the unwholesome, Lesbianists' manufactured, ajax, spic and span, lysol, and other such 'glue people begun' agents. Glue people begun agents means, aerosols, and other unwholesome petrol fueled compacted or pressurized sprays,

or detergents, that help the Lesbianists to begin the process of turning human beings into glue people. Glue people, in this instance, does not refer to glue, but it refers to tar. Tar is an adhesive substance, and their intent was and is to turn every human they can find into tar people.

We have no choice but to use the local distributors selection of cleaning agents, but in time, we will one day, have all that straightened out, after we demolish the Lesbianists' hideouts, under ground, and after we kill them all, or welcome them in, as 'surrenders', with appropriate, remorseful, penentant attitudes.

Removal Of Latrine Wastes And Disposal Of Latrine Wastes

Latrine wastes materials shall be removed, and supplied to local pig farmers, who can then use the materials, for feeding the animals. Pigs and hogs love to eat away at latrine wastages, and no one knows that. Chicken also enjoy eating human wastages, as well as ducks, geese, and other fowl. Horses and burroughs also enjoy human wastages, if it is healthy enough, with large amounts of vegetable mass in the diets of the human beings, whose wastages are carried to the farms for spreading about in the hogs and pigs, barrels. A barrel is a place where wastages are loaded, up into trucks for delivery to a sewage farm, or a place where farmers can use the wastages, that the hogs are finished with, as fertilizers.

Hogs and pigs use a roped off area, for eating wastages, and employees keep track of the unloaded wastages, and the spilled wastages from the hogs, and then the spilled wastages from the hogs, are then moved to a separate area, for pickup by carriers of farmers. Foods grown at farms using hogs and pigs wastages are useful and nourishing to humans, and other animals.

No fees of any kind for loading and for carrying away wastes to hog and or also pig farmers, should be levied by truck drivers, as drivers will earn a tokenous gratitude tip from the hog and or also, pig farmer. An appropriate payment to the driver and deliverer of the human wastes to the hog and or also pig farmer, should be paid by the hog or also pig farmer, unless the farmer is cash strapped. Cash strapped hog and pig farmers may be given money compliments by the people at the collection site.

Money compliments are small awards, or minor payments, out of gratitude to the hog and pig farmer, for his or her useage of the human wastes from the latrines. Money should be collected, regularly, if hog and pig farmers are cash strapped, and then given to the hog and pig farmer, out of gratitude to him or to her, and presented, tokenously, or as a gift payment. How much should be paid, depends on the expenditures of the driver, for his or her services, and for the use of his or her, vehicle, and for its whollyfied maintenance.

Wholly fied means, the regular maintenance that will allow the truck or vehicle to run at tip top conditon or shape, for the life of the vehicle, figuring it proratively.

Proratively means, spaced out, and paid proratively, or over the period, at regularly spaced points in time, over the given span or the useful life of the truck.

Discussions regarding this, and discussions for compensations, should be held at the collection site, and at the delivery site(s) for delivery of human wastes, by all parties, concerned, regarding all of this, and the primary collection site attendants, the persons elected by the attending or participating persons, at the collection site, who show the greatest interest and sense of responsibilities, at the collection site and with regards to the collection site, and with regards to the collection sites' safe, healthy, and wholesome management, must attend the discussions, and must deliver their sound judgements as to who is to be compensated payments for their participation in the removal and distribution of the wastes from the collection site, to the hogs and pig farmers, and as to how much should be dispensed, per each removal and delivery of human wastes.

Participating persons at the collection site, should elect attendants, and the attendants should regularly check on all points for the safe management of the collection site. Participating persons means, persons who are there for sexaling, and for depositing their holy, pure, sacred, powerfully cleansing, and GODLY sexaling juices at the collection site.

Nevada Power, and all other vendors, are not participating persons, and should not be construed as participating persons, regardless of what they might wish to think, and if they have any complaints, I authorise the killing of all persons who disagree, and persist in arguing that they are valid participants, despite their not participating in your holy sexaling, activities, as individuals, and not as company employees. No company employee, or personel of any kind, may participate, except as an individual, lone, and wholeseome, participating, sexaling agent.

A sexaling agent, is a person who is participating at the collection site to assist in the purifying of the parcel of land, on which I will build my ministry, with the assistance of my children, by their participating in sexaling activities, and by their depositing of their sexaling juices upon the grounds of the parcel of land.

How To Disperse Your Juices

Sexaling outdoors will normally require that persons are naked, and juices will naturally find their way to and into the ground. Men, boys, women, and girls, all must be naked, while sexaling outdoors, except for those persons who need to be on the move, such as male attendants, who will need to go around, periodically, checking on the points of interest, to maintain the soundness and integrity of the

collection site, and of all things related to its operation and management.

Clothing

Clothes may be worn, at times while not sexaling, as particapating persons, decide.

Scarves, hats, and minor shawl like garments, Roman, Turkish, or Russian togas, or other comfortable sexaling apparel, for women and girls, to protect the dermal surfaces of the wearer of the scarve, hat, minor shawl, or other apparel, are allowed to be worn, while sexaling. We need every inch of dermal surface, bare and naked, if possible, or at least, accessible, to allow for maximum eroteming sensitivity, touching, massaging, tickling, and so forth, to heighten the erotic levels of excitement, and thrills, eroteming, orgasming, and phlumetting.

Men and boys may wear light weight garments, such as Roman, Turkish, or Russian togas, or other garments that do not interfere with access to sexaling buttholes, dicks, and so forth, for men and boys to be able to maximize their sexaling enjoyments, erotic attachments, their purposeful eroteming enjoyments, orgasming thrills, and pleasures.

Erotic Attachments

Erotic attachments refers to their titties, dicks, buttholes, mouthal holes, tounges, and other touch sensitive, eroticable and orgasmicable body parts.

Purposeful eroteming enjoyments means, their steady minded, determined, and sustained sense of attaining to the highest levels of eroteming enjoyments possible.

Leveling The Area

Some minor leveling of the area, for maximum use of the area, as an automobile and camper trailer, caravan bus, travel trailer, campsite park, will need to be done.

There are many tiny hills, and a few large ones. There is much dirt that can be removed, from the middle of the site, all the way back to the rear edge of the site.

There is a hilltop trailor park, past the edge of the rear of the parcel, and there will need to be built a very durable, and strong retaining wall, to keep that hillside, shored up, and to keep the trailor park from crashing down the hill side, after slide begins, and creep causes the trailor park to fall into the open area, that will be needed to be excavated, all the way to the rear of the park.

The grade or slope of the hill, need not be steep, but can be at a relatively low angle of ascent. An angle of between ten to twenty five, to thirty degrees, in graduations, from front to back, can be

accomplished, with little difficulty, and with no disturbment to the trailor park, or disturbment to the integrity of the trailor park.

We need not seek any permits for construction, as I do not recognize the Lesbianists' governments, on this planet, and if any person shows up who says he or she is a county or city planner, inspector, or whatever, you are to immediately kill the person, and deliver three fivers to the persons' head, as that person is a Lesbianist attempting to interfere in my religious activities.

All activities at the site are to be done, without any interference from any public or other authority, and all costs for all changes and alterations to the site are to be financed by the local construction companies, who are working on the hotels industry, and they will cease immediately their work on all construction, private housing construction, casino construction, and all other towers construction, or work construction, other than the basic infrastructure needed to support the present population of Las Vegas, Nevada.

We are taking over this town and you all will begin to prepare to vacate this town and hand over all of your construction equipment, now, or face your companies and your private persons destruction with my fracturable rocks bombs, begining with the New Orleans Hotel, and all related hotels, and casions, bars, and restaraunts. That means, every gambling establishment is to shut down, stop construction, and vacate this town, now, immediately, post haste, if you wish to live.

You will be destroyed if you refuse to follow orders. We are putting a stop to the non sense of the Lesbianists begining with Las Vegas, Nevada, Henderson, Pahrump, and all parts of Nevada and the Southwest.

You will disband your operations and hand over your companies, such as the water bureau, the power company, the gas utility company, and every other company, including all supermarkets, grocery stores, malls, and so forth, every last business in Nevada, and the south west, to the participants at the collecting site, to take over and then properly manage, until all residents of Las Vegas, remove themselves, to my kids facilities.

Is that understood? You are all resigning and moving into my kids place, underground, surrendering, and moving on for those who are not Lesbianists, but who wish to vacate this area, as this area is in whole, now, a religious grounds.

That means, that I will require the participants at the collection site to take over every thing, and to bring the news reporting stations to their knees, and force them to report the news, that every one is to retire to my kids underground, fortress, and they are all to remove them selves from Las Vegas, now, post haste, immediately, other wise, we will have a fractuable rock bombs throwing contest, to see who we destroy, first.

You must surrender all your holdings, owned property, equipments, and every thing else you call your own, and hand them over to the participants at the collection site.

Is that understood? "YES SIR!" had better be your answer, or you will find yourself on a one way ticket to my Epcot Center, with no return ticket, guaranteed, for however long it takes, to find you tummy mommies and tummy daddies.

I don't think there will be many volunteers, in the near future, as you are all abominant kids of mine, and the only kids people will ever bare, for some time to come, are abominant kids, and animals, and animal humans abominant kids, so I do not think you'll be leaveing my Epcot Center any time soon, if you resist and if you force us to kill you.

Is that understood every body? Good.

The penalty for not complying is death. Do you understand what I am saying? I hope so.

The Party Is Over In Las Vegas, And In The World

The party is now over, in Las Vegas, and at all casinos and gambling establishments, as we know you are all cheating, and we will kill every single last one of you to close you all down.

Who Is Staying And Who Is Leaving, Etc.

You will close down all of your establishments, world wide, and lock the doors on them, and then demolish them, post haste. Is that understood? I hope so. Either you do it, or we will do it. Do you understand that, now? I hope you do, because we are going to demolish every one of your establishments in this town, if you do not demolish them, yourselves. Every last one of them, all houseing, except for those noted in my children's compliance statements, which you are all to recieve, all trailor parks, with some exceptions, all every thing is to be removed, with only the basic infrastrastructure for heating, lighting, water, sewage, medical, hospitals, medical clinics, pharmacies, and so forth, food markets, services industry, HUD, Welfare, SSI, and other operations for the welfare of persons who are here, who can not leave, or who will be staying for some time, and who will be needing the services of those agences, construction companies, lighting companies, electric infrastructure installation and maintenance companies, as well as gasoline supply and distribution vendors, diesel fuels supply and distribution vendors, restaraunts, and telephone. That means, all humans are leaving, except for those person who are to stay on, as indicated in my childrens' compliance statements, and except for those who wish to stay on and participate in spilling their pure, holy, sacred, purifying juices, and those wishing to participate in purifying my area, all of Las Vegas, Nevada, the valley and beyond, in time.

Rules For Hospitals And Clinics, Etc.

There will be new rules for hospitals, and clinics, and my kids will see to it, that the new rules, are followed. There will be other rules, as well, and my kids will see to it, that they are followed, as well, or persons who wantonly disregard them, will end up in prison, underground. My kids have not only a living environment, they have prisons, as well, jail facilities, and many other things. Check with them for a fuller list, of what all they have in the way of facilities, as many are very nice, and there are great possibilities for improving your health, and rejuvenating your bodies, etc.

My kids have a full list of who is to be leaving, who is to be staying, and by when people are to be leaving, and where persons staying, are to be moving to, as we clean up this area.

All of you had better check with my kids, especially, you Lesbianists, but not only them, you religious fanatics, as well, and every one else, of course, or you, especially the Lesbianists and religious fanatics are at risk here, but not too much, the others who are to check in with my kids, risk dying, perhaps, prematurely, and then ending up in my Epcot Center.

My kids also have lists of who the people are who will be recieving all the properties for taking them over, which properties need to be demolished, who will be demolishing things, and how to remove those things that you must remove, and to where you will remove them, and dispose of them, and in what manner you will dispose of them.

You will hand over every thing, and you will all comply, and those who are required to hand over their properties, after complying with removal demands, will hand them over, and then will move out and into my kids place, in accordance with the time schedule that my children have for you to follow. You are required now to check in with my kids, get every thing sorted out, and learn all the details, and then comply.

Those who do not follow these orders risk an early and, fortunate for us, timely meeting with death, and entrance to my Epcot Center for a long stay.

Erecting A Partition Blind On West Tropicana Ave.

The roadway, West Tropicana Ave. runs east to west, and west to east, and it is advisable to erect a pertition blind, so as to not disturb traffic, that comes down the side of the road, the parcel of land sits on, at very fast speeds, with people rubbernecking to see what is going on, as many people will possibly end up flying into the area, with their automobile, truck, gravel carrier, or eighteen wheeler spinnning and turning over, out of control, and then sliding off the roadway and into the collection site.

The traffic is very fact on West Tropicana Ave., and with the interest of the local area residents, who will learn about the collection site, and the activities at the collection site, there will be many hazzards arrising as a result. Some persons may decide to stroll through the

area, to steal purses, or wallets, or cameras, and so forth, as there are many poor, indigent, or hopelessly poor, persons, in the area, who do not have any work, and who can not feed themselves, and they need to steal things, to sell, to earn a living.

Such people should be spoken to, and fed, and then warned not to act in an unrighteous manner, which means, please do not steal things, or damage the property, or any thing on it, and please do not get into fist fights, over insults, and disagreements with participants, about who is GOD, and so forth. There are many impoverished persons from South America, and Central America, who only know their local area witch doctor's teachings on voodoo men and voodoo women, and who know nothing but folklorish stories about gouls and ghosts, and people, or ghostly gouls, i.e., people immitating 'gouls', or mean and rotten people, who go 'boo!', or try to scare and rob people, in the night.

Electricity, Lighting, Etc., To Be Supplied By Nevada Power Free Of Charge, Or Else

The partition blind should be sturdy, tall, and break proof, so that vandals can not break it down, or climb over it. Lights for use at night, with the proper permissions for an electrical hookup from the Power Company, Nevada Power Company, will be granted, and provided by Nevada Power, along with all other neccessary, needed, safety lighting hookups, to illuminate the area, fully, at night, so that it looks just like, or nearly like, daylight, or a well lit soccer areana at night, or a well lit professional baseball field, or football field, at night, and it will be given for free, lest we burn down Nevada Power, and kill all of their Lesbianists employees, and meter men, and all of their tawdry workers, who we do not wish to deal with. That means, we will blow up their buildings, and kill them all, unless they give us the electricity that we require. If we need to kill them all, we will then acquire all of their holdings, and we will operate all of them, ourselves. Fair Warning has been given, and consider that as a done deal, unless you wish to visit my Epcot Center.

Meat Vendors And Hispanics From Central And South America

An air of friendlyness, but caution, should be used. Men and boys are there to protect the women and girls. So, please work in teams, and do not let individuals, who might get kidnapped, and sold off to meat vendors, for a few dollars, or pesos, as it is, in Las Vegas, as the majority of such kidnappings and sales of human beings to meat vendors, the Lesbianists chain stores, such as Colonol Sander's Kentucky Fried Chicken, Burger King, MacDonalds, Jack 'n the Box, Wendy's, In-'n-Out, Fat Burger, Taco Bell, Dell Taco, and all the other, fast foods vendors, is by the locally landed hispanics from Central and South America, who need money, to stay alive.

Erecting A Partition Along South Decature Blud.

South Decature Blvd. also has much traffic on it, and there will be lots of people, rubber necking, to see what is going on, so a high, partition wall, made of lumber, should be erected down the side of South Decature Blvd. to prevent all such incidents of rubber necking, and reckess abandonment, from occuring.

The partition should be about ten to thirty feet high, and should be well constructed. Why so high? We do not want people climbing over it, to sneak into the area, to steal things, and to fight with people, and to cause trouble, and to come looking for young girls, and young boys, and helpless, elderly folks, and uneducated to the whims and ways of the downtrodden, brutal, abominant kids of mine, walking the streets of Las Vegas.

Yes. They are abominant kids of mine, and the proof of that is that their children come out as monkey people, and orangutan people, and chimpanzee people, and if possible, the hospital whisks the baby away from its mother, and disposes of it, in the prep rooms, used for killing incoming, abominant kids of mine.

Drawings On Demolition, Construction, Etc.

My kids have construction drawings for constructing all the facilities needed at the collection site for all the facilities that will be needed. They have electrical drawings for lighting, etc., health, fitness, and wellness facilities drawings, latrine facilities drawings, showers facilities drawings, food and beverage eating and drinking areas drawings, and all other drawings related to all things that will be needed to be constructed, or altered in any way, for our project to proceed, including but not limited to, demolition of the cliffs, leveling of the entire area out to Harmon Ave. and up to Flamingo, and back to Tropicana, as well as what is to be removed and leveled between Jones and Decature. There are a few minor exceptions, such as the building that I am living in. Who will move where, to consolidate staff at this project, and who will be moving out, at this project, and what will be leveled at this project, are all detailed in the program specifications, my children have.

My present quarters, will be my place of residence, as things move along, and in time, in accordance with the schedule for construction, a temporary facility for me will be constructed near the area but between Flamingo and Tropicana, and somewhere between Jones and Decature. Please see them for details.

After the area is purified sufficiently, and after all the areas to be purified, are purified, and my children will decide on when that is accomplished, my children will then activate the technologies, and acquire the resources they need, and then they will build a more permanent settlement arrangement for all people concerned, who are staying on, if they decide to stay on.

The partical dismissive technologies and remissive technologies, for foods, and medicines, and other items that are needed, for continued

survival, and for all other required purposes according to the specifications for the sexaling for a living programs, will all be provided to the participants who wish to stay on, and houseing for them, as well, will also be included. Parks will go up, and so will many other locally needed facilities. Many things will disappear, as my kids will partical dismiss the things and structures they need to remove, as they construct the new area, for all persons staying on in Las Vegas. My kids have a list of all the names of all the persons who may, if they decide to, stay on in Las Vegas, and not all of them, are local people, so you should all check to find out whether you name is on the list or not.

All other persons, who are to be moving on, and all persons who do not wish to stay on, here, will be required to move into my childrens' present facilities, which they will continue to expand as we continue our program on this planet.

We will eventually clear every one out of the area, inside and outside of Las Vegas and the Valley, and surrounding areas, and the world over, except for the persons whose names appear on the list, as houseing can be provided above ground, for participants in the juices spilling and areas purifying operations, by my children, if those persons wish to stay on and participate.

All other people will be required to move into the facilities my children have, and are continuing to upgrade, and expand, in their encapuslated living environement, in which, many people currently live.

Persons in the encapsulated living environment, may also attend the collection site area activities, and future clearing activities, for purifying the areas with their pure, holy, powerfully cleansing, purifying, cleericating [cle-er-i-cating], and GODLY energies filled, sexaling juices.

Cleericating means, the same thing as clearifying. It is just a slightly different but related word from another a variant language of English, and to cleericate basically means the same thing as to clearify.

When we get the areas, cleared enough, and purified enough, my kids will then start building things for the participants. All others will move below ground, and live in the encapsualted living environement, until they have earned enough money, with their friends, as talked about earlier, to purchase a lease on land, and acuire the lease on resources needed, to build a home, etc., for a large group of people, who will be living together, and working together in the sexaling for a living programs, and so forth.

When Will This All Begin?

As soon as people begin to comply, we will begin our efforts to clean up Las Vegas, to begin with, and then, the rest of the world, and

then, the rest of our universe. It will take a long time, as we need to spill our juices, the lay persons, anyway, for some time, to come, as our universe is quite large, and so is the rest of it, that we are going to be recovering.

My Spilling Of My Purifying Sexaling Juices, And My Spilling Of My 'Prayer Time' Purifying Juices

I spill my juices, only for religious ceremonialing activities, during certain relgious ceremonies, and I don't spill my juices, on the properties, as I'm not set up to spill my juices, on the property, now, and will not be set up to spill juices, until I find an excuse for that, and an excuse for performing a religious hand prayer signaling ceremony that will require my spilling of my juices. It's pretty hard to spill juices, when there are no other persons working with me, and I do not work with lay persons, unless they are confirmed by me, and so there will be maybe, some confirmations, but not neccessarily so, as I do not know who is going to wish to be confirmed, and by the way, who ever it is I confirm, must realize that I am the Mother and Father of all human beings, animals, and living beings, and the Creator of my universe. There are not that many people who understand that, except for my kids, my working, unionized kids, and so it will be some time, yet, maybe a few hundred or more years, before some one realizes, 'Hey, he IS the Mother and Father of all human beings, etc., etc., etc.,"

Spilling 'Prayer Time' Spittle Generated While Praying

Until then, I'll use my spittle juices if I need to drop or drizzel any juices, that I generate while I am religious hand prayer signaling, as I don't like or care for the idea of jerking off in public, to spill purifying juices, in public, regardless of the fact, that I am GOD, so it ain't going to happen, any time soon. When I find a authentic 'believer' who realizes and understand that I am GOD, and so forth, I'll begin my public spilling of sexaling juices. I don't mind it in private, but it is not going to happen in public.

Monkey Babies, Jimmy Carter, Oliver North, And The Lesbianists' Conspiratorial Bullshit Stories Of Adam And Eve, And "Jesus Saves"

Most people do not know this, but many births end in tragic loss of the child, because Jerry Falwell, Oliver North, Jimmy Carter, Ronald Reagan, George Bush, Jr. George Bush, Sr., and the rest of them, order and expect all the Lesbianists doctors to kill all babies born to people which do not look human.

Doctors at birthing hospitals also comply, quietly, as it is hospital policy they can not break. If they go against it, they risk losing their job, and possibly losing their life. This is not a joke, and it is the Lesbianistgs policy of having all birthings in hospitals exactly for this reason, for disposing of non human looking babies, at birth, so that their bullshit creation by God, of a 'pair' of people,

Adam and Eve, and that "Jesus Saves all good Christians", can not be contested, by logical proof of non human births to human being couples, or single parent women or girls.

Abominant kids are born every day to my kids, on this planet, and they are all executed, or killed off by the local citizens, by their fright and fear of 'ghouls and ghosts' and 'goblins' in the night that go, 'Boo!'. These idiots, both the abominant South Americans, Central Americana, and all my other abominant kids, North American, Europeans, Russians, Chinese, Japanese, Thai, Philipine, and so on, must ask them selves why they are blessed with babies which are either not human or are abominant humans, or part animal humans.

If they ask them selves these questions, they will find out the only answers are that these people born to them, are my children, and my children are born to them for reasons that have not been disclosed to them, before, by the clergical societies, i.e, the religions of the world, and by the other societies, set up by the Lesbianists, or by societies nurtured along as part of the Lesbianists' 'tragic comedy' of their toying with your lives for their humoring themselves, and for their amusing themselves.

Once we get rid of the Lesbianists, and their ways of doing things, we will begin to see babies that are either not human, or are only part human, in animal bodies, and they will be born to all of you who are tummy mommies, and tummy daddies, if you birth enough children, to find out. How many is enough? About one in forty or fifty by my estimation, but depending on the person, it may be between thirty to eighty, from one person to the next.

Take that to our pastor, and tell him or her, to stick it up his or her ass. It is the truth that animals are born to humans, all the time. Not only that, but abominant kids of mine, usually of the apey kind, but not always, are born to the 'normal' looking humans on our planet, and in our universe.

We need not be afraid of these children, as animals, can be collected and put into zoos, and animal humans can be raised by the parents, or parent, in the case of a single parent.

In time, we will adjust to this reality, and we will raise fine children, abominant animal humans, or human appearing abominant children. That means you are all abominants, and the Lesbianists are laughing at you, and at themselves as well, as they go around and kill and cravenly torture every possible person they can.

We will put an end to their craven ways, and we will make a wonderful universe for all of us to live in, in peace, and serenity, once we get started practicing my religion, and once we begin erasing, sufficiently, our karma and our karmic markups, with your purifying sexaling energies, prayers, and other activities, such as syncopated dance, syncopated excercise, syncopated sexaling, and so forth. You

time it to the metronome at one thirty seventh, for now, and that will be fine. In time, we will get accurate metronomes, and then we will chance the pace, just ever so slightly, to push my kids along, as I explained about, for our wholesome and healthy universe, for all of us to live in, together with each other.

Punishment For People Who Practice Voodoo Religions Is Dismendment, I.E., Death

We will not be killing or executing children any more, at hospitals, or at homes, or in primitive, backwards towns and villages, or rural hideaway villages, where voodoo religions muster the people into peculiar states of mind, where they become entranced, and then begin mindlessly, acting like chickens, and birds, or fowls, or hippos, and so forth. There are too many of these types of so-called 'religions' in this world, and we are out lawing all of them, and punishment for adhering to them, will be a trip to my Epcot Center, as I have my children particle dismiss their bodies, and then dismend them, bit by bit, into their base components, and then have my children whisk them into my Epcot Center.

We will bring every one up to the level of education every one needs to be at, to better understand my universe, and those who persist in abandoning their obligations, will be dismended with out further notice, after they are sent their last warning ticket, from my kids, in accordance with Gurkian Law. That also applies to the Lesbianists, and to every one else, who is unable to get the picture here, and get with the program. There will be no exceptions. And, this is not a joke.

My kids have courses for you to educate your self in, to pull yourself out of the past Lesbianists' way of life and thinking, and into the new and current, reality, that we will be living in, for ever, from now on.

Local Businesses Will Have No Problems At All With The Collection Site And Will Have No Problems At All With The Activities Of The Faithful At The Collection Site

Walgreen's is across the street, on one corner, and Home Depot is on another corner. I don't think Walgreen's will have any problem with you using the site for your camping, for your meeting with others, for your sexaling with others, and for you and your friends' purifying sexaling activities in that park, i.e., the collection site.

Home Depot, I don't think will have any problem with your use of the parcel of land, either, for those purposes.

What To Do If The Police Come?

Now, if the police come, and I'm there or not, I don't know what they'll say, but they have not got any right to say any thing to any one. Is that clear, Mr. Mayor of Las Vegas, and every one else in the

area. I hope it is, as I am not going to stand for your interference or any one else's interference in my religion and in the relgious activities of people who wish to participate in my religion, sexaling to purify my universe. IS THAT UNDERSTOOD, MR. MAYOR AND EVERY BODY ELSE? I HOPE IT IS! AS A 'NO SIR' WOULD BE UNACCEPTABLE!

Now that we have an understanding, I think there will be no problems, and if there are, I will see what I can do about it, by calling my kids up, with my religious hand prayer signaling ceremonies, to see what they can do for you, to help you out, and to break the backs on law enforcement officers, and the Mayor of Las Vegas, and every other person, Lesbianist or not, who tries to interfere with me, or who tries to interfere with the people practicing my religion.

I will not stand for any interference from any one, including Mr. George Bush, Jr., the current president of the United States, or any one else, such as the Mayor of Las Vegas, or the Governor of Nevada, or the Nevada Highway Patrol, or the Nevada Sherrifs Dept. or the Las Vegas Metro Dept. or with any other persons or parties, such as the Las Vegas Gaming Commission, or any other Lesbianists' or Lesbianistic organization set up by the Lesbianists, and that means all you church goers, parochial school teachers, and students, and others, and if any one interferes with any one who comes to my ministry's claimed parcel of land that I am purifying for setting up my ministry, and if any one hassels any one there, than who ever is visiting the collection site, to help to purify it, you have my permission to kill the persons attempting to interfere in any way at all, on sight, with what ever you have to kill them with. Please dispose of their bodies in the nearest trash dumpster.

DO YOU HEAR ME? MR. MAYOR. YOU ARE A DEAD MAN IF YOU EVEN TRY TO SEE WHAT MY RELIGIOUS FAITHFUL ARE DOING, AND SO IS EVERY OTHER PERSON ON EVERY SCHOOL BOARD AND CHURCH OR OTHER LESBIANISTS' COMMITTEE. IS THAT CLEAR, EVERY BODY? GOOD!

You will not interfere with my religion, and with my religious faithful, and they will come to Nevada, and they will come to Las Vegas, and they will start sexaling on that property as they see fit. Does every body understand that? I hope so.

Now. Non responsive persons, who ignore my statements, will find themselves in trash cans, and trash dumpsters, every where in Las Vegas, and any where else, where there is a convenient trash can or trash dumpster. There are lots of them around, and people are throwing dead people into them, every day, across the country and around the world, and they all end up in landfill sites, and so there will be no added charges for our using the statewide Nevada Silver State trash retainers and containers, for however many others who need to be killed, and for my religious faithful to then place them into the trash cans and trash dumpsters.

No charges should be levied by any other Lesbianists' trash collection company, around the world, as they are all owned and operated by the Lesbianists, and we will not support them, in any way, what so ever.

If Mr. Mayor would like to be the first guest inside of one of the Nevada Silver State trash dumpsters, then he will try to interfere, in person, and he will be shot, point blank, in the center of his head.

You will then kill him with three fivers, to make certain he is on his way to my Epcot Center, for his next trip out as a tummy baby. If the Governor of Nevada wishes to interfere, then he does so at the risk of being shot, killed, and made certain he is dead, with three fivers, and then after that, he will be deposited into a local or state trash dumpster, either here, in Nevada, or in California, or Arizona, or where ever it is convenient to dump him into a trash can, trash container, or trash dumpster.

Lesbianists Enjoy Eating People, Who Are Alive, As Well As Eating The Bodies Of Those Who Are Dead

You should let the state's vice mayor of Las Vegas's office know, who was shot, killed, and confirmed dead, after depositing three fivers into his or her head, and then where the body is, and generally when the body was dumped, so that they can get an idea of how decomposed the body is, and whether or not the body is in a land fill site. They can then check on it, and verify that the body will make it to the land fill site, if it isn't already, there, where all the other bodies, are ending up, unless they have already happened to have beeb eaten up by the Mayor, or by the friggen Governor, or by the Sherrif, or by another Lesbianist.

All persons are free to travel to Las Vegas, and they are invited to stay at the parcel of land that I described, and they are invited to make it into a nice camper trailer area for recreational vehicles, or for what ever other types of outdoors camping vehicles, travel trailers, caravan buses, or any other types of camp site temporary stay, housing and living arrangements you would like to use the area for.

Every Game Of Chance, Gambling Machine, Or Slot Machine Is Rigged, In Every Casino Around The World, With Only A Few Exceptions

If you will all sexal, regularly, to the best of your abilities, and help me to purify the area with your sexaling, undisturbed by any one, and clean it up with your purifying energies, you are more than welcomed to come and enjoy the area, and see what fine attractions, will be leaving Las Vegas, in the not so distant future, including the gaming commission, with all their phoney, rigged gaming systems, that the Lesbianists control.

The Lesbianists' Articles Of Participation

The Lesbianists have every game that you can possibly rig, controlled by electronics devices, or by slight of hand, mechanics, who control

the gaming rooms, and gaming halls, so that only Lesbianists win any money, that is worth mentioning about, and so that the Gaming Authorities, and the Mayor's office, and every other Lesbianist organization in Nevada, who has any one in their office, can then go and get the money the Lesbianist won, and get a percentage of it, given back to them, as they have arranged to do that, as that is part of their oath, and part of their sworn promises to do, as that is written out in their articles of participation, their rules for living upsite, not down below, in the labrynthine cities, and every Lesbianist must follow those rules, and when they win the Megabucks, and every Lottery in the world, they must give back money to the Lesbianists, as every game of chance that is run in this world, except for bingo, is rigged. However, even Bingo is rigged, in some ways, by people switching cards that look like winning cards, while players are not looking, and by other naughty tricks.

Every Lottery In The World Is Rigged

Every lottery in the world, performs the drawing out of the balls before a live audience, in most cases, before they actually air the show, and they have illusionary tricks they play, with the technologies they have, and they sucker people out of their money, daily, around the world. Las Vegas is no different, and they sucker every one out of their money, except for the Lesbianists, and they let some people, win now and then, small jackpots, on the gaming machines, and then after a winning streak, they set the machines the person uses, so that the person can not win a dime. They have the technologies for rigging every machine in Nevada, and across the country and around the world, so next time you visit one of their casinos, be sure and detonate one of our bombs, you can make, and destroy that casino. Is that understood? I hope so, as every day, millions of people are being suckered out of their hard earned money, they pay taxes on, through the nose, till they are practically choking, and the Lesbianists take it, and support their folley and games. They also support their folley and games with your revenues, that they make sure you lose, at every casion, and at every gas station, with a convience store, that has gambling machines in it, for you to deposit you money into.

Every lottery in the world is rigged, and so if you spend money on it, if you are not a Lesbianist, you are just throwing your money away.

No Fair Play In Nevada, And No Fair Play In The World

There is no fair play, here in Nevada, or any where else, in the world, and I would like you all to know that, and become aware of that, and then I hope you will tell your friends about it, and then I hope you will destroy every single last one of their casinos, and gaming machines.

We are not going to allow them to continue their frolicking at your expense, and we are going to destroy every last one of the

Lesbianists, as soon as we can.

If they prefer to surrender themselves to my kids, than we can allow them to live. However, if they do not surrender themselves to my kids, then we will kill them all. And there are no 'maybe's' about that.

Sniper Shooting, And Miscellaneous Information

You have my permission to sniper shoot any police officer, park ranger, sherrif, or other person, plain clothesed police officer or detective, with or without a gun, on sight with your scoped rifles, and targeting assistant who will determine range, from your bunkered in the hillside, shooting site.

Any hotel in the area, which might harbor shooters from local police, sherrif, or SWAT team operations groups, you have my permissions, and blessing, or go ahead, and my 'okay, and 'approved for action' sight of appeal.

Sight of appeal means, my blessings, based on your determination as per your good judgement.

One hotel that is clearly the most convenient, and the closest with in shooting range, at close range, is the New Orleans Hotel. Hotels within shooting range, at a distance, are the Palm's Hotel, The Rio Hotel and Casino and its seperate tower wing, and a few others, off in the distance. You'll have to come and look at them from the approximate location of the site after you determine where every thing is, to locate and determine for your self which hotels and towers need to come down, and what you will need to bring them down.

There is a tower off in the distance, a new hotel, that is going up, that I do not know the name of, but is clearly within shooting range, and needs to come down, and people are on it, daily, welding, and you can't miss it, if you look in the north easterly direction from the site.

There is the Stratosphere Hotel and Casino, which also needs to come down, which is further over to the west from the new hotel wing that is going up. There are many scaffoldings in the area, that also need to come down with explosives, fracturables rocks, fuels, chlorine, and high temperature minerals particles ignition, and particles burnings bombs.

There are probably a number of other landmarks, hotels, casinos, bars, restaraunts, trailor parks, trailors, houses, apartments, condominiums, near or off in the distance, that also need to come down, and need to be demolished with my light weight explosives fuels, gunpowders, metals particles, and chlorine plastique explosives bombs.

You will destroy them all, and you will come prepared, or be prepared to acquire all the demolitions needed to destroy them all, as well as to destroy all the local police and sheriff's many Metro offices, SWAT

Teams offices and units, Fire and Rescue Ambulance units, Lesbianists' Hospitals, and other Lesbianists facilities, throughout the Las Vegas Valley, Henderson Nevada, North Las Vegas, Pahrump, Mesquite and the whole Southern Nevada, westward to San Diego, California, northward to Los Angeles, northward to San Francisco, California, northward to Berkely, California to Oregon, and Washington State, and back down to Reno Nevada, Arizona, New Mexico, Albequerque, Houston Texas, Dallas Fort Worth Texas, and all areas where there are tactical SWAT team units, military units, militia units, as all militias are organized and operated by Lesbianists, despite popular beliefs that they are independent of the government, and anti government, as we often see on the "TV for the Brainless", as they are often refered to, i.e., the general public.

You will destroy all law enforcement offices, and personel, and all military and militias. All governments, their offices, and employees, are to be destroyed, and all personel are to be executed, except for those who take it upon themselves to execute the Lesbianists among them.

My kids have a full list of all the places and structures that need to be destroyed, and demolished, and so please see them for that information.

And to repeat, your orders are to kill the president of the United States, George Walker Bush, Jr. and all of his and his wifes' Lesbianists' associates, pretend relatives, and friends.

We are not going to let this stand, another moment, and if they do not surrender to my kids, you are to execute them all. My kids have a list of names, of those, who have not surrendered, as yet. Please see them for and ask them for that list of names of persons who have not as yet, surrendered, and who need to be executed, post haste, immediately, or, ASAP.

United States President George Walker Bush, Jr., is no exception to this, as he has not surrendered, as of yet, and that is confirmed. Neither has any of his colleages, or congressional office holders and diet or congress members, except for Ted Kennedy, and one or so others, and maybe a cabinet member, one or there abouts, but I haven't confirmed that, yet. There are some members of the congress who are not Lesbianists, and you can get their names, on a list from my kids, as well.

Texas's Lesbianists' Latest 'Vaccine' And Texas's Attempts To Destroy Women's And Girls Vaginal Lining And To Destroy Cervical Lining, Causeing Stillbirths To Increase, And To Prevent The Successful Birthing Of Children

The latest attempt by the Lesbianists' governments of the world, near by my computer window, on the internet news services, to destroy and toy with the human population of this planet, has been launched in Texas, and is targeted at women and girls, and their ability to have children.

See the article at the end of this post.

The new vaccine, which is mandated by Governor Rick Perry, who signed it into law, and is now obligatory, unless you protest it, and go to

court, and spend years fighting it, as an individual or small group of claimants, will destroy the vaginal cervical collar and the lining that holds every thing in place, and supports the interior of the vagina, thus making it impossible to carry a fetus to term. The vaccine is also targeting the brains fibers throughout the human body, and the fibers of the brains in a woman's or girls' body will slowly rot, and decay as they are eaten up by tiny animals that eat these energies conducing fibers, synapses, relay switches, and other related energical brainal related things and dings thoughout the body.

Latest Lesbianists' Vaccine Will Cause Numerous Problems

It will also speed up the eating away of the enamel of the teeth, and of the bones in the woman's and girl's body, her fingernails, and her skin membranes NS membraneous tissues throughout the body, and on the exterior of a woman's and girls' body, making the women and girls grow older looking at ever more younger ages, and making women and girls susceptable to skin cancer, melanoma, herpes, genital warts, other infestations of animals in the skin, and other skin related membrane destructing colonies of animals, that they use from out of their Bio Chem War encyclopedia of how to destroy human beings, with poisonous and health problems causeing crystals cages animals of all kinds. Especially numerous are the Bio Chem Warfare crystals cages animals of the petroleum industry's based kind.

The vaccine is no different from any other of the Lesbianists vaccines aimed at destroying the health of the people who live on this planet. It is compared to the 'polio' vaccine, in the news article, and that was similarly an attempt at destroying the health of the human being, by making the human being incapable of haveing any sexual orgasming capabilities, by killing off all the sex related animals and bugies in the body, which make sexaling juices, that make eroteming and orgasming possible.

Thus, this latest attempt at destroying the health of the people who live on this planet, locally, in Texas, and that I know of, anyway, is nothing more than the Lesbianists toying with the people who they are here to amuse them selves with by destroying them, little by little, over a long period of time.

Execute United States Of America, State Of Texas, Governor Perry And Family

This will not stand, and you will all destroy the capital of Texas, and Governor Perry's mansion, and the Governor and his wife, and their family, pretend or otherwise with my fracturable rocks and fuels chlorine and explosives, etc., bombs, that you will make in your home's garage, or workshop, safely.

Underground Books Distributor's For Militia Types Folks

Use the delayed timer invention, that is a workable time delay detonator, that I've explained about, especially if you use black

powder gun powder, mixed with axel grease, turpentine, benzine, chlorine, using also some Elmer's glue, prior to mixing with chlorine, and then set it in a warm cupboard, to ferment for a few days, to then turn into a nice plastic explosives mixture for detonating with the string of flash bulbs wired to the alarm clock trick, as described by Ragnar or by one of the other bombs making specialists, in their sub culture literature for militia types folks, who wish to destroy the government.

They find the list of names of all the people who request the literature, by mail, and then they go and watch them, with their surveilance technologies they have, and then they either capture and torture them, and then kill them, or they just make sure they are die, in a fatal car accident, or whatever.

Paladium Press is one of the Lesbianists' book publishers, and there are others, and this one is affiliated with the National Rifle Association, a Lesbianists organization.

This publisher has titles sold to underground books distributors, and you can find a number of underground book distributors on the internet, which carry more titles than Palladium press.

Delta Press, who publishes their books and paraphenalia distribution listings magazine, 'Delta Force' is one of these distributors of interesting underground literature.

http://www.deltaforce.com/catalog/page30dp.html

'Home Made Fireworks', is one web page to look at, if you have the time.

http://www.deltaforce.com/catalog/page28dp.html

'Booby Traps, Explosives and Black Medicine', is another useful page to look at, as well.

http://www.deltaforce.com/catalog/page30dp.html

There are a number of other distributors of underground literature, and some have better selections than does Delta Press.

In any case, with a little research, there are plenty of 'timed detonation devices' drawings, and explanations, for you to view, and learn from, that will help you to construct a timed detonator, that will allow you to safely set off one of your plastiques bombs made with my explosives formulas.

Paladin Press, you can find their books at Amazon Books on the web, another Lesbianists owned corporation, is another publisher of interesting underground literature, that can be useful for you to study and learn from.

Paladin Press can be found at, http://www.paladin-press.com/

Books for supposed 'Professionals' who are anti terrorists professionals, that allow them to detect the different types of bombs people can make, and then use to destroy others, is sort of a tounge in cheek joke of the Lesbianists, for luring in people who wish to find information on bombs and explosives.

There are many useful books published to help beginners understand the basics of bomb making. The idea is to use the information for professionals who wish to understand the craft of making bombs, and detonating devices, and then use that information to build your bombs and your detonating devices.

The flash bulbs wired to an alarm clock with matches and ignitable phosphates glued to a string of flashbulbs, wired properly together, then crushed, so as to expose their flash and heat ignition coils filaments, for your detonating heat energies ignition needs, is one of the basics and you can find it in one or another of the underground books on bombs making and detonation devices making for 'professional' anti terrorist's private investigator or bombs detection professionals types.

This is one of the ways the Lesbianists lure in persons who know nothing about weapons, and then they find out who they are, and then they make friends with them, and toy with them, and introduce them to their Lesbianists' friends, and hang out with them, and pretend they are all friends, then one day, they all attack the person, and torture the individual, and get their kicks, amusing them selves, by ripping the person up, or by hanging, and nailing the person to a wall, with a nail gun using, approximately, three inch nails, and then hammering in longer, seven inch to twelve inch nails, or larger ones, or other similar nonsensical, childish, but fiendish behavior.

The "BRUTAL ART OF RIPPING, POKING & PRESSING VITAL TARGETS"
"by Loren W. Christensen"
http://www.paladin-press.com/detail.aspx?ID=1441

Is a beginners guide to ripping people apart, one arm, or leg, at a time, or with team work, one half of a person can be ripped from the other half, if you hold the right bones in place, and then, using teamwork, rip the person into two or more pieces. This book gives a person a preliminary sense of what he or she can muster, as an individual who attempts to rip at a person, and tear the person apart, one limb at a time, or with friends, how to rip a person up, one piece or more, at a time. Ripping people up is accomplished best, if they are unconcious. If they can not fight back, or resist, it is easy to rip a person apart, if you have the needed strength. Since many people have ancestors who were monkeys, chimps, orangutangs, guerillas, and so forth, with tremendous muscles strength, there are lots of very tiny persons, with phenomenal strength, and they can easily rip a person in two, by them self, if they try.

Books on booby traps for law enforcement personel, are simple descriptions of bombs that they may or may not encounter, and there

may be some useful information in some of them such as,

"BOOBY TRAP IDENTIFICATION AND RESPONSE GUIDE FOR LAW ENFORCEMENT PERSONNEL"
"by Tony L. Jones"
"This manual teaches cops and other law enforcement personnel all they need to know to recognize a booby trap and respond properly. Find out where booby traps are most commonly employed; the 11 physical signs that most often signal a trap; what to do (andnot do) if a trap is suspected or found; how to safely search a building, outdoor site or vehicle; and the one indicator that practically guarantees that a building has been booby-trapped. Shows more than 90 different booby traps in place. For academic study only. 5 1/2 x 8 1/2, softcover, photos, 80 pp."

There are others, which you can also find, that will provide schematics, and drawings of useable ambush related devices, and detonators for them.

"Contingency Cannibalism", sold through Paladin Press, and other 'underground' book distributors, is one of the Lesbianists' favorite books, that help them to track persons who they would like to later, cannibalize, themselves, as a joke on the person.

"CONTINGENCY CANNIBALISM"
"Superhardcore Survivalisms Dirty Little Secret"
"by Shiguro Takada"
"This twisted, tongue-in-cheek look at cannibalism as a last-resort survival option analyzes real-life case studies and historical episodes of cannibalism. Then it examines the hard-core decisions and gruesome details one must know in order to partake in this grisly practice. Recipes included. For entertainment purposes only. 5 1/2 x 8 1/2, softcover, 160 pp."

Information On Bombs Making And Detonators On The Web

For information on making detonators, and other bomb related stuff, please see this web page as it costs nothing.

http://www.bombshock.com/archive/Homemade_Bombs/

Solar Flares And Flare Igniters

A solar igniter as talked about in the article on page,

http://www.bombshock.com/file9/crtrmkr.txt-Crater_Makers-932.htm

'Crater Makers', is a solar flare igniter, a device that is used in solar flares, or night time distress signal flares, that ignite the flare, by sending an electric battery current into the flare phosphates holding tube, down a wire, on an ignition circuit, and then igniting the distress signal flare.

You can find solar igniters inside of distress signal flares that are used on boats, for shooting up into the air, with a flare gun for maritime use, that will send the distress signal flare up into the sky, if you have the flare gun pointing in that direction, and then at a certain altitude, a trip switch circuit is activated, due to air pressure, or due to timing from time of departure of the distress signal flare from the flare gun barrel.

You have to exhibit extreme caution, when taking a flare apart, as it can detonate, accidentally, and they are not made in a way so that people can safely take them apart, and people who try to take them apart, are accidentally injured, on a regular basis. Do not use this, if you do not know any thing about demining, as a professional mine deactivating specialist in the military, or with military training. This is best left up to the professionals, and is not meant as something the average house wife, business man or business woman, or chemistry or other studies, school student, should attempt.

You can use a flash bulb, and get the same results, if you glue some gun powder and phosphates to the flash bulb housing, and then crush the glass, and then wire it properly to a common house morning wake me up, alarm clock with a striker bell and a striker that moves back and forth. The circuit is simple, and you can figure it out with little difficulty.

The Lesbianists' Balooney On Minus Charges As Opposed To Positive Charges

Remember the minus sign on a battery is where all the activity of the little energies kids is going on, and the Lesbianists purposefully teach that the positive side is where the current is moving out of, and around towards the negative side of the battery. The Lesbianists teach that the active side of the battery is the plus or positive side, or the side with the plus sign on it, when you look at a common house hold nine volt battery, and that the non-active side is the negative side, or the side of the battery with a minus sign. This is false. The side with the minus sign on it, is the active side, and that is where you do not want to wire any thing to, unless you know what you are doing. The positive side has no activity going on, and is safe to touch, but the other side is not safe to touch, and the testing meters are wired to show you that the reverse is true. They have tampered with the design of testing meters, so as to support their allegation and falseity, that the minus side is where there is no activity, contrary to the truth.

That means, that, the flash bulb igniter system and the flash bulb itself should indicate that one side is the positive side, for the

positive wire to be attached to. You had better check carefully, and make sure there is no mischief here, as you do not want to detonate your igniter, accidentally. Ask a qualified electronics specialist to do all your wiring of your detonators, as he or she is the only person qualified to wire these types of detonators.

The Lesbianists' Maps Of The Brains

It's rather confusing, the way the Lesbianists have reversed things, and have messed around, so as to thwart your attempts to make nice detonators that work every time, unless you have a normal set of brains, which unfortunately, I have not got a pair of, or triple set, or more of. That's sort of a joke. On a magazine, yesterday, I saw how the Lesbianists teach that one part of the brain is for speech, and one area of the brain is for speaking, and one area of the brain is for sight, and one area of the brain is for logical thinking, and one area of the brain is for signing, or one area of the brain is for artistic inventioning, and so forth, but that's a lot of hog wash.

The brain is not partitioned in that way, and they know it, and they are misleading every one, and laughing at all of you while they are doing it, with their 15th to 17th century style drawings, that they have plastered on all the Time magazines, or what ever magazine cover it was on, that I saw in the check out lane, at the super market, yesterday. You have kazillions, and more of parts to your brains, and there are so many, it is unlimited, nearly, and your brains are so complex, and you have got brains in lots of other places in your bodies, other than in your head, and I'm not going to go into that one, now, but the Lesbianists are lying through their teeth, when it comes to this type of pseudo historically backwards, archaic, or cave dwelling human's notions on science, that should insult a first grader, or kindergarden school student, or preschool student.

In any case, ask your local electronics' specialist or house hold electricians' specialist, or handy man repair persons, who work for house hold water heating devices installation companies, or other electrical home appliances sales and installation companies, who also get confused, from time to time, as I've witnessed them, personally, blow up breaker circuits.

Get a qualified, and that's hard to find in so far as I've witnessed them at work, electronics' specialist to wire your detonators, or go take a course with my kids, as they have courses available on wireing such devices.

There is no minus charge, and there is no positive charge, and that is what you should understand. There is a side to the battery where there is lots of activities going on, and that is the minus sign side on the battery. The positive sign side on the battery is where there is little to very little or nearly no activity, but no activity is not the truth, either, as there is activity, you just can not measure it with todays' electronics measuring devices, as they are not

technologically sophisticated enough to be able to detect the activity, though I'm sure there have been intrepid scientists who discovered that both sides of the battery have activity, and then they were shot and killed, after that discovery, by a Lesbianist assasin, or by a hired assasin, assigned or paid to kill the scientist who discovered that there is activity at the 'minus' side of the battery as well as at the 'positive' side.

That means, that you need only concern your self with the 'minus' side, since you will not be able to detect any thing at the positive side, unless you use the reverse wired electronics and electrical energies detection devices that the Lesbianists market through Tandy, or Radio Shack, and at Sears, and so forth.

It gets confusing, a little bit, doesn't it. Anyway, go and take a course at one of my kids classes, after you sign in, and swear in as a jr. member to our new country, which I haven't sworn on to, as yet, or joined - but though I am the boss of, regardless - since my kids do not speak to me, on a daily, or weekly, or other basis, and I just happen to be able to know what they are doing as they tell me what they are doing, through some secret port hole in one of my brains some where, in my toes, or nose, or who knows where, as they telegraph or some how signal in, using semiphore signaling, or probably hand signaling, that my brain then catches, and then passes on to me, their messages that they signal in to me, and the news, as well, about what they are doing, and about what is going on with them, and about what is going on with some other things, as well.

Since I am GOD, I happen to have a right to know this stuff, what they and every body else is doing, on a daily basis, but they haven't told me how my brains catch their information, yet, or the other information that gets there, some where into my one or more of my brains, and I haven't figured it out, yet, myself, either, though I think I know something, a very little something, about how it works.

This does not mean, that my brains are unreliable - except for my memories areas of my brains, in particular - but that I am just waking up to what is going on, here, and I have a few kazillions of years to work out every thing, or some of the basics, any way.

In any case, you have all been snookered by them, with regards to their non sense sciences, and you are being laughed at, and toyed with, daily by them. That happens to be the truth, whether we find it pleasant or not.

Execute The Current President Of The United States Of America, George Walker Bush, Jr.

In any case, the Lesbianists are a twisted group of individuals, who toy with the people who live on this planet. Mrs. Hillary Clinton, Bill Clinton, George Walker Bush, Jr. President of the United States, his wife, Barbara Bush Jr., George Bush, Sr., former president, and

his wife, Barbara Bush, Sr, are all gagsters, or jokesters, who wish to only toy with you, and eat you, or deprive you of your life, and of your rights, in fiendish and horribalistic ways and manners.

They are all to be executed, especially George Walker Bush, Jr., President of the United States of America, currently residing at 1600 Pennsylvania Ave. Washington DC, in what they call the White House. You are to kill them all, and send every last one of them to my Epcot Center, as soon as is convenient for you.

Lesbianists Who Decide To Sexal In My Religion With Lesbianists And Non-Lesbianists' Persons

If any Lesbianists decide to sexal in my religion, with their friends, and their friends may include other Lesbianists who decide to sexal, as well, as well as, other people they know, then they may begin sexaling with their friends in my religion, however, they must have a pentative attitude, and they must say they are sorry, and they must now and then, when they feel they wish to, and feel emotionally and mentally capable of speaking about it, they can talk with their friends who they are sexaling with, and with others who wish to listen as well, and they can denounce the Lesbianists by telling people about the things the Lesbianists do, and did.

If they decide to do this, this is the same as surrendering, and my kids will protect them from other Lesbianists who might want to harm them. They have not sworn in, as a citizen of my and my kids' country, and as citizens of our country that every one is swearing in to as citizens, but it is sort of a promise to swear in, informal gesture that they are committed to, once they begin sexaling with their friends, and with other Lesbianists, who also wish to sexal and in time, denounce the Lesbianists with them.

Citizens By Proxy

By denouncing the Lesbianists organization, and by telling people about what the Lesbianists do and did, they are essentially stating they are sorry for what has happened, and that is a pentative attitude, and with that pentative attitude, they are accepted as citizens, by proxy.

Temporary Full Time Citizens

Citizens by proxy means they are accepted by my kids as pentative persons, who wish to join our country, and who there with, qualify as citizens of our country, in an informal manner. Citizen by proxy means, they give up their old citizen ship, to whatever government they used to belong to, and they are taken in, as temporary full time citizens.

Temporary full time citizen is a term that means they are full time citizens, but on a temporary committal agreement, and that will be made permanent when they have the chance to meet with my children, and

then can swear in, as a permanent full time citizen.

They can then participate at the collection site, in the activities that will be going on, with others, who wish to participate, as they spill their juices, and purify the area with their sexaling juices.

What To Do About Untimely Pregnancies, Health Issues, Medicines, And Regroverative Formulas

My kids will deliver to them, to the men and to the women who surrender and become citizens by proxy, and temporary full time citizens, the needed medications that will help to make their bodies, wholesome and well, and regroverated, as well as the medications that are needed to prevent untimely pregnancies.

Medical And Housing Benefits, And Other Health And Work Related Benefits

My kids will make certain that they will be given the right medications, and my kids will also provide all the same medications for each individual who participates in the collection site activities to purify the area where we will one day set up my ministry with my kids assistance. My kids will also set up other facilities, as well as the ministry facilities. The other facilities will be scattered through out the valley, and they will be the houseing units and other facilities for people to use to become physically fit, well, and well nourished, and healthy, such as gyms, aerobic studios for practicing aerobic dance, and aerobic excercises, as well as sauna and health spa, and swimming, tennis, badminton, cricket, and other sports facilities for baseball, rugby, foot ball, for those who wish to play a friendly game of foot ball, now and then, with the needed bleachers, lighting, and other supportive facilities for allowing persons to attend and watch the games that are going on, not only for foot ball, or for base ball, but also for tennis, soccer, rugby, and all out door sports facilities that will be needed.

When will my kids set up these facilities? They will set them up at the same time or shortly there after, as my kids begin to set up my ministry facilities, and the needed facilities for living and working in the valley area, sexaling for a living.

At that time, the citizens by proxy, and all other persons who have not yet sworn in, but wish to, will have the opportunity to swear in, and then they can enter and use the facilities full time, twenty four hours a day, without any further discussion about it.

All people who participate in the collection site activities, are also citizens by proxy, and as such, will automatically qualify for all medicines, all health supportive medical formulas, and all youthfulness prolonging, or regroverative formulas, that will feed all the amoebes, and other cells, or living beings in your bodies, and that will feed all the living beings in your bodies, that will then allow you to enjoy full regroveration of your body and rejuvenation of

your youthfulness, youthful energies, and of all the other health benefits that accompany a youthful body, such as more energy, a stronger libido, a more healthful body, and so on.

When do people begin this participation in the collection site activities? As soon as they come out here, to Las Vegas, and arrive in their camper trailers, or caravan buses, or other vehicles, or with their camping gear such as tents, and cooking grills, and so forth.

When Can People Begin To Come So As To Be Able To Participate?

How soon can people begin coming to participate at the collection site in the activities that will be on going at the collection site for some time to come?

They can begin coming to participate any time. My kids will watch out for the safety of all the people who come to participate in the collection site activities. My kids will prevent accidents such as current Lesbianists shooting at people at the collection site, from high rise towers, scaffolding, tall cranes, or from hotel and casino properties owned by the Lesbianists, and from other tall condominium and also from tall apartments buildings and also from normal sized, two or three storey, to eight or so stories, apartment buildings, in the area. Of course, my kids will prevent accidents from happening such as shootings, from all possible locations, and not just from those named structures and locations.

Sniper Points, Places Where Snipers Shoot From

There is no need to blow or destroy them with explosives, in Las Vegas, as there will be no way any one can use those hotels, and other structures, as shooting or sniper points, places where snipers shoot from, to harm any one who is participating at the collection site, in the collection site activities.

In time, every thing will be worked out, and all the people who must hand over their companies, or disolve their companies, and sell or get rid of the assets of their companies, all of that will be in compliance with my childrens' instructions with regards to it, as I've stated about it, already, in brief.

Once the facilities are set up by my kids, and people swear in formally, then my kids can begin to pay people their earned income, for the work they did as they sexal for a living, and for their work, as they spill their fluids, to purify the collection site, the collection site area, and the general vicinity.

Pocket Knives, Construction Tools, And Miscellaneous Daily Life Management Tools And Equipment

No one needs to bring weapons to the collection site area, or to Las Vegas, as they will not be needed, and pocket knifes are okay, and construction tools are okay, but they will be for daily use

activities, only. Daily life management tools are forks, knives, spoons, chopsticks, plates, dishes, glasses, coffee cups, can openers, bottle openers, cork pullers, and these types of things, as well as all the other types of kitchen use tools for cooking food, for eating food, for drinking beverages, and for the collection of garbage, and food wastes, and for cleaning up their eating and cooking utensils, such as portable wash basins, and portable gas stoves, or fixed stoves, fixed wash basins, fixed showers in camper trailors, and in caravan buses, and so forth.

Hookups For Travel Camping Vans And Similar Vehicles

We have no hookups at the site, for water supply, electricity, or sewage, as yet, but the instructions that my kids will make available to persons who come in to my kids' underground facilities - the protected and encapsulated living environment - those persons who go in to recieve the instructions, and other information they must recieve on companies and assets, and persons moving on, and on persons staying, and other information needed to successfully carry out the removal of hotels, and the demolition of buildings, etc. which my kids will handle with the technologies they have available to them for their use for these purposes, and for other purposes.

Cleaning Up The Area And Throwing Away The Garbage

My kids will also handle the required steps for clearing up of the litter and garbage in the area, all of Las Vegas, Pahrump, Henderson, Laughlin, Mesquite, North Las Vegas, Arizona, New Mexico, California, Utah, and beyond, above ground and below ground, and for cleaning up the areas, and for removing the underground and above ground garbage, or city buildings and Lesbianists' structures, and all structures that are no longer needed, train tracks, airports, roadways, bridges, parks, hospitals, medical clinics, and so on, all of which will no longer be needed.

Schedule For Leveling Of The Ground And Hills In The Area, Removal Of Unsightly And Smelly Garbage

Initial leveling of the grounds' areas, leveling of the uneven surface areas, and leveling of the sloping areas, and of the tiny hills, and other uneven and unuseful features to the area, such as hills, low cliffs, and removal of unsightly, smelly garbage, will be done by my kids, with the technologies they have available to them, according to the schedule for making these types of changes, and cleaning up of the area, so as to make the area, one hundred percent, useable for collection site activities, for people to then come in and use the area as a collection site.

Setting Up New Facilities

My kids will take care of all of that, and they will take care of all of the work and tasks for setting up a private collection site area - for spilling purifying sexaling juices, to purify the area - in

accordance with my kids' schedule for these works and tasks for setting up a private collection site area, with tall side walls, and barricade walls, to prevent people from rubber necking as they drive by, so as to prevent car, truck, automobile, motorbike, and bicyle accidents. My kids will also set up the latrines, and other needed hygenics facilities, sleeping accomodations, eating facilities, rehydration facilities, co-opted bathing facilities, sports and excercises facilities, and other facilities.

Co-opted facilities means facilities used co-optively by men, boys, women and girls. Co-optively means, in cooperating measures with each other. Cooperating measures means, each of the four groups of people, men, boys, women, and girls, will work together, to keep the facilities sanitary, clean and healthful, neat and tidy, and safe for use, keeping young children from playing on the stairs for the elevated latrines, and keeping young children from getting in the way of asscending and descending users of the co-optively, or cooptively managed facilities.

Fountains And Showering Lamponeers

My kids will also use their high tech teletransportation technologies for removing toddlers from the stairs, and for placing them in a much safer location, such as in a near by sand garden, or play area, with sandy areas, and with toys to play with, and with cold showers, or showering fountains, people can refresh themselves under, and with fresh water to drink.

Lamponeers are showers that shoot up from sprinkler systems embedded in the paved surfaces, or concrete like surfaces, that shower water up and over the area, up and above and over persons who are there, to cool every one off.

Restaraunts, Clubs, Lounges, Eateries, Cafeterias, Bars, Pubs, Bicyle Paths, And So Forth

Bicycle paths, mini bike paths, walking paths, with rest stations, for refreshments and food, will be set up, and restaraunts and other facilities will be set up, nearby and they will be accessable by following these foot paths, bicyle paths, waling paths, and so forth.

All needed facilities for all parties, such as accomodations, living quarters, health clinics, excerize facilties, swimming pools, saunas, spas, and clubs for eating and mingling with persons, either in light weight evening wear and garments, or partially naked, or in the buff, will also be set up by my children for the use by all legitimate collection site participants. Gurkian Laws apply, and no other laws, such as local area laws, will be enforcable. Police and others will be turned away, and the rights of participants at the collection site area, will be protected one hundred percent, as we begin to change over to the new Gurkian Laws we will all be living by, from now on.

Dealing With Criminally Minded Persons

Any violators of the Gurkian Laws, codes, statutes, and so forth, my kids will arrest, and detain, and then place into prison cells, and then sentence them, in accordance with the sentencing requirements under Gurkian Laws, etc., and they may end up doing humiliatory punishments, or community clean up activities. In any case, they will be arrested by my children, who will use their high tech, biometrics and teletransportation technologies, and their other integrated technologies that they have, to swiftly remove the violators of Gurkian Laws, from the collection site and from the collection site area, and vicinity, and that will effectively cancel out their participation, until sentencing has been given, and until penalties have been leaned.

Penalties have been leaned, means, they have undergone sentencing, and the penalties have been enforced upon the violators, i.e., the guilty parties.

Alterations, Modifications, Changes, Clearing Up And Removal Of Garbage In The Areas, And Additions Time Schedules

These modifications, alterations, changes, and additions, etc., will occur over a period of time, as my kids have a schedule for all of these changes, modifications, alterations, clean up, and additions, etc., and they must stick to the schedule, so after you arrive, if you do not see some thing you feel should be there, by then, it is not there because it is not on the priorities facilities and priorities changes, etc., schedules lists.

Texas requires cancer vaccine for girls

By LIZ AUSTIN PETERSON, Associated Press Writer

AUSTIN, Texas - Bypassing the Legislature, Republican Gov. Rick Perry signed an order Friday making Texas the first state to require that schoolgirls get vaccinated against the sexually transmitted virus that causes cervical cancer.
ADVERTISEMENT

By issuing an executive order, Perry apparently sidesteps opposition in the Legislature from conservatives and parents' rights groups who fear such a requirement would condone premarital sex and interfere with the way parents raise their children.

Beginning in September 2008, girls entering the sixth grade - meaning, generally, girls ages 11 and 12 - will have to get Gardasil, Merck & Co.'s new vaccine against strains of the human papillomavirus, or HPV.

Perry, a conservative Christian who opposes abortion and stem-cell research using embryonic cells, counts on the religious right for his political base. But he has said the cervical cancer vaccine is no different from the one that protects children against polio.

"The HPV vaccine provides us with an incredible opportunity to effectively target and prevent cervical cancer," Perry said in announcing the order.

"If there are diseases in our society that are going to cost us large amounts of money, it just makes good economic sense, not to mention the health and well-being of these individuals to have those vaccines available," he said.

Merck is bankrolling efforts to pass state laws across the country mandating Gardasil for girls as young as 11 or 12. It doubled its lobbying budget in Texas and has funneled money through Women in Government, an advocacy group made up of female state legislators around the country.

Perry has several ties to Merck and Women in Government. One of the drug company's three lobbyists in Texas is Mike Toomey, Perry's former chief of staff. His current chief of staff's mother-in-law, Texas Republican state Rep. Dianne White Delisi, is a state director for Women in Government.

Perry also received $6,000 from Merck's political action committee during his re-election campaign.

Texas allows parents to opt out of inoculations by filing an affidavit objecting to the vaccine on religious or philosophical reasons. Even with such provisions, however, conservative groups say such requirements interfere with parents' rights to make medical decisions for their children.

The federal government approved Gardasil in June, and a government advisory panel has recommended that all girls get the shots at 11 and 12, before they are likely to be sexually active.

The New Jersey-based drug company could generate billions in sales if Gardasil - at $360 for the three-shot regimen - were made mandatory across the country. Most insurance companies now cover the vaccine, which has been shown to have no serious side effects.

Merck spokeswoman Janet Skidmore would not say how much the company is spending on lobbyists or how much it has donated to Women in Government. Susan Crosby, the group's president, also declined to specify how much the drug company gave.

A top official from Merck's vaccine division sits on Women in Government's business council, and many of the bills around the

country have been introduced by members of Women in Government.

Morals For A Sane Society - It Is Now Time To Destroy The Lesbianists - Destroying The White House, Balitimore, Maryland, And Virginia, Killing The President Of The United States, Mr. George Walker Bush, Jr., And Sinking The Eastern Coastline Of The United States Into The Atlantic Ocean - Chaos Every Where In My Universe - Bringing An End To The Chaos In My Universe - Surrendering And Repentance - Lesbianists With Non Repenentant Attitudes Who Will Not Surrender - Orders To Kill All Presdential Candidates, Etc. - New Coins Ready And Are The Ever Useful To Us! - Public Nudity And Public Sexaling - What Does The New Moralicity Mean, In Plain Language? Sexaling Is An Absolute 'Good' And An Aboslute 'Right' - Free Action Sexaling Updated: 13-02-07 Rev.a. 00.a PST 23:25

Morals For A Sane Society

To not fuck a person when you can fuck a person is a wicked act.

Not to fuck a man or a woman in the mouthal hole, or in the buttal hole, or to not fuck a woman in the vaginal hole, when you can, and when you are healthy, and when you have the time for it, by refusing, for what ever reason, other than mental illness, or 'gayist' reasons, you are committing a cheap and wicked act, when you refuse to fuck the other person, and use your dick, or your tounge to felate or kiss and tickle, and lick at the ladies' groinal area, and her vaginal cleavage, and vaginal flaps, or labial flaps, or labial tissue, and also her labial throes.

To not suckal a dick or a scrotum or tickle the males' groinal area, with your tounge, or with your fingers, and so forth, when you are able, and ready, and capable, is a cheap and wicked act, whether you are a woman or a man, girl or a boy.

You are given demerit points for not sexaling when you can and are able to sexal, and your time permits it.

To not participate in sexaling when you can participate in sexaling, is a wicked act. To prevent others from sexaling with you, or prevent a person from sexaling with you and your friends, these are both wicked acts.

A kindly and goodly person is a person who sexals all he or she can and who participates in sexaling with people, all he or she can, when ever he or she can to help those people, and one self, to erase the negative karmic markups each person has, and to help to create the wonderful energies that you can create by sexaling, and to change our universe into the nice place we need to change it into for us to live in, prospering with each other, in kindly loving embraces with each other.

If you stand or sit, talking, drinking, eating, with your clothes on, arguing, and discussing football, or baseball, or the local news on TV, or whatever, and you if you are not sexaling, as a result of your actions, when in fact, you could be sexaling, and helping to purify all the people around you, and yourself, as well, you are commiting an evil act, and an immoral act. It is immoral to behave in an uninterested manner, towards sexaling, and towards helping others by sexaling to purify their karmic markups. You are engaging in wicked, unkindly, and evil behavior, by non chalantly staring out the window, at a restaraunt, or in your car, with others around you, thinking about your miscellaneous thoughts, and by your not attempting to purify others, with every ounce of energy you have got, by sexaling with them, in a safe manner.

We do not want you to drive down the road, sexaling, and not paying attention to the traffic, and thereby causing accidents, and there be causeing harm and injury to self and to others, thereby preventing one self and others from their being able to freely mobilate, or move around freely, or ambulate, as they say in modern English, and then freely participate in sexalating activities of fucking, sucking, tounging, massaging the bodies, and the titties, and buttholes of women and girls, and massaging their kissing lips, and their vaginal lips, their facial cheeks, and their butt cheeks, and so forth. You must drive safely, and make it home, to a safe place, where you and your friends can freely sexalate with each other, without others interefereing with you.

A wicked or evil person is one who prevents a person from sexaling, and who destroys or ruins another person, physically, mentally, morally, emotionally, psychologically, or psychically, so that the other person can not participate freely and fully in holy and pure, GODLY sexaling activities.

This type of person who prevents others is a ruinous person, who will invite ruin and disaster to his or her doorsteps, and into his or her life.

There are many ruinous people, who execute others, and who torture, and cause pain, and suffering to others, and who disfigures others. These people who execute others, and who terminate their ability to sexal, prospering with others, making our universe into the kind of nice place we all want to be living in, together with each other, are wicked and evil people.

It Is Now Time To Destroy The Lesbianists

However, when we have a problem of the size and the magnitude of the Lesbianists, that we have, today, in this period of chaos, across my universe, and the Lesbianists' who are toying with humanity, and with all human beings who are not Lesbianists, it is time for us to take action, to prevent them from toying with us, and put a stop to their amusing themselves with their toying with us, any further, and it is now time to destroy them.

"I am Arjuna, a wickedly angry man, and I come to protect those who can not protect themselves. I will kill and thrust my sword and lance through the hearts of men and women who evilly try to prevent people from being prosperously good and bekindly to others."

This is a stanza or sentence from one of my writings, of old. 'Wickedly angry' in this sentence means, outraged, and furious, so much so, every one is scared and afraid of me.

I am 'wickedly angry' and I am here 'to destroy' those who would fuck us up, and ruin our lives, and make our lives miserable, as they toy with us.

My name is GOd, but in my Buddhist scriptures, I am referred to by many names. One of my many names, as I appear to people, in many and various personas, is Arjuna.

I have many sides to my character, as I am GOD, and I am here to protect my children, no matter what the name is people use to refer to me by, and that I am known by, and no matter how it is and no matter who it is among my many children, who I will protect from wicked and ruinous people.

Destroying The White House, Balitimore, Maryland, And Virginia, Killing The President Of The United States, Mr. George Walker Bush, Jr., And Sinking The Eastern Coastline Of The United States Into The Atlantic Ocean

There will not be any further Lesbianists living in Washington DC, or in Baltimore Maryland, or in Northern Virginia, and that vicinity, above ground, and below ground, if some one will be so kind as to place a very large explosives, fuels, chlorine, high heat burning metals fragments, and fracturable rocks bomb, outside the gates to the Washington DC White House, where the number one enemy, Mr. George Walker Bush, Jr., President of the United States, lives, and works, and then detonates that bomb, out side the gates of the White House, where the president lives, currently, and then destroys him, and his

White House, a lair for Lesbianists, with multitudes of torture rooms, i.e, lots of them, below and inside of the White House.

You will destroy and kill the President of the United States, Mr. George Walker Bush, Jr., and Mrs. Barbara Bush, Jr. and every one else who lives at 1600 Pennsylvania Ave. Washington DC.

Why are we going to throw all these people into my Epcot Center. Once in my Epcot Center, they can freely sexal with each other and they can earn merit points.

That will help them straighten out their karma, and it will help them to have a nicer life, when they are born as tummy babies. There are many tummy mommies who will match up with these people, and when they come out as tummy babies, they can start their life, with us, out here in my universe with us, again.

Am I a wicked wrongful person for terminating so many people's lifes? No. Why not? Because that is the only way we can over throw the vastly wicked and evil Lesbianists who practically rule my universe, with their perverse friends, and there are many groups of perverse friends, who we are going to get rid of, and send into my Epcot Center, one after another, as we move ahead, in our efforts to clean up our universe, and in our efforts to stop this nonsense of senseless killings and torturings of people, for amusement, and for game playing.

The Washington White House is one of the homes for these perverse people who game play and toy with all human beings who are not Lesbianists, who live on this planet.

We have many Lesbianists to trash, and to say good bye to, before we can begin to get our world, straightened out, and started up again, with a new culture, with new morals.

We will throw out their old cultures, their Lesbianistic cultures, and we will replace them with our new culture, and our new civilization, that is based on my religion, and on the sanctity of sexaling as a common sense value.

Sexaling is a sacred and holy act. Even if you sexal with a kangaroo, or a chimp, it is still a sacred and holy act.

Why is that? It is because every body is made of something, and that something comes from me, GOD. That something from me, is pure and holy, as I am pure and holy. I designed every person, and every animal, and every living being, with sexaling capabilities that allow that pure and holy GODLYNESS to come out once they begin sexaling.

That GODLYNESS begins to radiate out, as each person begins sexaing, and as each animal begins sexaling, and as each living being begins sexaling, eroteming, orgasming, and phlumetting, and it purifies each and every living being, and washes away the karmic markups every

person, and every animal, and every living being, has in them, and has stored in the molecules that are stacked up in my universe, out side the boundarary walls that hold this universe up, and that keep us in side of the area we are in, and that keep the rest of my universe standing up, stable, making this a safe place to live, at least, safe in so far as nothing comes crashing down on us.

My kids are expert builders, and it is thanks to them, that we have such a nice and safe, and well built universe to live in. It is also thanks to them, that we have these bodies to live in, and to sexal with, since my kids put us together, one molecule at a time, as we need to have our parts put together, along with all the anmials, and living beings, who are inside of us, that my children also assemble for me, and for us.

What is this GODLYNESS? It is a purifying force, that is of me, and is me. It is inside of every one, and inside of every creature, animal, and living being, in my creation.

This is woven into the fabric of your being, and it is of me, and is always a part of me, and is always connected to me. Since I am always pure, and GODLY, you have a possibility of becomeing pure, and holy, like me.

Right now, we are filthy, and grimey, and all gunked up, with sludge, and residues of our karmic heritage. We have done many things that contribute to who we are, and to what we experience, day to day, and if we are not happy with our life, that is because we have the karmic records and markups that dictate that we must be in this miserable and suffering condition, that we are in, today.

There is always sufferring, and unwholesomeness, in our lives, and around us, every day. There are many wicked things that go on, every day. People perpetrate wicked acts, daily, and they go on, unpunished, for a long time, until their karmic markups begin to add up to sufferings coming out, in that person's life.

Sufferings are your payback for your wicked acts, and they help to keep our universe in balance, as I've spoken about, a little, before.

It may seem unwholesome that I ask you to kill my kids, and put them into my Epcot Center, where they can sexal, and where they can get retrained, and where they can be taught to be nice people, after they are retrained, but my asking you to kill my kids, this is merely an expedient, or a means to an end, and it is permissable, given the circumstances, and given the situation, and given that we are at the begining of our new Age of Gurkian Englightenment.

The result we wish to see by killing them, is an end to the activities of the Lesbianists, and and end to the activities of other people like them, in my universe. The Lesbianists are ruining my universe, and ruining the lives of every body in my universe, and though this was the way things were balanced out, prior to now, we are starting out,

with a new method of 'payback' and a new means to balance out the karmic balance book. This is all to be governed by my rules and regulations, that my kids will enforce, in our new, Gurkian Age of Enlightenment, begining about now.

Our killing the Lesbianists, will help to control their ruinous and heinous behavior and activities, and it will help us to get them out of the picture for a while, until we are able to set up our new government, globally, or universal wide, across our universe, in a one universe government, over seeing the activities of all of my kids. It is the only way we have to begin to get our selves straightened out, and onto our new path, that we will follow, for the rest of eternity.

This marks the begining of the Gurkian Age of Engligtenment, and it marks the end of the previous period, or random, or just about nearly random, chaos.

We went through a very long period of decline, untill we got to the period of chaos that we are in, now. This period of chaos, we call, the 'melt down' period.

The 'melt down' period, came after the 'run amuck' period, when my kids began their severely ruinous activities that led to the period of chaos that we are now in.

Chaos Every Where In My Universe

We are going to begin to pull ourselves out of this period of chaos, with the help of my religion, and with our religious activities, and it is going to take us a very long time to pull ourselves out of it, as this 'chaos' is going on every where in my universe.

It will take us a long time to begin to be able to erase our karma enough, based on my religious principals, and the ethics of the Gurkian Age of Englightenment, and our religious activities of sexaling, dancing and excercising, and sexaling in syncopation with the metronome, at one thirty seventh and one fifth, or so, to then some day be able to have erased enough karma, to be rid of, completely, all these horribalistic people, my horribalistic kids, in my universe. When I say, be rid of them, I'm not saying, to trash them, completely. I am saying, we will put a stop to their activities, by changing our karma, and by purifying ourselves with my religion and our religious activities of sexaling, keeping time, in synch with my children, as we sexal, and as we activiate, playing basketball, tennis, or as we swim, or as we pray Nam Myeo Ho Ren Ge Kyeo, and so forth.

Bringing An End To The Chaos In My Universe

We are going to bring an end to the chaos, and to the chaotic behavior, and abberant, ruinous behavior in our universe, as we bring this period of chaos to a close. We will, as we steadily move forward, open the way for the budding and flowering of the Gurkian Age of

Enlightenment, and to the budding and flowering of the new age of friendship and loving care, among all of my children, who participate in my religious, social, economic, and karmic revolution, as we sexal with each other, lovingly, and strive to clearify and erase our karmic markups, sexaling, and synching our activities to one thirty seventh and one fifth on the metronome. Later we will fix our metronomes to keep exact pace in synch with my children, and after we fix and reset the timing scale of the metronome, the timing will be one thirty seventh, exactly, on the metronome.

Our sexaling will produce all types of wonderful, purifying energies, that will revive our universe, and that will revive us, and that will help us to reclaim our universe, and that will help us to live, prosperously, and prosperingly in our universe, together, with each other, and with every one of my children, as we reform the bad and naughty ones, who are wicked and unkind to others, and who prevent people from sexaling, together, with each other.

That means, we are going to kill all the bible thumpers, Pat Robertson, Orwell Roberts, Billy Grahm, Tammy Faye, Jim Faye, and all the other Lesbianists of every religious faction, or group, whether they are Lesbianists who are christians, islamists, judaists, shiites, hindus, buddhists, black moslems i.e., afro american black muslims, or whatever.

We are going to destroy them all, all who would try to prevent us from what we are attempting to accomplish, a global, universal wide, government, run by me, GOD/GOd, as I am the Captain of this ship, and then we are going to begin our new age of Enlightenment, hand in hand with each other, and when they come out of my Epcot Center, again, next time, to be born as tummy babies, to tummy mommies, and to tummy daddies, we will teach them the new rules, ethics, and morals of our new universal wide society, and then we will begin again with them, and raise them in accordance with the new rules, laws, regulations, ethics, and morals of our Gurkian Age of Enlightenment, led by me, GOD/GOd.

Surrendering And Repentance

Those who will surrender, will be allowed to be repentantent, and they will be forgiven for their misgiven, misbegotten, and ill minded ways, once they begin sexaling with the rest of us, and participating in our religious, economic, and social revolution, and once they begin following Gurkian laws, rules, ethics, the codes and norms of behavior, and our righteous, and correct morals, acting and exerting one's efforts for the sake of others, never sparing a moment of energies, wastefully on trivial and trite activities of gossipping, mischiefing, or other harmful, and potentially ruinous, wicked, and evil behavior.

Lesbianists With Non Repenentant Attitudes Who Will Not Surrender

Those who will not surrender, we will send to my Epcot Center, as that is the only way we can get them out of the picture, temporairily, so that we can then get things in order, before they return, once again, as tummy babies, into the lives of tummy mommies, and tummy daddies.

Orders To Kill All Presdential Candidates, Etc.

You are hereby authorized by me, GOD, John Francis Ayres, to kill all United States Presdential candidates, including but not limited to, Barack Obama, Hillary Clinton, and Mitt Romney. They are to be executed on sight. Also, you are ordered to kill all non repentent Lesbianists, such as, Vice President Dick Cheney, Tony Blair, Butros Gauley, Oliver North, Colin Powell, Oliver Poindexter, Casper Willard Weinberger, United States Supreme Court Chief Justice John Roberts, Associate Justices, John Paul Stevens, Anthony Kennedy, David Souter, Clarence Thomas, Ruth Bader Ginsburg, Stephen Breyer, Samuel Alito, Antonin Gregory Scalia, Arnold Swarzneggar, Sylvestor Stallone, Robert Deniro, Gary Busey, Kevin Sorbo, Timothy Dalton, Michael Jackson, Matt Damon, Bruce Willis, Mila Jovovich, Peter Jennings, all members of the United States Congress who are Lesbianists, and all other Lesbianists, whether in politics or not, and in whatever government you find them, around the world. There are many Lesbianists in local and metropolitan police departments, and in SWAT Team units, and in fire departments, and in the National Guard units throughout the United States, and Lesbianists own every news media organization, television corporation, cable television corporation, satelite television corporation, major radio station, transportation corporation, chemicals corporation, petroleum corporation, coal mining corporation, as well as every other major corporation around the world. You are to kill every last one of them, and spare no one. We will then destroy every underground city they are hiding in, and force them to surrender. If not, we will kill them all, and I authorize you to do exactly that, kill every last one of them, all thirteen billion plus Lesbianists, hiding under the surface of our planet, or out walking about, pretending to be an ordinary citizen on this planet. Nothing is further from the truth, and you are authorized to kill each and every one of them, and send them all to my Epcot Center, using what ever means available, including my tactical, powerful, home made radiological explosives bombs, i.e., nuclear explosives. Please study my notes on my web site for further details regarding radiological fracturable rocks, and my notes on how to make an explosive weapon to detonate nuclear materials, you can find along beach shorelines, in sediments deposits, and on old mountains, every where on our planet, if you have a geiger counter.

New Coins Ready And Are The Ever Useful To Us!

"New Dollar Coins Enter Circulation This Week"
"By WILL LESTER"

"AP"
"WASHINGTON (Feb. 11) - Maybe Susan B. Anthony and Sacagawea should not take public rejection personally. It's not easy overcoming people's indifference to dollar coins, even those honoring such historic figures."

The new coins reportedly have many fracturable rocks in them, as the metals used, were mined from deposits of minerals that contain large amounts of fracturable rocks.

They also have high heats and high temperatures burning minerals in them, that will level up your thermal temperatures to near solar temperatures, if grinded up and mixed in, and allowed to ferment, in sour berry juices, slowly, with tiny amounts of salt, and large amounts of raw sugar.

The high heat temperatures, and the energies produced at these higher heat levels, will reach near solar heats energies temperatures, and that is very important for developing the energies needed to wake up every body, in the fracturable rocks - or 'fissile' materials, in Lesbianists' speak, or Lesbianists' mumbo jumbo language - to get them to begin making children and families.

Please see my notes on 'Radiological' crystals cages salts kiddies, and other related energical animals kiddies, of various, and hard to imagine, types, unless you're a kid and unless you have the mental flexibilities and typical mental gymnastics capabilities of a normal child, unhindered by brainwashed thinking and brainwashed patterns of thought the Lesbianists have caged, and closeted in the dark, our brains with.

Public Nudity And Public Sexaling

Public nudity and public sexaling is now a way of life for all, in our, now, Gurkian Age of Enlightenment. We will begin broadcasting live sexaling events, and other entertaining and informational, educational programming,, as soon as I get my new quarters, a unit to live in, where I can eat more properly, sleep more properly, recieve the medical health aides and regroverative formulas, that I need, and where I can practice my religious ceremonies, with others, daily.

The public broadcasting of various informational programing, educational programing, sexaling entertainment programing, sexical, hygenical i.e., sexaling hygene, and sexical educational programing as well as sexical training programing, as well as my religious ceremonial sexaling activities, and my general, more typical day to day, religious ceremonialing, for now, until I get my health up to a level of youthful vigor, and robust wellness, as I religiously interact with my students, and train them, the disciple priestesses,

and disciple priests, will all help to set the basis of normative, and expected, social behavior, for all people in our universe, to learn about, now in our Gurkian Age of Enlightenment, so that we can all get along, with one primary set of customs and standard of behavior, and with one primary language for communication, as we will all be sexaling with each other - all of my children who are now just begining to get with the program, at least, anyway, will be sexaling with each other - from now on, and for all eternity.

We need this exposure, as well as alternative programing, for laundering up to, and for begining to expose ourselves to, and learn about, the reality of the universe, my universe, that we live in.

Laundering up to, means, exposing ourselves to the mischievous antics of the Lesbianists, to launder their filthy, garbagical, and tormentuous ways, so that all may learn about them.

This will be coming up, in the near future, possibly, as far as I can determine, any way, after we have the spilling of the sexaling fluids campaign under way for purifying the area where I will be setting up my religious ministry, on the parcel of land, on the north west corner of the intersection at West Tropicana Ave. and South Decature Blud., Las Vegas, Nevada, and possibly on confiscated properties to the north, as well as to the west, for now. This is a public service, informational bulletin, on what you are to expect, in the near future. Prepare yourselves, accordingly.

What Does The New Moralicity Mean, In Plain Language?

Our new moralicity means we are going to learn we can and should sexal with every person, and even with animals, when we have a chance or opportunity to sexal with people and animals, and that we can and should sexal with every person we see, so long as we have a mutual reciprocical understanding of the truth to sexaling, that it is a pure, blessed, and holy act, GOD, me, made possible, to purify you of your blemishes. It is the most significant and powerful way to purify you of your blemishes and karma

You can also clearify your blemishes, your karmic markups, by praying Nam Myeo Ho Ren Ge Kyeo, and by your keeping syncopated and in rythm with my children, helping my children to work smoothly, syncopated and in rythm with each other, perfectly fluxed, meshed perfectly with all my other children, working at different life spins, as I've mentioned about, as my kids will reward you by sprinkling faerie dusts, purifying energies, and other types of related, purifying things and dings, all over you, as a reward for your cooperation in keeping my universe, humming, and running, smoothly.

With your syncopated rythms, your syncopated pace of movement, and actions, as you time your motions, and stay in synch with one thirty seventh on the metronome, plus one fith of a mark on the metronome we currently have available to us, here, on our planet, during your

activitiating, sexaling, playing sports, dancing, excercising, and so forth, you will purify your life, and you will purify the lives of those around you, with your actions, as you get rewarded by my children.

Our new moralicity means we can and should sexal with each and every person possible, in free association with each other, no matter what the age of the person, and no matter what the gender of the person, no matter what the tribal background is, no matter what the tribal heritage is, any place no matter where we are, any time no matter what the time of day or the time of night it is, in public spaces or in private living spaces any and all places, no matter who else is around us, as sexaling is a blessed act that my kids reward you for, any time, every time, no matter where you are sexaling, and no matter with who you are sexaling with, or even no matter what type of animal you are sexaling with.

It means there are no bullshit, propagandists' Lesbianists dreamed up taboos, any longer, regarding sexaling, and that sexaling is a blessed act, and not a 'forbidden' act, as the bullshit Lesbianistic Christians, Muslims, and other religious 'pious' bullshit assholes, who would want us to believe that sexaling is forbidden by 'God', which is complete and total bullshit, and a lie, as they base them selfs on their 'holier than thou' pious 'ignorance' of the truth.

So long as you and the person or persons you are with are equally, mutually, and reciprocally interested in purifying your lifes, and interested in clearifying your karmic markups, and interested in helping my children work in synch with each other, and interested in helping to push my children along, with your energies, and efforts, and so long as you can sexal together with one and each other, without damaging either or any of the participants, it is morally correct behavior, and any person or actions to prevent that morally correct behavior must be condemned, and punished.

Some people, especially young participants, do not have butt holes, mouthal holes, or vaginal holes that are large enough to swallow a dick, or mouthal holes that are large enough to swallow a tittie and suckle it fully, without straining.

You need to spend several hours phlooching out the butt hole, or phlooching out the mouthal hole and throat, and phlooching out the vaginal hole, with generous massage over several hours to the muscles and tendons in the neck, mouth, nose, eye ridges, ears, throat, face, chest, tummy, back, arms, hands, fingers, shoulders, titties, thighs, hips, waist, groinal area, labial folds, vaginal lips, facial lips, male genitals, and the entire torso, back and front, the legs and feet, ankles, and toes, as well, and all parts and areas from head to toes and in between, with continued efforts to massage all these places, until the body begins to respond, and until the body responds fully.

The butthole will loosen up, and the throat hole will loosen, and the mouthal hole will widen, and the vaginal cavity and vaginal mouth will widen and expand in size, and the groin in girls will spread apart, allowing for more room for access to the vagina, and for smoother access to the butthole, as the hips loosen up, and begin to spread apart in response to your efforts at massaging the body, to prepare it for sexaling.

No matter how old a girl is, and in the case of a boy, no matter how old the boy is, baby, child, adolescent, or adult, phlooching out the sexaling orifices, is easy, if you spend the needed time on preparatory and thorough massage, sufficiently enough.

That's how I designed your bodies to respond to massage efforts to loosen up the muscles, ligaments, sinews, cartiladges, so as to allow the bones of the body to move and spread apart, freely, and loosenly. Your body is like a rubber band, and if you massage it, well enough, it will begin to respond like a rubber band, and it will loosen up, and spread apart, where it needs to spread apart, so as to allow you to sexal, thoroughly, and continually, for as long as you continue your sexaling activities.

After you finish your sexaling activities, your body will begin to stiffen up, as all the ligaments, sinews, cartiladges, muscles, and fiberous threads throughout your body, begin to tighten up, for returning to daily life, working activities, where you need a hard, and tough body, to survive, as you work in the field, or work in the rice paddies, or work on the farms, to labor for producing crops for feeding you, your families, your children, relatives, tribal village friends and tribal villages neigbors, who are, or who used to be, traditionally, as life used to evolve for us, all related to all of those concerned in the area, or on the planet, for that matter, or in the entire galaxy, or spread out over many galaxies, and even spread out over even larger, and wider areas of my universe in the large, familiies that used to be the norm.

You may need to spend several hours, or even several days, or maybe even longer, a number of weeks, or even a number of months, before the body will begin to respond, and begin to flex, and bend, to help all the ligaments, sinews, cartiladges, tendons, muscles, and all the body parts, and supporting, interwoven parts of your bodies, as I've briefly talked about, before, as well as all the lubing stations, that will eject fluids to assist in the loosening up of your bodies' ligaments, sinews, cartiladges, tendons, muscles, and even the bones, to allow them to be more flexible, including the jaw bones, facial bones, neck bones, spinal bones, leg bones, thigh bones, hips bones, pelvic bones, buttal bones, groinal bones, back bones, and all the bones of the body. Every bone in your body will loosen up, and become more flexible, and pliant, durile, durable and tensilely strong, as you massage all the parts of your body, and the bodies of the people you are sexaling with, very young, young, adolescent, adult, middle aged, elderly, and even the ancient, or the extremely very old.

This is the truth to this matter, and you can find out for your selves, if you try and see how your bodies respond, to daily, rigorous, continued massage, over various lengths or periods of time.

This is part of the ancient and old art of sexaling, as I taught in my religious teachings, in every religion that I taught, and I have taught a lot of religions in my time, to lots of different peoples in my universe, from the begining of our time, here, together, in our universe, after we arrived, which I've talked a little about, before.

Sexaling Is An Absolute 'Good' And An Aboslute 'Right'

Even the veryest oldest and the veryest youngest have a right, duty, and obligation to sexal and produce holy, sacred, sanctifying, i.e., to make sacred, holy, and pure, harmonious, purifying energies.

It is an 'A B S O L U T E' RIGHT as in, a 'right' to free speech.

It is also an 'A B S O L U T E' RIGHT as in, 'this is right, correct, upstanding, laudable, commendable, proven to be always right, correct, true, holy, graceful or GODlYNESS and GOODLYNESS gracefilled, morally right, morally correct, morally absolutely right, and morally absolutely correct', as opposed to, right and wrong, i.e., as in the opposite of wrong, as in, that is wrong, that is incorrect, evil, hateful, sinful, morally inaccurate, morally wrong, morally defunct, undoable as it will not stand, and useless,'.

It is also an 'A B S O L U T E' GOOD and an 'A B S O L U T E' GOODNESS.

Free Action Sexaling

Anything that counters, or runs contrary to this, is an 'A B S O L U T E' WRONG, and an 'A B S O L U T E' EVIL. It is absolutely wrongful to deny or to prohibit or to interfere with, in any way, with any one who wishes to sexal, as THAT PERSON IS CLEANING UP MY UNIVERSE WITH HIS DICK, OR WITH HER VAGINA, BUTT, AND TITTIES, AND WITH HIS PURIFYING ENERGIES, OR WITH HER PURIFYING ENERGIES! DO YOU UNDERSTAND THAT?

Any body who even attempts to impede, to deny, to prevent, or to interfere with, in any way at all, with a person's absolute right to sexal runs counter to Gurkian laws, regulations, codes, ethics, morals, standards, and you will serve jail or prison time, for prohibiting, or interfering, or impeding, or violating in any way, a person's absolute right to free action sexaling, which is, the act of freely chooseing who one wishes to sexal with. DO YOU UNDERSTAND THAT, SOLDIER? GOOD! BECAUSE A "NO SIR!" WOULD BE INAPPROPRITATE AND UNACCEPTABLE!

To learn more on these subjects, swear in, and become a citizen of our country, and begin studying, and working in the many programs my children have for you to study and work in, to score earning points, and to earn a living in our new, Gurkian Age of Enligtenment, where

and now that we work, and we pay as we go.

Those who refuse to work, in time, will be required to work, to pay off their debts and to pay off the fees that are owed for the use of my resources, all the molecules in my universe, and all the resources, energical, or otherwise.

Even though I am GOD, in our new system of working in my Gurkian Age of Enlightenment, even I have to pay for the resources that I use, as I work as chief priest of my religion, spiritual director of my universe, and boss of my universe.

I'm the mother and father, the creator of all humans, animals, and living beings, as I've explained, every thing in my creation, and people will begin to understand that, that I am GOD, as they practice my religion, over the years, and over the aeons, and over the millenias.

The people who refuse to work, will be required to work in prisons, sexaling with animals, to produce sexaling energies that will restore the supplies of energies in our universe, as I've mentioned about, before, as they work and learn their new trade of animal husbandry, and animal wifery, in the animal habitry industry, as I've also mentioned about, in earlier notes.

No matter what the age of the person, every person can participate in our Gurkian Age Of Enlightenment, sexaling, dancing, excercising, and syncopating their movements, in rythm, to assist my kids as my kids, work to keep my universe, strong, durile, flexible, safe, and a nice place for every one to live in.

DO YOU UNDERSTAND THAT? YOU HAD BETTER, AS A "NO SIR!" WOULD BE UNACCEPTABLE, SOLDIER! DO YOU HEAR ME? I HOPE YOU DO! NOW, GET TO WORK AND SEXAL TILL YOU DROP, SOLDIER, AND I'M NOT JOKING!

We will build a nice and comfortable, safe place for every one to live, now, in my universe, and we will follow the Gurkian Age of Enlightenment Rules and Regulations, Codes, Morals, Ethics, and behavioral norms, that you are required to live by, now that we are going to become, one, very big, happy, harmonious, in synch, prospering family.

You will not forget to wash out your butty butt holes, and to flush out your vaginas, and your mouths, and to practice proper and health promoting sexaling and love making hygene, with the medical formulas that my children will be providing to you, and that you will pay for, out of your earnings, and they are very reasonably priced, now that I am making every thing available to every one, at a set, yet, flexible, and low cost for the use of my resources, once you citizenize your selfs, and swear in, as a citizen of our new, global, i.e., universal wide, one universe, family of GOD's, that's me, children.

The costs are flexible, in the sense that you do not have to pay, yet, as you will be learning about the ways to work, and you will be learing and preparing your selfs for a new working life, in my universe, for some time, and so we have no hurry to have you pay for the resources you use. We can collect the fees, and costs for resources, in the future, when you are a big money earner, once you learn your new work requirements, for sexaling for a living, as that is the only job opportunity open to every one, and the only job opportunity, that you have a choice about.

My working children, though they do have many different jobs, they have basically the same set up, or arrangements as you now will have, and so you will be joining my children, and you will be working, i.e., sexaling, excercising, aerobically dancing, and so forth, in synch, and in rythm, for me, just as all of my children are doing, at least, those of my children who are able to work, and who are bright and intelligent enough to work for me, to keep my universe, healthy, safe, solid, durile, strong, wholesome, and a nice place to live in.

That means, I have a lot of burnouts kids, and rampant, vagarous, dangerous children, who are not really very bright, and they do not work for me, yet, but they will, in time, regardless of the fact that they may at the present, be abominants kids, or not.

As I've mentioned, all my up until now, non working children, are abominants. What does that mean? It means, they do not give a darn about killing another person. They kill for selfish reasons, and for fun and games, and so forth, and you are all guilty of that, though you may not remember that you killed for fun and games, and for selfish reasons, in previous lifes, in my universe, but you all have, and you are all abominants, of varying degrees.

So, welcome to the Gurkian Age of Enlightenment, and welcome to my workforce.

An Electro Magnetic Pulse would kill cars, like if a nuclear weapon
was detonated (not detonated near the car in question for example,
the car would be dust if it did) and fry the electronics so purvasive
in today's automobiles.

Its in the cards. The ARS hasn't enlisted young people in numbers

Scheissman doesn't have a real job with any real responsibilities. He's probably just a administrative assistant or secretary to being a gofer. That way he can spend all day looking at magazines or dropping crap all over this newsgroup. Of course, he thinks he has a real job because he gets paid to do nothing. Will be funny when they find out what he is doing on their computer system.

The scholar Scheissman has spoken with the use of the word "pervasive"
being incorrectly used as "purvasive"? A real college graduate, bwhahahhaha!

Scheissman goes with the flow you know. Except he takes his underwear off and runs around the hovel in Glendale with those same crusty underwear on his head. Which explains his lack of knowledge and lack of perspective.

# 1580. REPOST: 3rd RFD: rec.radio.amateur.moderated moderated (LAST CALL FOR COMMENTS)

REQUEST FOR DISCUSSION (RFD)
rec.radio.amateur.moderated

This is a formal Request For Discussion (RFD) for the creation of the moderated Usenet newsgroup, rec.radio.amateur.moderated.

PROCEDURE:

The B8MB plans to begin voting on this proposal after five days. Please offer any final discussion or comments before the end of this waiting period. Voting may take up to one week (7 days); a result will be posted following the end of the voting period.

All discussion of this proposal should be posted to news.groups.proposals.

The full group creation procedure is documented here:

http://www.big-8.org/dokuwiki/doku.php?id=policies:proposals

NEWSGROUPS LINE: rec.radio.amateur.moderated

rec.radio.amateur.moderated Amateur radio practices, rules, etc. (Moderated)

SUMMARY OF DISCUSSION:

The proposal in its current form reflects the results of feedback from posters to news.groups.proposals in response to the 1st and 2nd RFD's and a Straw Poll. It is also, realistically, a reflection of what Big-8 board members - including Tim Skirvin, Steve Bonine, and Kathy Morgan - indicated that they would support, and vote for.

Followup discussion in response to the 1st RFD indicated that there was significant and strongly-held opinions in favor of either opening up the proposed newsgroup to all amateur radio topics, or changing the name to reflect a misc+policy scope only. In addition to the rec.radio.amateur.misc and rec.radio.amateur.policy newsgroups, there has also been recent discussion about moderation in rec.radio.amateur.antenna and rec.radio.amateur.dx. As a result, pointers to the 2nd RFD were posted to those additional newsgroups. In particular, some consensus about alternatives was actively solicited at that time. The main alternatives suggested in the 2nd RFD were:

1. Make rec.radio.amateur.moderated an all-encompassing moderated amateur radio discussion newsgroup.

2. Keep the topics focused on misc and policy, and come up with a
better name for the proposed misc+policy moderated amateur radio
discussion newsgroup.

Alternative #2 then would branch out to two possible outcomes:

2.a. Create additional moderated newsgroups for other topics, like
.antenna and .dx, now or in the future.

2.b. No one steps forward to create additional moderated newsgroups,
and the other topics continue unmoderated.

Alternative #1 would not rule out the creation of additional moderated
newsgroups in the future, though there is the valid point that
alternative #2 would fix the name-space problem immediately for future
growth, and would not have to be revisited.

Alternative #2 would require a suitable name. The name of
rec.radio.amateur.misc+policy.moderated was suggested by Kathy Morgan.

One argument offered by the proponent in favor of alternative #1 was
that it may not be realistic to expect that, even if strongly desired,
additional moderated newsgroups for other topics would emerge anytime
soon, or at all.

No one from the rec.radio.amateur.antenna or rec.radio.amateur.dx
newsgroup communities stepped forward to express a desire to create
moderated newsgroups for those topics in response to the 2nd RFD
inviting them to do so. Nor was there significant or widely-shared
objection to the proposed new moderated newsgroup covering those topics
also.

Creation of an all-encompassing moderated amateur radio newsgroup is
consistent with the findings of a Straw Poll in news.groups.proposals,
where approximately 60% of respondents were in the categories of
"Support initial name, no stated preference for scope" or "Support
initial name and all-amateur-radio scope. Trying to characterize or
summarize the opinions of those who might have been leaning towards a
misc+policy scope proved difficult, and resulted in two respondents out
of 21 polled (Jim Riley and Kathy Morgan) following up to clarify their
own positions and correct their categorization in the Straw Poll. Jim
indicated that he should be moved to the Straw Poll category of "Support
initial name, no stated preference for scope," instead. Kathy indicated
that she would support a proposal where the newsgroup name matched the
scope. No one who was initially categorized in the Straw Poll as,
"Support initial name, no stated preference for scope," or, "Support
initial name and all-amateur-radio scope," followed up to
news.groups.proposals to object to their own categorization. Because of
all of this, the alternative of a misc+policy-only newsgroup was not
seen as one that could gain political traction, broad readership
support, or majority Big-8 board support.

Less than 15% of respondents expressed objection to the creation of a
moderated newsgroup entirely. None of these respondents objected to

their categorization in the Straw Poll.

The rec.radio.amateur.equipment and rec.radio.amateur.homebrew newsgroups are being added to the distribution of a pointer to this 3rd RFD as a courtesy, and for their information. They were not added previously because the existence or form of a moderated discussion newsgroup was not seen by the proponents or most of the RFD discussion participants as something that would seriously affect them. Nor has there been any significant discussion in the recent past for making moderated alternatives for those topics, either specifically or generally, on the newsgroups. Making them aware of this 3rd RFD, and the opportunity to object during this Last Call for Comments, was seen as a reasonable compromise between informing them as a courtesy versus not subjecting them to unwelcome amounts of off-topic meta-discussion.

RATIONALE: rec.radio.amateur.moderated

rec.radio.amateur.moderated is a moderated alternative to at least the existing rec.radio.amateur.misc and rec.radio.amateur.policy newsgroups. The rec.radio.amateur.misc newsgroup is chartered to discuss amateur ("ham") radio practices, contents, events, rules, etc., including anything related to amateur radio not specifically covered by another rec.radio.amateur.* newsgroup. The rec.radio.amateur.policy newsgroup is chartered to discuss ham radio rules, regulations, and policy. Over the past several years, the traffic on both groups has become largely flame wars, spam, and personal ad-hominem discussions of past, present, and future violations and violators, having little or no bearing on amateur radio. Polite requests by serious group posters to the offenders to refrain from such behavior have not resulted in elimination of such behavior and has in fact resulted in another series of flame wars. As a result, many knowledgeable and concerned posters in both groups have ceased being active therein.

Prior to the deterioration of rec.radio.amateur.misc and rec.radio.amateur.policy, both groups had active discussion of their chartered topics. It is expected that offering a moderated group will persuade those who formerly participated to resume their participation in rational, focussed, and informed discussion. Proper moderation will enable serious postings to the group to remain on topic while not limiting who can voice opinions or what opinions can be voiced.

Creating a single moderated newsgroup, one that would also permit all other amateur radio topics, is offered as the most practical solution for both the moderators and the participants at this time. The existing unmoderated newsgroups under rec.radio.amateur.* can, and likely will, continue with their present topics and message traffic independent of this new moderated newsgroup.

CHARTER:

rec.radio.amateur.moderated is for the discussion of amateur ("ham") radio, also known as the Amateur Radio Service, as defined in Federal

Communications Commission Regulations and U.S. Law (47 CFR Part 97), and in similar laws and regulations in other countries, based on international treaty. It is not limited to the rules of any one country or time period. Possible topics include past, present, and future operating practices; events; contests; past, present, and potential-future rules; power limitations; authorized frequencies; allowed modes and band plans (or other gentlemen's agreements) that govern how we are to operate; what constitutes the acceptable operation of amateur stations.

The newsgroup is intended to be international in scope, not just for amateurs in the United States. It is, however, intended as an English-language forum, by custom and practice. As with General Aviation and other internationally-scoped endeavors, the Amateur Radio Service has a strong custom of the use of English and the Latin alphabet. Discussion of amateur radio in languages other than English also occurs in many country- and region-specific hierarchies, many of which have specific amateur radio newsgroups, including:

de.* (Germany)
dk.* (Denmark)
es.* (Spain)
fr.* (France)
nl.* (Netherlands)
pl.* (Poland)
pt.* (Portugal)
relcom.* (Russia)

This newsgroup is only intended to supplement, not supersede, any other amateur radio newsgroups.

General communications law or government policy of various government agencies is also on-topic, as long as the discussion relates to amateur radio. Examples would be emergency communications, local antenna restrictions, and property deed restrictions applying to operation of amateur radio stations.

Discussion of other types of radio, such as Citizens Band, Broadcast, other Personal Radio Services, Commercial or Private Land Mobile, and Marine or Aviation services are off-topic, except when *directly* related to amateur radio. Similarly, discussion of methods violating applicable communications law and regulations concerning radio equipment or operations are off-topic.

The following are prohibited:

* Personal advertisements (submitters of such articles will be referred to rec.radio.swap, instead).
* Commercial advertisements and money-making schemes.
* Chain letters.
* Posts in HTML.
* EMP spam.

* Binaries, apart from PGP signatures, X-Face headers, and other
ancillary article meta-data.
* Forgery of valid e-mail addresses.
* Excessive morphing/nym-shifting.
* Copyright violations. Pointers to news articles, blogs, etc. on
this topic are welcome but are required to comply with fair use
standards.
* Personal attacks and flames, as defined by the moderation team.
* Advertising items and/or services for sale (also will be referred to
rec.radio.swap).
* Links to "objectionable" web content, including pornographic sites,
sites encouraging illegal activities, or sites deemed unacceptable
by the moderation team. The moderation team will cursorily check
the contents of specific links to confirm on-topic content, but
acceptance for posting does not imply endorsement or approval of
the entire present or future contents of that web site.
* Discussion of moderation decisions. See below for information on
appealing moderator action.

MODERATION POLICY: rec.radio.amateur.moderated

A moderation robot will scan all submitted posts. Each post will be
either automatically approved, rejected, or sent to the moderators for
manual review. The moderator 'bot will enforce the following guidelines:

* Crossposting is generally not allowed, with the general exception of
crossposts of bulletins, FAQ's, and other informational articles to
rec.radio.info, rec.answers, and news.answers. Infrequent
administrative crossposts may occasionally be allowed at the sole
discretion of the moderator.

* Postings must be in plain text. In particular no HTML or mixed text
and HTML posts will be allowed. Messages that are
multipart/alternative will be automatically filtered to pass just
the text/plain version to the newsgroup.

* No binary postings of any sort will be accepted. Exceptions will be
made for cryptographic signatures and such.

* Messages must not have a 'Followup-To' header that points out of
rec.radio.amateur.moderated (other than to "poster").

* Messages must not continue a thread that has been "closed" by the moderators.

Individual posters may be temporarily banned for consistently violating the group charter. Posters who feel that their posts have been unfairly rejected or banned, either for specific content or by a specific moderator, may appeal the decision. They may do so by contacting the Appeals Board, consisting of a rotating group of 2 or more moderators, at the Administrative Contact address below. The Board will discuss and vote on the appeal and respond within 14 days if the appeal is successful. The Board will also reply within 14 days to unsuccessful submitters of any appeal that is on-topic, reasoned, civilly stated, and is not substantially an attempt to revisit the subject matter and arguments of a previous unsuccessful appeal.

Multiple temporary bans, attempting to circumvent the ban, or abuse of the appeal system may result in a permanent ban.

True, but running 50 Watts on 2 Meters is not even *close* to the
field strength you are describing. You are talking about huge amounts
of energy, we are talking about field strengths that are much lower.

Have you ever noticed how much he talks about being a homosexual. It is
like a fantasy for him to keep talking about it. I would suspect that he
really is and instead of doing his thing he takes his lifetime of anger
out on everyone else. It is pretty much been learned that he is very
much that way. Since no women occupy his life, you would have to figure
that he has some tendencies that way. Usually in psychology, the person
who complains the loudest about homosexuals is a repressed one himself

Might notice that it was the day after Valentine's Day. Not to mention
you were sitting at home all by your lonesome right Weissman. Or is it
Wussman because no self-respecting woman would want anything to do with
you. Well except that blowup doll you had hiding in the house when Dave
and his wife showed. You know the time when you were burning footsteps
through the house like a little girl. mWHAHAHHAHAHA

Yes, it was a piss poor excuse, Toad. You were posting all alone at

you are a homosexual like Maarkie. How would you know if Wiseman was
all alone on Valentine's or not, were you jacking off outside his

his wife cuntlapped the family dog. I heard you were burning footsteps

APRSPoint 4.2 is uploaded,

1. This new version has improved tracking support by adding separate track lists for stations to be tracked over either RF or TCP link.

2.It also added a new reject field in the filter dialog, where you can specify a list of stations to filter out using multiple strings that can contain wild card characters.

3. It allows you to selectively remove stations from the tree view list. This combined with improved filter operation, enables you to dynamically adjust what gets displayed on the map.

Please visit http://www.aprspoint.com for details and download.

Thanks, Michael KF6ZDM

Everything said by Steve is twisted or construed by you to either be a
threat or an "implied threat", depending upon how your misfiring brain
interprets his words.
I won't waste my time listening for Markie on 28.495 or anywhere else for
that matter.

I didn't start the subject or even mentioned sex, YOU did when you called me a pervert. Then when I pointed out the fact the your bi/gay lifestyle is devient, you didn't agree. I only commented on the other post that I thought the phonetics were comincal. You could of simple commented that you didn't like the humor, but you had to get nasty and resort to name calling. Maybe if you didn't act like an asshole all the time people would treat you with respect.

Such behaviour is not deviant to Mark. To him, what he does is "normal".
Just ask him. He has a room full of reasons to justify his proclivities.

The perversions are yours, Mark. You are the one who sees sexual innuendo in every post even where none exist.

You have an unnatural obsession with things sexual. Sensetive, are we?

Good try, Mark, but no go.

You at least attempted to spell correctly, but your third grade punctuation and run-on sentence gave you away.

Better luck next time, Mark. There are avenues of hope for even you...the various mental health associations quite often offer free services for folks such as yourself.
It would behoove you to take them up on their services.

I was not aware he had one. Perhaps you are privy to information I am not.

Now, if I was Mark, I'd take umbrage with your remark. I'd come out of the Stupid Chute and accuse you of making sexual innuendo aspersions, or at least would twist my definitions to accuse you of same.
Then, if I was Mark, I'd post thirty or forty posts minimum to rebut what you have said.

Markie (deresion intended) has issues. One cannot help but feel sorry for him. Conversing with Markie is not unlike talking to a pet dog. You look at the doggie with condescending patience and tell the little tyke, "Nice Boy". Mark is not unlike that. One can command a pet dog to Speak. The dog does so. One can also command Mark to Speak. He does so also, ad nauseum. The difference? My dog is far more capable of authoring cohesive sentences that Mark is.

You got that right. Mark thinks everytime he sees the work suck, its
sexual. I guess a baby sucking milk from a bottle arouses his sick

stop thinking that every post is from Woger. You must have secret

Hello Nelson.

I can offer a couple of references:
1. The ARRL publish a book on mobile operation (incuding aeronautical etc)
and I belive it includes a section on car manufacturer's comments about cars
and RF. I cannot be certain because my copy has been mislaid.

2. Mercedes Benz cars have a compatility table in their handbooks.
Interestingly, the table is aimed directly at amateur bands.
Again, if I can find a copy then I'll posdt what is in the table.

I told you Billy BOY, stop trying to ride on Marqueers coat tails. You
can't even maintain employment much less make a correct guess. BTW
playing with you pedophilia cartoons is not a job.

Speaking of Marqueer, I suprisingly ran across a word that describes
Markie to a tee. If I didn't know any better, I would swear the author
knows Markie. Since Marqueer has already opened up the door for today
about his bizarre behavior, what the hell.

Sexlexia (noun)

A mental disorder where a person sees connotations for sex
everywhere, principally within literature. The term can also be
applied more generally to encompass all forms of communication and
social life. The concerned person will be very disagreeable and will,
unconsciously, relate everything you say to him to sex. He will be
incapable of any clear thought whatsoever.
Certain people believe that sexlexia may cause an irreversible
modification of the brain, which will block the victim from clear

thought for the rest of his life. Specialists disagree over the cause of the illness, but it is most commonly believed that Sexlexia is not only influenced by the social lifestyle of the victim, but also by the size of his penis (very small).

I am the great profit. I am now speaking to you from Walterboro, SC.

I have many young "sistahs" with me now. They know what to do.

I predict that on Feb. 23 there will be no more code requirements for ham radio.

Feb. 23 is this coming Friday, ham radio friends.

I predict that Mr. Davies will be able to check into The Great Liberty Net very soon.

The profit has spoken.

Now maybe Mr. Davies can speak to us from On The Domestic Front about his future plans.

Please pass this prediction to all of your ham and shortwave radio friends.

We don't want to miss this historical event of Mr. Davies on The Great Liberty Net.

I am the great profit.

Believe in me and I will give you many false predictions.

Phonetic Alphabets (Alpha Bravo etc)
February 2007

There is a widely known alphabet Alpha Bravo ... Yankee Zulu.
Such alphabets, used for spelling things out over voice
links, are variously known as phonetic/radio/spelling/
telephone alphabets, and the term analogy alphabet is also
used. This collection currently includes alphabets for the
following languages:

English, French, German, Dutch, Spanish, Portuguese,
Italian, Romansh, Danish, Norwegian, Swedish, Finnish,
Czech, Slovak, Polish, Hungarian, Croatian,
Serbo-Croat, Slovenian, Greek, Romanian, Turkish,
Hebrew, Russian, Ukrainian, Swahili, Kwanyama, Ndonga,
Afrikaans, Chinese and Esperanto.

There is also some information about Morse code and
phonetics for digits.

This posting supersedes the one of 18 November 2002. New
this time: another Hungarian alphabet, and Morse code
mnemonics for Spanish and Czech.

My thanks to the many contributors, not all of whom are
acknowledged below. Particular thanks to Gwillim Law
for numerous contributions and for looking after posting
for a while.

Please report any errors. I will be glad to receive new
material; further references; anecdotes; whatever.

What is "staking"?????
Are you doing some surveying of your trash dump of a yard to find the
property line?

Your obsessions are showing again, Wabbit. Also, you're talking to
yourself.

TEH WAY OF THE K00K
Never learn from your mistakes.
Always practice your mistakes; you may get them right.
Always pick on those smarter and tougher than you.
Always believe that only you know the TRVTH.
Never allow logic or reason get in the way of a good k00k.
When being overwhelmed by logic and reason: k00ksuit!
If you are going to be wrong, do it at the top of your lungs.
When caught in a lie: LIE!
When in doubt: Order the Crab Won Ton
Plagiarism is your friend. Use it.
Whenever contradicted; morph, start calling people names, and make false

accusations. Include the children of your target in your allegations, even if they don't have any.
(06-Jun-05) When nobody else will listen, post to your own fan group.
(06-Jun-05) Obviously, since you have your own fan group, this must mean that you have fans. Post prolifically to your fan group - you wouldn't want to disappoint them!
(10-May-2005)Everyone reads usenet. Approval here means approval everywhere.
Post numerous blank posts, or posts containing only a message id.
Post numerous copy&paste web articles from crackerpot websites.
Never forget to call kookologists "k00ks."
If there are several, call them "sockpuppets" too
When all else fails, accuse various and sundry kookologists of e-mailing viruses to you. This is a sure-fire method of garnering sympathy and ensuring that the General Public will always see things your way. An especially effective sub-strategy here is to accuse them of infecting you with the 'Sasser' worm via e-mail.
Quote notorious scientists or writers - it makes it look as if they approve the drivel you are writing!
(9-Jul-05) Anytime your computer is infected with a virus, bogged down by spyware, attacked over your internet connection, or otherwise suffers from preventable problems, government agencies are responsible and are trying to silence you and are monitoring your computer files.
Ignore all traffic signs and feel free to trespass, you don't have to obey any rules.
Scare your enemies with lawsuits, police escorts and whines.
Always back up your empty (albeit noisy) threats with phony LARTs, false police reports, and harassing letters to the FBI and other gubbermint agencies.
Be vigilant in your redundancy. The more you repeat yourself, the more likely others will believe you!
If you can't find anyone as crazy as yourself to support you in the flamewars you start with the normal population, create sock puppets and use anonymous remailers that shamelessly hang on every word you write.
(17-Mar-05) When dealing with law enforcement, remember that it is they who have the problem, not you. Be sure to inform them of this at every available opportunity, as they will surely appreciate your constructive criticism. Be sure to make them aware that YOU KNOW YOUR RIGHTS! ("The cops like that, when people know their rights. That way they don't have to read them to you on the way to the station." - George Carlin)
The more your fake personalities adulate you, the more respect you'll get!
When confronted with a reality that you don't like: Announce loudly that you are departing, never to return as long as there's an Internet. Come back in three or four days and claim you were drunk, hacked, abducted by alience, or forged. Alternately you can just not even mention your prior departure, and if anyone asks you about it, either ignore them or respond with something along the lines of "YOUR NOT THE BOSS OF ME! *PLONK*!" People really know you mean business then.
Always remain clueproof.

(20-Mar-05) Anyone who does not believe that you are the reincarnation of [$DEITY_OR_PROPHET] is obviously an infidel lacking in faith whose soul in in peril of everlasting damnation.
When responding to one line challenges, post paragraphs of rants and screed in response.
Incoherency is not a roadblock to poasting.
Neither is illiteracy.
Delusions poasted often enough become fact.
Claim you will destroy <insert newsfroup> for attacking you.
When spnaked, send cmsg for Fanboi newsfroup(s).

Alfred states that Joel hopes to hit the airwaves by Saturday, February 17th and is currently staying north of Colombo on the westcoast of Sri Lanka. Joel was heard this past weekend on 14256 kHz after 1300z. Look for him on 20 and 17 meters. QSL via F5PAC.

With the current band conditions and my typical operating times, I suspect that I will spend most of my radio time on 30, 40, and 80 meters. However, I will operate on whatever band (80-10m) and mode that have the best propagation at the time. Most probable operating times are between 2000-2300z or between 0200-0500z, and possibly some occasional activities between 1200-1400z. I will be active on SSB, CW, and RTTY." QSL via N5FF.

Hey, Roger! How are ya? Talked to Riley lately? Gotten any correspondence
from him?

I have a five dollar bill that says Mark Morgan never received so much as a
single letter from Riley. How many have you accumulated? Two? Three? Four?
Heck. I'll toss another five spot in the pot and bet that Mark has never
been forced to retest, either.

Want to go for double or nothing? I submit that you are much higher on Riley
Hollingsworth's radar screen than Mark will ever be, if at all.

Heck, Roger. I'll even toss in an extra sawbuck if you can show that Mark
has lost as many ISPs as you have in the last five years alone. Could this
be the reason you maintain so many dialup accounts?

And so far as Mark being banned from Nimbusters? Perhaps he should strive to
have his very own Nimbusters board such as the one you have. What a badge of
shame that must be...I mean...what with a little animated .gif of a little
guy urinating on your photo and all. (
http://nimbusters.com/forum/forum.php?board=10 )

If I do a Google search for Mark Morgan all I'll likely find is a list of
comments he has made to Usenet groups over the years. Do the same search for
YOU Roger, and there are literally hundreds, nay, thousands of "hits" that
deal with your filthy comments, your infamous brushes with Riley
Hollingsworth, and even your low-life and illegal attempts to implicate
Lloyd Davies in kiddie porn sales by posting bogus messages over Lloyd's
name and home address.

Oh, and let us not forget to mention the half-dozen news groups that have
been created in your name. Score? Roger: 6. Mark Morgan: 0

Yessir, Roger. You sure are an upstanding citizen of Glendale, West Virginia and an exlemplary Amateur Radio Operator indeed. Life under your rock must be very cold and very lonely.

Who cares? You're a Google sock for one or more lame, homophobic cowards
who think harassment is funny. Your identity is unimportant, because you
don't own your nym. You are whom I say you are, unless and until you
decide you don't want someone else telling you who you are. Now tell me
to go fuck myself, and then you may run away crying like a little girl.

You are not the only one to observe this behaviour. When Roger is banned from the Nim board, he absolutely, positively, has to post his filth somewhere lest he explode. He comes here to vent his pent up filth.

There are no "polite" inquiries from law enforcement. Simply being queried by Law Enforcement is intimidating enough and causes no small amount of discomfort. Roger knows full well the scope of such queries...he is far from being a stranger to his local Glendale police department in that he has been paid several visits by them and was once asked to go to their headquarters for an interview. It was during one such alleged interview that the Chief, Norm Stenger, became alarmed when Roger suffered some sort of seizure and an ambulance had to be summoned. According to the report, the Chief said, "I thought we were going to lose him there for a minute."

If you were queried by LE officials as you claim, then my money is on Mr. Wiseman being the culprit for same. And if you were NOT interviewed by LE officials, well, it makes for a nice story anyway, one in keeping with the mode of operation that Roger is infamous for.

I split my money between him and Robeson some of it I know was a LPN
from TN since the charges were made by a medical professional I had
the right to that data. That was unpleasent as they examined my father

since that deabcle tLE has been relatively polite in what inquiries it

You must refrain from making any further predictions.

I am the great profit and I alone am authorized to give false predictions on the newsgroups.

If you wish to be a profit you must come to "the farm" and spend some time "out behind the barn with the sistahs" for your profit training.

And then we will declare you a beginner profit and then we will give you a license to make some baby step false predictions.

If you make any more predictions you will be fined ten thousand dollars in federal court and Mr. Jim Davies will serve as counsel for the prosecution.

I am the great profit.

I have spoken.

# 1777. RESULT: rec.radio.amateur.moderated will be created

Newsgroup: rec.radio.amateur.misc

Message-ID: <nan.20070219162040$742e@killfile.org>

RESULT
rec.radio.amateur.moderated will be created

The Last Call for Comments on 12 Feb 2007 initiated a five-day period for
final comments. Following this comment period, the Big-8 Management Board
has decided by consensus to create the newsgroup rec.radio.amateur.moderated.

This group will be created on 22 Feb 2007.

NEWSGROUPS LINE: rec.radio.amateur.moderated

rec.radio.amateur.moderated Amateur radio practices, rules, etc. (Moderated)

CHARTER:

rec.radio.amateur.moderated is for the discussion of amateur ("ham")
radio, also known as the Amateur Radio Service, as defined in Federal
Communications Commission Regulations and U.S. Law (47 CFR Part 97), and
in similar laws and regulations in other countries, based on
international treaty. It is not limited to the rules of any one country
or time period. Possible topics include past, present, and future
operating practices; events; contests; past, present, and
potential-future rules; power limitations; authorized frequencies;
allowed modes and band plans (or other gentlemen's agreements) that
govern how we are to operate; what constitutes the acceptable operation
of amateur stations.

The newsgroup is intended to be international in scope, not just for
amateurs in the United States. It is, however, intended as an
English-language forum, by custom and practice. As with General
Aviation and other internationally-scoped endeavors, the Amateur Radio
Service has a strong custom of the use of English and the Latin
alphabet. Discussion of amateur radio in languages other than English
also occurs in many country- and region-specific hierarchies, many of
which have specific amateur radio newsgroups, including:

de.* (Germany)
dk.* (Denmark)
es.* (Spain)
fr.* (France)
nl.* (Netherlands)
pl.* (Poland)
pt.* (Portugal)
relcom.* (Russia)

This newsgroup is only intended to supplement, not supersede, any other amateur radio newsgroups.

General communications law or government policy of various government agencies is also on-topic, as long as the discussion relates to amateur radio. Examples would be emergency communications, local antenna restrictions, and property deed restrictions applying to operation of amateur radio stations.

Discussion of other types of radio, such as Citizens Band, Broadcast, other Personal Radio Services, Commercial or Private Land Mobile, and Marine or Aviation services are off-topic, except when *directly* related to amateur radio. Similarly, discussion of methods violating applicable communications law and regulations concerning radio equipment or operations are off-topic.

The following are prohibited:

* Personal advertisements (submitters of such articles will be referred to rec.radio.swap, instead).
* Commercial advertisements and money-making schemes.
* Chain letters.
* Posts in HTML.
* EMP spam.
* Binaries, apart from PGP signatures, X-Face headers, and other ancillary article meta-data.
* Forgery of valid e-mail addresses.
* Excessive morphing/nym-shifting.
* Copyright violations. Pointers to news articles, blogs, etc. on this topic are welcome but are required to comply with fair use standards.
* Personal attacks and flames, as defined by the moderation team.
* Advertising items and/or services for sale (also will be referred to rec.radio.swap).
* Links to "objectionable" web content, including pornographic sites, sites encouraging illegal activities, or sites deemed unacceptable by the moderation team. The moderation team will cursorily check the contents of specific links to confirm on-topic content, but acceptance for posting does not imply endorsement or approval of the entire present or future contents of that web site.
* Discussion of moderation decisions. See below for information on appealing moderator action.

MODERATION POLICY: rec.radio.amateur.moderated

A moderation robot will scan all submitted posts. Each post will be
either automatically approved, rejected, or sent to the moderators for
manual review. The moderator 'bot will enforce the following guidelines:

* Crossposting is generally not allowed, with the general exception of
crossposts of bulletins, FAQ's, and other informational articles to
rec.radio.info, rec.answers, and news.answers. Infrequent
administrative crossposts may occasionally be allowed at the sole
discretion of the moderator.

* Postings must be in plain text. In particular no HTML or mixed text
and HTML posts will be allowed. Messages that are
multipart/alternative will be automatically filtered to pass just
the text/plain version to the newsgroup.

* No binary postings of any sort will be accepted. Exceptions will be
made for cryptographic signatures and such.

* Messages must not have a 'Followup-To' header that points out of
rec.radio.amateur.moderated (other than to "poster").

* Messages must not continue a thread that has been "closed" by the
moderators.

Individual posters may be temporarily banned for consistently violating
the group charter. Posters who feel that their posts have been unfairly
rejected or banned, either for specific content or by a specific
moderator, may appeal the decision. They may do so by contacting the
Appeals Board, consisting of a rotating group of 2 or more moderators,
at the Administrative Contact address below. The Board will discuss and
vote on the appeal and respond within 14 days if the appeal is
successful. The Board will also reply within 14 days to unsuccessful
submitters of any appeal that is on-topic, reasoned, civilly stated, and
is not substantially an attempt to revisit the subject matter and
arguments of a previous unsuccessful appeal.

Multiple temporary bans, attempting to circumvent the ban, or abuse of the
appeal system may result in a permanent ban.

You really ought to put this on a website instead, with each alphabet on a page, and an index page listing them all. A newsgroup posting isn't a substitute for that.

I agree - it should be on a web site - where more folks could have access to
it for whatever reason.

Thanks Mark, Woger, Slow Code, hot-ham-and-cheese, Billy Smith, and all of the other useful idiots who kept flooding rrap and rram. You helped enormously in convincing the Big 8 Management Board that a moderated newsgroup is necessary.

Those of us who want to get away from you idiots - especially the Mark idiot - now have a place where we can discuss amateur radio and be unmolested.

As a plus, Paul Schleck will stop sending out his annoying email to people who are silly enough to post here for the first time with a valid email address. Paul will now go away to his new sandbox and play with his pals in rec.radio.amateur.moderated. I expect an initial surge of interest, followed by its inevitable decline and slow abandonment. In general, the number of moderated groups has been steadily decreasing over the years (see news.groups), and I don't expect the new group to be able to successfully buck that trend in the long run.

Still, its creation is a wonderful thing. The new group will provide a new source of amusement amd massive lulz to those of us who will enjoy seeing Mark Morgan be excluded from posting to it.

Mark is sooooooo cute when he's puncing.

Mark:

Don't you think they should have things as they would like them?

I don't think you nor any have the right to refuse them, let 'em go to
the good ole boys club. Amateur radio and the arrl will never be again,
as it was in the past--let them dream the dream of death in peace ... it
is as fitting a way for them to leave as any other.

You were already banned from the test group. Doesn't that give you a
bloody clue? The same moderators and the same robot moderator will be
handling the new group, and they WON'T allow you to followup to every
post or to attempt a thread hijacking as you did just now. You'll be
banned again in no time.

My bad. I should have typed "Feb 22nd." That's when r.r.a.moderated
is scheduled to be created.

P.S. I'll bet that Paul doesn't like his posts to be called
"diatribes." He's the leader of the moderators, remember? Yep: You'll
be banned again in no time.

Don't make accuations Mark. I only post under one name Dloyd Lavies,
and I only have one blog. I am not Woger, I don't post under Len
Slanderson or Deb_GavC...@yahoo.com. Unlike you I don't need four or
five different posting accounts. I only need one.

Good luck with your upgrade, should be easy since most six year olds
can now pass all testing elements on the first try.

so you say I don't beleive you

Frankly, I don't care what you believe, but your thinking that
everyone is using multiple names seems to lessen your view of the

number of individuals that you seem to think dislike your behavior in
the NGs, which by your on admission you believe is only four or five,
I think the number of individuals is much greater than that.

I only need one name, I am already anonymous, no need to be anonymous-
anonymous.

You should be able to pass the extra now that the code is gone, you or
anyone else should have no excuses. For me the Extra was easier than
the General but the Advanced was the most difficult. Nevertheless,
aced them all 100% including 20 wpm code. You have no excuse not to
come back with a CSCE for all elements.

Thank you for that little submission, it just reassures my thinking
that nobody can't reason with you and any attempt to have a normal
exchange ends up with you acting like an disgruntled asshole.

>you want me to think your online existance revolves around me but I know better

I hope you know better, because certainlly I do not want you to think
that my "online exsistence" (whatever that means) revolves around you,
while I am on here. I am usually typing with one hand and working
someone on CW at the same time, really sharpens those high speed CW
skills, you ought to try it sometime.

# 1827. Yaesu FT-7 Advice Needed - Re: Antennas

Newsgroup: rec.radio.amateur.misc

Hi all.

I have just obtained my first HF rig. It's a Yaesu FT-7.

The rig has 20 watts input with about 10 - 15 watts output.

I would like to know how forgiving this radio is to poorly matched antennas. I have an MFJ-941E antenna tuner and plan on using a random wire antenna as I only have about 10 metres of yard space in a two storey townhouse. Am I likely to blow the finals up with a poor antenna ?

Here are some questions:

What would be the shortest usable random wire antenna I could use for 80 and 40 meters ?

Is the FT-7 forgiving with poorly matched antennas or am I risking the finals of the radio by cutting things too fine ?

If I went for an 80m or 40m vertical whip should I be able to tune over most of the band or will I be limited to a very small section ?

Any other advice or warnings about use or mis-use of the FT-7 would be heartily welcomed.

Thanks for reading and 73's

Robert

The method you are describing here is usually considered a violation of
an ISP's terms of service so you may loose your Internet connection when
they find out. I would count on having somebody complain to your ISP if
you try to circumvent the moderation so they will find out.

But.. You knew that..

Besides, why bother? You all have unrestricted access to rram and

Ah, but you have to differentiate between an NSP and an ISP. Mark's NSP is currently Tera News, and his ISP is Direcpc (HughesNet). As it turns out, Direcpc doesn't act on Usenet complaints. They apparently feel that it's Tera News' problem and not theirs. Many of the larger ISPs are also common carriers (Verizon, AT&T, etc.), and they don't want to jeopardize their common carrier status by taking responsibility for the contents of the packets which traverse their systems. They too usually tell complainers to take it up with the News Service Provider.

As it turns out, Tera News is infamous for ignoring Usenet abuse complaints. You can complain all you want, but some very influential Usenet admins have complained to them with no effect. Tera News and Google Groups are both well known for ignoring abuse complaints. If hell froze over and Tera News actually did boot Mark, he could move back to Google Groups again.

But.. You knew that..

Oh, I'm not likely to post there, but since Mark says he's being discriminated against because of his sexual preferences, I thought I'd give him some pointers so that he could join you whenever he wished.

By the way, HipCrime's programmers worked through all of the traceback possibilities quite some time ago. Combine HipCrime's NewsAgent (http://newsagent.p7.org.uk) with the Electronic Frontier Foundation's free Onion Router (http://tor.eff.org), and there simply isn't any way to figure out the poster's true ISP. NewsAgent can make use of the numerous open NNTP servers which are scattered across Europe, Russia, and the Far East, so you can't even pin him down to a single NSP either.

Isn't that special?

Enjoy Mark's company.

IF it is any consolation - the commercial radio services went to hell too. The FCC took the bite out of the FCC Commercial licenses and the need for them. There have been systems installed by those not knowledgeable in the field and well - havoc runs amuck. There was at least last year - a push to have the FCC put the bite back into the licensure process. Will they? WHO KNOWS! Strangely enough - it seems big brother has been implementing all sorts of rules and laws since 911 - which has made life a short stroke away from pure hell - but the Communications industry one day will implode due to loss of control.

THIS along with the CB/HAM - is closing the barn door after all the horses have escaped.

Yea, but it's the same ISP as the moderation team uses to insert messages and we had alerted them in advance that this was comming.

I'm working on verizon as I'm a customer of theirs, and hopefully Google will add it shortly. I may be considered a "customer" of a few other ISP's by virtue of the various ways I can access the internet, so I'm looking into those as well.

That's right, radio hobbyists.

The night we've all been waiting for - at the stroke of Midnight and the HF bands open to no-coders at last.

I predict that Mr. Davies will be the first no-coder to make a qso on HF.

When the timer at WWV chimes midnight on the dot, The Great Time Lord will key his microphone and lead the way into HF radio for thousands of other no-coders.

I also predict that he better check in to The Great Liberty Net this weekend or else he will go to Hell with Porkbutt and Loose Orifice.

I am the great profit.

I have spoken.

The FCC, in our Democratic society, asked for input on the code/no-code issue for quite awhile from the ham radio community. The MAJORITY of hams voted to do away with Morse Code so that's why it's now gone. Additionally, after the World Radio Conference (WRC) of 2005, 99.9% of the other countries decided to eliminate the code as well, with only the U.S. and a couple of others hanging on to this antiquated mode. Incidently, the ham bands NEVER became "CB-like" in the countries who have already dropped the code years ago. Hams in places like Canada, Mexico, Europe, Africa, and Austrailia noticed no change to the bands whatsoever. So...you, and others like you, can quit crying 'Wolf' now.

What was the official tally? I didn't get a ballot (which is not very
democratic in my opinion :))

If your figure of 99.9% is correct, and there are approximately 250
soveriegn countries in the world, this would mean that (1.000 - 0.999) X
(250) countries still have the code requirement. That would be 0.25
countries that retained code. Since this number must be an integer, we must
round it down to 0. Is zero correct?

I'm not sure that CB in those countries ever became CB-like in the American
sense.

It takes time for the newgroup control messages to propagate thru the USENET newsstream, much the same way a message takes time to propagate. Oftentimes newgroup messages are manually 'approved' by each site's administrator prior to their accepting the messages for that group. It'll probably be a week or so before things really iron themselves out.

This is a good argument to strongly tighten up the technical requirements
for the license, not an argument in favor of CW requirements.

And I do agree that we need to strongly tighten up the technical part of
the tests.

I've been in favor of this stance for almost a decade.

In my Y2K restructuring comments, I argued for a reduction in the number of license classes to only 2 (One >50MHZ only, one all privileges), ultimate elimination of the code test (I favored a 5wpm reduction with eventual 'sunset clause' once the treaty requirement was changed), and strengthing the theory examinations.

The problem I see with the theory examinations, as currently structured, is they do not require applicants to demonstrate a full understanding of the topical material.

For example, the way the current examinations are structured, you could get wrong each and every question on rules and regulations -- yet still pass the examination because you have good math skills.

Instead, I feel each applicant should be required to pass every sub-element, with a score of 70% or higher. So, you would have to get 70%+ on the rules and regs, 70%+ on antenna theory, etc. I made many of these points in my Y2K restructuring comments.

However, it is highly unlikely that the FCC will ever adopt such a strategy. The trend is to make licensing easier and easier. I suspect over the next 2 decades you'll see a further push to weaken the theory examinations. Probably not for the next 5 years or so, but eventually some people will start to make the claim that the "hard" theory exams are keeping "potential" people away from the ARS.

This is unfortunate, because in the long term I do not think it helps the amateur radio service. Our knowledge of things "radio" -- propagation, electronics, etc. -- is what has set us apart from other "consumer"-type radio services.

# 1872. Official press release concerning Mr. Davies and Ms. Smith

(UPI) Birmingham, AL: Attorneys at the federal court here today announced the final results of the paternity test of Anna Nicole Smith's infant daughter. The results of this test, verified by Mayo Clinic and the UAB Medical School, indicate that Mr. Lloyd Austin Davies of Athens, AL, is, indeed, the biological father of this child. Mr. Davies holds amateur radio call sign N0VFP, and has previously gone by the alias of Profit Nutsack.

In a prepared statement, Mr. Davies revealed the details of the event. The tersely worded document reads as follows:
"I was making my appointed rounds one Saturday night on pizza patrol when this blonde jumped into the back seat of my car at a traffic light. A few hours later during my supper break we were listening to 75 meters on the Icom 706 mounted under the dash of my car. She immediately demanded that I tune to The Great Liberty Net.

"So we were sitting in the back seat listening to The Great Liberty Net. When Chicken Fornicator checked in, something came over her. A wild mood swing, and suddenly she was all over me. In what seemed like an instant, the deed was done.

"When my supper break was over, I resumed my appointed rounds on pizza patrol. As I stopped at the light on the corner of Main and Oak in Athens, the blonde jumped out of the car and walked away before I could get her name and phone number."

The test results, along with the sworn statement, will be sent to the court via express courier. This revelation promises to have major impact on the outcome of the hearings.

Locally, Channel 6 will be handling the minute-by-minute developments.

What is "streetwaler"? Isn't it streetwalker like your mother was for
many years taking her nasty teeth out? Wild, wonderful West Virginia.
Full of white trash, hillbillies, toothless goobers, and people without
anything worthwhile to do. After all, Scheissman, how are things with
that license and the fact that I will be calling you out over the bands.
The question is whether you will finally come out of the closet and
talk to me.

Well considering that I have never talked to Oris it seems that you got the wrong guy. But then again, you're not very smart and a white trash loser for that too. By the way, did Tunder and Heil make visits where you hid behind the door and cried to Marie. # 1878. ANNOUNCE: rec.radio.amateur.moderated has been created

On 19 Feb 2007, the Big-8 Management Board decided to create the moderated group rec.radio.amateur.moderated. The group was created on 22 Feb 2007.

For more information on the proposal and history, please refer to the archives:

ftp://ftp.isc.org/usenet/news.announce.newgroups/rec/rec.radio.amateur.moderated

For your newsgroups file:
rec.radio.amateur.moderated Amateur radio practices, rules, etc. (Moderated)

CHARTER:

rec.radio.amateur.moderated is for the discussion of amateur ("ham") radio, also known as the Amateur Radio Service, as defined in Federal Communications Commission Regulations and U.S. Law (47 CFR Part 97), and in similar laws and regulations in other countries, based on international treaty. It is not limited to the rules of any one country or time period. Possible topics include past, present, and future operating practices; events; contests; past, present, and potential-future rules; power limitations; authorized frequencies; allowed modes and band plans (or other gentlemen's agreements) that govern how we are to operate; what constitutes the acceptable operation of amateur stations.

The newsgroup is intended to be international in scope, not just for amateurs in the United States. It is, however, intended as an English-language forum, by custom and practice. As with General Aviation and other internationally-scoped endeavors, the Amateur Radio Service has a strong custom of the use of English and the Latin alphabet. Discussion of amateur radio in languages other than English also occurs in many country- and region-specific hierarchies, many of which have specific amateur radio newsgroups, including:

de.* (Germany)
dk.* (Denmark)
es.* (Spain)
fr.* (France)
nl.* (Netherlands)
pl.* (Poland)
pt.* (Portugal)
relcom.* (Russia)

This newsgroup is only intended to supplement, not supersede, any other amateur radio newsgroups.

General communications law or government policy of various government agencies is also on-topic, as long as the discussion relates to amateur radio. Examples would be emergency communications, local antenna restrictions, and property deed restrictions applying to operation of amateur radio stations.

Discussion of other types of radio, such as Citizens Band, Broadcast, other Personal Radio Services, Commercial or Private Land Mobile, and Marine or Aviation services are off-topic, except when *directly* related to amateur radio. Similarly, discussion of methods violating applicable communications law and regulations concerning radio equipment or operations are off-topic.

The following are prohibited:

* Personal advertisements (submitters of such articles will be referred to rec.radio.swap, instead).
* Commercial advertisements and money-making schemes.
* Chain letters.
* Posts in HTML.
* EMP spam.
* Binaries, apart from PGP signatures, X-Face headers, and other ancillary article meta-data.
* Forgery of valid e-mail addresses.
* Excessive morphing/nym-shifting.
* Copyright violations. Pointers to news articles, blogs, etc. on this topic are welcome but are required to comply with fair use standards.
* Personal attacks and flames, as defined by the moderation team.
* Advertising items and/or services for sale (also will be referred to rec.radio.swap).
* Links to "objectionable" web content, including pornographic sites, sites encouraging illegal activities, or sites deemed unacceptable by the moderation team. Let's see, Goher face Tunder never got out of his truck( it was in
neutral with the motor running for a quick getaway), he cell phoned
his call into Roger's house, and Heil hid behind his dog-cuntlapping
ex whore wife. Yeah, they are about as brave as you are, fatty.
BTW, How can Roger's mom be in a freezer when local newspaper articles

I don't think the loss of code is going to be a band breaker.
If you want to see a busy morse newsgroup, go join the SKCC group.

I was trying to study for a General ticket but will start out with
Tech. Up to 28 characters on Just Learn Morse Code at 18/24 speed.
Just taking my time. Built some simple radios I fire up into a dummy

These Q&A manuals don't do dick for "teaching". All they do is give the possible answers, the right answer and a hair off a nats ass of an explanation as to WHY it is the answer. I've got FCC study guides that were VAGUE to say the least - one sheet of paper - front and back. They didn't give you the "exact" questions which "might" be found - only samples of the types of questions. Years ago - when you took the FCC exams, if you didn't know electronics - either from school OR some decent "Heathkit" Ham Prep Courses, you were pretty much destined to fail. Many today are just studying these Q&A guides to get their license and letting the ball drop there - UNLESS they want to move up - then they buy the next Q&A and repeat the same process - not really learning the ins and outs. YES - they learn what a resistor looks like - what it is supposed to do and so on - but NOT in depth as they should. Same with many other parts. And even at that - they learn only a small fraction of what any "electronics tech" is in need to know to try to function at least half way decent.

I welcome new hams - but they really SHOULD learn the ropes to get maximum benefit out of their hobby.
Only THEN can they enjoy many of the things ham radio affords the hobby.

Just my 2 cents.

I have to agree.... I am surprised at the wholly naive (and incredibly basic) questions I get from not a few newly licensed Extras. Of course, I give the best info I can and try to help. But, I am still surprised and maybe a bit disappointed.... Hopefully, and with time, they'll assimilate the requisite knowledge. Dunno... maybe I'm expecting too much?

Retard,

You've got to be kidding.

If the experience of the other countries that have done away with the CW requirement is any indication, there will be a boom in new CW operators.

The five WPM test was almost designed to make sure no one would ever learn code. Now that people are freed from that insanity, they can learn CW properly - by starting out at 20 or more WPM. They can use G4FON, Just Learn Morse Code, Super Morse or any other good program.

And if they want to learn American Morse, they can download MorseKOB <http://home.earthlink.net/~n7rz/morse/download.htm>

or The Instructograph <http://mtc-tw.dyndns.org/files/InstructographFull-v.1.0.zip>.

Or if they want to learn both they can download W4FOK's "The Mill." <http://home.comcast.net/~w4fok/mstr04a_.exe>

As far as lids, they are generally short timers, as they are usually shunned by the older, more courteous, and considerate ops. And if they're really bad, Uncle Charlie will get 'em.

Please, Retard, go sell your negativity elsewhere.

Here is an even better idea:

I learned Farnsworth code in 1992. I found that, for some reason, if you learn Farnsworth, many people find that they can also understand Morse code! Additionally, people who send Farnsworth often can be understood by people trained only in Morse code. This is a little-known secret: Just learn Farnsworth and you can do Morse code.

When I took the General Class exam in 1953, I didn't
know anything except high school algebra. I *memorized*
the ARRL License Manual in order to pass the exam and
I just *memorized* the new frequency allocations 54
years later. Human memory should not be underestimated.

Amateur radio exams are *entrance* exams, not

HAM has its factions just like any hobby. People feel free to come here and
complain, but this is something you will rarely ever hear on the air.
Usually it gets a person banned from repeaters or licenses taken by the FCC.
But its so rare that one never really hears about it unless they go looking
for info on it.

A friendly community it is, far more so than I expected when I got into HAM
in 2001. Ignore the jerk-offs you see here in usenet and contact your local
HAM club. You will find as I did just how friendly they really are.

Ron

Nope.... I don't think I'm forgetting anything (regarding this discussion, of course). In past times, the Extra did, indeed, connote something more than the passing ability to zero the ohms scale on a Simpson 260 or use of a U-Test-Em tube checker at the local drug store.

It is only through education that we can eliminate bozophobia from this newsgroup. Now with Morse code a thing of the past, we should forget past differences and welcome all new hams, including our bozo brothers and sisters, into the Service. Power to the Bozo's!

Right, but the original notion was that someone would get a Novice, operate
for a while, get a General, operate for a while, and gradually work their
way up the ladder while taking an "entrance exam" at each one. This no
longer really happens... we get folks coming in as Generals or Extras.

Well boys, now that you have three newsgroups to discuss policy
and miscellaneous, can't you at least keep the junk contained
with those three newsgroups?

It's bad enough that some feel compelled to start such threads
with cross-posting, but that doesn't give license to the rest
to reply as if they are blameless.

INstead of blindly replying to posts like this have the
decency to check where it's cross-posted, and keep the legit
newsgroups of the rec.radio.amateur.* hierarchy out of it.

If you yourselves did some self-policing instead jumping into
the brawls, then the silly issue of moderating would never
have had to come up.

So Scheissman, why didn't you show up to Dayton this LAST year. I was up there just waiting to see your pathetic butt for a good laugh. I wanted to call you out but you were hiding in the closet again. Or that would be the same thing you have been doing for years hiding in your mommas petticoat. One would guess with your perversions that you have all her clothes in her closet.

That is ok that you hide behind your momma or your faux girlfriend because everyone here knows that you won't show up to Dayton this year again. Nor will you show up to any hamfest because you are a social recluse and a loser at that. Now you can pop off about Lloyd but at leasdt he has enough guts to work, etc. It's obvious that you don't work or do anything.

Furthermore, you're such a pathetic loser that you couldn't even make it 200 miles to Dayton once in your life. Considering that you have been popping your mouth off, why won't you. Is it because you will be seen as a social pariah you really are.

Are you familiar with the current 4b question pool? There are 500 questions selected for a 50 question test. I am a BSEE and I believe that the questions are by and large very good and not particularly easy considering that one is not trying the get a degree or pass a PE exam. I scored 100% on the test the first time I took it; however, I put in several hours of study because it covered several areas that I needed to review and/or catch up on. I would not characterize it as trivial. In theory the 500 questions could be memorized by I think that would be much more difficult than learning the material as a way to pass the test.Also, rote memorizing will cause one to learn more than one might think. In College chemistry I had to memorize the activity series of the periodic table, something that has benefitted me greatly during my EE career (because many EE's get invoved in so many other areas than EE). Either method is valid but I would think that most learn the real material these days and the questions are not insignificant. They don't compare to operating a tube tester or zeroing an ohm meter. Element 3b is another story and that one does need a little work

Nah. The number of question marks is immaterial and avoids the
contentious and intolerant (rant?) of the OP. Such comments very
divisive to the the Amateur Radio hobby; IMHO.

Might one not think such an intolerant (possibly also an elitist?)
attitude by a serving (already licensed) radio amateur does not augur
well for the future of the hobby. Not sure as a newcomer I'd want to
join a group with members who have that 'unkind' attitude!

Previously noticing some other intolerant (even vituperative) comments
would not be surprised they may tend to give outsiders a view of an
outdated, closed knit clan/society. Old codgers still using spark
transmitters and coherer receivers, pounding away in their dimly lit
shacks late at night and boasting about how many countries they have
contacted for 500 milliseconds per contact; and please QSL.

QSLs via the Internet these days I presume?

Total four (4) question marks; used one at a time!

Rather than portray Amateur Radio as open, welcoming to younger
newcomers and new modes of communication/trends.

No wonder the hobby is, in the opinion of some, dying?

The hobby is alive and well, though offshooting into private little cliques here and there.
Paul W. Schleck is a bit delusional what with his new, exclusionary new newsgroup, but like all fads, this one, too, will pass.

Paul's new moderated group, I predict, will see a modicum of new users at the outset, but after, say, 60 days his moderated group will wither on the vine and become history. His new moderated group was doomed for failure well before it reached fruition.

I wonder if BlowGut Paul will send his "welcome" messages to the new users of his self-serving moderated group? He, Paul, has a knack for being an insufferable blowhard. Come to think of it, he is not too far removed from the gasseous emissions of Lennie, the California Cryaby who still has issues with old zoning matters.

Oops! Tsk! Tsk!. Did I poke politically incorrect fun at a poor, disgruntled oldster whose colostomy bag runneth over?

Tell those Hams to gather around this newsgroup and make posts. Within seconds, Mark Morgan will respond not once, not twice, but several times and he will, while doing, change the topic headers several times to suit his purposes. Mark lives to pounce on posts and change the topic line.

Next? Change the topic line back to your original post and watch Mark whine that you "hijacked" the post.

Or, as Mark is known to do, he will goad you with an absuridty such as, "I Punce". Mark eschews proper spelling in that he is incapable of doing same.

He is lazy.

Roger doesn't go out in public. He doesn't even go to the mall. Why? He is
afraid.
He'd much rather hide behind his curtains and post filth from one of his

four dialup connections.

The current Extra exam is simply Element 4 and encompasses the material from
the old Advanced and Extra. There are over 800 questions in the current
Extra question pool.

It is highly unlikely anyone "rote memorizes" the question pool.

When people use the term "memorize", they more than likely mean "word associate".

Via word association, they are able to recognize the correct answer to the question simply out of habit... much the same way you "memorize" the way to travel to different places, even though you may not know all the street names along the route of travel.

Increasing the size of the question pool does not eliminate this. All it does is increase the amount of time someone has to spend reading thru the question pool before they become adequately familiar with the material.

Furthermore, with the way the exams are structured (70% overall grade), someone could simply opt to skip an entire sub-element, because there are only 2 or 3 questions from it on the exam, and it isn't worth the effort to even review that material.

That's what you need to do. If you would start vomiting, you could loose all that blubber. You would not have to worry about becoming aneroxic for at least 80 years. You probably would still be over 300 lbs by then anyway. Just do it! I'm pulling for you Stevie! You can get that lard off. Hell, start eating at Subway. You'll be glad you did. ONce again, look before you reply. And keep the junk in .misc and .policy

hierarchy.

The problem is not just the "problem posters" it's the people who should
know better but don't bother looking to see where the messages are posted
to.

A little self-policing would have gone a long way to keeping the junk
down, something the proponents of the moderated newsgroup couldn't grasp.

OK, I disagree. Try this:

E4C14: If a receiver tuned to 146.70 MHz receives an intermodulation-product
signal whenever a nearby transmitter transmits on 146.52MHz, what are the
two most likely frequencies for the other modulating signal?

A. 146.34 and 146.61 MHz
B. 146.88 and 146.34 MHz
C. 146.10 and 147.30
D. 73.35 and 239.40 MHz

To answer this question, you either rote-memorize the answer, which would be
unlikely due to the size of the question pool, or you aquire at least a
basic understanding of 3rd order IMD to be able to answer the question.

I dind it amusing that insisting that the coments on my Blog be on topic is
such a hardship to people that they coment on RRAP about it

one is since the topic is radio the coment needs to be radio related IOW
calling my wife a shemale in response to a post about my new radio or the

end of code testing just doesn't make it.

That's because morse code is a "skill". It does not take much intelligence to learn the code but, after one memorizes the code alphabet, it does take skill to send and receive at, say, 20 wpm. The skill is acquired by practice, not intelligence. The MENSA test, as I understand it, requires the ability to use logic and deductive reasoning. I think there is no relationship that associates the skill to perform repetitive actions at high speed and the intelligence necessary to perform in the 98th percentile of an intelligence test that measures one's ability to use logic and reason.

Exactly my point! From Webster's: "moron - a feeble-minded person or mental defective who has a potential mental age of between 8 and 12 years and is capable of doing routine work under supervision.".

I don't know many words that describe learning Morse code skill better than "routine work". :-) I suspect that morons are just as capable of acquiring Morse code skill as are more intelligent persons. In fact, many of those coded morons reside on 75m.

If the "problem poster" has posted incorrect information that goes into the
rest of the heirarchy, then the correct information needs to go to those
newsgroups also. Otherwise the incorrect information will get passed on by
word of mouth or repeat posts or whatever. Using incorrect information can

cause problems.

Can you imagine that? People could communicate around the world simply by
constructing a simple transmitter salvaged from a Model T ignition coil and
a receiver contructed of metal filings in a glass tube between antenna and
ground and a battery powered relay.

Amazing. Absolutely amazing.

Not sure if this made it the first time since I never got it back...

Radio Enthusiasts,

This posting is to invite radio entusiasts to investigate Internet Relay Chat (IRC), a free realtime multi-user chat medium that allows users to connect to a network of servers and chat in realtime with other users connected to any of the servers on the same network.

IRC uses "channels" similar to the chat rooms on AOL for those familiar with those. Anyone who connects to any server in an IRC network can join any channel on that network and chat with any and all other users in that channel regardless of what server in the network they have connected to.

Using IRC, it is possible (for example) for radio clubs, ARES/RACES or other EmComm groups, etc. to have a realtime online chat forum where members can connect and have sort of an online clubhouse or meeting. This is great for groups with members in widely separated geographical areas who can't otherwise have a "meeting" in the usual sense.

The IRC network IRC-GLOBAL is one example of an IRC network, and it happens to be operated by radio hobbyists. Feel free to check out the network's website at http://proxemic.net - this network is now inviting radio enthusiasts of all stripes to use the IRC-GLOBAL network as a forum for realtime multiuser chat with other like-minded individuals. Hams, CB operators, scanner and shortwave listeners, whether individuals or clubs, are welcome to use this network.

IRC-GLOBAL offers five open public IRC servers using active connection ports 6661-6669 (and also, 6697 for SSL connections). running full modern services (ChanServ/NickServ/MemoServ/BotServ/HostServ). Secure client connections are available using SSL. Channel owners have full founder control of services tools and security options. All of this is free, there is no charge of any kind for the use of any IRC-GLOBAL servers or services.

There are already some radio-related channels formed (#monitor, cross-linked to the #monitor channels on four other IRC networks as well, is the busiest right now), or you may of course form your own channels - about radio, or anything else as long as it's not illegal or just for the purpose of harassing others.

I hope nobody will consider this "spam" or be offended by it, if so, I apologize - I'm posting this as a network administrator on the

IRC-GLOBAL network, I have no financial axe to grind since the use of the network is totally free to any and all who wish to use it. I'm one of the radio hobbyists who has helped put this network together and just want to invite other radio people like myself to make use of it.

Hope to see you on IRC-GLOBAL soon!

Yes, with the most basic materials; little more than a battery and
some wire, in an emergency or primitive conditions you can communicate
via wireless. But you must have one more thing; gotta have code

FYI - IRC is also one of the larger sources of computer infections, so be sure yours is fully patched & all protection software is activated before you take the suggestions below!

Well, that's good advice that should be followed before you even
connect to the Internet, even to download your e-mail. I do know,
however, that I've used IRC regularly since 1996 and have never, ever
gotten any kind of virus or other infection as a result of my IRC
activities. Thoigh I suppose other people's mileage may vary.
